The main content area displays a list of features:

3. **Assessments** - The Assignment option allows instructors to create coursework and assign it a name, point value, and description, attach files, manage grades for each student and can easily track their performance.
4. **Announcements** - Announcements tool can be used to provide students with course reminders and updates. Announcements can contain text, images, and multimedia, as well as it can be linked to course content, Assignments & Tests.
5. **Grade Center** - The Grade Center is a built-in grade book for each course in A-LMS. It provides a place to store, manage, and calculate student grades, both on items such as assignments and tests that are created and graded within A-LMS as well as on items that are created outside the A-LMS, which can be entered manually into the grade center.
6. **Discussion Board** - A-LMS discussion board feature allows participants to carry on discussions online, at any time of the day or night, with no need for the participants to be logged into the site at the same time. The discussions may be graded as well. Faculty can add multiple discussion board forums in their course.

Below the list, there is a message:

With Sincere Regards,
Prof. (Dr.) ALKA MUNJAL
DEAN (STUDENTS ACADEMIC AFFAIRS & SUPPORT SERVICES)
