**Theme of the Special Session**

Aim of this special session is to provide international exposure for presenting and publishing of the research work in the area of ICT, data engineering, Cloud Computing, machine learning and Deep Learning. The objectives of this session can be illustrated as:

- To provide international platform to researchers and scholars to present their work.
- To publish the research papers in the international proceeding and journals
- To interact with scholars in above area for re-enforcing the personal skill and knowledge at global level.
- To explore the future research opportunities and open problems.

**Topics of Interest:** We invite original (un-published) research contributions based on the above mentioned theme including following topics **but not limited to:**

- ICT and its Applications
- Emerging Technologies in Data Engineering
- Data Analytics and Modelling
- Cloud Computing
- Feature Engineering
- Statistical Modeling and Learning
- Big data management and Intelligent systems
- Deep Learning

**Important Dates**

Receiving full paper	November 25, 2018
Email notification of paper acceptance	December 05, 2018
Last date for receiving camera-ready paper	December 15, 2018
Last date of registration (Early Bird)	December 15, 2018
