A Glimpse of activities conducted during the Quarter

Our in-house magazine, called Wall Magazine, is a medium available to our students for tapping their creative potential. Through the means of centrally-located notice boards that are decorated with contributions from the students and teachers alike, we promote the fine art of expressing one's thoughts using creative writing as a tool.

Contributions include articles, poems and sketches.

The above system was instituted with great thought, allowing students to share their experiences as they tread ahead on this important journey in life. The medium, apart from providing the students an opportunity to express themselves, also ensures that any issues faced by them are ironed out by their mentors.

HIGHLIGHT OF THE QUARTER

- The Orientation week of B.Ed commenced from August 1st 2013 and ended on August 7th. It included a list of activities for the students namely An Ice- Breaking Session, Talent Hunt, visit to Amity International School, Saket and Amity International School, Pushp Vihar among many others.
- On August 27, 2013 the students of B.Ed accompanied by the faculty members Ms Deepti Madhura and Ms Shalini visited the Aurobindo Ashram
- The School Experience Program (SEP) started from Sept.3rd 2013 and ended on November 21st 2013.
- A week long training program was conducted for the personnel of Bhutan Power Corporation (BPCL). It was conducted for three different batches. The training of the first batch was from Sept. 2nd till Sept. 6th 2013. The second batch's training was from Oct. 7th till Oct.11th 2013 and the last batch was trained from Oct. 14th till Oct. 18th 2013.
- On October 11, 2013 the students of B.Ed accompanied by the faculty members Ms Deepti Madhura and Ms Shalini visited the National Science Center and the Crafts Museum.

TRAINING AT ITS BEST

Amity Institute of Education, New Delhi conducted “**Basic Human Resource Management Training Programme**” for the 3rd, 4th and 5th Batch of Bhutan Power Corporation (BPCL) in the month of September and October, 2013 at Amity Campus, Sector-44, Noida. Each batch consisted of 18-19 personnel from BPCL.

Dr. Ranjana Bhatia- Prof. and Principal, Amity Institute of Education, Saket expressed that it was a matter of great pride that Amity Institute of Education was conducting these training programs for personnel of BPCL .

Experienced faculty members from the Amity Institute of Education, New Delhi were the resource persons for the training sessions. The list of topics that were covered by the resource persons during the training programme included “Human Resource Management”, “Internal Customer Care”, “Importance of Communication”, “Stress Management”, “Strategies to set SMART goals”, “Work Ethics”, “Basic Accounting Concepts” and Basic Accounting II & Tally.

Various interactive methods like role plays, simulations, team building activities and management games were used to make the training lively, interesting and effective. These five days of training saw fruitful discussions between the participants and the resource person, empowering BPCL employees with the skills and tools of efficient management and adding value to their professional as well as personal lives.

TÊTE-À-TÊTE

Dr. Sukhjeet Kaur Mehal, Assistant Professor has been associated with AIE, New Delhi from last four years and before that was working in Jaipur in a Teacher Training College.

Q1. Ma'am, If not teaching, which other field you think you would have joined?

Ans. If not a teacher, I would have been a fashion designer !!

Q2. Ma'am, What are your views on present generation?

Ans. The present generation is very smart and intelligent! They know what to do, how to do and when to do. The only thing they lack is to realize the value and importance of elders in their life. They don't understand that whatever elders tell them is for their betterment. So, they need to learn it and the whole world is for them!!

Q3. Ma'am, As an experienced teacher, what advice do you have for future teachers?

Ans. The advice which I would like to give to the future teachers would be that they should treat their students like a child in their hands and not like objects. They should respect their individuality and mould them accordingly!!

Q4. Ma'am, Who is your role model?

Ans. My role model is my teacher [MRS SURENDER KAUR] from school. She was my teacher when I was in class 9. She was all in all. She always motivated me and all other students. She knew about everyone and was a motherly figure!! I really looked up to her then and now also!!

Q5. What do you do in your leisure time?

Ans. I like to go out with family, watch a movie and I like listening to music!!

Q6. Which is your favourite food or cuisine?

Ans. I love to have chaat and specially pani puri!!

Q7. Which song do you like the most?

Ans. I hear all kinds of songs which are nice and soothing. But my favorite song is "tum dil ki dhadkan main" from the movie Dhadkan!!

Q8. Which is your favourite film?

Ans. I love the film " Jodha akbar".

Q9. If u had a magic lamp, what would be your three wishes?

Ans. My three wishes would be:

I lost my mother, So my first wish would be to get my mother back.

My second wish is that my children should settle well in life.

My third wish would be that I should be loved by all

FIRST DAY AT AIE

The morning was a bit different than usual, as I had my college to attend. I woke up early, which was quite unusual especially after the long vacations that had just got over. But I was very excited to attend the new college and meet new friends.

I reached college before time and I was waiting outside college gate where I met some of my classmates. We interacted with each other. Then we all entered our classroom with a smile on our face.

Sanjana Mam welcomed us on behalf of AIE and gave us DOSSIERS. We all completed our dossiers and had a tea break after which our principal Dr. Ranjana Bhatia interacted with us.

After that we had our lunch break during which we shared our first day experiences with each other and I made many new friends. After the break, began the ICE BREAKING SESSION. This Session was very interesting and exciting. This session was taken by other two faculty members - Ms Deepti Madhura and Ms Shalini.

It was a lot of fun. We all were divided into five groups and played lots of games such as DUMB CHARRADES, FINDING TWIN PAIR, BIRTHDAY TWIN and many more. We interacted with each other and got to know a lot about each other from this session. At the end of the session we were given MELODY TOFFEES which I love to eat. Overall, It was a memorable day.

I went back to my home and shared my whole day's experience with my parents.

I had a great day and was excited for the next day. I can never forget MY FIRST DAY AT AIE.

Ayushi Mishra, B.Ed

FIRST DAY AT AIE

My first day at AIE was so fantastic. I was little scared when I entered the building, and I saw so many students that I did not know. I was surprised that we have around 100 students in the class.

Fortunately, I met a student that I knew from high school. Therefore, the class was not scary anymore & everything seemed to be better than before. We all were asked to complete our information by Sanjana Ma'am. She gave us a warm welcome at AIE. By the time we completed the information, our Principal Dr. Ranjana Bhatia ma'am came. She wished us & spoke to us about the B.Ed course. She one by one, asked our names and educational background. It took around 2 hours in completion of this session. After that we had our lunch break. Some of the students remained in the class & rest went to canteen.

After lunch, Deepti ma'am & Shalini ma'am gave us cards, and divided the whole B.Ed in groups of 16-17 students each. The cards were red, green, purple, blue & yellow. I was in red team. A group leader was made. We then started playing the games planned by Deepti & Shalini ma'am and this lead to a good interaction between the whole class.

One the whole the first day in AIE was so wonderful. I made a lot of good friends.

Kiran, B.Ed

On my very first day at AIE, Saket, I was little bit nervous but confident as I had prepared myself to carve a good future ahead, studying here.

The atmosphere was meticulous and the faculties of the institute were friendly and above all the respect that I personally got on my first day was overwhelming. .

I entered the class as if I was entering a new world where I felt I know nobody. The principal asked me to introduce myself. Now this ritual has always been interesting for everyone. It is something that we all are so aware of, yet everybody's heart beats faster till there turn comes. I felt confident after interacting with her. Infact the nervousness which I had while entering the class, now seems to be nowhere.

The one thing that stood out at AIE, for me when it come at selecting an institute of choice is that AIE's mission focuses on innovation that transforms student's knowledge into action.

On second thought, I can say that my handwritten experience about my very first day is my first step towards my B.Ed career.

This day has given me memories which I would cherish for years

Jessica, B.Ed

Even before joining AIE, I always wanted to get admission in Amity & complete my B.ed from this institute, as I had heard so many good and positive things about this institute. It was like a dream come true when I got admission here in second counseling.

Now, coming to my first day in AIE, I found both the Principal & teachers very concerned and caring as I was insisted by a teacher to join the same day when I had gone for the counseling. Therefore my first day in college was a bit confusing as I had joined late.

The team work of faculty is really to be appreciated whether it is related to studies or co-curricular activities. All the teachers are masters in their subject & I love their way of teaching. I will always be grateful to them as they stand behind us to make corrections whenever we make mistakes.

Under the guidance & experiences of our respected Principal & teachers we will definitely achieve our aim of becoming not only teachers but effective teachers.

Deepti Patel, B.Ed
