Amity International Business School

BBA 3 Continent

2018-2021

Amity international business school is not just a temple of knowledge but also a temple of exposure, experience, and a sea of positive change and development for the better.

Words will be less to describe the boon and dominance the three-continent program played in the growth of my bachelor's degree.

The 3 continent program has given me extensive exposure to the different working of business and working environment of the three continents and their education system.

Amity University has always been an incredible journey that will be always closest to my heart which includes the classroom sessions, In-house competition, corporate conferences, and the most appealing of all was visiting a new continent.

I consider myself very lucky to have the support and guidance of great mentors like Prof. (Dr.) Gurinder Singh, Prof. Bhawna Kumar, Prof (Mrs) Supriya Lamba Sahdev, Dr. Navleen Kaur, and countless professors. Amity truly is a perfect blend of opportunities and Culture!
