Leading companies across various disciplines are a regular part of campus placements at Amity. The University’s remarkable success in recruitment finds its roots in the efforts of a dedicated 60-member team at the Amity Corporate Resource Centre, which constantly interacts with the corporate world and helps prepare students for their careers.

Further more, industry-specific Career Advisory Boards consisting of leading members of the corporate world, guide students on creating a career plan, short-listing appropriate employers, setting realistic career goals, and creating a planned time table on professional development for the future.

Self confidence, good communication skills...

Amity students understand the logical way of thinking. In corporate life we don’t want to listen ‘no’ to anything... whatever we plan, we need go-getters and I find Amity students upto that standard.
