## AIS 46, Advent Age Project Awarded

Interactors, distinguished themselves by winning accolades in the award ceremony hosted by the Rotary club, Gurgaon and NCR 3010. The event was indeed a moment of pride for the students, when they were felicitated at the Darbar Hall of Hotel The Taj, Dhaula kuan, Delhi, at a grand thanks giving celebration ceremony "SALAAM". Their project "AdventAge" was awarded as the best initiative taken by the students in the district. Aiming project aimed at the promotion of mental and physical health

of the geriatrics in the society through organising awareness campaigns, health check-ups, yogathons, and partnering with old age homes and NGO's. School principal Mrs. Arti Chopra congratulated the students on their noteworthy achievement.

## Stya Paul Memorial Maths Quest - 2015

We feel proud by winning the Overall Championship trophy at the Dr. Stya Paul Memorial Mathematics Quest on 30th July, 2015. The event, Math Quest was held at Apeejay School, Saket. The event witnessed an over-zealous participation 22 reputed schools from Delhi-NCR. Students from Classes 2 to class 12 took part in mind boggling innovative competitions namely Exploring shapes (class 2), Pattern-o-metry (Class 3), Relay race (Classes 4-7), Maths Quiz (Class 10), Mathematical Modelling (Class 4-7), Symposium (class 12). Out of Six Competitions, we won in four events. Young mathematicians bagged first position in Exploring shapes & Relay Race. In pattern-o-metry & Mathematical Modelling the school participants secured second position and hence qualifying for overall championship trophy of the event. School Principal, Mrs. Arti Chopra congratulated the winners and applauded the efforts of the students.

## Class Presentations

### KALEIDOSCOPE- vibrant hues of guiding values–Class VII

Students participated in a class presentation which was School principal, Mrs. Arti Chopra welcomed the guests and the parents for the presentation. The chief guests for the day, were Ms Mukta ,Vice Principal of AIS-Lucknow, Ms Anshu Arora and the parents inaugurated the event by lighting of the lamp of knowledge. 100% participation by the students gave opportunity to each child to showcase their talent and creativity. The audience was also sensitized about the issues presented by the students. The event was initiated with a musical Instrumental presentation by class VII students. The keen learners of class VII presented a colorful vibrant show 'KALEIDOSCOPE- hues of guiding values' depicting the various values they learn in school .The children presented yoga, dances, songs and street play showcasing their speaking skills. Heritage display on the state Chhattisgarh, got an overwhelming response from the parents as it contained different art pieces of the state. Dedication of the students made the event successful.

### KALEIDOSCOPE- Prithvi Sankrashan–Class IX

It is the vision of our Founder President, Honorable Dr Ashok K Chauhan as well as Chairperson Madam Honorable Dr Amita Chauhan that has come to fruition; in a confluence of the different aspects of culture , through the celebration of the unique heritage of Chhattisgarh . As citizens of a proud nation and as Amitians we rejoice in, and celebrate the varied customs that unite us in their diversity.

At Amity, we believe in equipping our students with a sound knowledge of the culturally rich legacy that has been bestowed upon us; by giving them a platform, to explore the varied nature of the cultural traditions of each state in India.

## CCFIS Cyber Awareness Workshop on “Ethical Hacking and Cyber Forensics”

Amity Innovation Incubator has established a research lab “Center for Cyber Forensics and Information Security (CCFIS) as part of Amity Education Group. CCFIS is presently working at Amity University Campus, Noida and extending various Cyber Security and Forensic Services conducted CCFIS Cyber Awareness Workshop on “Ethical Hacking and Cyber Forensics” . The workshop started with an introduction of the

activities taken up by the Center for Cyber Forensics and Information Security (CCFIS), an initiative of Amity Innovation Incubator. Principal Arti Chopra inaugurated the “CCFIS Center of Excellence” at Amity International School, Gurgaon and launched two on-line portals “CCFIS eProtect” and “CCFIS eForum” and services for AIS-46 students, staff and faculty members.

The eProtect portal wherein students can register complaints on incidents like Cyber Harassment, Cyber Bullying, Cyber Stalking, also lost Data Recovery cases. Action will be taken immediately. The eForum portal wherein students can register for login and can take part in discussion, start a new topic, troubleshooting issues, get information and updates related to Information Security and Digital Forensics. The awareness sessions were conducted by a team of experts from CCFIS, Noida, comprising of Mr. Lakshay Malhotra & Mr. Harshit (Manager – Information Security). Students of class XI and faculty members were invited to attend the sessions on Cyber Security.

## Workshop on Multiple Intelligences

A riveting workshop on multiple intelligences was conducted by the school principal, Mrs. Arti Chopra in the school premises, which helped the teachers in further enhancing their role as a mentor in a classroom. It would enable the teachers to understand all the eight multiple intelligences and create relevant learning atmosphere in the classroom. Mrs. Arti emphasised on the theory of Dr. Howard

Gardner, which states that each human being possesses eight multiple intelligences. She said that generally in schools the culture is to focus most of their attention on linguistic and logical-mathematical intelligence. Instead we should also place equal attention on individuals who show gifts in the other intelligences: the artists, architects, musicians, naturalists, designers, dancers, therapists, entrepreneurs, and others who enrich the world in

## VERI VISIT

Students of class VIII were taken for a field visit to TERI GRAM. Visit was interesting and quite informative. They showed the earth tunnel system that is enabling the maintenance of a temperature of around 22 to 25 degree celsius in 15 rooms using a single fan. They explained the process of energy conservation and also showed the bio gas producer. They were shown the vermi compost pit and many medicinal plants and described their role in daily life. Students were made to understand the process of plant tissue culture and demonstrated the technique using a banana variety. They took students to a green house to enable the correlate their conceptual understanding with practical learning. A documentary was shown to students in the beginning to enable them understand the working in different regions of TERI.
