

VASUDHA – NEW LEARNING EXPERIENCES

To inculcate the spirit of inquiry and build up scientific temperament among the students, Amity International School, Sec-46 , Gurgaon organized Vasudha, 2014- a Science Exhibition on July 19, 2014, which provided a platform to the young students to come out with research based, innovative projects on theme 'Weather and Climate'.

The pioneering project is an initiative of the Chairperson, Amity International Schools, Dr. (Mrs.) Amita Chauhan .Under her committed patronage, the students are given constant encouragement to explore, experiment and innovate .The event held on 19th July ,2014 aimed at infusing in each Amitian the core sentiments of exploring and sharing their views .

The theme of the event was Weather and Climate and each section was given varied sub theme such as Climatic Zones, Methods of predicting weather, Water Cycle, Seasons, Climatic conditions, Global warming and weather phenomenon to name a few.

On 19th July, 2014 – the innovative projects displayed by the children of Amity International School, Sector 46, were judged by a panel of eminent scientists Mr. Deepak Gaur(MD at SAIF Partners, a leading Asia focused private equity fund , Mr. .Mohan Lal(Senior scientist from Indian institute of petroleum), Mrs. Yogita Nagpal (Physics Lecturer), Mrs. Suman Siwach(PGDCA) , Ojasvi Khare(BSc Hons Physics), Mrs. Debjani Ghose.

Children adopted a suave and urbane approach to present skits, quiz and power point presentations in the class. Protection of wildlife and conservation of plants and water were the primary objectives met by arranging a campaign to instill a sense of responsibility in everyone. Corner of each floor was adorned with unique and appealing objects, props and charts to represent the essence of the aforesaid theme .All the projects undertaken by the children were put on display in an exhibition which was witnessed by parents. The children were highly motivated by the overwhelming response of the parents who appreciated the scientific temperament shown by the students.. The event witnessed a whole-hearted and overwhelming 100% participation of all Amitians. The event exhibited the powers of the students in exploring the irresistible domain of Science with their scientific understanding of the issue, data collection & team work. The exhibition came to a joyous end and the parents were extremely thrilled and pleased with their children's' performance.

This exhibition was a great success and Principal Ms. Arti Chopra whole heartedly applauded the efforts of the students as well as encouraged them.
