

Tribal's

Look at the Tribal's ,
Our country's oldest people,
Also known 'forest dwellers',
They are nature's saviors.

They lead a life of hardship,
But still know the value of friendship,
Tribals give us paintings and wood,
But do we gift them anything good?

We are responsible for their existence being in danger,
As we cut trees and disobey the forest ranger,
Tribals are the pride of our nation,
We must not let them die of starvation.
