### **Canadian Association of Research Libraries Open Archives Metadata Harvester**

"Welcome to the Canadian Association of Research Libraries (CARL) Institutional Repositories Pilot Project Harvester. This Harvester is the search service for the CARL Institutional Repositories Pilot Project and aggregates material from each of the participating Canadian institutions, allowing users to seamlessly search all of the repositories at once, using one common point of access." -- About this Archive page

[\[Click here to access\]](#)

### **Catalogue of Digitized Medieval Manuscripts**

The Catalogue of Digitized Medieval Manuscripts offers a simple and straightforward means to discover medieval manuscripts available on the web. Very much a work in progress, the database will initially provide links to hundreds of manuscripts, which we expect quickly to grow to thousands. Basic information about the manuscripts is fully searchable, and users can also browse through the complete contents of the database. As the project develops, a richer body of information for each manuscript, and the texts in these codices, will be provided, where available.

[\[Click here to access\]](#)

### **Collection of Computer Science Bibliographies**

This is a collection of bibliographies of scientific literature in computer science from various sources, covering most aspects of computer science. The about 1200 bibliographies are updated monthly from their original locations such that you'll always find the most recent versions here. The collection currently contains more than one million references (mostly to journal articles, conference papers and technical reports) and consists of 660 MBytes of BibTeX entries. More than 16000 references contain crossreferences to citing or cited publications. More than 100,000 references contain URLs to an online version of the paper. There are more than 2000 links to other sites carrying bibliographic information.

[\[Click here to access\]](#)

### **COPAC**

COPAC provides FREE access to the merged online catalogues of 21 of the largest university research libraries in the UK and Ireland.

[\[Click here to access\]](#)

### **Current Cites**

A team of librarians and library staff monitors information technology literature in both print and digital forms, each month selecting only the best items to annotate for a free publication. The resulting issue of 10-20 annotated

citations of current literature is emailed to a mailing list and is redistributed on other electronic fora. The individual citations are also individually indexed so that you can dynamically create your own Bibliography On-Demand. The items that are freely available on the Internet are also retrieved and indexed so that you can perform an Article Search of the full-text of these items.

### **E-LIS - The open archive for Library and Information Science**

E-LIS is an open access archive for scientific or technical documents, published or unpublished, on Librarianship, Information Science and Technology, and related areas. E-LIS relies on the voluntary work of individuals from a wide range of backgrounds and is non-commercial. It is not a funded project of an organization. It is community-owned and community-driven. We serve LIS researchers by facilitating their self-archiving, ensuring the long-term preservation of their documents and by providing world-wide easy access to their papers.

[\[Click here to access\]](#)

### **English Short Title Catalogue**

The English Short Title Catalogue (ESTC) lists over 460,000 items: published between 1473 and 1800; mainly in Britain and North America; mainly, but not exclusively, in English; from the collections of the British Library and over 2,000 other libraries.

[\[Click here to access\]](#)

### **ERIC Database**

The Education Resources Information Center (ERIC), sponsored by the Institute of Education Sciences (IES) of the U.S. Department of Education, produces the worlds premier database of journal and non-journal education literature. The new ERIC online system, released September 2004, provides the public with a centralized ERIC Web site for searching the ERIC bibliographic database of more than 1.1 million citations going back to 1966. Effective October 1, more than 107,000 full-text non-journal documents (issued 1993-2004), previously available through fee-based services only, will be available for free.

[\[Click here to access\]](#)

### **ERIC/AE Draft Abstracts**

"Processing of an ERIC abstract typically takes six to nine month from the time we prepare an abstract to the final product appearing in Resources in Education or the Current Index to Journals in Education. To help you obtain the latest information on assessment and evaluation, we created this experimental database of our abstract drafts. We update this database every Thursday or Friday night. Since we usually prepare abstracts within 2 or 3 weeks of receiving the paper or journal, this information is very current." -- Title page

[\[Click here to access\]](#)

### **ERIC/AE Full Text Internet Library**

Includes sections of full-text articles on educational quality, learning theory, evaluation, student evaluation, tests and testing, professional standards, research, and statistical analysis. Article example: How to Write a Scholarly Research Report.  
Here you will find links to some of the best full-text books, reports, journal articles, newsletter articles and papers on the Internet that address educational measurement, evaluation and learning theory. We have selected these documents based upon criteria that are widely accepted in the library and information science community and we have provided a framework so that you can easily browse these resources.

[\[Click here to access\]](#)

### **ERIC/IT Full Text Database**

Search over 1,000 of the latest research reports, conference papers, opinion papers, selected articles and other ERIC documents in the fields of Library Science and Educational Technology and receive the documents in full text immediately.

[\[Click here to access\]](#)

### **EdResearch**

The EdResearch Online database is housed Acer Cunningham Library and indexes over 13,800 education research articles, many of which have full-text available. The database is updated monthly.

[\[Click here to access\]](#)

### **FindArticles.com**

FindArticles is a specialized search engine designed to help you quickly and easily find published articles on the topics that interest you. Our database has hundreds of thousands of articles from more than 300 magazines and journals, dating back to 1998. FindArticles even brings some print-only publications to the Web for the first time.

[\[Click here to access\]](#)

### **TheFreeLibrary.com**

Since 2003, The Free Library has offered free, full-text versions of classic literary works from hundreds of celebrated authors, whose biographies, images, and famous quotations can also be found on the site. Recently, The Free Library has been expanded to include a massive collection of periodicals from hundreds of leading publications covering Business and Industry, Communications, Entertainment, Health, Humanities, Law, Government, Politics, Recreation and Leisure, Science and Technology, and Social Sciences. This collection includes millions of articles dating back to 1984 as well as newly-published articles that are added to the site daily.

[\[Click here to access\]](#)

### **getCITED**

getCITED is a site that exists to facilitate the dissemination and discussion of academic research. It has numerous features, but at its core, it consists of two things: a database and a discussion forum. What makes getCITED's database truly unique is that it lets scholars and researchers decide what its content should be. What makes its discussion forum truly unique is the fact that, within the comments posted, you can create LINKS to PUBLICATIONS and IDENTITIES within the getCITED database.

### **Library, Information Science & Technology Abstracts (LISTA)**

"EBSCO Publishing is proud to provide the Library, Information Science & Technology Abstracts (LISTA) database as a free resource to anyone interested in libraries and information management. Delivered via the EBSCOhost platform, LISTA indexes nearly 600 periodicals plus books, research reports, and proceedings. With coverage dating back to the mid-1960s, it is the oldest continuously produced database covering the field of information science." -- EBSCO Free Databases page

[\[Click here to access\]](#)

### **LigerCat : Literature and Genomics Resource Catalogue**

"LigerCat was created as part of the Biology of Aging project at the MBLWHOI Library at the Woods Hole Marine Biological Laboratory.

LigerCat is a search tool for NCBI's PubMed that uses tag clouds to provide an overview of important concepts and trends. LigerCat aggregates multiple articles in PubMed, summing their MeSH descriptors and presenting them in a cloud, weighted by frequency.

Medical Subject Headings (MeSH) is a large controlled vocabulary created and maintained by the National Library of Medicine to categorize and index journal articles in the life sciences. MeSH descriptors are akin to tags in a blog post, but scientific articles are tagged with MeSH descriptors by respected librarians and scientists.

In addition to providing a visual overview of a set of PubMed articles, LigerCat can search PubMed in realtime. Simply click on one or more MeSH descriptors in a tag cloud to search PubMed for those terms instantly." -- About page

[\[Click here to access\]](#)

### **Medieval Feminist Index**

Great for items about medieval books, libraries, etc., with a feminist slant. A quick test search turned up, among others, "A Library Collected by and for the Use of Nuns" and "Reassessing Women's Libraries in Late Medieval France." "The Medieval Feminist Index covers journal articles, book reviews, and essays in books about women, sexuality, and gender during the Middle Ages." -- "What is the MFI?" page

[\[Click here to access\]](#)

### **MagPortal**

### **NewspaperCat : Catalog of Digital Historical Newspapers**

The Catalog of Digital Historical Newspapers (NewspaperCat) is a tool that facilitates the discovery of online digitized historical newspaper content from newspapers published in the United States and the Caribbean.

NewspaperCat was funded by a grant from the George A. Smathers Libraries.

Search by keyword, newspaper title or by city, county or state to locate titles. From your search result, click on the link(s) to connect to the digital newspaper(s). In many cases, this content is keyword searchable, depending on the hosting organization.

NewspaperCat currently links to over 1000 full-text newspaper titles with a goal to include links to as many US and Caribbean newspapers with archival digital content as possible.. Plans are to expand the Catalog as newly digitized newspaper titles are located.

### **ResearchIndex**

"ResearchIndex is a digital library that aims to improve the dissemination, retrieval, and accessibility of scientific literature. Specific areas of focus include the effective use of web, and the use of machine learning . . . . The ResearchIndex project encompasses many areas including the location of articles, full-text indexing of the articles, autonomous citation indexing, reference linking, information extraction, display of query-sensitive summaries, extraction of citation context, distributed error correction, related document detection, and user profiling." -- "Welcome" page

### Scirus

This search engine retrieves a surprising number of articles from library and information science journals, in addition to relevant web sites. Responding to the need for focused, comprehensive and reliable overviews of relevant scientific information, Elsevier Science has developed the powerful Internet search tool Scirus. Scirus distinguishes itself from existing search engines by concentrating on scientific content only and by searching both Web and membership sources.
