EDUCATIONAL VISIT TO DISTRICT JAIL, GURUGRAM, HARYANA

With a view to apprise and sensitize the students about the factual position of convicts in Prisons and Prison Reforms, a visit was organized by Amity Law School in consultation with Director General Police and Director General Prisons, to the District Jail, Gurugram on 6th September 2018. A total of 50 students of 5th, 7th, and 9th Semesters accompanied by Mr. Pranshul Pathak, Coordinator ALS and Mr. Amit Kumar, Assistant Professor visited the Jail, which is situated in Bhondsi. The jail is established in an area of 50 acres with a capacity of 2500 inmates and presently it houses 2382 inmates comprising of both male and female inmates. On arrival, Mr. Jai Kishan Chillar, Superintendent of Prison, welcomed the students and the faculty. The Jail has separate wards for male and female inmates and their recreational areas are also established separately.

Firstly, the students were shown the visiting area where the inmates could meet their relatives for a maximum duration of 15 minutes and could communicate via an intercom phone. After that,

the students were introduced to a cashless procedure through which the inmate's relatives could transfer money to their accounts up to a maximum limit of Rs. 6000 per month.

Thereafter, the Superintendent of Prison addressed the students and informed them about the activities and other developmental programmes being run in the Jail. He apprised the students that the activities, skills and education prepare the inmates for a better life outside the prison and will bring a

positive change in them. The students were also informed that India Vision Foundation (IVF), an NGO formed by Ms. Kiran Bedi, conducts recreational activities for the reformation of the inmates, with a view to provide them with vocational skills, to help them in integrating back into the society once they are released. This also helps them to earn a living for themselves. The organisation conducts various recreational activities and provides them the opportunity to:

- Read, write, learn and complete their education
- Make painting and sculptures
- Take musical instrument classes sponsored by Sony Pictures
- Take a diploma in hairdressing, makeup, and other salon management courses sponsored by VLCC
- Complete web designing course (including MS Office and Tally)

After completing these courses, they are provided with a certificate of appreciation which can help them with their employment in future.

There is a well-established Khadi Factory in the male ward where they make Khadi thread to be sold to make clothes from. Alongside there is also a sewing and stitching workshop where the

inmates make kurtas and handbags. This talent was appreciated in a fashion show organised in Mumbai which was attended by known dignitaries like Zeenat Aman and Pooja Bedi and enhanced by 13 models. The women's ward has a special factory established for manufacturing sanitary pads with the help of Rotary Club, Lioness Club and Sampoorna Club. The factory has the latest machineries and the extra pads are later distributed free of cost in various prisons of Haryana.

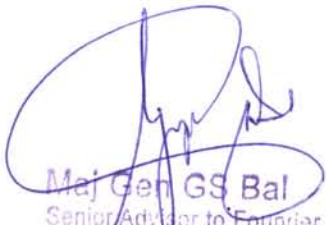

The inmates also performed two beautiful songs for the students expressing their guilt and the kind of reformation that is provided to them by the prison authorities in collaboration with IVF. The students were briefed about the Phoenix Software, developed by one of the inmates, that is being used by the prison authorities to keep a record of the inmates by the Superintendent of Prison Office. The software contains even the minute details of the inmates regarding their meeting session, phone call session and also the things purchased by them from the prison canteen. The SP informed the students that the software is very secure and has received recognition from Haryana Police and Ministry of Home Affairs.

OUTCOME

This jail visit was a very good experience for the students as it is very important for them, as budding lawyers, to understand the system properly and to know the mentality of the people who commit offences. As a result of this, it is evident that the reformatory theory is being properly used by the Haryana Police in order to bring a change in the psychology of the inmates and make them a better person to survive in the society.

Young People and Mental Health Workshop

A workshop was organized on 10th October 2018. The interactive class started with a 5 minutes' exercise to cool down our minds and purify our thoughts. Then students received a lecture on Optimism. Optimism Activity Module(OAM) was explained to the students. This was an original creation where Optimism Index (OI) and ABC of mental happiness was also discussed.

- A-Action
- B-Believe
- C-Clarify

Students learnt about depression and the increase in food intake with it. According to several studies, it is indicated that a dysphoric mood is somehow related to the increased desire for and consumption of carbohydrates.

Binge Eating Disorder, which is a severe, life-threatening and treatable eating disorder characterized by recurrent episodes of eating large quantities of food (often very quickly and to the point of discomfort); a feeling of a loss of control during the binge; experiencing shame, distress or guilt afterwards; was also discussed in the workshop.

As a conclusion, it can be said that the interactive class and lecture on Young people and Mental Health, was very helpful to the students in understanding themselves in terms of Mental health and in boasting their courage to perform well in the near future. It made them understand the value and importance of Optimism, not only in shaping themselves but also to save them from the evil hands of depression and stress.

Dr. Pental in his key note address expressed his profound happiness in visiting AUG on such an important occasion as the day for celebrating innovations and creativity. He was highly impressed to see the commendable progress that AUG has made during the last 3 years. He opined that the future of higher education belongs to those who place research and innovations on the forefront of the university activities and create an environment in which the teachers and students engage to create new knowledge, new scientific knowhow and new technology. He further emphasized the need for society and industry centric research and was happy to see that Amity University is making a strong headway in this regard. He shared his own experience of scientific research in the area of genetically engineered mustered crop for which he and his team is known worldwide. But despite the fact that the over 12 years have passed, the technology has not yet reached the farmers as the lobby opposing GM food is unable to digest the benefits of the Genetically engineered mustered crop for improved quality and yield that the farmers will have, he added. In countries abroad the gap between the laboratory level research and the launch of innovated product is now narrowed down to bare minimum. This we need to do in our country he added.

Dr W Selvamurthy, President, ASTIF, made a highly inspiring presentation on “Opportunities and Excitement of Funded Projects and Innovative Product Development”. He emphasized on 5 Ps for Research ie Projects, Patents, Publications of high impact, PhD and Presentations. There is no dearth of money for funding quality research, however it requires projects that are well formulated and are relevant to the national and global needs, he emphasized. He shared the excitement of funded research and patenting at Amity University and the way it is driving the Amity University towards high global recognition and a wider appreciation by the national bodies such as ICMR, ICAR, DBT, DST, BARC, ISRO and other reputed research funding organizations. It is only through world class research that our faculty shall gain worldwide acclaim he added.

Winning isn't everything--but wanting to win is."

— Vince Lombardi

To honour the incredible spirit of sportsmanship, passion, ardent determination and the leadership of Dr. Ashok K Chauhan, Founder President, Amity Group, the affiliated institutions celebrate and participate in a month-long, annual inter-institutional mega sports event, "Sangathan". The celebration culminates on the birth anniversary of Dr Chauhan with a magnificent felicitation ceremony organized at all Campuses of Amity.

The origin of "Sangathan" can be traced back to the year 1999 with the conceptualization of the Amity inter-institutional sports competitions. In the initial years, athletics remained the focus area. Subsequently 21 sports events were brought into the fold, which speaks volumes of the expansion of the mega sports event. Sangathan 2014, however, created history by reaching the magical figure of 40. The event represents courage, discipline, and unyielding determination—the driving force behind any sporting event. It epitomizes Compassion, Commitment, and Success—ideals that Amity as a group of institutions has always upheld.

Sangathan 2014 that began on August 28 and came to a close on October 17, 2014, surpassed all the standards of preceding years in terms of number of participants, level of enthusiasm, camaraderie, and the spirit of collective enterprise
