3.1 General Introduction of the Event - Report Enclosed

3.2 Objectives of the Event

3.3 Brief about the address/talk of speakers

To encourage the teachers to become a change agent by adopting 21st-Century Knowledge and Character skills so that they should be at par with national and global standards and have the ability to think critically and creatively, to collaborate with others, communicate clearly and effectively with students and also empower them to lead a fulfilling and healthier lives, the Amity Academics Staff Collage at Amity University Haryana organized a Six-Day Online Faculty Enrichment Program from 21st June to 26th June 2021. The program was inaugurated today by Dr RA Mashelkar FRS, Founder Chairman National Innovation Council and former Director General of CSIR in the august presence of Hon'ble Chancellor Dr Aseem Chauhan, Hon'ble Vice Chancellor Prof PB Sharma, Vice Chancellors of Amity Universities in India, Deans, Heads of Institutions, large number of faculty members and 175 registered participants from various universities and institutions from across the country,

The University faculty need to continuously update their knowledge in their chosen field of expertise as well as keep themselves updated with the 21st-century skills and technologies to deliver not only up to date knowledge but also to participate in the creation of new knowledge through engagement in Research and Development as and cause innovations and new product development.

The former Lead Technologist of NASA Johnson Space Centre Dr Kumar Krishen had vividly enunciated the I3LP concept –i.e. Inspiration, Imagination, Inclusion, Leadership & Perspiration . Needless to say, his talk has been the most stimulating that has thrown up many interesting issues such as Purpose of life, Knowledge is Power, translation of knowledge into Wisdom, nurturing Leadership qualities, having compassion, Love and truthfulness so much needed today in those empowered with knowledge and capabilities. Drawing upon his own experiences of preparing to meet the challenges of space explorations, Dr Kumar invited the teacher participants to walk into the exciting journey of exploration of education and research excellence during their stay in the universities.

Delivering the Inaugural Address by Padma Vibhushan DR RA Mashelkar, Eminent Scientist & Former Director General, CSIR shared his insightful thoughts on “The Paradigm shift of Innovative Integration of Education, Research and Innovation” opined that, “Teachers are architects of the future of the country. Getting a degree is not the end of education. To remain relevant you have to learn, unlearn and re-learn throughout your work life. Integrate the joy and excitement of research and innovations into teaching and excite the imagination and intuition of the students to prepare for the science and technologies of tomorrow. Dr Mashelkar further invited the participants not to satisfy with incremental improvements or even leap frogging but take courage to pole-vault to another level of excellence by their exciting and intuitive quest for excellence.. He enunciated five new roles for the University Teachers to meet the challenges of new generation of students, viz. Mass Customization, from just Telling to actually Listening, To become domain content Delivery Expert, from Instructors to becoming the Conductors and from Collecting Dots to Connecting Dots. Dr Mashelkar reminded the Faculty members to always think that *“Our Best is yet to Come”*.

In his words of wisdom Dr. Aseem Chauhan, Hon'ble Chancellor, Amity University Haryana said, “Teachers have to play a pivotal role as leaders in their domain areas and should work as mentors. For this they need to regularly upgrade their knowledge base as well as technology Skills. Much of this upgradation should be self motivated. Teachers should have the capabilities to adopt advanced technologies and should have the willingness to experiment with innovative technologies to improve learning outcomes. National education policy has provided a great opportunity for

globalization and growth and is important to be implemented. University rankings would greatly improve by maximizing the university outcome in respect of quality of education, research publications and a more effective translation of research into innovations and new product developments said Hon'ble Chancellor Dr Aseem Chauhan.

Among those who addressed the FEP today, in the Plenary Session included Padma Shri Prof. Syed Ehtesham Hasnain, Honorary Professor, DBEB, IIT Delhi and National Science Chair of DBT in Biological Sciences and former Vice Chancellor of University of Hyderabad and Hamdard University. Prof Hasnain shared his life time experiences on accelerating Research & Innovations in the field of Science and Technology in Universities by a more enthusiastic engagement of faculty in funded research and by sustained focus on quality and integrity of research. the second Plenary Session post lunch was addressed by Dr. (Mrs.) Pankaj Mittal, Secretary-General, Association of Indian Universities, who talked about the importance of ABC concept of Life Long learning, Blended & Hybrid system of learning and also highlighted the benefits of the National Credit Bank idea proposed by the NEP- 2020.

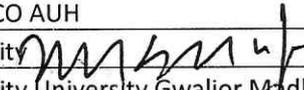

Addressing the gathering Prof P B Sharma, Vice-Chancellor, Amity University Haryana said, "We need to understand the aspirations of the current and future generations of the new-age learners and redesign the higher education system accordingly. We need also to take full advantage of the digital transformation to radically reform the teaching learning environment. Teachers and technology together shall create a bright future for humankind. He invited the teaching community to work with passion and pursue endless frontiers if research and innovations as also integrate the advances in research in their class room teaching. Prof Sharma also reminded that education is both about managing today most effectively and to create a better tomorrow. To manage today most effectively the teachers must partner with the government on technology missions and also contribute to national missions and work closely with industry and society, said Professor Sharma.

While coordinating the event Dr. Sanjna Vij, Program Director, Academic Staff College, AUH said, "Learning is a continuous and never-ending process. It doesn't stop after earning a degree or at the starting or middle of a career. Through continuous learning, aspiring faculty can constantly improve and update themselves." Rear Admiral KK Pandey (Retd.), HR Director, AUH whilst delivering the Vote of Thanks, highlighted that in a rapidly changing world scenario, the role of Teachers assumes utmost importance. This Faculty Enrichment Programme is aimed to foster the Faculty's knowledge, skills and professional competence.

Dr. W. Selvamurthy, President of Amity Science, Technology and Innovation Foundation, Dr. Ajit K. Nagpal, Chairman Amity PACIFIC Forum, Prof. Padmakali Banerjee, Pro-Vice-Chancellor, Dr. Vikas Madhukar, Dy PVC, Prof Gunjan M Sanjeev, Director, International Affairs, Prof. Rajendra Prasad, Director, AIB, Prof. I. S. Thakur, Dean Environment Sciences, ASEES were also present together-with 180 faculties and students who had registered for this maiden Faculty Enrichment Programme from very many universities and institutions from across India.. Excellent IT support for the program was provided by the Amity IT Team headed by Dr JS Sodhi.

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

The talk was conducted to get a complete overview of Resource Provisioning in Fog-Integrated Cloud. Education is completely evolving field and to ensure the continued growth teachers should also involve themselves. They enhance knowledge will help them introduce their students to the new facets. Engineering and computational techniques are growing exponentially over recent years there has been

 Registrar

significant growth in Artificial Intelligence, the Internet of Things, Big Data, Blockchain Technology, Machine Learning Technique with their presence and the help get the machine progressively better in doing its task. All of these has increased the demand for professional and researchers. The need is to keep oneself updated of all new technical developments and pursue a path towards continuous learning and growth.

Objectives of the Event

- ✦ To offer to learn the basics of emerging trends and challenges in the field of computing and security.
- ✦ To introduce computational methods in emerging Technology and provide opportunities to widen the knowledge further.
- ✦ To improve security ability in carrying out research testing and consultancy in computational techniques.
- ✦ To provide a forum for exchanging views ideas on the latest innovations in next-generation computing.
- ✦ To impart theoretical and practical knowledge on the design and implementation of intelligent systems.

Details about the Sessions address/talk of speakers along with Photographs

Day 1st :- 5th July 2021 – Monday : Inaugural Session

FEP started on time and was graced by the presence of Hon'ble Vice Chancellor, Prof. Dr. P.B. Sharma, Rear Admiral K.K. Pandey, Director, HR, Dr. Sanjana vij and Guest of the Event Dr. Munish Jindal, Founder & CEO of HoverRobotix and Founding President of MENTORx and Respected Director Ma'am Prof. Dr. Shalini Bhaskar Bajaj, Event Coordinators Dr. Shweta Sinha and Dr. Vikas Thada and Expert speakers from reputed organizations and participants.

At the outset , Dr. Charu Jain welcomed all the Dignitaries, guest of Event, keynote speakers and participants. She introduced Respected Vice Chancellor Sir and Pro Vice Chancellor Ma'am. Event was started with the blessings of Maa Sarasvati by virtually lightening up the lamp. Introduction to the FEP and Opening Remarks by Dr Shalini Bhaskar Bajaj, Director, ASET, Amity University Haryana, Dr. Charu Jain introduced Dr Shalini Bhaskar Bajaj, Director, ASET, Amity University Haryana.

Welcome address was given by Director ASET Prof Dr. Shalini Bhaskar Bajaj. Dir ma'am welcomed all the dignitaries and the participants. She started by saying, "Life is Education and Education is Life". She discussed the importance of the FEP and role of Artificial Intelligence in life. She briefed about the Programme detail and topics to be covered. She introduced Guest of the event, Resource persons of the event. She Discussed about the event Sessions and told that it consists of total 9 theoretical and technical Sessions .She told that 130 participants have joined the event from various reputed organizations and corporate such as SRM University, Delhi Technical University, DPGITM, MIT Meerut, MSIT Delhi, Starex University, AUUP, Gwalior, JIMS Delhi, Northcap University, TITS Bhiwani, NDRI Karnal, OPTUM, IBM and WIPRO. She stressed upon the importance of this FEP how this programme will increase the knowledge base of the participants. This FEP aims to serve as a forum to exchange the views on this important area of knowledge.

Blessings by Hon'ble Vice Chancellor, Prof. P.B. Sharma

Dr. Shweta Sinha introduced Hon'ble Vice Chancellor Sir. At the outset, Respected Vice Chancellor Sir extended a warm welcome to all the participants, eminent speakers on the behalf of Amity Fraternity, Hon'ble Founder President and Chancellor Sir, Amity Education Group. He congratulated Program Chair Dr. Shalini Bhaskar Bajaj, Director ASET and Event Coordinators of the FEP, Dr. Vikas Thada and Dr. Shweta Sinha, Amity School of Engineering and Technology. He also congratulated Programme Director Dr. Sanjana Vij, Programme Director, Academic Staff College for coordinating the Event .He inspired and excited all the participants for this valuable Faculty Enrichment Programme. He encouraged all the participants to join this FEP actively and gain knowledge from it. He discussed about artificial intelligence and its various applications. He emphasized how AI can solve various life problems easily. He enlightened the need of this FEP and its importance. He stressed upon the requirement of Artificial intelligence, machine learning and blockchain technology for all. He emphasized the importance of these area. He discussed about these area are major driver of world in various fields like healthcare, Education, Farming sector, governance and corporate world. AI is being conceived the target of achieving human intelligence with Global exposure. He encouraged all the participants from various other department s to learn from the Programme by saying "Learning don't finish until we die". Finally he encouraged all the participants to gain more and more from this important FEP for the betterment of our life and humanity.

Dr. Sanjana Vij. Programme Director, Academic Staff College also welcomed and encouraged all the participants for the valuable Faculty Enrichment Programme. She emphasized on the programme detail and applications of AI in various fields.

 Amity University Haryana
 Manesar, Gurgaon-122008

Day 1st :- 5th July 2021 – Monday : Technical Session –

Speaker : Dr. Munish Jindal, Founder & CEO of Hover Robotix ,Founding President of MENTORx

Topic: Artificial Intelligence and Machine Learning: Transforming Academia to Industry

First technical session was delivered by Dr. Munish Jindal who is the Founder & CEO of HoverRobotix and Founder President of MentorX. Dr Jindal shared his views on the topic "Artificial Intelligence and Machine Learning : Transforming Academia to Industry" . Dr. Munish Jindal enlighten the participants about use of AI in Day-to-day life and the future of AI.

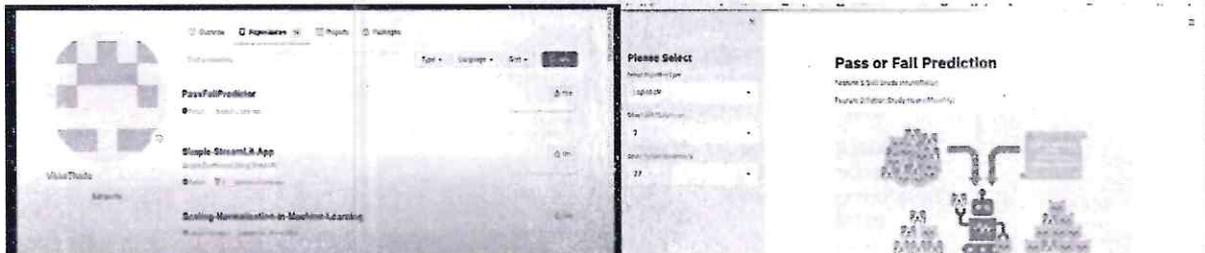

- ✚ AI is changing the world. AI is being used in personality checking based on selfie photographs to ordering food based on past orders.
- ✚ AI has numerous applications in the field of agriculture, healthcare , banking, education, online shopping etc. Image analysis, Virtual Assistants, Predictive Analysis are few trending areas.
- ✚ Smartwatch is an example of AI which is used to monitor the health of the human by recording heartbeat, footsteps.
- ✚ Autonomous tractors and Agriculture Robots are another example of AI in the field to agriculture for irrigation, seeding, taking care of plant health.
- ✚ Robodogs for enforcing social distancing and Humanoids are other achievements in the field of AI.
- ✚ The day is not far when we walk hand in hand with Robots.

Day 1st : 5th July 2021 – Monday : Noon Session

Speaker - Dr Vikas Thada, Associate Professor, Amity University Gurgaon, Haryana

Topic : Machine Learning Based Web Apps

The session by Dr Thada gave a practical experience to the participants. The lecture covered basics of supervised machine learning followed by developing binary and multiclass classification model. Once models were built using flask and streamlit deployments of development model was done on public cloud. Complete process was done by using python and anaconda framework.

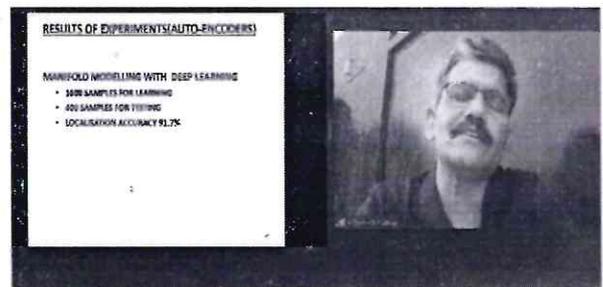

Day 2nd :- 6th July 2021 – Monday :

Speaker - Mr. Ashutosh Kumar, Global Technology Services, IBM, Noida

Topic: Computer Vision: The Evolution and Emerging Trends.

UNDERSTANDING CHESS BOARD POSITIONS THROUGH VISUAL SEARCH : A CASE STUDY IN ACTIVE & PURPOSIVE VISION

(Ashutosh Kumar, Santanu Chaudhary, Subhashish Banerjee, ICPIIC 1995)

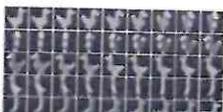

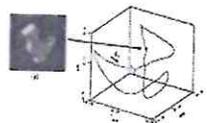

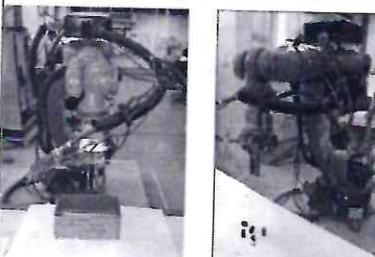

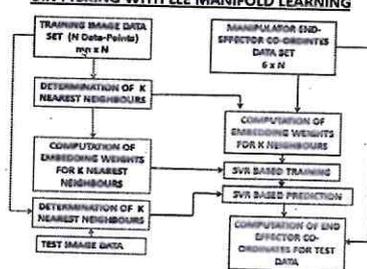

During the session conducted by Mr Ashutosh Kumar the following key points were highlighted:

- Discussed about the chronology of Computer vision in different fields such as safety, health and security.
- The Case study on Understanding Chess board Position through visual search was elaborately discussed. The objective of the search was to understand the successive chessboard position using active visual search and planning. The system was implemented using robot cell comprises of master controller, image processing station and IBM7545 industrial robot.

(Signature)
 Registrar
 Amity University Haryana
 Manesar, Gurgaon-122413

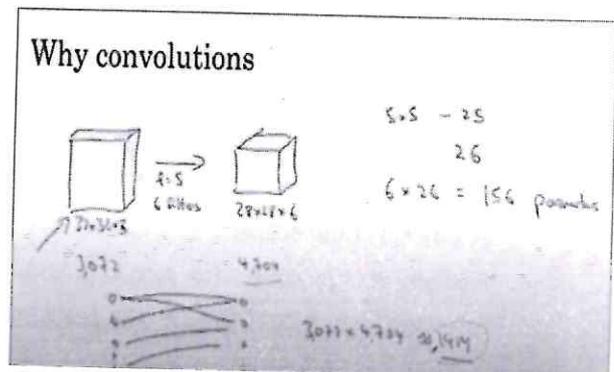

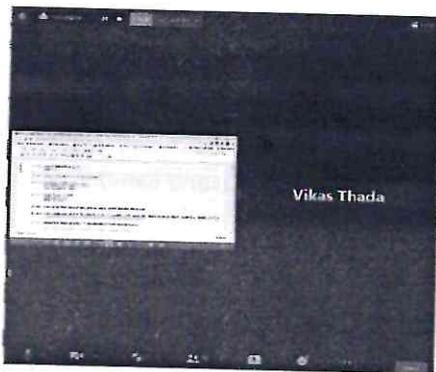

- Further, discussion was carried out on Visual learning and recognition of 3D objects from Appearance. It is a technique for automatically learning three dimensional objects from their appearance in two-dimensional images. The method adopted in this approach computes the eigenvectors of an image set. The large number of eigenvectors are required that form an orthogonal basis for representing individual images in the set.
- During the session Bin Picking Using Manifold Learning technique was discussed. It requires accurate estimation of location and pose of the object for positioning the end effector of the robotic arm. It employed Locally linear Embedding (LLE) and Deep Learning for manifold learning in the visual domain as well as for the parameters of robotic manipulator for visual servoing.
- The computer vision journey was discussed specifying the evolution of computer vision techniques from the year 1960 till year 2020.

<p>Visual search and Image interpretation</p> <ul style="list-style-type: none"> • The paper implemented a high level image interpretation system. • Objective was to understand successive chessboard positions using active visual search and planning. • The planning module was based on game tree searching. • Sensor placement was guided by the likelihood of a move by an opponent. • The system was implemented using a robot cell consisting of a master controller, an image processing station and IBM7545 industrial robot. 	<p>Collection of Data sets</p> <ul style="list-style-type: none"> • Object exposed to the image sensor in several orientations and illumination directions.  <ul style="list-style-type: none"> • The result is a very large set of object images. • Since all images in the set are of the same object, consecutive images are correlated to a large degree. 	<p>Creation of Object Image Set</p> <ul style="list-style-type: none"> • In the experiment, images were obtained in discrete poses, 4° apart • There were 5 light source directions. • Hence total no. of images in the object image set is $5 \times (360/4) = 450$ • Each image was 128×128 pixels in size and normalized in scale and brightness. • A subset of the object image set is shown below 
<p>Pose Estimation Using Manifold</p> <ul style="list-style-type: none"> • The figure below shows an input image of the object mapped to a point in object eigenspace. The location of the point on the parametric curve determines the pose of the object in the image.  <ul style="list-style-type: none"> • Use of efficient search algorithms to find the closest point on the manifold for the input image, reduces computational effort. 	<p>Bin Picking Using Vision Based Sensors</p> 	<p>BIN PICKING WITH LLE MANIFOLD LEARNING</p> 

Day 2nd : 6th July 2021 – Tuesday : Noon Session

Speaker - Dr Vikas Thada, Associate Professor, Amity University Gurgaon, Haryana

Topic : Deep Learning for Image Processing

The session by Dr. Thada covered the technical nuances of deep learning. He explained the practical implementation of deep learning for image processing. The session started with a brief introduction of deep learning and also image processing. He discussed databases available and pre-processing aspects of those data. The features and feature extraction processes were discussed, and practical implementation was shown. The session was highly interactive as the details of CNN and its implementation generated queries from the participants. The feedback of the session was also very good.

Day 3rd : 7th July 2021 – Wednesday: Morning Session

Registrar
Amity University Haryana
Manesar, Gurgaon-122413

Speaker : Prof. Pradeep K Das, IIT Guwahati

Topic: Human Vs Machine Intelligence: Some Lessons from Image Processing

Day 3

e-mail: pradip@iitg.ac.in
www.iitg.ac.in/~pradip/

Five days Online Faculty Enrichment Program (FEP) on
Computational Methods for Artificial Intelligence, Machine Learning and Blockchain Technology
Amity University Haryana
7th July 2021

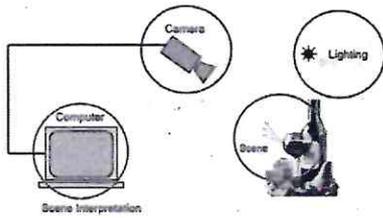

The following key points were highlighted:

- Discussed about the computer vision by specifying that it is a technique that deals with developmental of theoretical and algorithmic basis by which useful information about 3D world can be automatically extracted and analyzed from multiple 2D images of the world.
- He explained the different components in computer vision and specifies that from a given a partial iamge the complete image can be developed.
- He stressed that algorithms in computer science should be developed targeting to real world problems.
- Through the series of experiments he demonstrated that light makes object appear different sometimes than what they actually are known as illusion. Thereby, he stressed out that element of distance biased our decision.
- Discussion was carried out that Human Vision is capable of different task that includes: recognizing people and objects, navigating through obstacles, understanding mood in the scene and formulating the stories. Further he discussed that there are certain limitations that exist in human vision that includes: suffers from illusion, ignore many details, amigious description of the object and does not care about accuracy of the details.
- Discussion was carried out on the design considerations for objects detection in a scene that depends on following factors: possible object placement, detection and localization of objects and categorization of objects in the scene.
- Further, design issues for mobile robots in an unfamiliar territory was discussed that covers the following factors: constraining the paths, movement behavior learning and safety of sensors.

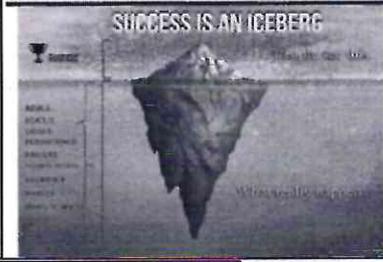

Registrar

Amity University Haryana
Manesar, Gurgaon-122413

Components of a Computer Vision System

A Picture is Worth 100 Words!

Human Vision

- Capable of doing these tasks easily:
 - Recognize people and objects
 - Navigate through obstacles
 - Understand mood in the scene
 - Imagine and formulate stories
- But still, it is not perfect...
 - Suffers from illusions
 - Ignores many details
 - Ambiguous description of the world
 - Doesn't care about accuracy of the details

Design considerations for objects detection in a scene

- Possible object placements
- Detection and localization of objects
- Categorization of objects in the scene

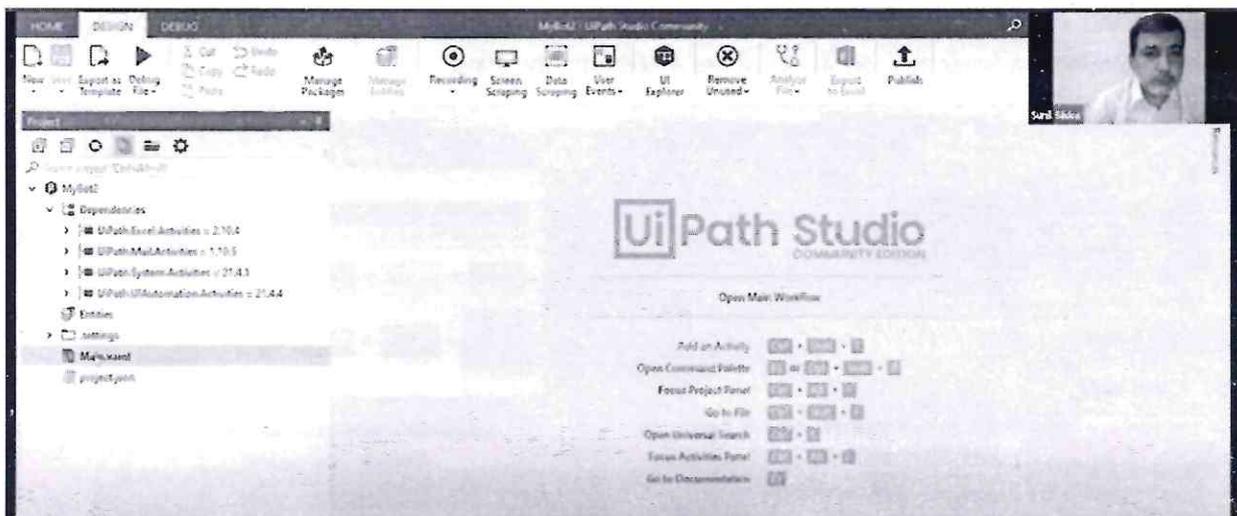

Design issues for mobile robots in an unfamiliar territory

- Safety of devices/sensors/personnel
- Constraining the paths
- Movement behavior learning (learn from the environment...)
 - Learn from nature

Day 3rd : 7th July 2021 – Wednesday: Noon Session

Speaker : Dr. Sunil Sikka, Amity University Haryana

Topic: Robotic Process Automation in Action

Dr. Sunil Sikka delivered a practical session on Robotic process automation (or RPA). He explained that RPA is a form of business process automation technology based on metaphorical software robots (bots) or on artificial intelligence (AI)/digital workers which is sometimes referred to as *software robotics*.

The concept was explained using the UiPath as one of the robotic process automation tools for large-scale end-to-end automation. He explained methods for an accelerated business change, and discussed few solutions for businesses to automate routine office activities. The application easily transformed tedious tasks into automated processes.

Registrar
Amity University Haryana
Manesar, Gurgaon-122413

The demonstration showed how the technology combines emulating humans read computer screens (AI Computer Vision) with APIs, and gives users access to prebuilt automation components that can be combined to automate routine processes. The session was highly interactive as most of the participants were new to this domain. Their interest in developing Bots was reflected through the quantum of queries asked in the Q & A session.

Day 4th : 8th July 2021 – Friday : Morning Session

Speaker - Dr Sandeep K Panda, Associate Professor, ICFAI University, Hyderabad

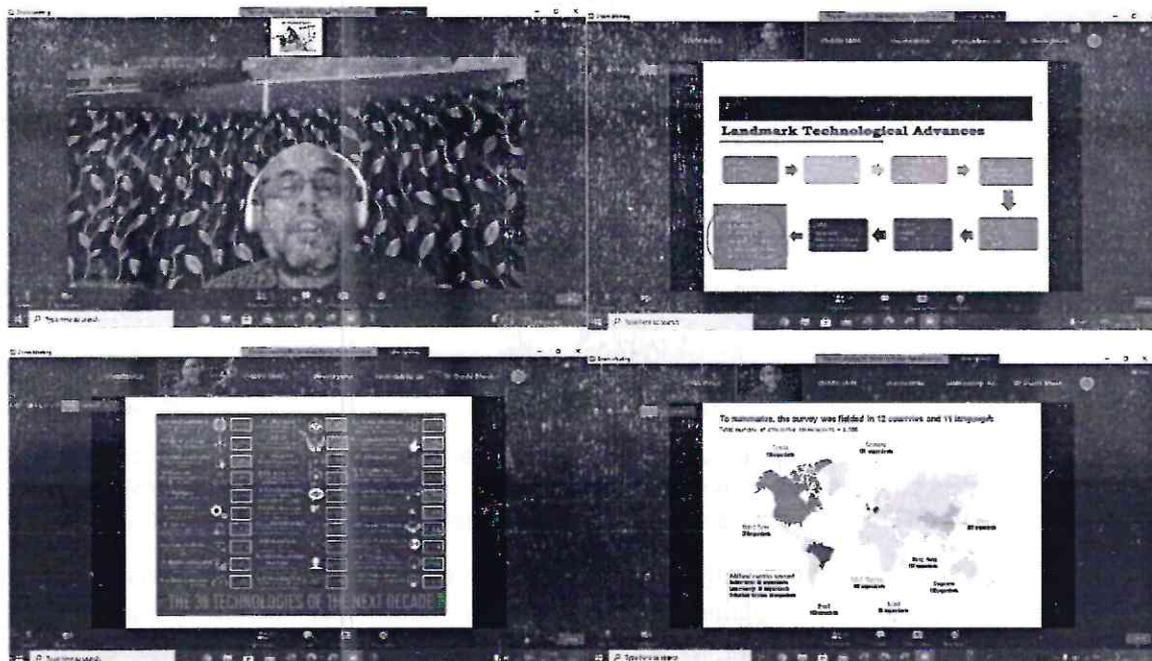

Topic: 'Blockchain Technology : Applications and Challenges'

He discussed about the topic, Bit Coins and Crypto currency and about the tremendous growth of bit coin. Also, there was discussion about the various blockchain networks like centralized, Decentralized and distributed ledgers.

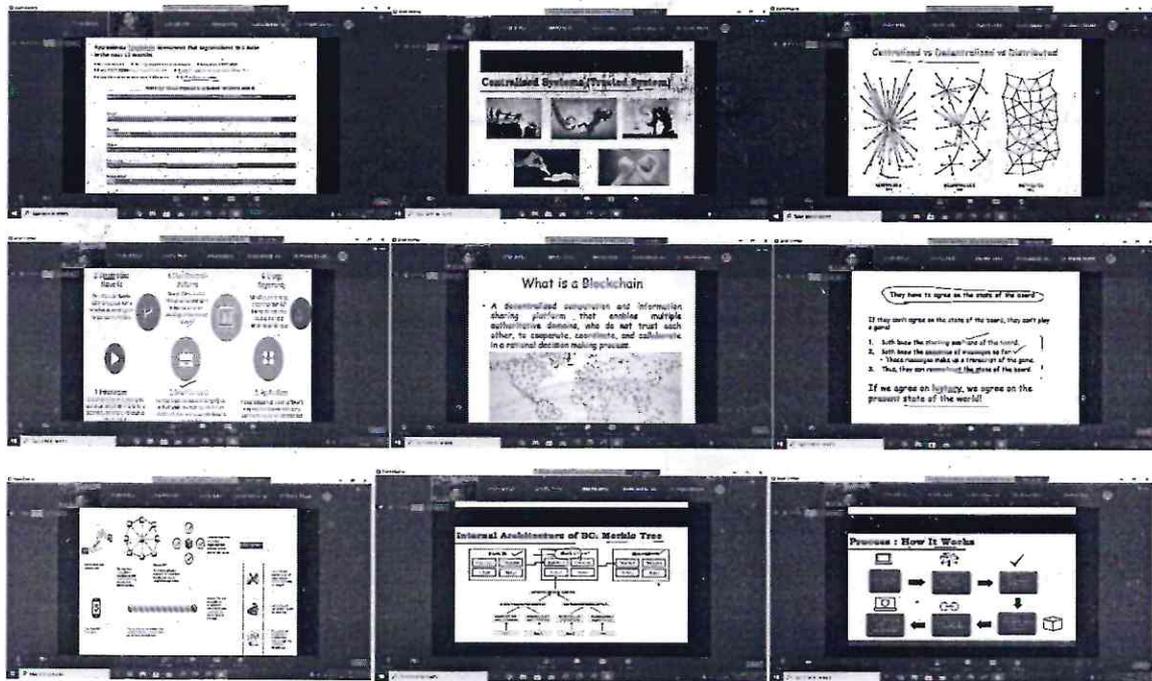

He spotted about the Architecture of Blockchain(Merkle Tree) and the process of its working where adding new blocks to the chain were understood. There were few more points those were covered up like Ethereum platform and ether, Permissioned Blockchain and incentive designs, Decentralized apps and many more.

The speaker presented the milestone timeline from December, 2013 untill date with all the different testnet clients. There are various applications running like smart energy, smart transportation, smart healthcare etc. which use blockchain.

There were some realtime projects discussed during the presentation like Oaken project(USA), LaZooz Project(Israel) , Dova(England) and few more. Lastly there was a nice query session where the questions related to encryption, security , tokens etc where asked from the guest.

Day 4th : 8th July 2021 – Friday : Noon Session

Speaker - Dr Anuj Kumar Singh, Assistant Professor, Amity University Gurgaon, Haryana

Topic : Blockchain Development in JavaScript

'createNewTransaction'- Elaborated

- On our blockchain there are lot of people who will be making different transactions.
- Every time a new transaction is created, it's going to be pushed to newTransactions array.
- However, they get recorded in our blockchain only when a new block is mined (created).
- I.e. until a new block is mined, these new transactions are pretty much pending transactions.

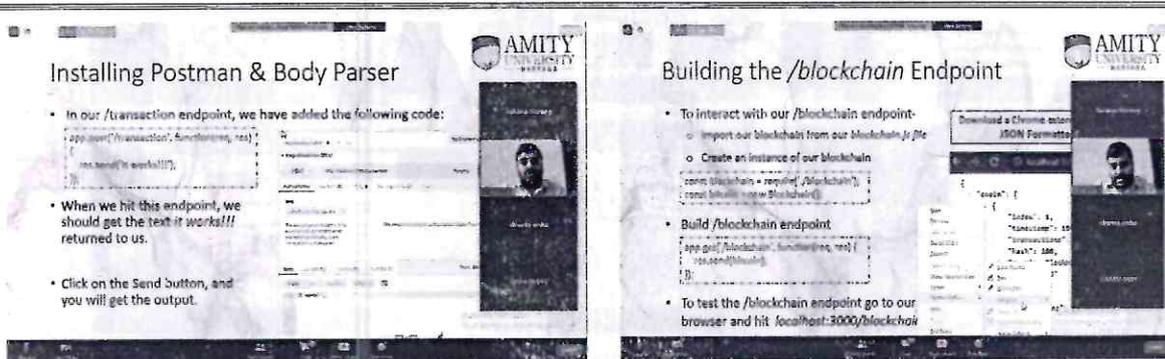

Understanding Proof of Work (PoW)

- proofOfWork method will take in the currentBlockData and previousBlockHash.
- From this data, the proofOfWork method will try to generate a specific hash.
- This specific hash will be generated after solving a cryptographic puzzle.
- This specific hash in our blockchain is going to be a hash that starts with four zeros.
- With the given currentBlockData and the previousBlockHash, the method somehow generate a resulting hash that begins with four zeros.

Building the API Foundation

- We're going to build the following three endpoints in our API to start with:
 - The first endpoint is /blockchain - allows us to fetch our entire blockchain data.
 - The second endpoint is /transaction - allows us to create a new transaction.
 - The third endpoint is /mine - allow us to mine a new block by using the proofOfWork.
- We shall build our API in dev/api.js file.

Manesar
 Registrar

 Manesar, Gurgaon-122413

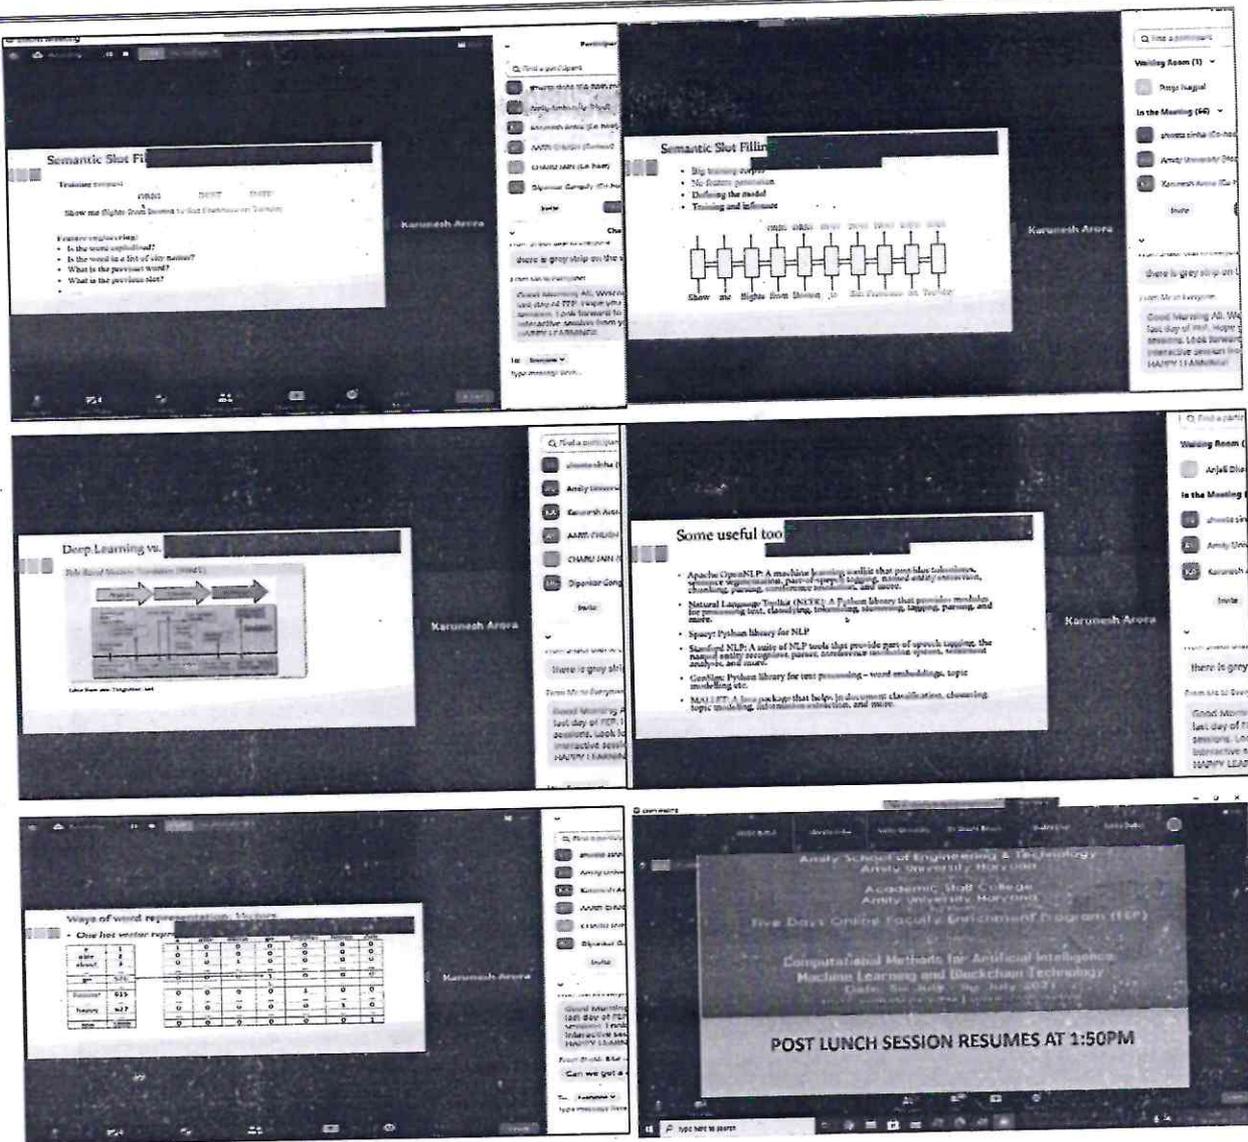

Day 5th : 9th July 2021 – Friday : Morning Session

Speaker : Dr Karunesh Arora, Sr. Director (SNLP), C-DAC Noida

Topics : Natural Language Processing

Dr Arora started the session with a brief outline of NLP domain. Around 82 participants attended the session. He discussed several application domains and their challenges. In his talk he discussed the importance of context while referring to word ambiguity. One of the important area of NLP; the named entity recognition was also highlighted by Dr Arora. He discussed the nuances of deep learning and its application in Natural language processing. His talk let the participants discover the difference between processing based on Deep Learning and traditional approaches of NLP. In his session DR Arora also discussed more complex aspect of NLP i.e., Speech Processing. The methods for speech and speaker identification was highlighted. At the end Dr Karunesh Arora shared with the participants all the available resources and software tools like open CV, open-NLP etc. that can be helpful in NLP processing.

 Registrar

 Manesar, Gurgaon-122413

Day 5th : 9th July 2021 – Friday : Noon Session

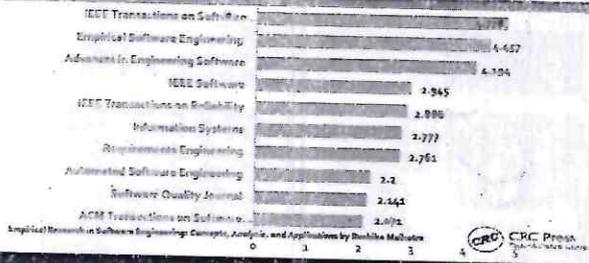

Speaker : Dr Ruchika Malhotra,

Topics : Empirical software engineering: analyzing experimental data and future directions.

Dr Malhotra in her talk discussed aspects of data analysis method . Around 80 students participated in the session. Dr Ruchika emphasized the importance of understanding of the problem and algorithm. The talk was focussed towards the empirical aspects of software engineering research. The major steps like data selection, data cleaning, application of machine learning algorithms was talked about. Dr Malhotra outlined the importance of clean and balanced data. Importance of Parameter tuning for optimal result was discussed.

Top Software Engineering Journals (Impact Factor)

Ruchika Malhotra

Concerns in Machine Learning Techniques

- Data must be preprocessed. It may help in increasing the accuracy of the models.
- A suitable learning algorithm must be selected for model development.
- The model must be checked for multicollinearity effects.
- The training and test data must be as independent as possible as new data is expected to be applied for model validation.
- The parameter setting of machine learning techniques may be adjusted (not over adjusted) and should be carefully documented to produce repeatable studies.

Empirical Research in Software Engineering: Concepts, Analysis, and Applications by Ruchika Malhotra

Ruchika Malhotra

Study Definition

- The first step involves the definition of the goals and objectives of the empirical study.
- This phase is divided in the following parts:
 - Scope – What are the dimensions of the study?
 - Motivation – Why is it being studied?
 - Object – What entity is being studied (Product or process)?
 - Purpose – What is the aim of the study?

Empirical Research in Software Engineering: Concepts, Analysis, and Applications by Ruchika Malhotra

Ruchika Malhotra

Step III: Model Construction using Learning Algorithm/Techniques

- After the data has been partitioned, the next step is to train the model using the training data.

Empirical Research in Software Engineering: Concepts, Analysis, and Applications by Ruchika Malhotra

Ruchika Malhotra

Once the sessions were over an online assessment was taken to help identify the learning of students. The FEP concluded with a vote of thanks by Dr. Vikas Thada.

VALEDICTORY SESSION

On the 5th Day of Faculty Development Programme, the special guests were also invited. The speakers were praising the FDP and were sure that there will be an outcome. Dr. Ruchika Kulshrestha, FDP coordinator took the participants to throwback journey of 5 days in 5 mins.

Prof. Paramita Suklabaidya, Director, SoTHMS, IGNOU focused on current Indian Heritage Management and what new can be done.

Prof. Sandeep Kulshreshtha, IITTM Gwalior focused on guide training for heritage monuments.

Mr. Ravi Gosain, Vice President IATO, gave insights on Heritage monuments and its various ways to conserve and protect.

Mr. Arunangshu Bhattacharya, Dy. Director, Amity School of Hospitality, also gave his thanks to the speakers and participants for joining us.

The last day of the five-day FDP concluded with a vote of thanks given by Dr. Kunal Seth, Professor, Amity School of Hospitality, Amity University Haryana. Dr. Ruchika Kulshrestha expressed gratitude to the Prof. P.B.Sharma (Hon'ble Vice-Chancellor AUH), Prof. Padmakali Banarjee, Pro VC AUH, AICTE – ATAL Academy, University Authorities for their support and encouragement.

3.2 Objective of the Event

1. The aim of the FDP was to enable key participants, through targeted training, to independently transform heritage assets from decaying objects of study to dynamic sources of learning, community identity and economic development.
2. The purpose of a heritage management system is to ensure the effective protection of the cultural properties for present and for future.
3. To recognize that all forms of cultural heritage in India are valued as equal in importance.
4. To promote understanding across diverse communities of the communal value of heritage.
5. To develop, maintain and support a wide network of contacts and volunteers dedicated to the preservation of cultural heritage through effective practices.
6. To provide practical knowledge and simple technologies to protect and preserve cultural heritage.

Outcome Report (FDP Organized @ ACNT, AUH)

1. General Information

Date: 12th July - 16th July 2021

Event Type: Five Days Online Faculty Development Program (FDP)
Event Title: 'Recent Advances, Trends and Challenges in field of Nanotechnology'

Venue: Zoom

Organized by (School): ACNT (Amity Centre of Nanotechnology)

Student Participation*: No. of Students and faculty members from AUH and outside AUH:- 81

(Enclose attendance sheets in given format)

Event Coordinator(s) with designation:

- Program chair: Dr. Atul Thakur, Director ACNT
- Program chief coordinator: Dr. Lucky Krishnia, Assistant Professor, ACNT
- Program coordinator: Dr. Ankur Kaushal, Associate Professor

Details of Expert/Speaker/Resource Person/Judge:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	Address	Major Areas where Amity can Collaborate with expert	CV of Expert (Yes/No)
1	India	Prof Agnishwar Girigoswami	CARE, Chennai, India	Professor	Biomaterials for Nano Drug Delivery			Chennai, India	Nanotechnology	Yes
2	India	Dr. Sunil K Kushvaha	NPL, India	Principal Scientist	Scanning Probe Microscopy: Seeing at the Nanoscale			NPL, India	Nanotechnology	Yes
3	India	Prof SVS Rana,	CCSU, Meerut	Professor	Nanotoxicology present and future perspective			CCSU, Meerut	Nanotechnology	Yes
4	India	Dr Vinod Singh	DTU, New Delhi	Associate Professor	Gas Phase Synthesis of Nanoparticles			DTU, New Delhi	Nanotechnology	Yes

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved/Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers / Conference Papers/ Book Chapter etc.				
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.				
c) Collaboration for Funded Projects				
2. Outcome related to Industry Connect				
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene				
b) Benefit to society in terms of Education				
4. Outcome related to Students Learning & Grooming				
• Students exchange program				
5. Any other				

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

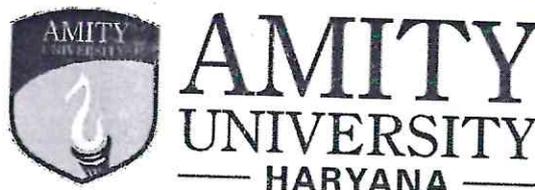

- Five days online faculty development program on “Recent Advances, Trends and Challenges in field of Nanotechnology” has been organized by Amity Centre of Nanotechnology in association with Academic Staff College, Amity University Haryana. This program has given various intellectual insights by profound and eminent scientists in the growing field of Nanotechnology. The University faculty needs to continuously update their knowledge in their chosen field of expertise as well as keep themselves updated with the 21st-century skills and technologies to deliver not only up to date knowledge but also to participate in the creation of new knowledge through engagement in Research and Development.
- 16 external eminent speakers from the diverse fields of Nanotechnology and around 80 participants from National and International Universities participated in the FDP. This FDP encouraged the teachers to become a change agent by adopting 21st-Century Knowledge and Character skills so that they should be at par on various aspects of Nanotechnology with national and global standards.

5.1 Objectives of the Event

The main aim of the FDP is to understand different concepts of Nanobiotechnology in terms of Biosensors. Furthermore, there will be joint research activities, exchange of faculty members for research, lectures, and discussions and there will be encouragement of the exchange of graduate and undergraduate students for research, learning and internship.

Program Schedule:

Program Schedule

Five Days Online Faculty Development Program (FDP)

On the topic

'Recent Advances, Trends and Challenges in field of Nanotechnology'

Date: 12th July - 16th

July 2021 Time –

10:00 AM-5:00 PM

Venue: Online (Zoom Meet)

First Day

Date: 12/07/2021 (Monday), Time: 10:00 AM-5:00PM

Time	INAUGURAL SESSION(10:00-11:00 AM)
10:00-10:05 AM	Welcome and Lighting of Lamp
10:05-10:20AM	Introduction to the FDP and Opening Remarks by Dr Atul Thakur , Director, ACNT, Amity University Haryana
10:20-10:40AM	Blessings by Hon'ble Vice Chancellor, Prof. P.B. Sharma
10:40-10:50AM	Vote of Thanks
	TECHNICAL SESSION – I 11:00 AM-1:00 PM
10:50-12:15 PM	<ul style="list-style-type: none">• Speaker 2: Prof Agnishwar Girigoswami, CARE, Chennai, India• Topic: Biomaterials for Nano Drug Delivery

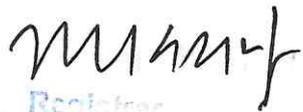

Registrar

5.2 Brief about the address/talk of speakers

The program was inaugurated by Prof. P. B Sharma, Vice Chancellor, Amity University, Haryana by giving his blessings. He also talks about the role of Nanotechnology in different fields like Agriculture, Diagnostics, Environmental Science etc. He started his talk by emphasizing on global aspects of Nanotechnology and especially its origin at Amity University, Haryana. There are eminent scientists working on different aspects of Nanotechnology viz. radar absorbing materials, antenna miniaturization, high density memory storage, diagnostics, diamonds etc. He also focused upon role of Nanotechnology in water purification and talked about the ongoing project at the Centre of Nanotechnology. He also talked about nano fertilizers and their role in crop improvement. At the end he welcomed all the invited speakers, faculty members and research scholars who joined faculty development program.

The program progressed with the inaugural lecture by **Prof Agnishwar Girigoswami, CARE, Chennai, India** in which he focused on the use of different biomaterials for nano drug delivery. His talk started with the basic information about normal/targeted drug delivery, its delivery route, transdermal drug delivery systems and concept of sustained release and controlled release drug delivery patterns. He explained about different biomaterials like polymers, magnetic nanomaterials and other liposomes for efficient drug delivery vehicles in a detailed manner. He gave an example of neem coated urea and its increased efficiency in crop improvement for about 40% in comparison to normal urea.

The next speaker was **Dr. Sunil K Kushvaha, Principal Scientist, NPL, India**. He mainly talked about the research in the area of Scanning Probe Microscopy (SPM), its applications which was followed by a brain storming session. He started his talk by explaining the basics of nanoparticle synthesis, their characterization using different microscopic techniques. He talked about top down, bottom-up approach of nanoparticles synthesis and their limitations. He also explained about 2D and 3 D particle formation with the physics behind it and discussed about thermoelectric power of new materials and explained about See Beck coefficient measurement.

Our speaker on day 2 of FDP **Prof SVS Rana, CCSU, Meerut** talked about nanotoxicology present and future perspectives. His talk mainly focused up on role of quantum dots in nanotechnology and their role in daily usage and role of nanomaterials in the treatment of immune disorders, male infertility problems etc. He also described toxicological profile based on size, explained in detail about clathrine pathway (internalization of nanoparticles) and emphasized on toxic effects of different nanoparticles (CNT etc.) on water bodies.

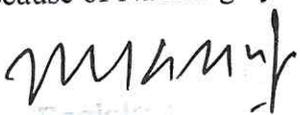

The next speaker was **Dr Vinod Singh, DTU, New Delhi** and talked about gas phase synthesis of different nanoparticles. He started his talk by showing the instrumentation part of gas phase synthesis and consists of two steps: 1. Particles Generation 2. Particle's deposition. In this instrumentation set up, DMA (Differential mobility analyzer) classifies the particles because of their electrical mobility. Particles with a narrow range of electrical mobility can exit through the slit at the bottom of the inner cylinder. Another set up is SMPS (Scanning mobility particle sizer) and used to measure the online particle size distribution. He also talks about elemental mapping and HRTEM.

Afternoon session of day 2 had **Dr. Ratesh Revendran**, Director of CMET, Hyderabad who talked about indigenous development of miniaturized antennas for navigation with Indian constellation (NAVIC). He started his talk by addressing about his thrust areas that are nanomaterials & devices, piezo sensors and actuators, materials for renewable energy, ultra-high pure materials and electronics packaging. Currently, he is working on hafnium (chemical element) and successfully established a hafnium production plant in association with ISRO. He is also working on ceramic antenna and composite antenna that are suitable for high volume mass production. He also highlighted about E-waste and the technology used to recycle different E- Waste (waste electrical electronic equipment).

The next speaker was **Dr Sanjay Kashyap, Thapar University, Punjab** who talked about in-situ real time nucleation and growth studies of protein template magnetic nanocrystals. He started his talk with the introduction of magnetotactic bacteria and explained its use in the development of magnetic nanoparticles by using a protein. Continuing with this, he explained the correlation between electron and fluorescence microscopy of magnetotactic bacteria in liquid. He conducted his studies in *Magnetospirillum magneticum* and explain the correlative fluorescence and STEM imaging of viable cells of *M. magneticum*.

Day 3 of the FDP had a lecture by **Dr M S Mehta, DTU** who talked about Production of Fluorescent Nanoparticles and their Applications. He started his talk by giving the introduction on nanomaterials, quantum dots, photo luminescence, fluorescence and synthesis and characterization of the quantum dots and 2D materials. Different approaches have been designed for the synthesis of these materials like colloidal synthesis, electron-beam lithography and molecular beam epitaxy etc. He also talked about the application part of quantum dots that includes their biological applications and showed the simple mechanism of collisional quenching.

The next speaker was **Dr R S Dhaka from IIT – D, New Delhi** who talked about electrode materials for Na-ion Batteries. He emphasized on green energy, storage, management and its usage. He preferred Na ion batteries over Li ion just because of Na is highly abundant and uniformly distributed in

Ragini
Amity University Haryana
Manesar, Gurgaon-122413

earth crust. So, he is preparing Na ion batteries by synthesizing the electrode materials using solid state, hydrothermal and sol gel methods.

Afternoon session of day 3 had **Dr. Manika Khanuja, JMI, Delhi** who talked about advanced nanostructured materials for clean science and technology. She started her talk by giving the introduction about overload of antibiotics and their side effects up on human health as well as on water bodies. Use of antibiotics has drastically increased especially in the Corona time that is affecting our environment. So photocatalysis is a process that utilizes the solar energy to convert antibiotics waste into nontoxic products. Moreover, 80-90% of the world's antibiotics are made in factories in India and China. Hundreds of fishes also died as COVID-19 medicines that is due to rise of toxicity in water. Different dyes that have been used in industries also damaging our water bodies. So, in the end she focused on the use of photocatalysis using different nanoparticles (ZnO nanorods, Cu doped ZnO nanorods) for recovery and degradation of dyes.

The next speaker was **Dr Paresh Patel, Uka Tarsadia University, Gujarat** who talked about green and sustainable approach for nanomaterial synthesis: their applications in chemical science. These green nanoparticles are very much stable, nontoxic and proved the test for catalytic heterogeneity.

Day 4 had a talk by **Dr Dhruv Pratap Singh, IIT Bhilai** about Design and Applications of Nanomotors. He started his talk by giving the introduction of nanomotors, use of nanomotors and the application part of nanomotors. These nanomotors can kill harmful pathogens, used in diagnosis, water cleaning and used in targeted drug delivery. So nanomotors are the combination of nano machines, nano robots and nano vehicles. He also explained the design principle of very important Janus particle, light driven nanomotor and fabrication part of nanomotors. Fabrication can be done using physical deposition, electrodeposition as well as with the help of chemical methods.

The next speaker was **Prof Ravi Kumar from NIT, Hamirpur** and talked about development of p type transparent conducting oxides. He started his talk by giving a introduction about ion implantation and irradiation, metastable structure and synthesis of nano-clusters. His talk also enlightened about optical wave guide, non-linear optics, magneto-optic device, magnetic memories and photonic devices. So, the main aim of his talk was the growth of nanomagnetic clusters and their dependence on the microstructure of host matrix. He also explained about different characterization techniques like AFM, MFM, spectroscopy etc.

Afternoon session of day 4 had our own **Vice Chancellor, Prof. P.B. Sharma, Ananya University Haryana** who talked about the advent and advancement of Nanotechnology. He started his talk with the research background, facilities at. He also talked about the role of Nanotechnology in different fields like Agriculture, Diagnostics, Environmental Science etc. viz. radar absorbing materials, antenna

miniaturization, high density memory storage, diagnostics and diamonds etc. He also focused upon role of Nanotechnology in water purification and talked about the ongoing project in the Centre of Nanotechnology. He also talked about nano fertilizers and their role in crop improvement.

- Our next speaker was **Dr. Khusboo Aggarwal from Lanchester University, UK** who talked about thermal transport and thermo electricity in 2D based nanocomposites. She started her talk with the introduction of thermoelectric effect, Seeback effect and thermoelectric performance. She also explained about the enhancement process of ZT value and how alloying can improve the thermoelectric properties. She also focused on nanocomposites and their role in the modification of electron and proton transport.

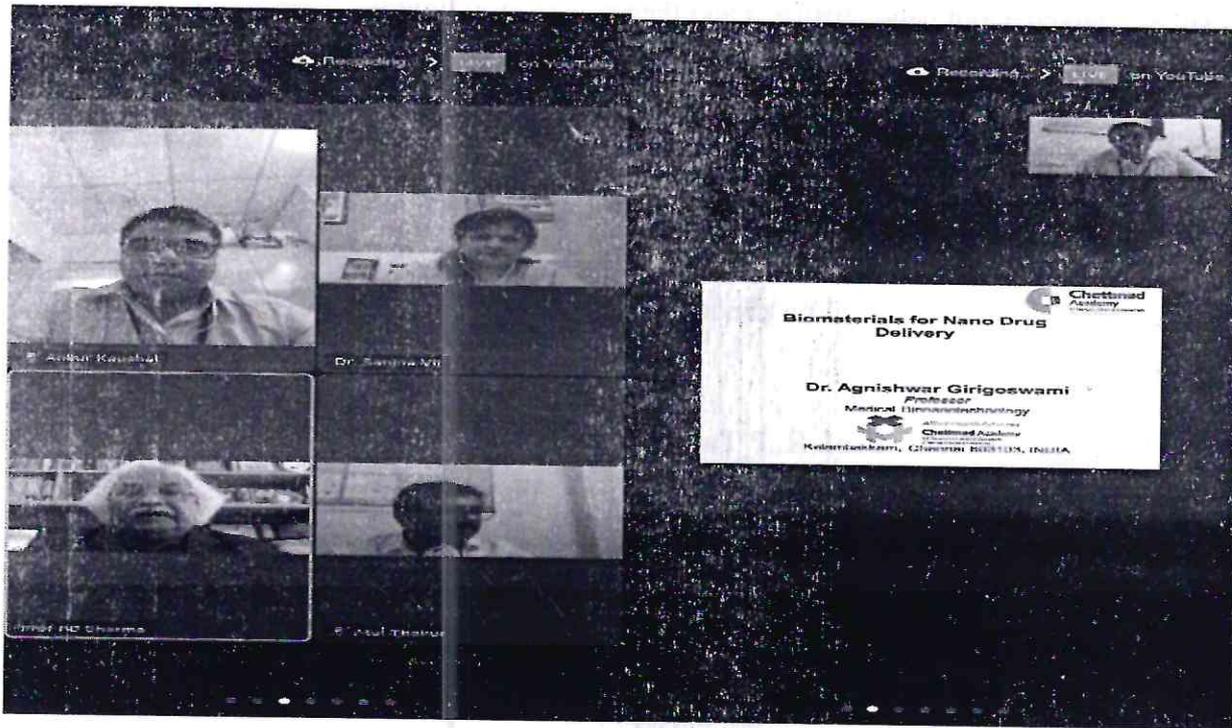

Day 5 of the FDP had a lecture by **Prof. R. P Tandon, Delhi University** on Nanotechnology for Sustainable Development. He started his talk with the introduction of Nanotechnology, nanomaterials, evolution of materials over time and advance materials like ceramic materials, ferroelectric materials, thermoelectric materials and carbon nanotubes. He talked about renewable sources of energy harvesting of energy, and explained about different nanoparticles characterization techniques like AFM, SEM. Continuing with his talk he enlightened about synthesis, application part of quantum dots and talks about new emerging field that is Nano-motor, metamaterials.

The next speaker **Dr. Raghunath Bhattacharya from IEST, Kolkata** and talked about some recent advances about Nanomaterials Based Devices for Renewable Energy and Sensing Applications. He is currently working on solar photovoltaic based on silicon, sensors, biogas, microgrid based on renewable energy and solar PV based systems. He also talked about nano agriculture and plasmonics that based on nanostructured materials to control light.

So, to conclude from 5 days of FDP on Nanotechnology clearly it can be said that nanotechnology promises to hold a bright perspective in diverse fields ranging from healthcare, environment, defense, agriculture, electronics devices and many more.

Biomaterials

Biomaterials have improved the delivery and efficacy of a range of pharmaceutical compounds including antibodies, peptides, vaccines, drugs and enzymes.

The physicochemical properties of biomaterials and their intended route of administration can be systematically tailored to maximize therapeutic benefits.

Zoom Meeting | Prashant Dahiya | Atul Thakur | Dr. Sanjna Vij | Dr. Lucky Krishna | Prof. P.D. Sharma

Problems associated with conventional dose delivery methods

- ✓ Drug administration required frequent, repeated doses.
- ✓ Upon administration, drug levels increase but toxicity arises when the concentration rises above the maximum safe levels
- ✓ Rapid drug level decreases to concentrations that are no longer therapeutic.
- ✓ Wasted drug and material, and increased risk to patients due to reduced therapeutic efficacy as well as potential toxic side effects

Nanostructures - Basics

Characterization techniques

- Scanning Probe Microscopy (SPM) techniques
 - Scanning tunneling microscopy (STM)
 - Atomic force microscopy (AFM)
 - Spin-polarized STM (SP-STM)
 - Magnetic force microscopy (MFM)
 - Lateral or Friction force microscopy
 - Scanning thermal microscopy (SThM)
 - Other SPM family: Kelvin probe microscopy, SNOM
- Transmission electron microscopy (TEM)
- Scanning electron microscopy (SEM)
- X-ray Photon spectroscopy (XPS), Various spectroscopic techniques

Activate Windows
Go to Settings to activate Windows

Nanostructures - Basics

Self-assembled Nanostructures

- Formed in growth environment taking advantage of some energetic, kinetic and geometric effects
- Metastable structures (hopefully with novel properties)
- No need of lithography, Very low cost, Parallel process
- The remaining problems: precise control of size, shape, type and location of nanostructures
- Understanding of growth mechanism: effects of kinetics, surfaces, thermodynamics and mechanics

Bottom-up growth of multilayer CNTs

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event: The main purpose of this FDP is to introduce the data visualization tool, how to navigate the tableau software, connect data files, how to use aggregations in tableau, to summarize information and how to use granularity to ensure accurate calculations. This hands-on workshop will demonstrate on how to use tableau to solve business problems and research problems. This FDP will focus on creating high-impact visualizations of common data analyses to understand data and to create various charts, maps, scatterplots, and interactive dashboards for business projects.

3.1 Inspiration & Objectives of the Event: To create high-impact visualizations of common data analyses to understand data. • To navigate the software, connect it to a data file, and export a worksheet, so even beginners will feel completely at ease. • To create various charts, maps, scatterplots, and interactive dashboards for business projects. • To join or blend data in order to work with and present information from multiple sources

3.2 Brief about the address/talk of speakers: Data Visualization and its significance • Installation and Introduction of Tableau • Connecting Tableau to different data files, navigating Tableau, creating calculated fields, data formatting, and exporting of worksheet • Working with data extracts, time series data, aggregation and granularity and level of details • Data filtration, Maps, Scatter plots, Dual Axis Chart • Data joining and blending • Working with Hierarchies • Creation of Dashboard • Story telling • Hands-on experience and practice of tableau functions on various business datasets

3.3 'Take Homes' for the Guest and Attendees : How to visualize different datasets and create interactive dashboard using Tableau

3.4 Future plan for utilizing the contacts developed with the Invited Guests: To conduct two more FDPs on visual analytics using Tableau and Data visualization using Power BI

3.5 Budget of the Event:

Photographs with caption (also share high resolution JPEG files of photographs)

Directorate of Outcome

Outcome Report(Event/Activity Organized @ AUH)

1. General Information

Date 26-30 July 2021

Event Type: FDP (Faculty Development Program)

Event Title: RESEARCH METHODS USING SPSS

Venue: AUH (ONLINE)

Web/Video Link of the Event:

Organized by (School): AMITY BUSINESS SCHOOL (ABS)

Student Participation*: No. of Students from AUH (Course wise): Approx. 45 (PhD Scholars)

Faculty Participation*: No. of Faculty Members from AUH (Deptt. wise):- 1 (ABS, AUH)

Participation from outside AUH*: No. of Students & Faculty Members- 35

(Enclose attendance sheets in given format)

Event Coordinator(s) with designation: Dr Hemant Sharma, Professor

Details of Expert/Speaker/Resource Person/Judge & Criteria of Inviting:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	Recommended by	Major Areas where Amity can Collaborate with expert	CV of Expert (Yes/No)
1	INDIA	Dr AMIT MITTAL	CHITKARA UNIVERSITY, PUNJAB	PROFESSOR AND DEAN-RESEARCH	MARKETING & HR	946732 7054		Dr HEMANT SHARMA	RESEARCH	YES
2	INDIA	Dr JASPREET KAUR	PEARL SCHOOL, NEW DELHI	ASSOCIATE PROFESSOR	MARKETING & HR	981188 2862		Dr HEMANT SHARMA	RESEARCH	YES
3	INDIA	Dr HEMANT SHARMA	AMITY UNIVERSITY HARYANA	PROFESSOR	OPERATIONS	875583 3728	hsharma@gn.amity.edu			

Criteria: SUBJECT EXPERTS

Were the guest known in advance and if yes, from what previous interaction? NO

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved/Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers / Conference Papers/ Book Chapter etc.				
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.				
c) Collaboration for Funded Projects				
2. Outcome related to Industry Connect				
a) Placement				
b) Collaborations for Research Papers				
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments				
d) Collaboration for Funded Projects				
3. Outcome related to Society Outreach				

How would you like to rate the diversity fo topics in the event?

1 2 3 4 5

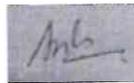

Poor Excellent

Any overall feedback for the event?

Satisfactory

Atul Thakur

(Atul Thakur)
Program Chair
Director, ACNT

(Ankur Kaushal)
Program Coordinator
Associate Professor, ACNT

a) Benefit to society in terms of Health & Hygiene				
b) Benefit to society in terms of Education				
4. Outcome related to Students Learning & Grooming				
<i>Participants learnt the process of reviewing the previous studies using meta- analysis. They had hands on sessions on SPSS to conduct complete EDA.</i>				
5. Any other				

3. Event Report along with glimpses of the event (Photographs)

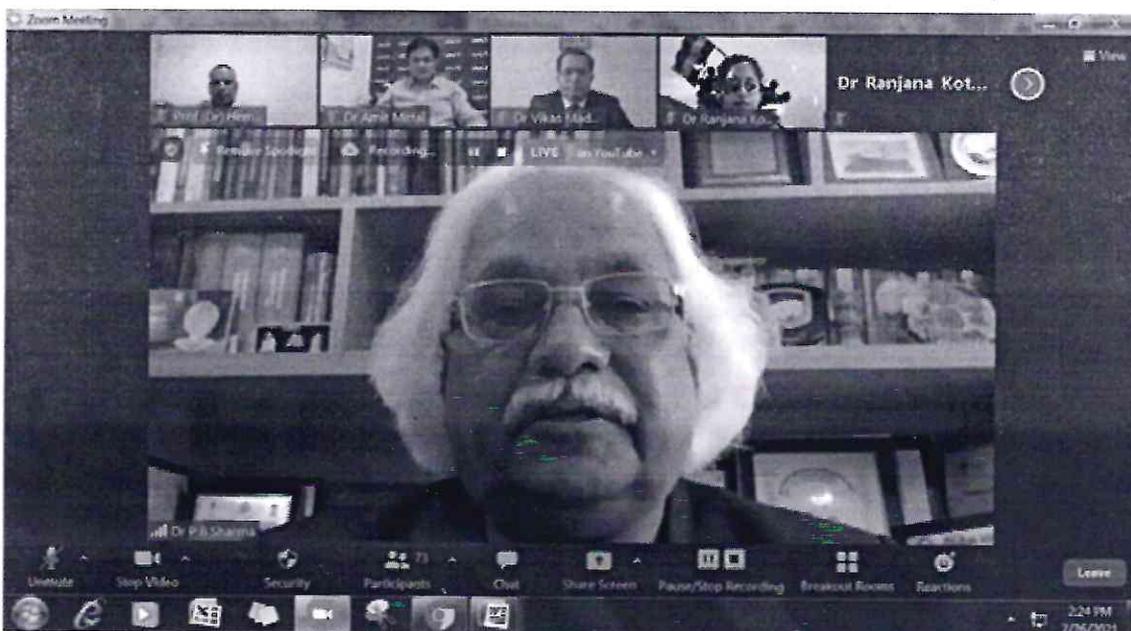

3.1 General Introduction of the Event

It was organised to provide a platform to our scholars and the scholars/teachers from other Universities where they can not only learn and develop their research skills but also share with each other.

3.2 Inspiration & Objectives of the Event

- To provide research stimulus to the participants.
- To equip participants with the fundamental knowledge of research, research methodology and different types of research designs.
- To provide basic knowledge of statistics, data handling and related research issues
- To give hands-on experience and practice of SPSS

3.3 Few Scanned feedback forms of participants

Participants Details Mentioned Below:-

1	Mrs. Preethy Dinesan	8384003491	preethydinesan@gmail.com	ACON	PhD Nursing Scholar
2	Mr. Ajay	9728356650	rao.ajay6650@gmail.com	Starex university	Research scholar

b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.	NA			
c) Collaboration for Funded Projects	NA			
2. Outcome related to Industry Connect				
a) Placement	NA			
b) Collaborations for Research Papers	NA			
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	NA			
d) Collaboration for Funded Projects	NA			
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene	NA			
b) Benefit to society in terms of Education	Tangible	Achieved	Achieved with the completion of the program (6.8.2021)	The sole purpose of the FDP was to educate faculties from within and outside the University on recent trends of integration of various disciplines into biomedical sciences. 07 faculties from our University and 30 faculties from other universities registered for this program and as evident from the feedback, most of them have benefited from the event.
4. Outcome related to Students Learning & Grooming				
	Tangible	Achieved	Achieved with the completion of the program (6.8.2021)	Though this program was designed for faculty development, we also allowed the students to register and get benefited from the lectures. Total 10 students registered and benefited from the program.
5. Any other				

3. Event Report along with glimpses of the event (Photographs)

General Introduction of the Event: Study of biological systems is best approached by incorporating many perspectives.

3.1 Inspiration & Objectives of the Event: Through this FDP, We bring together a diversity of disciplines that complement one another to unravel the complexity of biology.

3.2 Brief about the address/talk of speakers: We have tried to incorporate the physical sciences and engineering, and the social sciences, as appropriate, to problems we are addressing. Sciences are an amalgamation of work with animals, plants and other organisms and our FDP spans the levels of the biological hierarchy from molecules to ecosystems.

3.3 'Take Homes' for the Guest and Attendees

All the guests were satisfied after the talk since most of the sessions were very interactive and drew attention from the audience. The program was intended to update the knowledge of the faculty and to familiarize them about the integration of physical and computer sciences (which is outside their domain of expertise) into biomedical sciences.

3.4 Future plan for utilizing the contacts developed with the Invited Guests

This program was intended to benefit the faculties about the domains outside their expertise, and the talks were not typically research presentation which may lead to future collaborations. Nonetheless, the contacts of the speakers were shared with the participants, and if anyone wants, can contact the speakers.

3.5 Budget of the Event: CAPITAL EARNED = 18500/- INR

3.6 Photographs with caption (also share high resolution JPEG files of photographs)

You are viewing Dr. Anant Malik's screen

Interpretation

In a sample of 50 children with CP there is no significant relationship between age of the children and systolic BP, $r = 0.02$, $p = 0.80$.

Assuming non-normal distribution of either one of the variables, a non-parametric test was used (Spearman Rank correlation), $r = 0.025$, $p = 0.84$.

In either test, there is no linear relationship between age of patients.

- However the absence of a linear association does not mean there is no association between the age of these patients and their SBP.

Directorate of Outcome

Outcome Report(Event/Activity Organized @ AUH)

1. General Information

Date: 25 October-29 October 2021

Event Type: Five Days FDP (Faculty Development Program)

Event Title: Five Days FDP on Visual Analytics using Tableau

Event Theme: Data Visualization

Venue: Zoom Platform

Web/Video Link of the Event:

Organized by: Centre for Financial Analytics, Amity Business School (ABS), AUH

In collaboration with: Academic Staff College

Event Level: National

Participation*: 35 Participants from corporates and various universities

(Enclose attendance sheets in given format)

Event Coordinator(s) with designation: Dr. Vikas Madhukar, Deputy Pro-VC, director, Faculty of management studies, Dr. Vani Aggarwal, Assistant Professor-I, Amity School of Economics (Amity Business School); Dr. Hemant Sharma, Professor, ABS and Dr. Ranjana Kothari, Associate professor, ABS

Details of Expert/Speaker/Resource Person/Judge:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	CV of Expert (Yes/No)	Major Areas where Amity can Collaborate with expert	Recommended by
1	India	Dr. Vani Aggarwal	Amity University Haryana	Assistant Professor	Data Visualization/ econometrics /economics/ health economics	965422 8633	Vaggarwal1@ggn.amity.edu	Yes		

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph):

Dr. Vani Aggarwal, Assistant Professor and Program coordinator of MBA Business Analytics, Amity Business School, Amity University Haryana. Dr. Vani Aggarwal is currently working as Assistant Professor and Program Coordinator of MBA Business Analytics, Amity Business School, Amity University Haryana. She did her B.A (Economics Hons.) from Ramjas College, University of Delhi and Master of Economics from University of Hyderabad. She has a PhD in Health Economics from Amity University Haryana. She has more than 10 years of industry and academic experience, with special focus on data visualization, health economics, econometrics, and applied research. She is proficient in tableau, power BI, STATA, and other analytical tools and statistical software. With innovative and engaging pedagogy, she has trained students to understand the current development in the field of data visualization and growth opportunities after studying analytics. She has various publications in the reputed journals and books.

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)?

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

Data visualization is the graphical representation of information, and it allows us visual access to huge amount of data in easily digestible visuals. By using visual elements like charts, graphs, and maps, data visualization tools provide an accessible way to see and understand trends, outliers, and patterns in data. In the world of Big Data, data visualization tools and technologies are essential to analyze massive amounts of information and make data-driven decisions.

For data visualization, tableau is a flexible, simple yet power tool that provides a very intuitive platform to the users. The main purpose of this FDP is to introduce visual analytics, advanced interactive dashboards and how to solve business problems. This hands-on workshop will demonstrate how to analyze data and create advanced interactive dashboards. After the completion of the workshop, participants will be able to generate powerful visuals, analytical insights of various real time series datasets, reports and dashboards that will help to take better business and research decisions.

3.2 Inspiration & Objectives of the Event

- To create high-impact visualizations of common data analyses to understand data.
- To create table calculations, bins and parameter to simplify the data analysis.
- To create advanced interactive dashboards with storyline for business projects.
- To create custom territories and clustering of data points.

3.3 Brief about the address/talk of speakers

After the welcome address, Dr. Vani started with the basics of tableau and significance of data visualization on Day 1. Topic covered on the day 1; how to install tableau and tableau public, how to create bar charts, how to create area chart, how to using different functions such as colour, highlight, labelling, formatting etc.

On day 2, she covered the topics such as data joining and data blending using various data sets. Also, participants created their first dashboard and added the interactivity to the dashboard.

M. Vani

On Day 3, she explained how to create calculated field, table calculation, bins, and parameters. Participants created different worksheets using these function. Further, she demonstrated that how to create advanced dashboard and add interactivity.

On Day 4, she started with a exercise on customer segmentation dashboard and then explained story telling. Further she explained how to prepare data in tableau using functions such as pivot, split etc.

On day 5, participants worked on real time series data and created an advanced dashboard. Also, Dr. vani demonstrated on cluster and custom territories and how to prepare data from pdf file. Dr. Vikas Madhukar concluded the session with a vote of thanks. Participants provided their positive feedback about the FDP and the speaker.

3.4 'Take Homes' for the Guest and Attendees

- How to install tableau and understanding tableau interface.
- How to create bar chart, area chart, dual axis chart, tree map etc.
- How to do data joining and data blending
- How to create calculated field, table calculation, bins and parameters.
- How to create advanced customer segmentation dashboard and add interactivity to it.
- How to generate story telling to provide insights.
- How to prepare data in tableau using functions like pivot , split etc.
- Understanding on cluster and custom territories.

3.5 Future plan for utilizing the contacts developed with the Invited Guests

Dr. Vani will conduct more workshops on data visualization tools and statistical software in near future.

3.6 Budget of the Event(Budget Sanctioned, Total Expenditure & Revenue Generated):

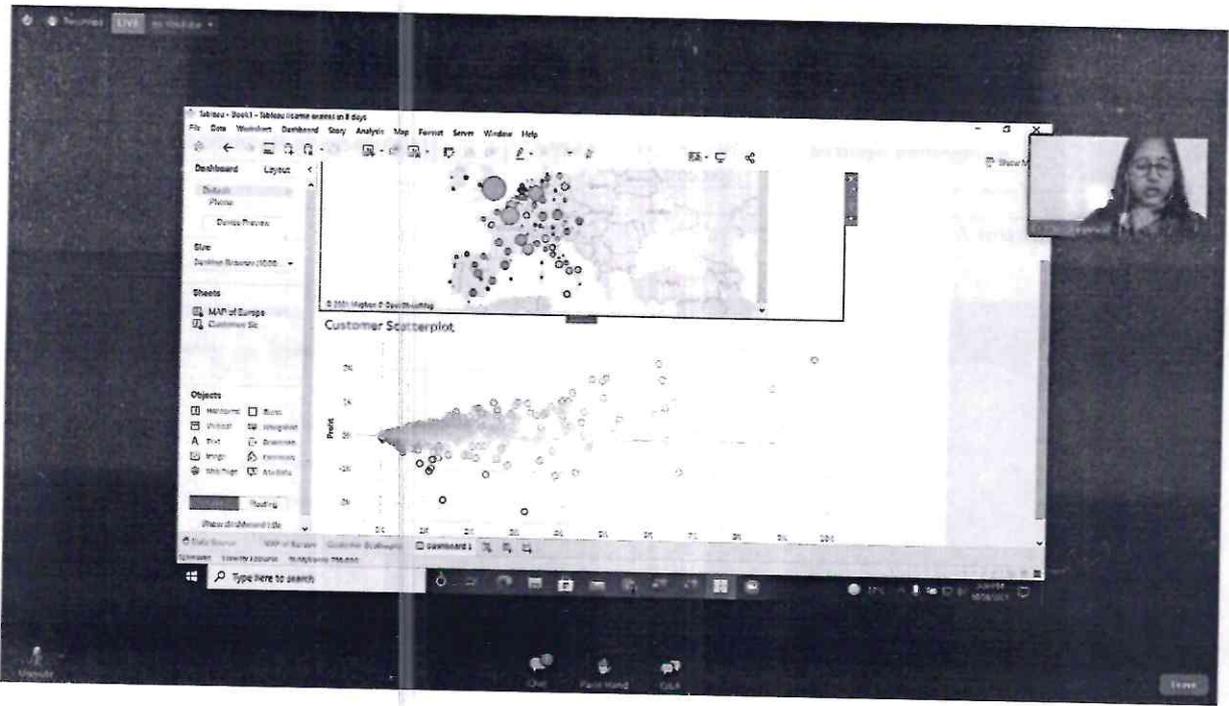

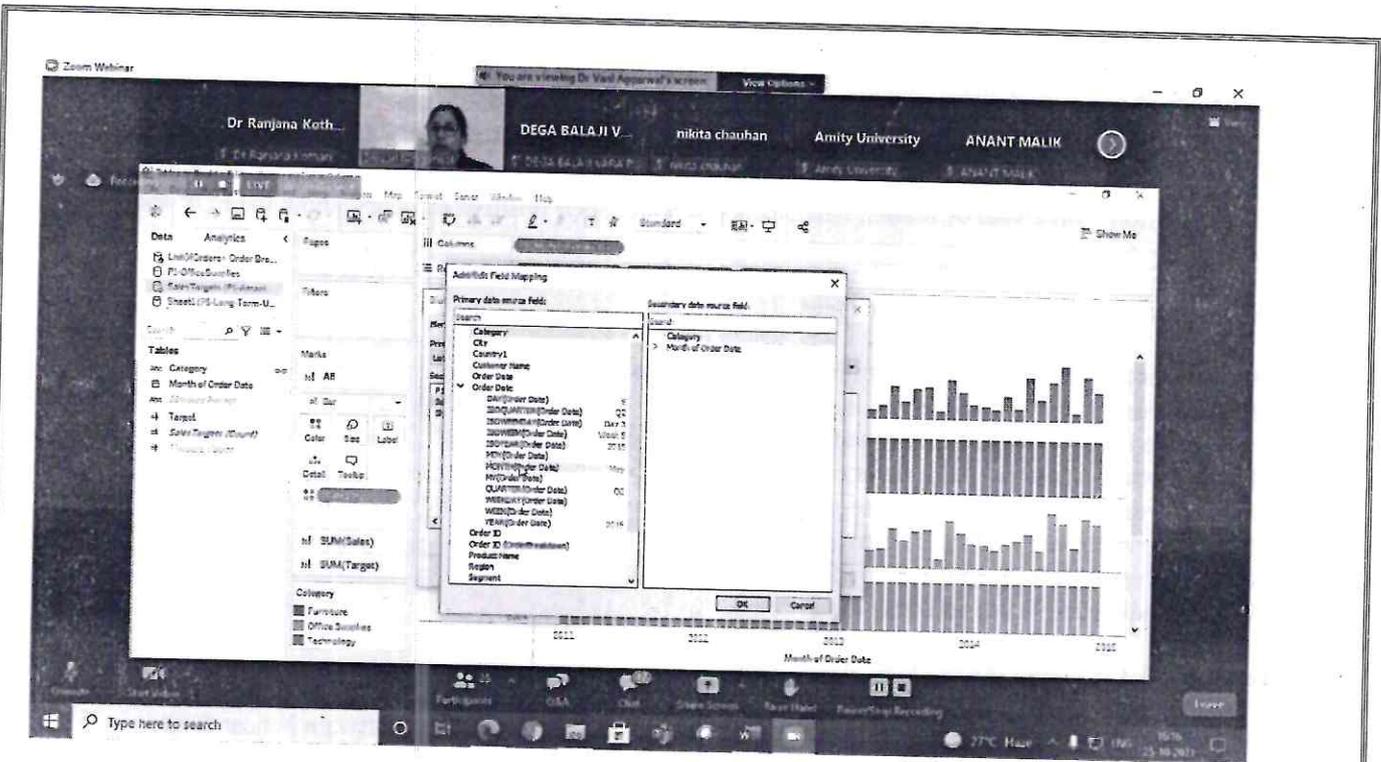

Revenue Generated: $(600 * 35) = \text{Rs. } 21000$ (Rs.600 registration fee per participant)

3.7 Details of Awards if Any:

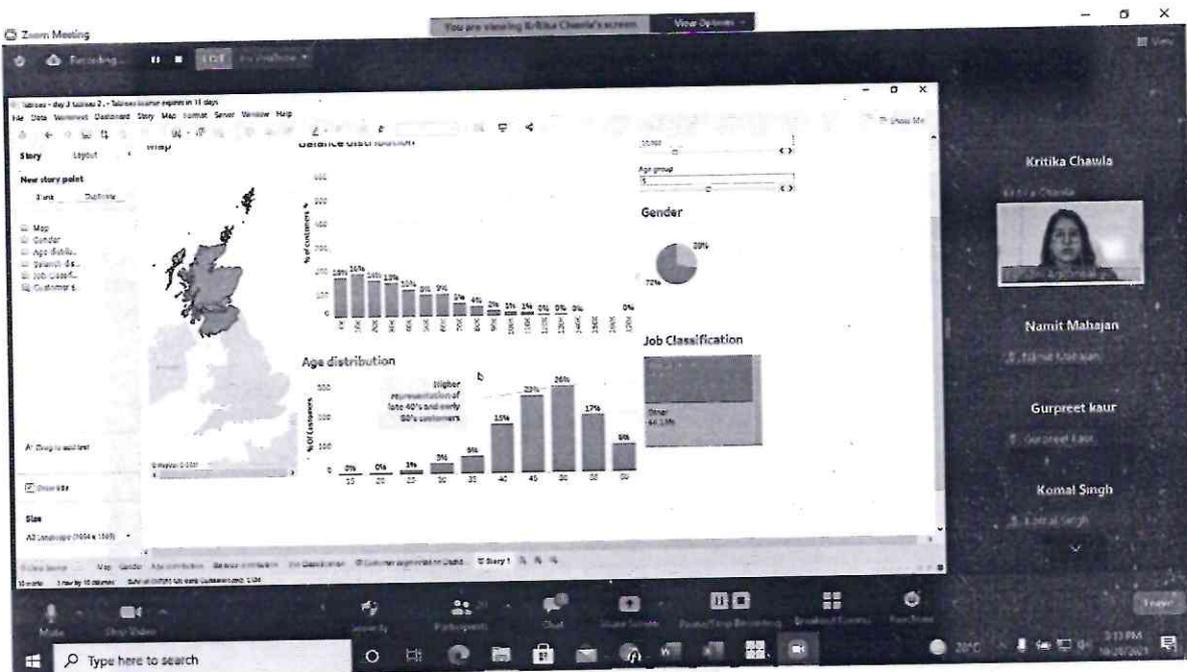

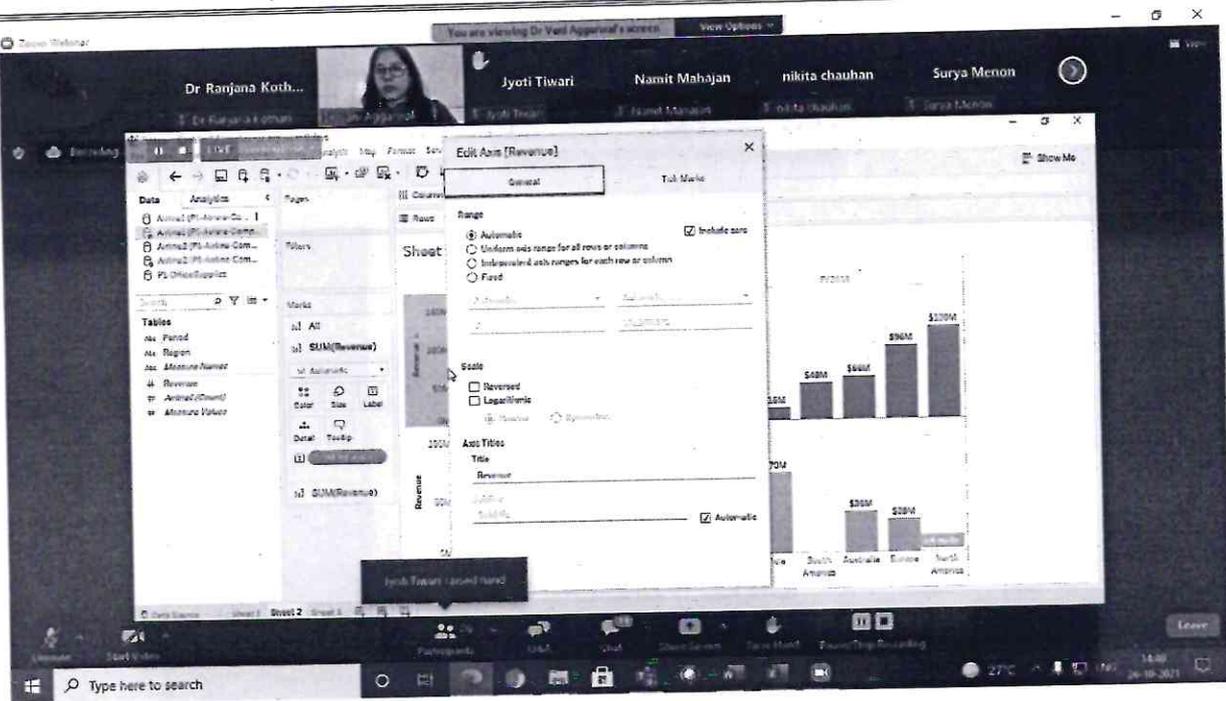

Awardee Details	Award / Position / Recognition Secured	Title of Innovation/ Start-up Secured the Award / Recognition	Award/Recognition/ Achievement Received for

3.8 Photographs with caption (also share high resolution JPEG files of photographs)

1	India	Prof. BK Pattanaik	IGNOU	Professor	Health	011295 71662	bkpat tanail @ignou.ac.in	NA	Health Issues	
2	India	Dr. Rajesh Nair	Amity University haryana	Professor	Research	981888 5803		NA	Research	
3	India	CA Kamakshi Mehta	Amity University Haryana	Assistant Professor	Assistant Professor	961089 7735	rnair@ggn.amity.edu	NA	Commerce	
4	India	Dr. Varghese Kunjappay	JNU	Senior System analyst	Senior Analyst	981893 9749	kmehta@ggn.amity.edu	NA	Research	
5	Philippines	Gilbert Magulod Jr	Cagayan State University	Professor	Professor	NA	Ssingh22@ggn.amity.edu	NA	Research	

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph):

Mishra

Registrar
Amity University Haryana
Manesar, Gurgaon-122413

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)?

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/ Intangible	Achieved/ Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers / Conference Papers/ Book Chapter etc.				The major outcomes of the FDP are as follows: a. Widening the horizon of ongoing best practices in research methodology by the experts from academia and industry. b. Empowering budding researchers with in-depth understanding of using appropriate tools and techniques to carry out a research. c. Orienting researchers towards quality research publication. d. Understanding the ethicalities and essentials of doing qualitative and quantitative research. e. Familiarizing with diverse perspectives on data collection, data Analysis, and interpretation of results. f. Management and analysis of large survey data using SPSS
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.	NIL	NIL	NIL	NIL
c) Collaboration for Funded Projects	NIL	NIL	NIL	NIL
2. Outcome related to Industry Connect				
a) Placement	NIL	NIL	NIL	NIL
b) Collaborations for Research Papers	NIL	NIL	NIL	NIL
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	NIL	NIL	NIL	NIL
d) Collaboration for Funded Projects	NIL	NIL	NIL	NIL
3. Outcome related to Society Outreach				

[Signature]
Registrar

a) Benefit to society in terms of Health & Hygiene	NIL	NIL	NIL	NIL
b) Benefit to society in terms of Education	NIL	NIL	NIL	NIL
4. Outcome related to Students Learning & Grooming				
5. Any other

STATISTICAL TOOLS AND TECHNIQUES IN SOCIAL SCIENCES' RESEARCH
 Date: 27-31st December, 2021

Resource Persons

Prof. Bikram Keshari Pattanaik
Professor
IGNOU

Prof. Gilbert C. Magulod Jr
Director
Cagayan State University

Prof. Dr. Rajesh Nair
Director & Professor
Amity University Haryana

CA. Kamakshi Mehta
Assistant Professor
Amity University Haryana

Dr. Varghese Kunjappu
System Analyst (Senior Grade)
JNU

Patron:
Prof. (Dr) P.B. Sharma
Vice Chancellor
Amity University Haryana

Co Patron:
Prof. (Dr) Padmakali Banerjee
Pro Vice Chancellor
Amity University Haryana

Programme Chair:
Prof. Sanjay K Jha
Director, Liberal Arts
Amity University Haryana

Objectives:

- To acquaint participants with ongoing best practices in research
- To equip the participants with the skills of using various statistical tools and techniques in social science research.
- To identify right tools as per research area.
- To give hands-on experience of SPSS.
- To give hands-on experience and practice of Structure Equation Modelling using Smart PLS.

Programme Coordinators

- Dr. Sunil K Mishra**
Associate Professor, ASLA, AUH
Dr. Shradhanvita Singh
Assistant Professor, ASLA, AUH

Organizing Committee

- Dr. Supriya Sanju**
Assistant Professor, ASLA, AUH
Dr. Vinod Kumar
Assistant Professor, ASLA, AUH
Dr. Girija Suri
Assistant Professor, ASLA, AUH
Mr. Rakesh K Chaudhary
Assistant Professor, ASFA, AUH

Programme Schedule:

- | | |
|--|--|
| Day 1 27 Dec. 02:00 PM - 02:45 PM Inaugural Session | 27 Dec. 02:45 PM - 04:00 PM Framing Research Objectives by Prof. B. K. Pattanaik |
| Day 2 28 Dec. 02:00 PM - 03:30 PM Research Hypothesis and Testing by Prof. Dr. Rajesh Nair | 28 Dec. 03:30 PM - 04:00 PM Using smart PLS for Research by CA. Kamakshi Mehta |
| Day 3 29 Dec. 02:00 PM - 03:30 PM Methodological Review by Prof. Gilbert C. Magulod Jr | 29 Dec. 03:30 PM - 04:00 PM Large Survey Data Management Using SPSS by Dr. Varghese Kunjappu |
| Day 4 30 Dec. 02:00 PM - 03:30 PM | |
| Day 5 31 Dec. 02:00 PM - 03:30 PM | |

- NOTE**
- Researchers, Associates, Ph.D. scholars, Faculty members, Academicians and Industry professionals
 - Date for registration: 15th December 2021
 - Registration fees: INR 500/-
 - Limited seats 75 (first come first served basis)
 - Timings: 2:30-4:00 PM
 - E-certificates to all participants
 - Online platform: ZOOM

Day 1:[27 Dec 2:50PM – 04:00 PM]- “Framing Research Objectives” by Prof. B.K. Pattanaik ,Director and Professor IGNOU followed by Interactive Session The event began with the welcome address by Dr. Sunil Kumar Mishra, Associate Professor, AUH followed by introduction glimpses of the experts and their research highlights over the years. The expert of Day 1 was Prof. B K Pattanaik Professor and Director, SOEDS ,IGNOU. Sir, touched on very important aspects of research which is how to formulate good research objectives where in he differentiated between the general and specific objectives with suitable examples. He further spoke on how SMART objectives is a formidable base for your research.

Day 2: [28 Dec 2:10PM – 03:30 PM]-Research Hypothesis and Testing by Prof (Dr.) Rajesh Nair, Director, AIBAS , who spoke at length on hypothesis and how hypothesis can act as bridge between theory and practice.

Day 3 [29 Dec 2:10PM – 03:30 PM]- Using Smart PLS for Research by CA Kamakshi Mehta, where in she did a practical hands on with Smart PLS and thus breaking this myth that Equations and models are not for Social Scientists.

Day 4 [30 Dec 2:10PM – 03:30 PM]- Methodological Review by Prof. Gilbert C. Magulod Jr emphasized on the importance of Methodological Review in research and how methods forms an elaborate part of your research

Day 5 [31 Dec 2:10PM – 03:30 PM]- Large Survey Data Management Using SPSS by Dr. Varghese Kunjappu, gave such an enriching presentation along with hands-on in SPSS.

The Five days long FDP ended with thank you note from the organizers side.

Outcome Report(Event/Activity Organized @ AUH)

1. General Information

Date: 10 – 14 January 2022
Event Type: Online Training Programme
Event Title: Building Urban Resilience Through Advanced Technology
Event Theme: IPR/Entrepreneurship
Venue: Zoom
Web/Video Link of the Event:
Organized by: Amity Mega Centre for Natural and Man-made Calamities (AMCNAMEC)
In collaboration with: National Institute of Disaster Management, (NIDM)
Event Level: Institutional
Student Participation*: No. of Students from AUH (Course wise):- NA

Faculty Participation*: No. of Faculty Members from AUH (Deptt. wise):- **06**
Participation from outside AUH*: No. of Students & Faculty Members- **133**

(Enclose attendance sheets in given format)

Event Coordinator(s) with designation: Dr. Ila Gupta, Director, Amity School of Architecture and Planning, AUH

Details of Expert/Speaker/Resource Person/Judge:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	CV of Expert (Yes/No)	Major Areas where Amity can Collaborate with expert	Recommended by
1	India	Dr Piyooish Rautela	Uttarakhand State Disaster Management Authority	Executive Director	Urbanization and Disaster	NA		Yes	Urban and Regional Planning, Disaster Management	Dr. Ila Gupta
2	India	Dr Sudhakar Shukla	Remote Sensing Applications Centre, U.P., Lucknow	Head, School of Geo-informatics & Scientist	Disaster Management and Urban Resilience	NA		Yes	Disaster Management and Urban Resilience	Dr. Ila Gupta
3	India	Dr. Sweta Baidya,	NIDM	Consultant,	Architecture and Planning	NA	drswetabaidya@gmail.com	Yes	Disaster Management and Urban Resilience	Dr. Ila Gupta
4	India	Dr. Kopal Verma,	NIDM	Junior Consultant,	Geography, Urban and Regional Planning	NA		Yes	Disaster Management and Urban Resilience	Dr. Ila Gupta
5	India	Dr. P P Nageswara Rao,	ISRO (Rtd)	Outstanding scientist	GIS	NA		Yes	Spatial Data Infrastructure	Dr. Ila Gupta

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph):

All the resource person were quite familiar with the theme entitled 'Building Urban Resilience Through Advanced Technology' of the training programme. They were experts in their respective research domains such as GIS, Spatial Data Infrastructure, Urban Resilience, City Planning, Geology, Disaster management etc.

(Handwritten Signature)

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)?

All experts were invited and informed beforehand via email. Dr. Ila, Director, ASAP has requested the guest to give a brief presentation. She has also requested to the speakers to discuss and interact with the participants so that they can get better knowledge on urban resilience by using appropriate tools and advanced technology. All guest were agreed to conduct the session from 10 – 14th January 2022.

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved/Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers / Conference Papers/ Book Chapter etc.				
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.				
c) Collaboration for Funded Projects				
2. Outcome related to Industry Connect				
a) Placement				
b) Collaborations for Research Papers				
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments				
d) Collaboration for Funded Projects				
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene				
b) Benefit to society in terms of Education				
4. Outcome related to Students Learning & Grooming				
5. Any other				

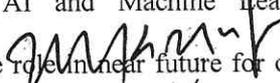

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Events-

Amity Mega Center for Natural and Man-Made Calamities (AMCNAMC) is one of the critical Research Clusters of Amity University. The cluster focuses on reducing the risk of natural & manmade disasters through Data Management, Multi-Disciplinary Research, Training and Generating Public Awareness for Resilience Building. The Cluster includes Faculty and Scholars from all Amity Campuses who are experts in Geo-Informatics, Engineering, Architecture, Urban Planning, Information Technology, Biotechnology, Public Health and other related fields required for addressing effective disaster management.

Inspiration & Objectives of the Event: Building Urban Resilience is crucial and this Training Programme would focus on achieving the following objectives:

1. To understand major disaster risks in urban setting of Indian Context and the need for advance technology.
2. To develop an understanding about the components of urban resilience.
3. To understand the integration and application of advanced technologies like drones, robotics, sensors, GIS, Virtual reality, digital twins, AI and Machine Learning used for building urban resilience.
4. To develop network among participants for active role in near future for capacity building of urban resilience.

 Directorate of Outcome (DOO)

3.2 Brief about the address/talk of speakers

Dr. Piyooch Rautela is presently Executive Director of Disaster Mitigation and Management Centre, an autonomous institute of the Department of Disaster Management, Government of Uttarakhand, India.

Dr. Sudhakar Shukla is the present **Head** of School of Geoinformatics RSAC – UP who has secured his M-Tech from the prestigious IIT – Roorkee. He possesses a PGDEE as well as a Ph.D degree. His current responsibilities are directed towards the Surface Water Resources Division and the School of Geoinformatics. He is also proficient in applying satellite Remote and GIS techniques for surface and ground water management, geo – environmental assessment and also for disaster management at the state level. Shukla has also worked as an assistant professor in the Department of Geology, University of Lucknow. In his work experience of 28 years he has written and published 50 research papers.

Dr. Sweta is a Consultant at National Institute of Disaster Management, Ministry of Home Affairs, wherein she helps organizations to develop disaster management strategies, sectoral policies and capacity building. She works extensively with WHO, UNICEF, GIZ, Universities and Ministries on policy formulation, planning and capacity building. Sweta has been a visiting faculty at national universities and is a regular speaker at international conferences on business continuity and green growth. She is passionate about solving climate disasters and applying emerging technologies for building resilience and adaptation. Sweta is a PhD in Climate Change from National Institute of Oceanography and Post Graduate from Banaras Hindu University. Areas of expertise: Climate Change, Disaster Management, Oceanography, Glaciology

Mr. P. P. Nageshwara Rao, His current research is on applying the geospatial technologies for crop yield estimation, crop condition assessment using multi-sensor and multi-temporal data analysis. The aim is to develop methodologies to estimate crop losses at the village-level. He is presently working as a Faculty Member teaching the students of MTech Geoinformatics. Also assisting the Government of the Karnataka state. Serving as Honorary professor at Karnataka State Rural Development and Panchayat Raj University, Gadag.

'Take Homes' for the Guest and Attendees:

1. Development of understanding about the components of urban resilience.
2. Understand of major disaster risks in urban setting of Indian Context.
3. Understanding the integration and application of advanced technologies like drones,
4. robotics, sensors, GIS, Virtual reality, digital twins, AI and Machine Learning used for building urban resilience.
5. Developing a network among participants for active role in near future for capacity building of urban resilience.

3.4 Future plan for utilizing the contacts developed with the Invited Guests: Amity Mega Centre for Natural and Man-made Calamities (AMCNAMC) will look forward for organizing many more session with the guest.

3.5 Budget of the Event (Budget Sanctioned, Total Expenditure & Revenue Generated): Nil

3.3 Details of Awards if Any:

Awardee Details	Award / Position /	Title of Innovation/ Start-up	Award/Recognition/

PATRONS

- Maj. Gen. Manoj Kumar Bindal**
Executive Director,
NIDM, New Delhi
- Dr. Piyush Rastich**
Executive Director,
Uttaranchal State Disaster
Management Authority
- Dr. W. Selvamourthy**
President, ASETF
Chancellor,
Amity University, Chhatnagesh

CONVENERS

- Prof. (Dr.) Anil K. Gupta**
Head, Division of Environment Climate Change &
Disaster Risk Management, NIDM, New Delhi
- Prof. (Dr.) S. M. Veerabhadrapa**
Chairperson, AMCNAMC
Director, ANGRS, Amity University UP, Former
Scientific G & Director, DDDO, Ministry of Defense.

SPEAKERS

- Dr. Sudhakar Shukla**
Head, School of Geo-Information
Scientist, Remote Sensing
Applications Centre, UP
- Dr. P.P. Nagaywara Rao**
Outstanding scientist (Retd.),
ISRO
- Dr. Kashi Inmad**
Department of Geography, Kanpur University
Member, Expert panel for smart cities' Urban
transportation.
- Prof. (Dr.) Chandan Ghosh**
Head,
Resilient Infrastructure Division,
NIDM, New Delhi
- Mr. Sushil Kumar Sharma**
Former General Manager, NTPC
Limited.
- Dr. Kopal Verma**
Junior Consultant, NIDM
- Dr. Mani Madhokar**
Program Manager,
Global University Programs,
BHM Research
- Mr. Leo Peter Charles**
Managing Director,
Jane Associates
- Ms Fatima Bintu Anis**
Young Professional, NIDM
- Mr. Masish Kumar**
Sr. Water Resources Engineer,
DRI (India) Water & Environment
Pvt Ltd
- Mr. Harshit Sharma**
Young Professional, NIDM

CO-CONVENERS

- Dr. Madhuri Kumari**
Coordinator, AMCNAMC
Professor, Dept of Civil Engg.
Dy. Director, ASET, Amity
University, Noida
- Dr. Ila Gupta**
Coordinator, AMCNAMC
Professor and Head,
ASAP, Amity University
Gurgaon

ORGANIZING SECRETARY

- Prof. Alpana Srivastava**
Program Director Head, Operation
Management, Statistics, Economics, IT
Amity Business School, Amity University,
Lucknow Campus

COORDINATORS

- Dr. Sweta Baidya** Consultant,
ELDRM, NIDM
- Dr. P. Mahabavi** Asst. Professor
Department of Civil Engineering,
ASET, AMUP, Gwalior Campus
Ar. Siddharth S. Jaiswal Asst. Prof.
Amity School of Architecture &
Planning, Gwalior Campus

Lecture by Dr. Kopal Verma

 Amity University Haryana
 Manesar, Gurgaon-122413

Climate change risk management

Categories:

- Mitigation**—efforts to reduce greenhouse gas emissions;
- Adaptation**—increasing society’s capacity to cope with changes in climate;
- Geoengineering or climate engineering**—additional, deliberate manipulation of the earth system that is intended to counteract at least some of the impacts of greenhouse gas emissions; and
- Knowledge-base expansion**—efforts to learn and understand more about the climate system, which can help support proactive risk management.

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event:

The FDP started with a wonderful PPT presentation by the resource person, where he has introduced about the waste materials and how the faculties can create artwork out of the waste materials. He has shown some of the interesting artwork which are done by using waste materials. The resource person suggested to participated faculty member to collect whatever waste materials are available to them and then think what kind of artwork possibly they can make out of that. He also suggested that they can make some layout for their sculptures. Participants came out with some interesting ideas, the resource person guided them how they can build up their sculpture using those materials.

3.2 Inspiration & Objectives of the Event: Amity School of Fine Arts organized Faculty Development Programme on creative sculpture by using waste materials for the AUH faculties. The aim and objective of the FDP is to encourage skill development and enhance creative understanding of faculties to bring out creative output.

This FDP have explored a variety of mediums and techniques, while developing critical thinking and problem-solving skills.

Faculties made many interesting creative sculptures with different kind waste materials like-corrugated cardboard sheets, foil paper, Paper roll, Paper Mache etc. They will not just enjoy it, also experimented with different types of waste materials. They used their knowledge and sense of art to create their own sculptural forms.

The goal of this FDP was separated into two major components. First, how to transfer waste material into a creative object. Second, nurture faculty's creative skills and aesthetical understanding about artwork. Faculties have develop versatile quality of handling different mediums and build their own unique style.

Feedback Form

Name of the faculty: Dr. Susil Sood
Department: School AID (ASFA) Designation: Associate Professor
Date: Day-11/01/2022

Remarks about Workshop:
Thank you for such an interesting FDP.
It was very creative and specially helped during these depressing times due to COVID-19 restrictions.
Learned a lot while interacting with other Faculties.
Looking forward to more such FDP's.
Thank you!

b) Benefit to society in terms of Education	Yes	Yes	-	Six Sigma is widely accepted methodology in industry and its knowledge and skills add to the overall employability of the students. From an analytical thinking point of view, lean and six sigma methodologies provide a toolbox to help break down complex problems into manageable components.
4. Outcome related to Students Learning & Grooming				
Yes	Yes	Yes	Yes	This training will help students to practically understand DMAIC (Define, Measure, Analyze, Improve and Control) process improvement methodology and help use to solve daily business issues.

2.1 General Introduction of the Event: Amity Skills Institute (Amity University Haryana) with a vision to provide holistic perspective and leverage talent and capabilities of students to meet the needs of contemporary dynamic business environment introduces MOOC on “Certification in Lean Six Sigma Foundation” in Association with Commonwealth Educational Media Centre for Asia (CEMCA)

The course lays the foundation for understanding of Lean Six Sigma problem solving methodology which is being used by almost all organizations in some or other form to improve their processes and product qualities to enhance customer experience and satisfaction. There are numerous applications of lean methods in our daily life i.e. setting up measurable goals, making informed and data driven decisions, doing things right first time, standardization and organizing stuff, seeing a big picture, prioritization, asking multiple WHY to find root cause. Effective application of lean and six sigma methods bring higher efficiency and productivity; clear understanding of goals, profitability and overall improvement in employee’s morale cost.

2.2 Inspiration & Objectives of the Event: (1) This training will help students to practically understand DMAIC (Define, Measure, Analyze, Improve and Control)

(2) Six Sigma is widely accepted methodology in industry and its knowledge and skills add to the overall employability of the students.

2.3 Budget of the Event (Budget Sanctioned, Total Expenditure & Revenue Generated): There is no course fee for enrolment and completion of the course.

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event: The main purpose of this FDP was to introduce Power BI. It is a powerful business analytics tool to explore, analyze, and visualize data and to share meaningful insights. It is a tool to monitor your business and get quick business decisions with interactive dashboards. This hands-on programme demonstrated how to install power BI, connect to data files, data preparation, data analysis and data visualizations using Power BI. This FDP focused on creating high-impact visualizations of common data analyses to understand data and to create various charts, maps, scatterplots, and interactive dashboards for business projects.

3.1 Inspiration & Objectives of the Event:

Business Analytics (BA) has become a buzzword in the corporate world as business analysts are equipped with required knowledge and skills to take the business to a new high. Everybody talks about “data” and there is an immense flow of information in this era of digitalization but we need processing of data and visualization of data to reach concrete results of business models. Raw form of data or any information is not valuable as it does not support any decision of the company. Hence, data visualization tools such as tableau and power BI is focused on the data organization, data analysis and data visualization to help companies/researcher/faculties to get more insights about different data sets to improve, grow and overcome challenges. Therefore, we planned to conduct these workshops on data visualization tools to make it easy for people to understand data and provide good insights out of their data.

Objectives

The main purpose of this FDP was to introduce Power BI. It is a powerful business analytics tool to explore, analyze, and visualize data and to share meaningful insights. It is a tool to monitor your business and get quick business decisions with interactive dashboards. This hands-on programme demonstrated how to install power BI, connect to data files, data preparation, data analysis and data

Amity University Haryana
Gurgaon-122413

visualizations using Power BI. This FDP focused on creating high-impact visualizations of common data analyses to understand data and to create various charts, maps, scatterplots, and interactive dashboards for business projects.

3.2 Brief about the address/talk of speakers:

- Data Visualization and its significance
- Installation and Introduction of Power BI
- Basic Visuals such as line chart, scatter plot, bar chart, stacked bar chart
- Advanced visuals such as area chart, maps, waterfall chart, bowtie chart, box and whisker plot, stepped line chart
- Data preparation and data formatting
- Creation of Dashboard
- Hands-on experience and practice of power BI functions on various business datasets

3.3 'Take Homes' for the Guest and Attendees :

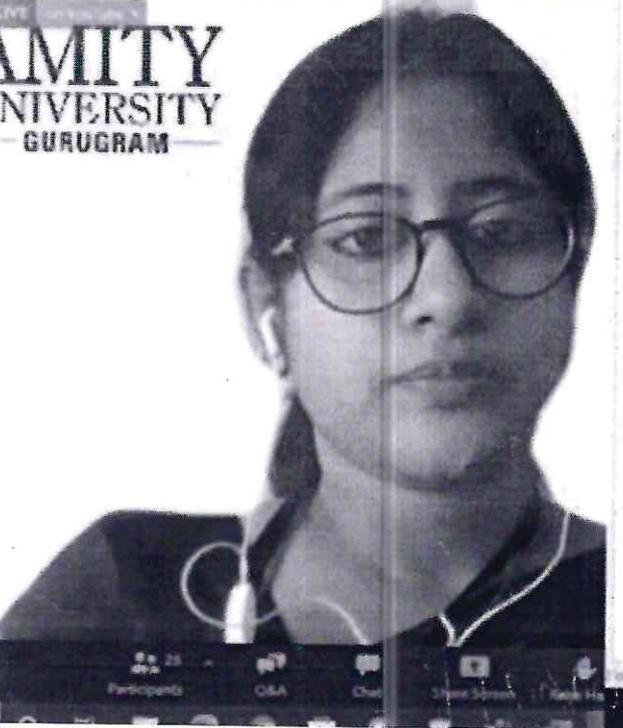

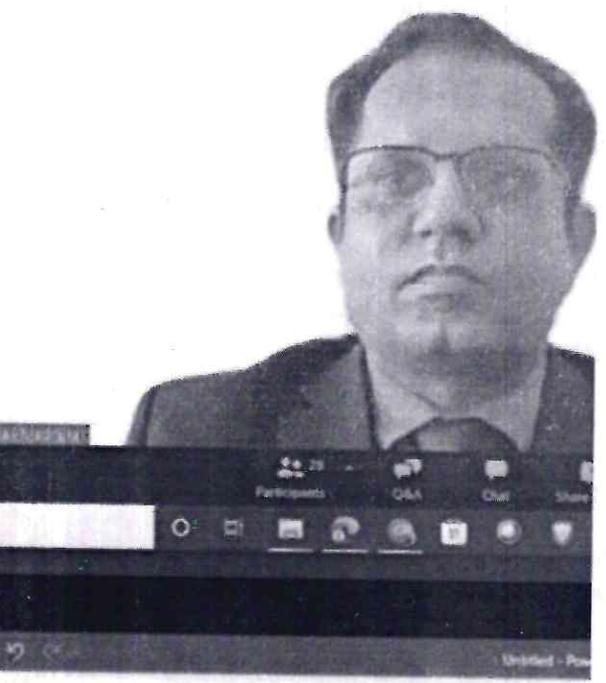

Main take away by the participants were, they are now able

- To create high-impact visualizations of common data analyses in power BI.
- To navigate the software, connect it to a data file, and export a worksheet at ease in Power BI.
- To create various charts, maps, scatterplots, waterfall chart, ribbon chart, bowtie chart, stepped line chart, box plot and interactive dashboards for business projects using power BI.
- To prepare data in order to work with and present information from multiple sources using this data visualization tool.

3.4 Future plan for utilizing the contacts developed with the Invited Guests: To conduct EDPs and FDPs on data visualization and data analysis.

3.5 Budget of the Event: Revenue generated: Rs. 22214

Outcome Report(Event/Activity Organized @ AUH)

1. General Information

Date: 09 March 2022
Event Type: Faculty Development Program
Event Title: IQAC
Venue: Room No. 315, Amity College of Nursing, (ACON) Gurugram
Web/Video Link of the Event: - NIL
Organized by (School): Amity College of Nursing(ACON)
Student Participation*: No. of Students from AUH (Course wise): - NIL
Faculty Participation*: No. of Faculty Members from AUH (Deptt. wise): -20
Participation from outside AUH*: No. of Students & Faculty Members- NIL
 (Enclose attendance sheets in given format)
Event Chairperson with designation – Dr. A Tamil Selvi , HOI, Amity College of Nursing
Event Coordinator(s) with designation: Dr. Anu Gauba, Professor, Amity College of Nursing
Details of Expert/Speaker/Resource Person/Judge& Criteria of Inviting:

S N	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	Recommended by	Major Areas where Amity can Collaborate with expert	CV of Expert (Yes/ No)
1	INDIA	Dr Sunita Sharma	Amity University	Deputy Director IQAC	IQAC	9873562004	Ssharma7@ggn.amity.edu	Honourable PVC Ma'am	Seminar's, Conferences	yes
2	INDIA	Dr A Tamilselvi	Amity University	HOI, ACON	Nursing	9894594932	atamilselvi@ggn.amity.edu	Honourable PVC Ma'am	Seminar's, Conferences	Yes

Criteria:

Were the guest known in advance and if yes, from what previous interaction?
 Yes, met with Dr Sunita Sharma during IQAC Audit.

2. Outcome of the Event with Time Lines (Proposed/Achieved)

				Faculty member's gain knowledge related to IQAC
5. Any other				

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event –

Internal Quality Assurance Cell (IQAC) is a structure that would help educational institutions to improve their work processes and achieve learning outcomes & objectives.

However, IQAC is not just a committee.

It is a “**participative**” and “**facilitative**” unit that would closely work with the faculty members to plan out the best possible strategies.

VISION OF IQAC

Speaking of the vision, IQAC primarily focuses on quality enhancement.

Its aim is to introduce a consistent plan of action that would lead the organization towards progress.

It involves preparing strategies for –

- **Efficient & timely work processes**
- **Academic research & programs**
- **Affordable & innovative approaches**
- **Use of ICT for modernization of education**
- **Best assessment process for maintaining quality**
- **Ensuring the best infrastructure to achieve goals**

Thus, IQAC considers all the possible aspects that hold the power to bring positive impact of teaching-learning on the students as well as institutions. Assessment, evaluation & improvement may seem simple steps but can turn the game around when performed consistently.

 Amity University Haryana
 Manesar, Gurgaon-122413

3.2 Inspiration & Objectives of the Event –

The objectives of Faculty development programme are:-

- 1) To sensitize the faculty about the importance of IQAC
- 2) To Documenting all the activities in chronological order & keeping a tab on improvements
- 3) Enabling faculty to efficiently used Tech tools for innovation in education
- 4) IQAC allows the faculty to properly create authentic documentations & keep their records for future reference

3.3 Brief about the address/talk of speakers

Dr Sunita Sharma discusses following topics – Introduction to IQAC, Importance of IQAC,

3.4 'Take Homes' for the Guest and Attendees – Knowledge related to IQAC

3.5 Future plan for utilizing the contacts developed with the Invited Guests- YES

(2) Six Sigma is widely accepted methodology in industry and its knowledge and skills add to the overall employability of the students.

3.3 Budget of the Event (Budget Sanctioned, Total Expenditure & Revenue Generated): There is no course fee for enrolment and completion of the course.

Report

All participants and Speakers were warmly welcomed to the Orientation Programme Lean Six Sigma Course. Dr. Tanushri Purohit introduced the programme and discussed the objective of the programme. It was mentioned that Amity University Haryana is committed to building a vision to provide holistic perspective and leverage talent and capabilities of students to meet the needs of contemporary dynamic business environment introduced "Certification in Lean Six Sigma Foundation" in Association with Commonwealth Educational Media Centre for Asia (CEMCA), February 1, 2022 onwards.

The course lays the foundation for understanding of Lean Six Sigma problem solving methodology which is being used by almost all organizations in some or other form to improve their processes and product qualities to enhance customer experience and satisfaction.

Prof Padmakali Banerjee, Pro Vice Chancellor, Amity University Haryana introduced Amizone and LMS Portal for the online courses. Advance interactive platform for students and faculties. Covid19 pandemic also taught us to use digital platforms in the best way possible which is a great addition. Amity University Haryana focused on lot of flexibility in education system like students can design their own degree. New system opened up for faculties for lecture capturing system. Use of technology has made distance almost ends between students and faculty members.

Prof. Madhu Parhar Director Commonwealth Educational Media Centre for Asia introduced Six Sigma Course. Main objective of this CEMCA is improving the higher quality of education. All open education system becomes one now. Talked about education system CEMCA's main objective is to supporting the institutions quality in education system. Education resources provided to the students openly they can access course any time any place. Prof. Madhu focused on Virtual Lab theme boom for students. Encourage faculties and students for virtual lab.

Mr. Saurabh Mishra- Programme officer (Skills)-CEMCA, introduced Six Sigma Course plays wider role in skill sector, IIT etc Mr. Saurabh introduced more courses like thesis writing course helpful for Phd Students. He suggested participants to finish the course which is helpful for them in future.

Mr. Shivendra Sharma, introduced Six Sigma Course benefits to the career of participants. This course is helpful in every field. Participants asked queries about the course and Mr. Shivendra resolved participant's quires.
