**WRITE-UP EXPLAINING PROVISION OF FREE DRINKING WATER TO THE STUDENTS. STAFFS AND VISITORS (like provision of RO water coolers at all the floors in all the academic and administrative buildings)**

1. Free drinking water facility has been provided in all academic blocks by fixing water coolers. Every water cooler is connected to RO water supply pipeline, thereby providing continuous supply for drinking purpose.
2. All water coolers have locking arrangement. These coolers are cleaned periodically and are inspected by team to check for its cooling. All electrical wires are also checked for its serviceability and maintenance.
3. RO of Capacity 5000 litre/hour to 2000 litres/hour are fitted at various locations at four locations in the campus to supply uninterrupted water to the students, faculties & staff. These RO's are manned 24 x 7 for this type of supply. Regular maintenance of these RO's is done to keep them fit at all times.
