HUMAN VALUES

2023 NEWSLETTER

Message from the Founder President

I feel extremely proud and delighted that like every year, Amity Human Values Quarter (AHVQ) is being observed this year with great enthusiasm and dedication by our brilliant students, alumni, faculty members, Ph.D fellows and all others at Amity. AHVQ reflects Amity's commitment to encourage and imbibe in every Amitian, the human values which are intrinsically and fundamentally linked to a happy, peaceful and joyful society. The plants, when nourished by fertile soil, proper air, right water as well as required nutrients, grow with shiny, green leaves, flowers with sweet fragrance and give best fruits. This is a befitting example for human beings also, who if nourished and nurtured with the positive human values such as compassion, kindness, empathy, integrity, honesty, respect, wisdom, responsibility, equality, freedom, tolerance, courage and many others, can contribute to the well-being and harmony of individuals, fostering positive relationships and making a better world.

Dear Amitians, I always emphasize on behavioural science which if mastered, one can achieve whatever one wants to achieve in life. However, we must not forget that right human values are an integral part of behavioural science and as such, should be practised day and night. If we want our country to prosper, if we want our country to progress and if we want our country to be peaceful and harmonious, then we should nourish, instill and encourage human values in each and every person of the country which is also the aim and objective of AHVQ.

I am confident that being equipped with excellent education, and demonstrating good behaviour based on good human values, each and every Amitian will be highly successful and would have satisfaction and joy in personal life. The behaviour of Amitians also provides awareness to all others in society and this in result contributes to forming a good society, an important base for the nation's growth and development.

I compliment and appreciate the organizing committee members and all the others involved in making the AHVQ highly successful, result oriented and rigorously outcome based.

Message from the Chairperson

Human values are the building blocks that play a crucial role in shaping your character and developing you into responsible citizens of society. Like a lighthouse, universal human values such as respect, integrity, empathy, courage, tolerance, compassion etc., guide you in your life, whenever you are in moral dilemmas and will help you emerge victorious in the face of any adversity in life. It fills my heart with immense joy and satisfaction to note that over the years, Amity Human Values Quarter (AHVQ) through its various activities, has been raising awareness about the importance of human values.

My dear students, your beloved Founder President has always ensured that at Amity, each one of you assimilates these values from the very beginning, so that you are fully equipped to fulfill his dream to make India a knowledge superpower and also contribute to making our country a 5 trillion-dollar economy sooner than later. We foresee in 2047, when our nation will be celebrating 100 years of independence, an economy of 30 trillion dollars and this will definitely be achieved by the youth possessing good human values and command on behavioural science.

I am confident that having imbibed such distinguished qualities and virtues for which all Amitians are known globally, you will fulfill his dream and make a positive impact on society by becoming a paragon of universal human values. My compliments to the members of the organizing committee and all others, who are involved with full dedication in making AHVQ, a highly successful, inspiring and motivating event.

Message from the Chancellor

Human Values are the foundation of Amity's philosophy across all its Schools and Universities around the world. That by combining the best education, whilst imbibing Values and Sanskars, one can nurture super human beings has always been the conviction of Hon'ble Founder of Amity, Dr. Ashok Chauhan Ji.

We ensure that every Amitian imbibes virtues that create bonds of humanity, values of selflessness, passion and sensitivity, thereby contributing effectively towards a better society and a happier world.

Our Hon'ble Chairperson, Dr. Mrs Amita Chauhan, is a true embodiment of Human Values and that is why the Human Values Quarter is held annually where thousands of students across Amity are actively and passionately involved in activities that reflect values and help society.

I am proud of all the faculty, staff and students of Amity who radiate Human Values and a core of goodness.

Message from the Chancellor

Human Values and Professional Ethics are guiding principles jointly developed by the Families, Teachers, Institutions and Society. These virtues act as a Fundamental Groundwork for an Individual to Learn, Grow and Function in the world. These guiding principles are global beliefs that transcendently guide an individual in taking actions and judgements across varied situations.

While Families are regarded as the Cornerstones and Mothers as the First Educators for building such value system, the Teachers remain the First Role Model for any Individual outside the family. They play a significant role in inculcating the Ethical Behaviour and in shaping

Moral Values in an individual. Thus, the Role of Educational Institutions in indoctrinating values and improving skills in the students is noteworthy.

Towards this end, the contribution of all Amitians viz. Academicians, Staff, Researchers, Policy Makers and other Stakeholders in imparting quality education and inculcating Human Values for ensuring holistic development of individuals is commendable. It is a matter of sheer delight to proclaim that the AUUP, Noida/(AISS) is publishing a Newsletter showcasing the activities conducted by our Institutions under Amity Human Values Quarter (AHVQ - 2023).

I take this opportunity to congratulate and compliment notable efforts of the entire Faculty, Staff, and Organising Committee of AUUP Noida / (AISS), and wish them success in present and future endeavours.

Message from the Vice Chancellor

William Shakespeare once said **“I cried when I had no shoes, but I stopped crying when I saw a man without legs. Life is full of blessings, sometimes we don’t value it.”**

In order to lead a meaningful life and to become a responsible member of society, we need to cherish others, help others, imbibe human values in youth with passion and empathy and follow a values-based life in modern world.

This is philosophy of Amity University to imbibe the Sanskars and Values in Amitians to have knowledge and understanding of basic Human Values. It has been made an integral part of curriculum also.

Honorable Founder President, Dr. Ashok Chauhan, conceptualized Amity Human values Celebration to cultivate sense of responsibility towards Society, Environment and Nation among the students at Amity so that they excel in both their scholastic as well as social objectives. Under the able guidance and inspirational leadership of the Hon'ble Chairperson, Dr. (Mrs.) Amita Chauhan, Amity International Schools provides education and support to the unprivileged children for their upliftment and sustainability. Amity University has unwavering commitment towards inculcating sense of responsibility among the youth of the nation towards the community by extending unconditional care, especially to the deprived section of society through various initiatives.

Amity Human values Quarter-2023 has been a manifestation of human values activities undertaken by many students across Institutions at Amity University, UP, who touched the heart of community by their participation and involvement. Approx. 100 activities have been conducted during January - April 2023. I congratulate all the students for participating in the variety of community service activities in their own unique ways. There is no greater joy than making a difference in someone’s life. Each individual associated with AHVQ will greatly benefit, inspire the lives of all others and a make a big difference too.

I extend my heartfelt congratulations to the team- AHVQ-2023 for compiling all the activities’ information in the form of this Newsletter which I am sure will be a great source of information and inspiration for others towards community service and social welfare.

Amity Human Values Quarter 2023

The Amity Human Values Quarter (popularly known as the AHVQ) is observed every year from 27th of January to 27th of April, to celebrate the birthday of Dr. (Mrs.) Amita Chauhan, Hon'ble Chairperson- Amity International Schools. It aims to instil human values and ethics in all the students studying in the institutions affiliated to Amity University. Albert Einstein had once said, "Try not to become a man of success but rather, a man of values," and we at Amity University are firm believers of this principle. AHVQ is a forum for students to introspect and realize the importance of values and morals in our daily lives. It urges the students to take a break from their hectic academic schedule and daily chores to realign the priority directed to ethics.

Today, when the world is going through an outbreak of a pandemic and grappling to find solution to prevent the spread of an infectious disease (Covid -19), the importance of responsibility, humility, care, benevolence, and all other human values become more important. In these tough times, it is the values of an individual that help him sail through. This Year AHVQ activities comprised of online and offline events conducted during regular and lockdown time. These activities comprise of meaningful events ranging from enriching literary to cultural performances, expert talks and visit to schools of the less privileged. The purpose of these events is to dawn upon a realization that humanity is the biggest asset that we can endorse to have a better world. Amity believes to create superhuman beings by amalgamating the world class education and Indian value system into Amitians. These activities include plays, drama, workshops, lectures, poster making competition, plantation drive, painting competition, quizzes, teaching underprivileged children, visits and donations to orphanages/old age homes/ blind schools, awareness on Clean-Green and healthy environment at villages, environmental cleanliness and awareness, women empowerment, gender equality etc. to spread around the importance of values in today's world.

Values are beliefs that are inherent and inculcated with time. The possessor of these values will ensure and exhibit character of principles, standards, love, compassion, and qualities of great human being. This year we have tried to align the AHVQ activities with the values of Mulya Pravah, Unnat Bharat and gender equality.

Human Values

Values are principles or moral standards that define someone's behaviour and judgment about what is important in life. Human society cannot sustain itself if there are no values instilled in humans. They are the essence of our personality and influence us to make decisions, deal with people and organize our time and energy in our social and professional life. Values differ greatly among individuals. The character of each person is shaped by the set of values he cherishes. Along with our academic courses, we are also educated to follow certain values throughout life. This value-oriented education helps us to develop the temper of our mind, compassion in our heart, cooperation with others, tolerance towards others, respect for the culture of other groups, etc. Helpfulness, honesty, self-discipline are all examples of personalized values. As human values play a vital role in society, they are regarded as the basis for human beings to lead better life. Hence, the importance of values in a civilized society is immense. People with the right values in life will be a pillar for the development of society and the nation. They will not only go in the right

direction themselves but will also teach others to do the same. With the right beliefs and values, one can make the right decisions in life. Being humble, empathetic towards others, self-discipline, having courage and integrity will not help one to climb the ladder of success but also make one strong so that he can make breakthroughs in all obstacles and challenges in life.

An individual's values determine the decisions that he or she makes. Using these opposing things as a basis, an individual must choose between two things. The life of someone with good values is always prosperous, whereas a person with bad values is a liability to society. Individuals' values are shaped by the schools they attend, their parents, their homes, colleagues, and friends.

Values of Human Dignity

When the world recognizes human dignity, it is recognizing that humans have inherent value. As a result, all people are entitled to certain rights simply because they are human. The word “dignity” has traditionally referred to a person’s merit based on traits like wealth, power, and social status. We still think in that vein when we hear the word “dignified.” However, the phrase “human dignity” is linked to respect and the belief that everyone has merit based on their humanity.

Institution	Values	Type of Activities/ Activity for student engagement with community	Duration of Activity for student engagements	Learning Outcomes	Assessment method(s)

Values of Integrity

The greatness of a man is not in how much wealth he acquires, but in his integrity and his ability to affect those around him positively. If you have integrity, nothing else matters. Integrity lies in, doing what one speaks; speaking what one does.

Values of Justice

Justice is the right that one fights for, if one seeks fairness.

There are different types of justice in terms of labour, religion, human rights, laws and every wrongdoing is corrected by justice. In order for there to be peace it is essential for men, women and children to know that justice is what love looks like. Over the course of time, justice has come to the rescue of those who have been deprived of their rights. Protests demanding the necessity of justice are very common and people actively participate, in peace, in such grave but necessary protests. Justice has also been a source of inspiration for children who seek refuge in superheroes who fight for justice and mercy. Life without justice is an unfair life.

Values of Love

We're born alone, we live alone, we die alone. Only through our love and friendship can we create the illusion for the moment that we're not alone. Love is friendship that has caught fire. It is quiet understanding, mutual confidence, sharing and forgiving. It is loyalty through good and bad times. It settles for less than perfection and makes allowances for human weaknesses.

Values of Peace

Peace remains a goal for introspective individuals around the world. The lifelong search for inner peace challenges us to learn more about ourselves while allowing us to evolve with the seasons — and the quotes on our list capture all forms of peace. They will inspire you to embark on your own journey! After all, creators of past and present would agree that peace requires a journey beginning with you.

Values of Respectfulness

Respecting one another is very important. Respecting others starts with respecting yourself. One of the most important rules of influencing others, tolerance, and compassion, it's respecting others opinion. Respect yourself enough to walk away from anything that no longer serves you, grows you or makes you happy.

Values of Family

A family is a group of people affiliated by consanguinity, affinity, or co-residence. The role of the family in society is to establish in children a sense of belonging. Through this primary function of the family, children can learn social skills. This helps them learn to interact and work together for the betterment of all. With this foundation of caring for themselves and others, families are also responsible for educating children and instilling family values. This creates citizens that are working to reach goals in civic ways.

Values of Sustainability

In the broadest sense, sustainability refers to the ability to maintain or support a process continuously over time. In business and policy contexts, sustainability seeks to prevent the depletion of natural or physical resources, so that they will remain available for the long term.

Sustainability is a normative concept that stresses intergenerational equity and is commonly considered to have three dimensions (also called pillars): the environmental, economic and social dimension.

The community services have helped the students recognise the significance of life in our existence. We should be obligated to assist others not only as a plutocrat, but also through physical and psychological assistance. Regardless of the activities we have conducted with children, the children have reported that they are now more aware of the impact of education and freedom on their lives. In addition, we organised games, quizzes, and numerous educational events for children. We believe that it is essential to educate and inform students about this issue.	Assessment was made through various skill activities with women. Quiz and activities are conducted for assessment.

Values of Trusteeship

Trusteeship is a socio-economic philosophy that was propounded by Mahatma Gandhi. It provides a means by which the wealthy people would be the trustees of trusts that looked after the welfare of the people in general. This concept was condemned by socialists as being in favour of the landlords, feudal princes and the capitalists, opposed to socialist theories. Gandhi believed that the wealthy people could be persuaded to part with their wealth to help the poor. Putting it in Gandhiji's words "Supposing I have come by a fair amount of wealth – either by way of legacy, or by means of trade and industry – I must know that all that wealth does not belong to me; what belongs to me is the right to an honourable livelihood by millions of others. The rest of my wealth belongs to the community and must be used for the welfare of the community." Gandhi along with his followers, after their release from prison formulated a "simple" and a "practical" formula where Trusteeship was explained. A draft practical trusteeship formula was prepared by Gandhi's co-workers, Narhari Parikh and Kishorelal Mashruwala and it was fine-tuned by M.L. Dantwala.
