

## **Dr. Saikat Dutta elected the Fellow of the Royal Society of Chemistry, London**

Dr. Saikat Dutta, Associate Professor, Amity University Noida Campus, has been elected as a Fellow of the Royal Society of Chemistry, London. The Fellow of the Royal Society of Chemistry (FRSC) is a designation granted to individuals that the Royal Society has declared for making a prominent contribution to the advancement of chemical science. It recognizes significant accomplishments by a professional for the extraordinary contributions to the field of chemistry. Dr. Dutta has received this recognition for his extensive contributions in materials chemistry, chemistry of biomass-derived molecules, bioenergy, and charge-storage applications. He has fueled innovative advancements for chemistry of biomass-derived molecules and functionalized MOF-materials. Significant contributions in materials chemistry have propelled the growth of Dr. Dutta's research program in the areas of electrochemical charge-storage applications, energybiosciences, and nanomaterials for nutrient-delivery applications. Dr. Dutta's research outcomes have produced about 60 peer-reviewed publications and several book chapters in the diverse areas of chemical sciences.
