Theme of the Special Session

This special session aim to provide an international forum where researchers and practitioners in the fields of soft computing and their applications can interact, exchange ideas and disseminate their accomplishments and visions. The objectives of this session can be illustrated as: To provide conceptual understanding of advances in Soft Computing and Engineering Application. To implement soft computing techniques specially machine learning in various engineering applications like software engineering, management, E- Commerce applications, cloud computing, IT-security and other areas.

Topics of Interest:

- Soft Computing
- Machine Learning
- Software Engineering
- Information technologies in Management
- E-Commerce
- Artificial Intelligence System
- Cloud Computing
- IT-security, Ethical and societal Challenges

Important Dates

Receiving full paper	November 25, 2018
