Degradation in Society

We are all proud to be citizens of the largest democracy of the world. But we are also plagued by a serious malady, corruption. It is time to do some retrospective thinking on this issue.

A socialist activist, Anna Hazare, has come out openly to fight this issue. But, are candle marches, fasts unto death, signature campaigns etc. , the only ways of tackling it. NO. Corruption of any kind corrupts. It costs us either money or confidence or both. But intellectual corruption is far more dangerous. It ruins and costs lives.

Look around you and identify the areas where intellectual corruption is being practised .

Talk to people from different walks of life on this topic and compile it in the same folder and give your views on the topic.

Mathamity Project has been allotted to the children in groups. Children have to submit handwritten project report (file) along with day wise log book and working model (if possible) immediately after summer vacations. Projects will be evaluated in internal assessment.(20 Marks)

All the Best!

BUILD YOUR VOCABULARY

binge	curator	exigency	abscond	forensic	glitch	imbue	jinx	languish	maneuver
Non-chalant	opulent	Rookie	recur	scatterbrain	serene	tantalize	suave	uncouth	whimsical
zeal	ordeal	demure	lackluster	sagacious	query	stalwart	genre	intrinsic	ennui

Find out the meaning of the given words and use as many words as possible in a story or a paragraph.

AMITY INTERNATIONAL SCHOOL, PUSHP VIHAR
CLASS-X, HOLIDAY HOMEWORK

So, the vacations are here! I am sure you are all looking forward to spending some time with your family.

As part of the integrated syllabus approach, we at Amity have decided to give you some food for thought which would increase your awareness and at the same time hold your interest / bring out your creativity.

You have to use A-4 sheet and prepare a folder. This folder will contain material related to **Genetically Modified Food.**

Note: Work should not be cut / copy/paste from the internet. Holiday H.W will be evaluated as part of your FA.2 Activity.

Write an autobiography of a genetically modified Brinjal.
OR
Interview with a scientist about GM vegetables (can be Fictional)

Compare G.M food with the traditional crop along with pictorial representation
(Express your views in favour or against.)

Write a dialogue in French discussing G.M foods. A discussion should be shown on why, how and its uses.

Collect German words related to G.M FOODS along with their meanings in English.

‘सादा जीवन उच्च विचार’ यानि प्राकृतिक
जीवन हेतु सचित्र दस वाक्य
संस्कृत में लिखिए ।
[संस्कृत]

हिंदी :- ‘कृत्रिम उपज की आत्मकथा’
पर आधारित हास्य कविता का
निर्माण करें। जैसे :-
घीया को लगी सुई

घीया बोला उई उई उई
सोचा, किस घड़ी में भगवान ने मुझे घीया बनाया,
किसान ने हर रोज ही आकर इंजेक्शन लगाया । ---

Collect the data for each Crop. E.g. Corn, Cotton and Soya bean for 2000 to 2010(US) planted through biotechnology is resistant to herbicides, insects or both. Draw the graphs for the above

Study the topography and soil conditions of the area where BT Brinjal to be grown and mention the effects it would have on the soil.

HAPPY HOLIDAYS
