PRESENTS

FIVE DAYS FACULTY DEVELOPMENT PROGRAMME ON DATA ANALYSIS USING SPSS

The main purpose of this FDP is to introduce the modern analytical tools and applying them to analyze complex research data using SPSS software. This will help the participants to identify and applying appropriate research tools to accomplish their research objectives. This will improve their analytical skills and competence by strengthening their knowledge and technical writing skills.

Date: September 13-17, 2021 | Registration Link: <https://www.amity.edu/gurugram/fdp-spss2021/>

OBJECTIVES:

- To provide research stimulus to the participants.
- To equip participants with the knowledge of various analytical tools.
- To equip participants with the necessary knowledge of identifying and applying suitable tools as per their research requirements.
- To give hands-on experience and practice of SPSS.

PROGRAMME COVERAGE:

- Simple correlation and partial correlation
- Chi square test
- Simple regression and binary regression
- Hypothesis testing
- Discriminant analysis
- Hands-on experience and practice of SPSS
