

My journey at Amity University as a Data Science student and Statistics graduate has been truly exceptional and memorable. The years I spent here were full of diverse learning experiences, blending rigorous academics with vibrant campus life. I am especially grateful to the Department of Statistics and my professors, whose unwavering support and mentorship constantly inspired me to strive for excellence. Participating actively in club activities and serving as a Class Representative not only enhanced my leadership, communication, and organizational skills but also allowed me to build meaningful connections with peers and faculty. These experiences greatly contributed to my personal and professional growth. Faculty there, provide timely guidance and encouragement, which helped me secure an opportunity with a reputed organization. Being a student at Amity University has equipped me with strong technical and analytical skills, boosted my confidence, and prepared me to make a meaningful impact in the field of Data Science. I am proud to be an Amity graduate and wholeheartedly recommend this institution to anyone eager to pursue excellence and build a rewarding career.

Muskaan Gupta { M.Sc. (DS) 2023-2025 }
Risk Analyst, Xceedance

My journey at Amity University has been truly transformative. From challenging projects to constant support from faculty, every experience helped me grow a little more—both as a student and as a person. What I'll always carry with me are the small but meaningful memories, the encouragement from professors, the friendships I built, and the confidence I gained along the way. Amity has been more than just an institution for me; it has been a place that shaped my perspective and prepared me for the future. I'm stepping out with knowledge, gratitude, and lots of memories to cherish."

Meghna Upadhyaya (M.Stat 2023-2025)
Risk Analyst, Xceedance

My name is M. Anto Alexander, and I recently completed my Master's degree in astrophysics from Amity University. Today, as a proud alumnus, I am grateful to share that I have been placed through the university's placement cell in reputed cybersecurity company in a promising position.

My Journey at Amity has been filled with learning, growth, and memorable experience that shaped both my academic and professional life.

All I would like to say is: laugh, Learn and Love what you do.

With regards

M. Anto Alexander M.Sc. Physics (Astrophysics) (2023-2025)

Hello to all my fellow Amitians!

I am Bhumika, an Amity alumnus. I did my master's degree in physics from Amity University. Currently, I am pursuing internship in CSIR NPL Delhi.

I just would like to say to my fellows that be honest to your work. Don't worry too much about the future, And don't forget to have fun!

With regards

Bhumika M.Sc. Physics (Astrophysics) (2023-2025)

Hello Amitians!

I completed my master's in medical physics and completed my residency in Rajiv Gandhi Cancer Institute and Research Centre, one of the most reputed cancer institutes in India, thanks to the guidance of the faculties and seniors, I've had an amazing experience and a lot of fun coming from south India and studying in Amity.

Have faith in your work and don't let anything waver you. Things will go well and remember to have fun while in Amity. If you're finding yourself in the dark, remember "This too shall pass"

**Warm regards,
Umar M (M.Sc. (Med Phy) 2021-2024)
Medical Physicist**

My name is Suhani Sharma, currently working as an Assistant Systems Engineer at Tata Consultancy Services. I had the privilege of being a part of Amity University from 2021 to 2023, and my journey there was nothing short of transformative. My time at Amity was skill-enriching, filled with opportunities that helped me grow both professionally and personally. The university provided me with numerous leadership opportunities, allowing me to organize and manage events, which significantly enhanced my leadership qualities and teamwork skills. These experiences not only strengthened my confidence but also prepared me for real-world challenges. The faculty at Amity played a crucial role in shaping my career. Their guidance, expertise, and constant support helped me develop a strong foundation in my field. Beyond academics, the vibrant campus life made my journey even more memorable. I am grateful to Amity University for equipping me with the skills, confidence, and opportunities that have played a crucial role in my career journey. I take pride in being an Amity alumnus and highly recommend it to aspiring students looking for a platform to excel in their careers.

Suhani Sharma (M.Stat 2021 – 2023)
Ass. System Eng. TCS

It was a great experience in Amity University. The best part of Amity University is the faculty members, who will undoubtedly help you without any excuses. Today, working in CargoFlash as a Data Analyst, a challenging job and will surely help me in future. You will never regret joining Amity University.

Ms. Ria Sadhu (M. Stat. 2019-2021)
Data Analyst, CargoFlash

For me, three years of tertiary education in Department of Statistics, AIAS, Amity University was simply amazing. Besides theories, classroom learning, it provided us a hand on practices to analyse the real-world problems to determine most reliable solution with help of statistical tools and models. It also provided us with the opportunities and confidence to enter the fraternity of statisticians. Besides smooth career path, it also provided us the opportunities to build other important values of life such as being responsible, independent, learning to adapt to different cultural environment. One could not have asked for anything better and I am sure it's true with all other graduates of the Department.

In this regard, I would like thank faculties of Department of Statistics for your effort in grooming us.

I also would like to extend my gratitude and appreciation to the University for extending other necessary assistance during our stay.

Wish you all good health and prosperity in the wake of COVID-19!!!

Mr. PASSANG DORJI (B. Stat. 2016-2019)

Statistical Officer

National Statistics Bureau of Bhutan

It was my immense luck and fortune to be the part of Amity University where I can grow. The entire faculty and department leaves no stone unturned to shape one's future. My five years at Amity have been a wonderful experience of learning with prolific exposure to outside. Huge respect, love and devotion for entire faculty members, Department and Institute. It's their efforts that make me to count myself into better professionals.

Mr. SAKSHAM GUPTA (B. Stat. 2016-2019, M. Stat. 2019-2021)

Risk Analyst

Xceedance Consulting India Private Ltd.

XCEEDANCE

Amity worked as an excellent steppingstone for my career. Having graduated in Statistics, I was provided with the knowledge and skill set I needed in order to further pursue my M.Sc. in Quantitative Finance from Dublin, Ireland. The faculty was all extremely helpful and friendly throughout my 3 years at Amity, and I look back to my undergraduate days with very fond memories.

Ms. DEVEENA BHALLA (B. Stat. 2016-2019)

Auditor at BDO Ireland

The faculty has made sure from the very beginning that all its students get highly involved in everything that is being taught and I can testify that with absolutely no qualms. Amity makes you participate in different activities, gives you exposure and arranges various events for you to help you showcase your talent outside of the classroom. I can't thank my university enough for giving me a platform to grow, as not only a student, but also as a person. The faculty inspires me to work harder, gain knowledge and be truthful under all circumstances. Like any other student, I came here to gain perspective, knowledge about my field of study and enhance my personality and it gives me immense euphoria to say that I have gained more than what I expected or asked for. A huge thank you to everyone at Amity University for making my years of education happy and prosperous and I hope the university will keep working in the interest of its students and faculty.

Ms. ANUSHKA KHATTAR (M. Stat. 2018-2020)

Data Analyst

CSC e-Governance Services India Ltd.

A proud Alumni of Department of statistics, AIAS, Amity University. Amity gave me a brilliant platform to enhance my analytical skills, provided with opportunities for an overall development with its family like atmosphere and created endless memorable moments.

Mr. TARUN KUMAR (M. Stat. 2017-2019)
Adaptation Engineer
Giesecke & Devrient Currency Technology

The past two years at Amity University has been an enriching experience academically and professionally. The course structure is efficient in expanding subject knowledge and in improving professional skills.

The faculty is encouraging and helpful and the focus is on industry-oriented education which prepares you for the future.

I'm thankful for the learnings and knowledge I've gained and for the person this experience has helped me become.

Ms. KARUNA CHHIBBER (M. Stat. 2018-2020)
Project Research Assistant
Indian Council of Medical Research (ICMR)

Hey everyone, this is Palak Khanna, from 2016-18 batch of M. Stat. I was primarily interested in doing Masters in Stats from AIAS because of the curriculum advantage, but during the course I realised of the extra curricular opportunities and exposure, that turned out to be excellent for an holistic development.

All the professors are supportive & accommodative, and gave us the room to learn and grow.

I send my best wishes and warmest regards to all the faculty and students.

Ms. PALAK KHANNA (M. Stat. 2016-2018)

Associate Consultant – Analytics

KPMG Global Services

I enjoyed my time at the department of Statistics at AIAS. It's a good place to be. I am thankful to the professors with whom I had meaningful interactions during the course of my studies.

ZMNH

Center for
Molecular
Neurobiology

Mr. ROBIN KHATRI (M. Stat. 2016-2018)

Ph.D. candidate

ZMNH Hamburg, Germany

Journey of my masters was sure a roller coaster ride. Though it seemed a struggle that time, but now when i look back, memories are all what I have as my treasure. Always going to cherish them, after all, Amity was the platform where I lived my student life probably for the one last time. With this reunion, I am glad I got another chance to rekindle those days.

Ms. POOJA ARORA (M.Sc. – Statistics, 2014-2016)
Data Analyst Consultant, Population Council, New Delhi

Amity, a journey, an experience so unforgettable.

Ms. VANI JAIN
M. Sc. – Statistics (2014-2016)

A prominent faculty evaluating students, continuously to learn innovative things. I have been under guidance of Dr. Jitendra Kumar, Dr. Devendra Kumar and Dr. Nandini Sarma and a major acknowledgement for Dr. Barnali Deka for teaching us R software and amazing support.

Ms. SUNNIDHI DUGGAL (M.Sc. – Statistics, 2014-2016)
Research Analyst, "Project Guru", Gurgaon, India

The time spent in amity was surely memorable; I got to learn something new every day. Not only were the teachers supportive, I had a great time getting to know my peers and making new friends, many of who I am still in touch with. On the whole, it was an awesome experience. Whenever I think about the time spent in amity it always brings a smile on my face.

Mr. VIPUL AGARWAL

M.Sc. – Statistics (2013-2015)

Founder and Chief Gaming Officer, Cricnwin, Delhi

Amity is a venture that shapes you, what you aspire for. I express my gratitude to our alma mater for giving us an opportunity to acquire additional knowledge, and an all-round growth, in addition to our core stream statistics. Sports and annual youth Festivals are among the best part of our fun and frolic.

Mr. RAJAT SARKER

M.Sc. – Statistics (2013-2015)

Sr. Trainer in Business Analytics

iNurture Education Solutions Pvt. Ltd., India

I am indebted to Amity Institute of Applied Sciences . I'm grateful for the exposure it has given to me. In three years I got numerous opportunities to grow and better myself. The faculty here looks for overall development of the students. The same curriculum followed in Amity is being followed in IITs/NITs. I proudly say I am Amitian first ,then I am IITian.

- **Harsh Kumar Agarwal, Batch 2015-2018**
B.Sc. (H) Mathematics

IIT JAM (2018)

I am thankful to Amity Institute of Applied Sciences. In three years I learnt a lot. The curriculum followed here is the best. Faculties here are dedicated and work for overall development of students. I was able to crack IIT JAM with help of the teacher's efforts and dedication. The courses of Communication and Foreign Language are unbeatable.. I feel proud to be an Amitian.

- **Muskan Agarwal, Batch 2015-2018**
B.Sc. (H) Mathematics

I am **Vartika Pandey** and I have completed my masters in Applied Physics from AIAS, (2018-2020) batch. I have got a fully -funded PhD position now in solar astrophysics on the topic “MHD simulations of the atmosphere of the Sun” from Space Research Institute, University of Graz, Austria.

My last two years in the AIAS department have helped me a lot to achieve my goal. The up to date coursework having subject like Plasma Physics, Astrophysics, Space and Planetary Sciences gave a very nice touch of the studies going on in the field and the research options available. The faculties have always helped and motivated me in every step to be a better version of myself. I have received support from my PL, HOD, Faculties to attend all the internships and workshops without lacking in my studies.

The NTCC internships prepared me to be competent with the research area of my interest. Participation in the international seminars organized by the department, foreign language and communication course completely prepared me to be ready to face an international completion outside.

In short I am very thankful to all the helping and supportive faculties for such an amazing experience in my masters.

In Amity I got the opportunity to learn from some great research minds. I got a lot of support and motivation throughout the 2 years from my Professors. It was my 3rd Semester when I gave the exam for CSIR-UGC NET and cleared that in very first attempt without any coaching. I did my internship from CSIR-NPL, Delhi and I published my first research paper. I got selected to work as a JRF in Laser Science and Technology Centre (LASTEC), DRDO. I am recently working on Biological Warfare Agents and Pursuing my PhD from Delhi Technological University. [Mohit Mann, M. Sc. (AP) 2016-18]

I have always thought that taking admission in Amity University was a great decision in my life. Wherever I stand right now, it is because of Amity. The unparalleled support of the professors at every step has helped me with an overall development at a very high level. Amity provides the students a chance of doing a Thesis for both B.Sc. and M.Sc. degrees. This opens up new dimensions in the students' careers. I myself have had such a great prospect in my career because of all the support and opportunities that I ended up getting a PhD at the Jagiellonian University, Kraków, Poland. [Sahil Upadhyay, M.Sc. (AP) 2014-16]

Barkha Tyagi (M.Sc Applied Physics 2015 -17) - **Ph.D. - Chonbuk National University, South Korea**

My experience at Amity Institute of Applied Science, Amity University, Noida has been a valuable addition for my academic and well as personal growth. The faculty in AIAS have always guided and supported me towards achieving my goal. AIAS also gave me the opportunity to have the extraordinary experience of perusing my internship at Mitsubishi Electric Corp., Japan.

*As a student of Amity University, I also got the opportunity to visit Japan (with other nine students) in a **SAKURA exchange program** in science organized by Amity University and Kwansei Gakuin University which was funded by the Japan Government. I got the opportunity to visit different labs at different universities namely Kwansei Gakuin University, Kobe University, and Osaka University. Later I applied for Ph.D. in Japan and got selected for the most prestigious scholarship of Japan known as MEXT.*

Tulika Sharma M.Sc
Applied Physics – 2015-17 batch

Doctorate Fellow
Takahashi Lab
Kwansei Gakuin University
Kobe-Sanda, Japan

Ecole Polytechnique federale de
Lausanne (EPFL), Sweden (Max Plank
Institute)

I had a great 2 years' experience while doing my M.Sc in Applied Physics from Amity University. Very supportive faculty and always open for constructive suggestions and changes. Although rules and regulations are very strict, but there is always room for a genuine and positive scientific endeavour. I am exceptionally convinced that the ease at which I could implement few changes (e.g. signing an MOU with RIKEN, Japan for my scientific tour) would never have been possible so easily in even the top-notch universities in the country.

Kamanasish

M. Sc. Applied Physics (2014-16), AIAS

I will always be grateful to my institute AIAS for shaping me into a better person both academically and personally. The faculty at Chemistry Department has given me ample amount of opportunities and platforms to bring out the best in me. Had it not been their efforts and constant motivation I can surely say I would not have reached where I am today. All our teachers have always been there for us during past 6 years. All I can say is.. We left AIAS but AIAS never left us. I am and will always be thankful to them for all I have and will achieve.

Ridham
M Sc (Applied Chemistry)
(2012-2014)

The programmes at AIAS are not only based on subjective knowledge of the core subjects but they extend to build your personality to stand in the real world. AIAS has given me the platform to experience the industrial world through internships. And I am thankful to the faculties of Applied Chemistry Branch at AIAS who have guided me so well that today I am part of the Department of Industrial and Mechanical Engineering at University of Brescia, Italy as a second year doctorate student with scholarship benefits.

Monika
M Sc (Applied Chemistry)
(2015-2017)

UNIVERSITY OF
Nebraska

Amity is a great platform to not only learn and understand your course of study but also its program structure helps you to enhance your overall growth. AIAS faculty and staff were always supportive and encouraging. I feel truly blessed being a part of AIAS.

Deepa Choudhary
M Sc (Applied Chemistry)
(2013-2015)

Being a part of Amity Institute of Applied Sciences gave me an academic boost. The faculty of Chemistry Department helped me develop indepth knowledge of chemistry. I thank all the teachers from my Department who I think are the sole reason I am doing what I have always dreamt of. Research is something I always wanted to pursue and one day when I spoke to my PL about what I wanted to do , he mentored me and micromanaged me towards my goals. I was, am, and will always be obliged to Amity for giving me the merit scholarship throughout my Master's Degree and making me land where I always wanted to be.

**DEAKIN**
UNIVERSITY

Arshi
M Sc (Applied Chemistry)
(2016-2018)

Entire AIAS and chemistry department provided me a great platform to learn and grow as a researcher. All the teachers are so supportive , who always encourage and inspire students to excel in academics as well as extra curriculums. I really cherish my time at Amity where along with chemistry, I learnt the importance of indivisualism and gained more confidence from my teachers. Today I can proudly say that no matter wherever I am , I will always belong here at AIAS.

Priyanka Choudhary
M Sc (Applied Chemistry)
(2015-2017)

**FINANCE DEPARTMENT,
GOVERNMENT OF
CHHATTISGARH.**

Turning me from a village girl to a metro city student, Amity has given me valuable memories in addition to the much needed knowledge.

Something you need in your life is the little spark that makes a big impact in your life and that is what Amity has provided me with. Amity's aspiring ambience and its experienced faculty is what one needs to evaluate oneself and that is what I credit for being what I am today.

I am thankful to Amity and my teachers because of which today I am posted as Assistant Director, Finance Department, Government of Chhattisgarh.

**Shikha Jain,
M Sc (Applied Chemistry)
(2012-14)**
