***Theme of the Special Session***

Special Session on Artificial Intelligence in CPSs and IoT aims to bring together leading industry and academic scientists/researchers to exchange/share their experiences/research based on Artificial Intelligence (AI) and Machine Learning (ML). Focused on a cross-industry discussion, this special session provides a platform to showcase research on intelligent Internet of Things (IoT) and Cyber Physical Systems (CPSs). It bridges the gap between two global knowledge antipodes, the academia and the industry. It is very important to do so as IoT and CPS is the base of Industry 4.0.
