**3.1 General Introduction of the Event**

Corporate Resource Centre planned an industrial visit on 13<sup>th</sup> December 2022 from 9:45 a.m. to 4:45 pm. B.Com (Hons) 5<sup>th</sup> semester students went for the visit. Under the supervision of Dr. Vaibhav Kaushik, Assistant Professor. This industrial visit was conducted to spread the awareness about the manner in which an organization functions and to get an overview of the production cycles and technology advancements in today's competitive market. Haier is a renowned company in the electronic appliance sector. We were interacting with company's Production Head and their team like Mr. Manendar and Ms. Nisheetha.

**Inspiration & Objectives of the Event**

Upon reaching the location we were introduced to the company Haier Appliances India Pvt Ltd. The introduction included the brands which Haier has acquired over the years in which a few prominent brands were highlighted like General Electronics, Aqua (Japanese Brand), etc. Further discussed about what is the core belief of the company that every appliance should be smart (means connected through internet). In this discussion the history of Haier was told to us through a picture and video showing the progress Haier has made in the last 15 years being the no. 1 brand. After this, many products were shown to us, and their

demonstration was done as well. Finally, we went to the production unit of refrigerators and were shown the entire process from making of external body till packaging. This visit was very enlightening and fruitful in order to understand a manner in which a factory works and how each unit produced is checked multiple times before packaging and dispatch to retail stores.
