

**Amity University, UP**  
**Amity Institute of Molecular Medicine & Stem Cell Research**  
**Prof. Bhudev C. Das**

**Dr. Bhudev C. Das is Chairman & Hargobind Khorana Chair Professor of Amity Institute of Molecular Medicine & Stem Cell Research (AIMMSCR) and J.C. Bose National Fellow. He was former Prof. Gurbaksh Singh Chair-Professor and Director of Dr. B.R Ambedkar Center for Biomedical Research (ACBR) at the University of Delhi, Delhi. He was also formerly the Founder Director of Institute of Cytology and Preventive Oncology (ICPO), ICMR, Noida. Dr. Das has made outstanding contributions in the field of Cancer Research, Tumor Virology, Human Genetics and Mutation Research.** During the last 37 years of his distinguished research career he has published more than 200 research papers in reputed international journals and distinguished himself as a renowned Molecular Oncologist. Dr. Das has earned his M.Sc. and Ph.D. degree from Banaras Hindu University, Varanasi. He later worked several years with the Nobel Laureate, Prof. Harald zurHausen (Nobel Prize, 2008) of German Cancer Research Centre (DFKZ), Heidelberg, (Germany) and pioneered the work in India on **Human Papillomavirus (HPV)** that causes cervical and other cancers. He established National and WHO Regional HPV Referral Centre in for South-East Asia. His present areas of research are transcriptional regulation of viral HPV oncogene, miRNA regulation, cancer stem cell and, and cancer drug discovery.

So far 26 Ph.D. and 76 MD/MS/DM/DNB/DM students have received their degrees under his supervision and guidance. Dr. Das is the recipient of President's gold medal for most prestigious **Dr. B.C. Roy National Award** of MCI, **Sandoz Oration Award** of ICMR and a **Fellow of International Union Against Cancer (UICC)**, Geneva. He is **Fellow** of all four major national science and medical academies, (FNA, FASc, FNASc & FAMS). Dr. Das was elected **President of Indian Association for Cancer Research (IACR)** from 2006-2009. He is a PI and an expert advisor of the **Global HPV LabNet & HPV Vaccine Program of WHO**, Geneva. Dr. Das has received several other prestigious awards e.g., **Ranbaxy Medical Research Award, Dr. P.N. Wahi Award of ICMR, Ramniklal J. Kinarival a Cancer Research Award** of Gujarat Cancer Research Institute, Ahmedabad, **Dr. P. N. Chhuttani Oration Award** of National Academy of Medical Sciences (NAMS), **FICCI Award**, and **SAASCR Award** of the Society for American-Asian Scientists in Cancer Research, USA. Dr. Das is recipient of the prestigious **J.C. Bose National Fellowship (2008-2016)**.

Dr. Das is member of several scientific task force and high powered committees, Associate Editor, editorial board member and reviewer of several reputed national and international journals.

Dr. Das has created a Centre for Excellence in HPV and cervical and other cancer research at the Institute of Cytology & Preventive Oncology (ICMR) in India with all modern basic, clinical and translational research facilities through generating funds from external agencies both national and international. He has strong administrative capabilities and started to work as a Chief of Division of Molecular Oncology at ICPO since 1989 and became Director of the same Institute from 2004-2008. He was managing all intra- and extramural research projects as PI, guiding Ph.D and MD students and carrying out all administrative activities very efficiently. During more than 25 years of his service at ICPO, alongwith scientific work Dr. Das was highly successful in carrying out almost all types of administrative and managerial jobs of the Institute from time to time as Library Incharge, Guest House & Scientists' flat Incharge, Store Incharge, DDO, Building Committee member, Purchase & Technical Committee Chairperson including Chairman of Departmental enquiry committee and lastly as Director. Dr. Das has been chairman and member of several national committees, vision committees, scientific & ethical committees, sectional committee members of Academys, PRC and selection committee members of ICMR, CSIR, DBT, DST, TMH, Universities etc. In August, 2008, Dr. Das joined Dr. B.R. Ambedkar Centre for Biomedical Research, University of Delhi (North Campus), as prestigious Prof. Gurbaksh Singh Chair Professor and later he became its Director in 2010.

Recently (April, 2014), Dr. Das has joined as Chairman and Hargobind Khorana Chair Professor of Amity Institute of Molecular Medicine & Stem cell Research (AIMMSCR), Amity University, Noida.

**Dr. Das has a great vision for research and education and is a credible builder of institutions of national importance. Dr. Das has introduced two innovative special paper courses (Molecular Oncology & Clinical Research) in M.Sc. Biomedical Sciences. Besides, he also coordinates undergraduate B.Sc. (Hons.) course in Biomedical Sciences in 3 premier Colleges of Delhi University. He is a member/chairperson of several committees at the University. His vision is to create passion for high quality innovative research and teaching while inculcating scientific temperament, knowledge and human values with the main aim of creating clean and capable manpower in the country.**

**Recently, he proposed to the University for initiating MD - Ph. D course in collaboration with University college of Medical Sciences, which is now being designed by him.**

**Recently, he organized two important International Meetings; one on ATW Workshop in February (7 to 11) 2012 and other is IACR Cancer Meeting in February (13 to 16) 2013 where more than 500 delegates from India and abroad participated.**
