Item No. AC 7.1: (a) To confirm the minutes of the Sixth Meeting of Academic Council held on 28 May 2013.

(b) Action taken on the Minutes of the Sixth Meeting.

The members, after a brief discussion, confirmed the minutes of sixth meeting of Academic Council held on 28 May, 2013 and also the action taken report on the same. Mentoring Program was discussed and it was decided that a workshop will be planned in December / January 2014.

Item No. AC 7.2: To review Admission status so far.

The matter was discussed in details and respective Directors / Dy. Directors and HOIs briefed the members about the number of students enrolled in the new programs and the current status. It was heartening to note that quite a reasonable number of students have enrolled for the recently introduced programs like Amity School of Hospitality (ASH), Amity School of Liberal Arts & Foreign Languages (ASLA) and Amity Institute of Design (AID) etc.

Item No. AC 7.3: To review the status of new Academic Programs introduced during 2013-14 session.

The word lateral was withdrawn from the agenda due to its mistaken inclusion.

The agenda was discussed at length as this was concerning all the Institutions / Schools / Departments. Prof B P Singh recommended that it is advisable to introduce a research program on Laser Technology rather than as an academic course. The issue about setting up a research based center including Laser, Nano Technology etc. which had been discussed earlier, was re-discussed and it was decided that the same (Advanced Centre for Science & Technology) will be taken forward in due courses.

Item No. AC 7.4: To recommend the Result of the Examination for Ex-post-facto Approval.

While reviewing the various activities included in conduct of the examination, it was pointed out that timely declaration of result is important.

On the issue of delay due to the non submission of marks by the faculty, it was felt that concerned Director's will have to take appropriate action on the matter and for future, respective Director's involvement would be appreciated.

A handwritten signature in blue ink, consisting of a stylized, cursive script.

It was also suggested that in the no dues certificate, a column must be created to be signed by the COE at the time of relieving any faculty on resignation / transfer etc. to confirm that all marks / score cards have been submitted.

Item No. AC 7.5: To review status of Patent & Research Activities Programs. Prof. SMP Khurana & Prof. AK Raghav to brief the members.

Prof. BP Singh suggested that this agenda item need not be included for discussion, but can be a reporting item, in order to avoid any complication in future. It was resolved that the Faculty Development Program for younger faculty will be strengthened.

Item No. AC 7.6: To review the current status of Scholarships

Registrar briefed members about the current status of scholarship.

Item No. AC 7.7: To review the status of Campus Placement of B.Tech Students. Dy. Director (CRC) to brief the members.

This was also proposed for deletion from Agenda Points as it is not directly concerned to Academic Council.

Item No. AC 7.8: Any other Agenda item with permission of the Chair.

The Member Secretary read out the a/m appendices and after some discussions and deliberations the council accorded in principle approval for the same.

The Pro Vice Chancellor suggested that all necessary and relevant details must be worked out before any new program is projected / introduced by any Institution / School in future. This will include cost, expected student intake, availability of laboratories and availability of faculties. The Dy. Vice Chancellor remarked that space infrastructure must also be taken into account, as that could be a serious issue for next year.

Maj Gen (Retd.) VK Narang had requested for inclusion of certain agenda items related to Amity School of Engineering & Technology (ASET). The point that was accepted to be introduced was specialization in M.Tech Program for which he was requested to submit relevant details.

Mr Mehta proposed a one year program of two semesters in Broadcast Equipment Maintenance. The Pro Vice Chancellor suggested that Dy Director ASCO and Mr Mehta will do more research on this and submit report for final discussion. He was also advised by the Vice Chancellor to submit the entire project for approval by the Academic Council through PVC and VC.

Prof. Dube mentioned that an Integrated Program in M.Sc. Economics for 5 years duration may be considered in the next meeting.

Item No 10.2: Report on the Status of Admission for session 2015-16

Dr Vikas Madhukar, Director (Admission) presented the basic data in connection with the current admission status as follows:

- 12 admission tests conducted sofar.
- 13th admission test is scheduled on August 17.
- 5846 applications were received (5811 in 2014).
- 3286 were selected as on date.
- 1408 students have taken admission so far (1544 in 2014).
- Except three schools where the percentage of students joining is deficient, other Institutes / schools have done well.

The Chairperson suggested that from the academic session of 2016-17 a final date may be decided by which date all admission forms may be submitted and the entrance test may be scheduled on a particular day after scrutiny of the application is completed. General Discussion and Personal Interaction can follow. He was also of the opinion that HOIs must be actively involved in admission process and devote enough time for this purpose. He also emphasized that the functioning of CRC is much below average and as a result the placement of the students is getting affected. He suggested that HOIs should get seriously involved with the placement activities of CRC also for better representation and placement.

Dr Padmakali Banerjee, Pro Vice Chancellor suggested that the admission of Amity Business School must be done before the normal schedule and she suggested December/January as the prime time for ABS admission. She requested all the HOIs / HODs to involve themselves in marketing and admission procedures more actively and depute the faculty to visit all the state capitals alongwith marketing personnel for spreading increased awareness about Amity University, Haryana among prospective students.

The Chairperson also informed that he had held a meeting with senior officials of Prasar Bharti for linking up their National Academies and all Amity Institutions in the country for mutual benefit.

Some members expressed their concern about the time gap between the date of Entrance Test and the declaration of results which cause many students to take up admission in other Universities/Institutes. They pointed out that an impression is gaining ground that admission is always available as the University doors are always open. This impression must be done away with and hence the entire schedule of admission process must be specific and adhered to strictly. The Council members agreed to these points and requested Director (Admissions) to consider the same seriously.

Item No 10.4: To review the result of Examination 2014-15.

The Controller of Examinations made a brief power point presentation to the members and the general observation was that the results of most of the Institutes /schools was not encouraging. The Chairperson expressed his concern over this matter. Most of the members including the Pro Vice Chancellor felt that this has happened because of lack of internal monitoring of internal marks and not keeping a tab on the progress of each student periodically.

The Chairperson mentioned that the following three components need to be monitored by the HOIs/HOD to provide better result:

- Students Attendance in the class
- Number of classes held as per calendar
- Internal Assessment
- Analysis of result by the HOIs regularly.

The Members felt that the results must certainly not be less than 80% to 90% in Professional courses and other subjects must have a progress of 70% to 80%. However, Prof SMP Khurana was of the opinion that overall results are bad due to the student's lack of interest in attending value added courses, not attending the classes, not interested in exams and thus the overall results look poor.

Item no 10.5: Recommendation of Number of Teachers to be appointed

The Registrar mentioned to the members that as per the list 55 positions of Faculty were to be recruited across the schools and that the major portion of the recruitment has been completed. Once the same is finalized (expected by Mid-September), he will submit the same to the Vice Chancellor, AUH.

Item No 10.12: Any other item with the permission of the Chair

The Dy Director, ABS informed that there are some marks improvement cases in ABS, which can be categorized as borderline and they want another opportunity to appear for a supplementary examination for improving their marks.

The Chairperson felt that our Examination policy needs amendment on certain provisions and rectify the anomaly. The matter needs to be looked into by the COE and other senior officials.

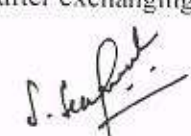

The Registrar placed an application received from three pass out students of MAE dept. (received through Dr A.K. Raghav) stating that they missed out on an employment opportunity as the concerned PSU wanted graduates from mechanical Engineering department and not from MAE dept.

The matter was discussed at length. Members expressed their anguish over the statement of the pass out students. Many members voiced their concern and after due deliberation, the Academic Council passed the following resolution:

“ The Academic Council of Amity University Haryana in its tenth meeting resolved that the existing Academic program namely” Mechanical & Automation Engineering” should be reclassified as “Mechanical Engineering” as the same nomenclature of Mechanical Engineering is used by all leading Technological Institutes and Universities like IITs.

Since it has been brought to the notice of the Academic Council that students have been denied employment because of the difference in nomenclature alone, the Council unanimously decided to adopt this resolution effective from the academic session 2015-16 and the students of this batch will be awarded Degree in Mechanical Engineering alone”

There being no other points for discussion, the meeting was declared closed after exchanging thanks to and from the chair.

The Director, AIBAS informed that approval of RCI has been obtained for the M.Phil. (CP) course and it has been made clear that annual examinations is required to be conducted for this course which is mandatory as per RCI rules.

As the syllabi of M.Phil. (CP) was submitted in a different format, the council approved the same but advised Director, AIBAS to impress upon RCI to accept the semester system. The Director, AIBAS mentioned that only few cosmetic changes have been made in the revised syllabi submitted to the Council but overall it follows the RCI syllabus in totality.

Following this, proposed revision of syllabi of some courses were discussed.

The Director ASET informed the council that the existing program structure and curriculum of M.Sc. (NT&M) program was received and changes suggested as per the recommendation of BOS.

- A. At this point the Chairman pointed out that Hon'ble Chancellor is worried that while we announce the course, the intake is either nil or very minimal. The gap must be bridged and at some point of time if the same situation continues we have to discontinue with such courses. At this point, the PVC intervened and suggested that all such courses must be reviewed and a final decision taken. Prof. Prasad suggested that we should not be in a rush to start any course unless infrastructure, availability of faculty and market demands are assessed properly.
