AMITY UNIVERSITY
HARYANA

Established vide Government of Haryana Act No.10 of 2010

AMITY UNIVERSITY HARYANA

Amity University Haryana with a legacy of world class academic infrastructure is a part of Amity Education Group, a pioneer of global culture in education in India. AUH - a research and innovation driven university, is built on a foundation, which embodies the qualities that have made Amity institutes world class. Spread over a 110 acre green campus in the close proximity of Gurugram. Amity has instituted global standards in education training & research state-of-the-arts infrastructure & latest teaching methodologies.

QUALITY INITIATIVE By Internal Quality Assurance Cell

ONE DAY TECHNICAL TALK ON "INTERVENTIONS IN RURAL AREAS THROUGH UNNAT BHARAT ABHIYAN FOR LIVELIHOOD FOR ATMANIRBHAR BHARAT".

Unnat Bharat Abhiyan is inspired by the vision of transformational change in rural development processes by leveraging knowledge institutions to help build the architecture of an Inclusive India. The Mission of Unnat Bharat Abhiyan is to enable higher educational institutions to work with the people of rural India in identifying development challenges and evolving appropriate solutions for accelerating sustainable growth. It also aims to create a virtuous cycle between society and an inclusive academic system by providing knowledge and practices for emerging professions and to upgrade the capabilities of both the public and the private sectors in responding to the development needs of rural India. The goals of UBA are to build an understanding of the development agenda within institutes of Higher Education and an institutional capacity and training relevant to national needs, especially those of rural India; to re-emphasize the need for field work, stake-holder interactions and design for societal objectives as the basis of higher education; to stress on rigorous reporting and useful outputs as central to developing new professions; to provide rural India and regional agencies with access to the professional resources of the institutes of higher education, especially those that have acquired academic excellence in the field of science, engineering and technology, and management; to improve development outcomes as a consequence of this research; to develop new professions and new processes to sustain and absorb the outcomes of research and to foster a new dialogue within the larger community on science, society and the environment and to develop a sense of dignity and collective destiny.

WHO SHALL ATTEND?

Faculty and students of AUH.

OUTCOME

The Students will develop an insight in to the beneficial aspects of the Unnat Bharat Abhiyan for progressing India towards a Atamnirbhar Bharat.

ORGANISING MEMBERS

Dr. Anil Yadav, Deputy Director – IQAC,
Prof. Dr Subhra Das, Prof & Head Solar Engg Dept.

Directorate of Outcome
Outcome Report (Event/Activity Organized @ AUH)

1. General Information

Date: 1. June. 2021

Event Type: Invited Talk

Event Title: Technical interventions in rural areas through Unnat Bharat Abhiyan for livelihood for Atmanirbhar Bharat

Venue: ZOOM

Organized by (School): Solar Engineering Department, ASET

Student Participation*: No. of Students from AUH (Course wise):- 10 Ph D

Scholars Faculty Participation*: No. of Faculty Members from AUH (Deptt. wise):-

89 Participation from outside AUH*: No. of Students & Faculty Members-

(Enclose attendance sheets in given format)

Event Coordinator(s) with designation: Prof. Dr Subhra Das, Prof & Head Solar Engg

Dept. Details of Expert/Speaker/Resource Person/Judge:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	Address	Major Areas where Amity can Collaborate with expert	CV of Expert (Yes/No)
1	India	Prof. VK Vijay	IIT Delhi	IREDA Chair Professor, Centre for Rural Development and Technology	Green/Bio Energy Systems and applications for rural areas; Biogas Production, Upgradation and Valorisation	01126596351	kvvijay14@gmail.com	IIT Delhi	UBA, Biogastechnology	Yes

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved/Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcomes related to Academia Connect				
a) Collaborations for Research Papers / Conference Papers / Book Chapter etc.	Yes			
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects / Use of Instruments etc.	Yes			
c) Collaboration for Funded Projects	Yes	Applied for UBA registration		
2. Outcomes related to Industry Connect				
a) Placement	NA			
b) Collaborations for Research Papers				
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects / Use of Instruments				
d) Collaboration for Funded Projects				
3. Outcomes related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene	Yes			
b) Benefit to society in terms of Education	Yes			

4. Outcome related to Students Learning & Grooming

Yes

5. Any other**3. Event Report along with glimpses of the event (Photographs)****General Introduction of the Event**

The Talk was conducted to get a complete overview of Unnat Bharat Abhiyan and how AUH can participate in this national programme.

Objectives of the Event

To establish collaboration with Prof. VK Vijay and create awareness about UBA among faculty members.

Brief about the address/talk of speakers

The event started with an opening remark by Hon Pro Vice Chancellor Prof. Padmakali Banerjee who gave an overview of the various initiatives that AUH has taken under BRICs programme. She also emphasized on recently launched JAI to help the community under Covid crisis. Prof Dr Subhra Das introduced Prof. Virendra Kumar Vijay and invited him to deliver the Talk. Prof. Vijay talked about the need for self-reliance and the need for India to move towards Atmanirbhar Bharat. He then gave a complete overview of UBA. In his Talk he told that Unnat Bharat Abhiyan is inspired by the vision of transformational change in rural development processes by leveraging knowledge institutions to help build the architecture of an Inclusive India. The Mission of Unnat Bharat Abhiyan is to enable higher educational institutions to work with the people of rural India in identifying development challenges and evolving appropriate solutions for accelerating sustainable growth. It also aims to create a virtuous cycle between society and an inclusive academic system by providing knowledge and practices for emerging professions and to upgrade the capabilities of both the public and the private sectors in responding to the development needs of rural India. The goals of UBA are to build an understanding of the development agenda within institutes of Higher Education and an institutional capacity and training relevant to national needs, especially those of rural India; to re-emphasize the need for field work, stake-holder interactions and design for societal objectives as the basis of higher education; to stress on rigorous reporting and useful outputs as central to developing new professions; to provide rural India and regional agencies with access to the professional resources of the institutes of higher education, especially those that have acquired academic excellence in the field of science, engineering and technology, and management; to improve development outcomes as a consequence of this research; to develop new professions and new processes to sustain and absorb the outcomes of research and to foster a new dialogue within the larger community on science, society and the environment and to develop a sense of dignity and collective destiny.

In the discussion session, Prof Dr Padmakali Banerjee expressed her views regarding the participation of AUH in this mission of UBA. Dr Reena Nigam talked about skills initiative at AUH and the University's participation in developing the skills of people to make them industry ready. Dr Subhra Das talked about the usage of biomass to meet the energy requirement of the villages and how under UBA these initiatives can be supported. Dr Anil Kr Yadav asked Prof. Vijay to highlight the cost of biogas plant and the subsidies that are obtained for the same. Prof. Indu Shekhar Thakur posted question regarding the quality of the methane gas, Prof Devara wanted to know about the cost benefit analysis of the system. Active participation of faculty members made the Talk very interesting.

QUALITY INITIATIVE By Internal Quality Assurance Cell

FOUR DAY FACULTY ENRICHMENT PROGRAM (FEP) COMPUTATIONAL METHODS FOR ARTIFICIAL INTELLIGENCE, MACHINE LEARNING & BLOCK CHAIN TECHNOLOGY".

Education is completely evolving field and to ensure the continued growth teachers should also involve themselves. The enhanced knowledge will help them introduce their students to the new facets. Engineering and computational techniques are growing exponentially over recent years. there has been significant growth in areas like Artificial Intelligence, the Internet of Things, Big Data, Blockchain Technology, Machine Learning Technique etc. All of these has increased the demand for professionals and researchers. The need is to keep oneself updated with all new technical developments and pursue a path towards continuous learning and growth.

OBJECTIVE

- To offer to learn the basics of emerging trends and challenges in the field of computing and security.
- To introduce computational methods in emerging Technology and provide opportunities to widen the knowledge further.

WHO SHALL ATTEND?

Faculty and students of AUH.

OUTCOME

- AI has numerous applications in the field of agriculture, healthcare, banking, education, online shopping etc. Image analysis, Virtual Assistants, Predictive Analysis are few trending areas.
- Smartwatch is an example of AI which is used to monitor the health of the human by recording heartbeat, footsteps.

3.1 General Introduction of the Event

The talk was conducted to get a complete overview of Resource Provisioning in Fog-Integrated Cloud. Education is completely evolving field and to ensure the continued growth teachers should also involve themselves. They enhance knowledge will help them introduce their students to the new facets. Engineering and computational techniques are growing exponentially over recent years there has been

M. Singh

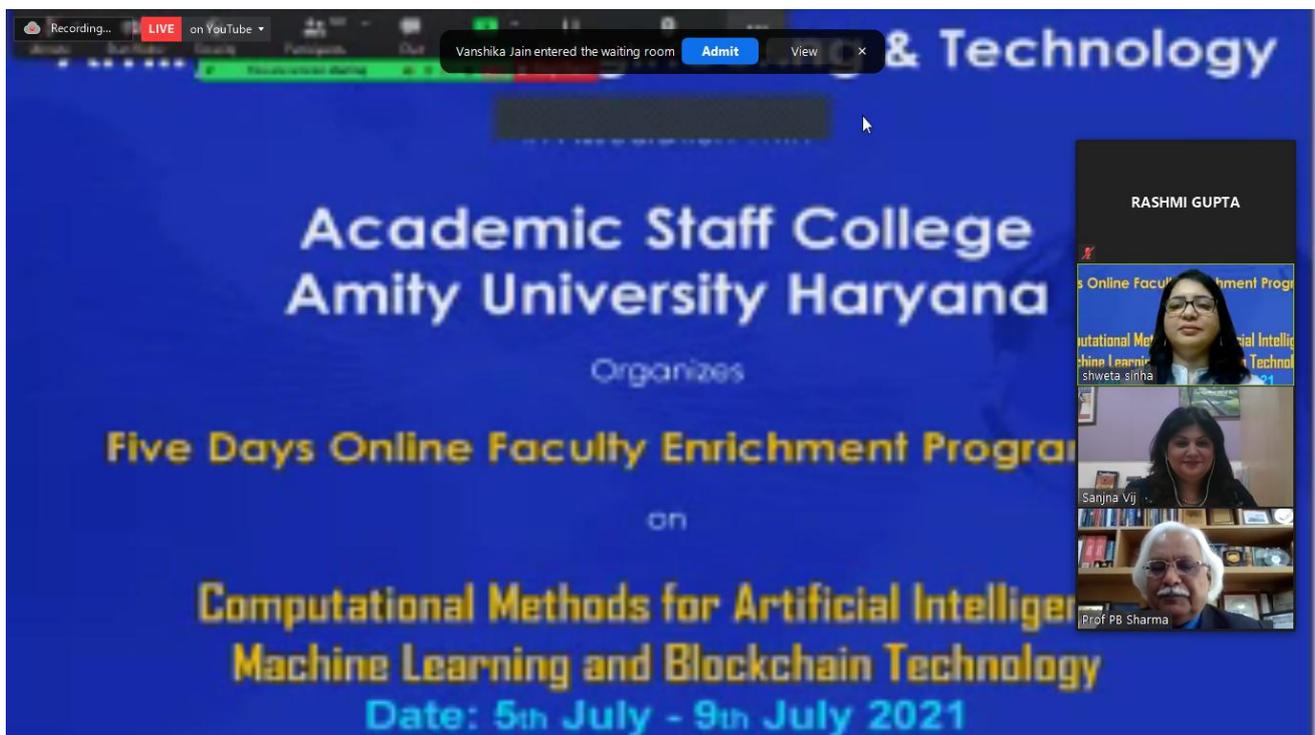

significant growth in Artificial Intelligence, the Internet of Things, Big Data, Blockchain Technology, Machine Learning Technique with their presence and the help get the machine progressively better in doing it task. All of these has increased the demand for professional and researchers. The need is to keep oneself updated of all new technical developments and pursue a path towards continuous learning and growth.

Objectives of the Event

- ✚ To offer to learn the basics of emerging trends and challenges in the field of computing and security.
- ✚ To introduce computational methods in emerging Technology and provide opportunities to widen the knowledge further.
- ✚ To improve security ability in carrying out research testing and consultancy in computational techniques.
- ✚ To provide a forum for exchanging views ideas on the latest innovations in next-generation computing.
- ✚ To impart theoretical and practical knowledge on the design and implementation of intelligent systems.

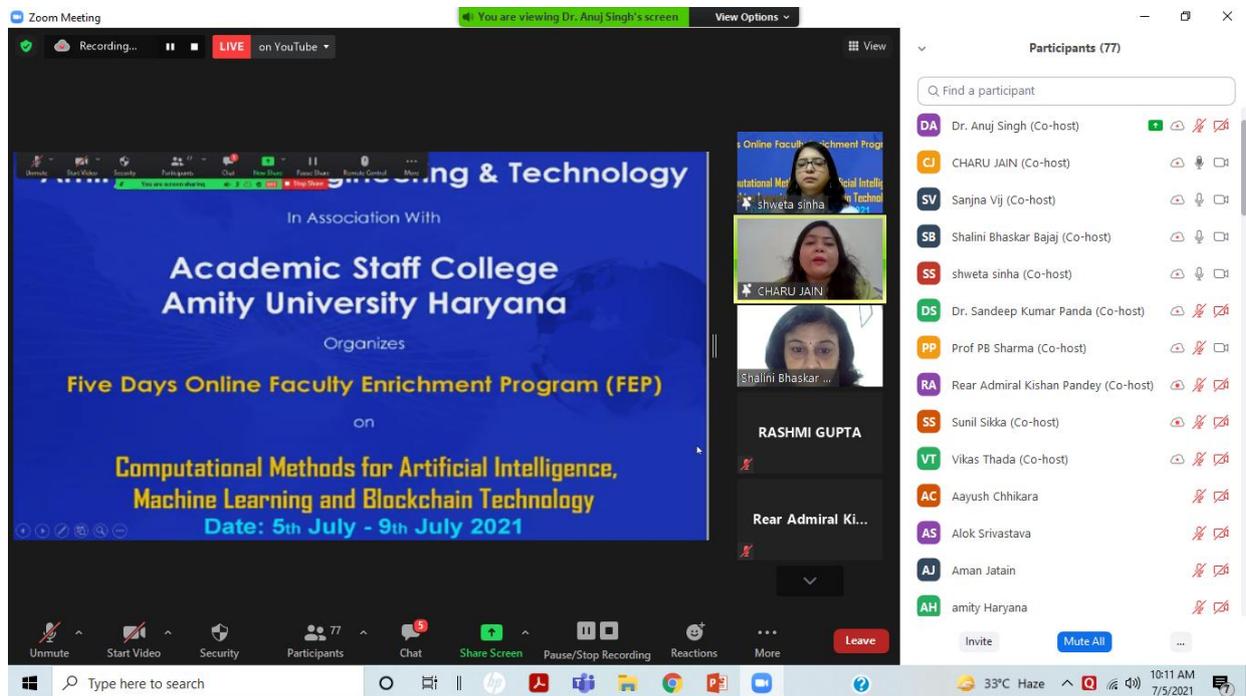

Details about the Sessions address/talk of speakers along with Photographs

Day 1st :- 5th July 2021 – Monday : Inaugural Session

FEP started on time and was graced by the presence of Hon'ble Vice Chancellor, Prof. Dr. P.B. Sharma, Rear Admiral K.K. Pandey, Director, HR , Dr. Sanjana vij and Guest of the Event Dr. Munish Jindal, Founder & CEO of HoverRobotix and Founding President of MENTORx and Respected Director Ma'am Prof. Dr. Shalini Bhaskar Bajaj, Event Coordinators Dr. Shweta Sinha and Dr. Vikas Thada and Eminent speakers from reputed organizations and participants.

At the outset , Dr. Charu Jain welcomed all the Dignitaries, guest of Event, keynote speakers and participants. She introduced Respected Vice Chancellor Sir and Pro Vice Chancellor Ma'am.Event was started with the blessings of Maa Sarasvati by virtually lightening up the lamp.Introduction to the FEP and Opening Remarks by Dr Shalini Bhaskar Bajaj, Director, ASET, Amity University Haryana, Dr. Charu Jain introduced Dr Shalini Bhaskar Bajaj, Director, ASET, Amity University Haryana.

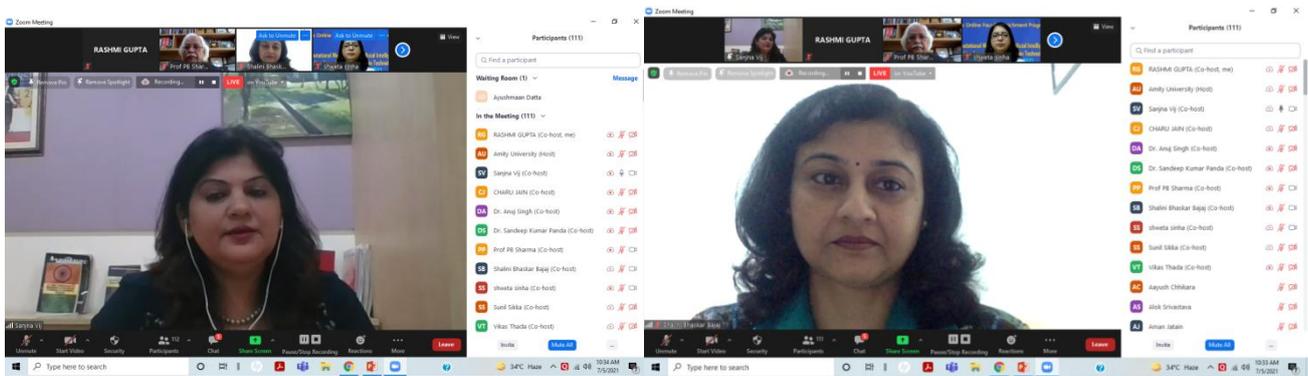

Welcome address was given by Director ASET Prof Dr. Shalini Bhaskar Bajaj. Dir ma'am welcomed all the dignitaries and the participants. She started by saying," Life is Education and Education is Life". She discussed the importance of the FEP and role of Artificial Intelligence in life. She briefed about the Programme detail and topics to be covered. She introduced Guest of the event, Resource persons of the event. She Discussed about the event Sessions and told that it consists of total 9 theoretical and technical Sessions .She told that 130 participants have joined the event from various reputed organizations and corporate such as SRM University, Delhi Technical University, DPGITM, MIT Meerut, MSIT Delhi, Starex University, AUUP, Gwalior, JIMS Delhi, Northcap University, TITS Bhiwani, NDRI Karnal, OPTUM, IBM and WIPRO. She stressed upon the importance of this FEP how this programme will increase the knowledge base of the participants. This FEP aims to serve as a forum to exchange the views on this important area of knowledge.

Blessings by Hon'ble Vice Chancellor, Prof. P.B. Sharma

Dr. Shweta Sinha introduced Hon'ble Vice Chancellor Sir. At the outset, Respected Vice Chancellor Sir extended a warm welcome to all the participants, eminent speakers on the behalf of Amity Fraternity, Hon'ble Founder President and Chancellor Sir, Amity Education Group. He congratulated Program Chair Dr. Shalini Bhaskar Bajaj, Director ASET and Event Coordinators of the FEP, Dr. Vikas Thada and Dr. Shweta Sinha, Amity School of Engineering and Technology. He also congratulated Programme Director Dr. Sanjana Vij, Programme Director, Academic Staff College for coordinating the Event. He inspired and excited all the participants for this valuable Faculty Enrichment Programme. He encouraged all the participants to join this FEP actively and gain knowledge from it. He discussed about artificial intelligence and its various applications. He emphasized how AI can solve various life problems easily. He enlightened the need of this FEP and its importance. He stressed upon the requirement of Artificial intelligence, machine learning and blockchain technology for all. He emphasized the importance of these area. He discussed about these area are major driver of world in various fields like healthcare, Education, Farming sector, governance and corporate world. AI is being conceived the target of achieving human intelligence with Global exposure. He encouraged all the participants from various other department s to learn from the Programme by saying "Learning don't finish until we die". Finally he encouraged all the participants to gain more and more from this important FEP for the betterment of our life and humanity.

Dr. Sanjana Vij. Programme Director, Academic Staff College also welcomed and encouraged all the participants for the valuable Faculty Enrichment Programme. She emphasized on the programme detail and applications of AI in various fields.

Day 1st :- 5th July 2021 – Monday : Technical Session –

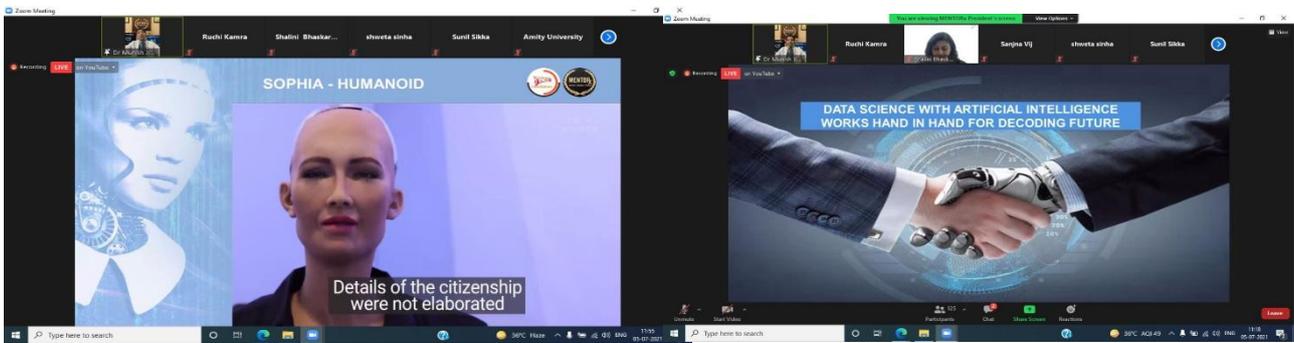

Speaker : Dr. Munish Jindal, Founder & CEO of HoverRobotix ,Founding President of MENTORx

Topic: Artificial Intelligence and Machine Learning: Transforming Academia to Industry

First technical session was delivered by Dr. Munish Jindal who is the Founder & CEO of HoverRobotix and Founder President of MentorX. Dr Jindal shared his views on the topic “Artificial Intelligence and Machine Learning : Transforming Academia to Industry” .Dr. Munish Jindal enlighten the participants about use of AI in Day-to-day life and the future of AI.

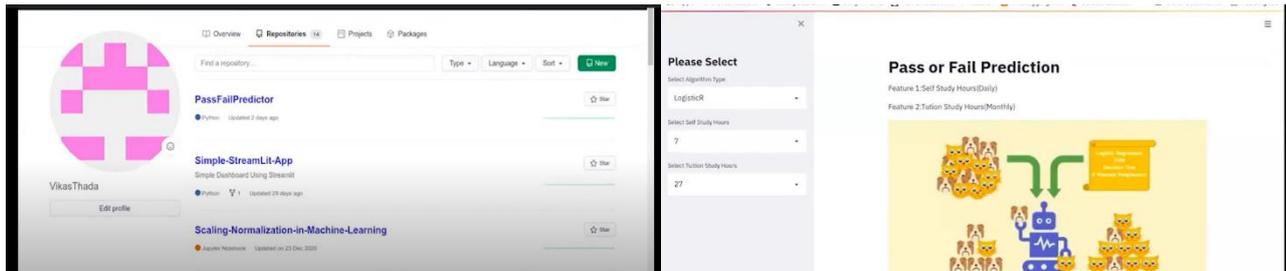

- ✚ AI is changing the world. AI is being used in personality checking based on selfie photographs to ordering food based on past orders.
- ✚ AI has numerous applications in the field of agriculture, healthcare , banking, education, online shopping etc. Image analysis, Virtual Assistants, Predictive Analysis are few trending areas.
- ✚ Smartwatch is an example of AI which is used to monitor the health of the human by recording heartbeat, footsteps.
- ✚ Autonomous tractors and Agriculture Robots are another example of AI in the field to agriculture for irrigation, seeding, taking care of plant health.
- ✚ Robodogs for enforcing social distancing and Humanoids are other achievements in the field of AI.
- ✚ The day is not far when we walk hand in hand with Robots.

Day 1st : 5th July 2021 – Monday : Noon Session

Speaker - Dr Vikas Thada, Associate Professor, Amity University Gurgaon, Haryana

Topic : Machine Learning Based Web Apps

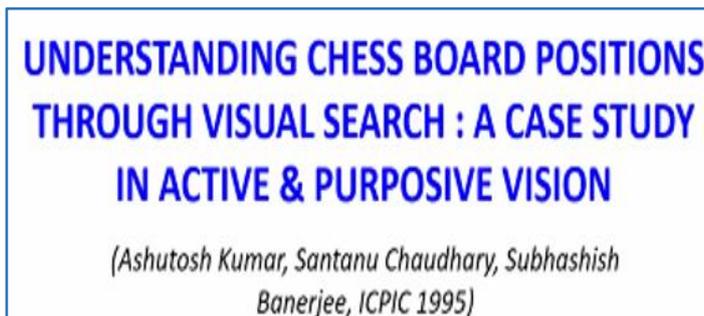

The session by Dr Thada gave a practical experience to the participants. The lecture covered basics of supervised machine learning followed by developing binary and multiclass classification model. Once models were built using flask and streamlit deployments of development model was done on public cloud. Complete process was done by using python and anaconda framework.

Day 2nd :- 6th July 2021 – Monday :

Speaker - Mr. Ashutosh Kumar, Global Technology Services, IBM, Noida

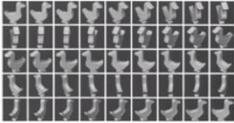

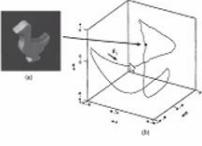

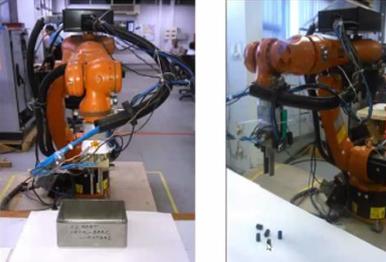

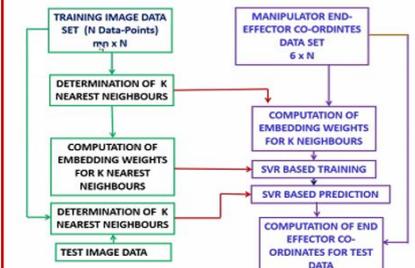

Topic: Computer Vision: The Evolution and Emerging Trends.

During the session conducted by Mr Ashutosh Kumar the following key points were highlighted:

- Discussed about the chronology of Computer vision in different fields such as safety, health and security.
- The Case study on Understanding Chess board Position through visual search was elaborately discussed. The objective of the search was to understand the successive chessboard position using active visual search and planning. The system was implemented using robot cell comprises of master controller, image processing station and IBM7545 industrial robot.

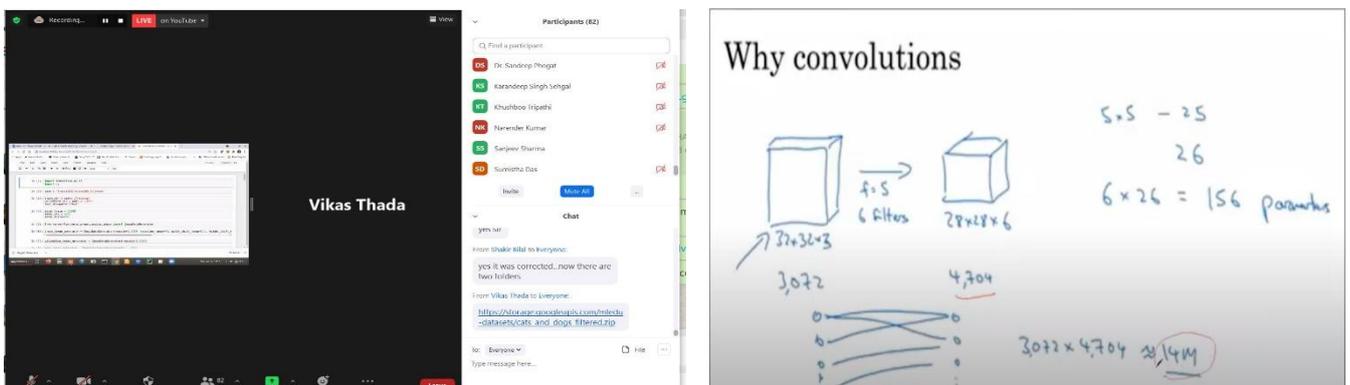

- Further, discussion was carried out on Visual learning and recognition of 3D objects from Appearance. It is a technique for automatically learning three dimensional objects from their appearance in two-dimensional images. The method adopted in this approach computes the eigenvectors of an image set. The large number of eigenvectors are required that form an orthogonal basis for representing individual images in the set.
- During the session Bin Picking Using Manifold Learning technique was discussed. It requires accurate estimation of location and pose of the object for positioning the end effector of the robotic arm. It employed Locally linear Embedding (LLE) and Deep Learning for manifold learning in the visual domain as well as for the parameters of robotic manipulator for visual servoing.
- The computer vision journey was discussed specifying the evolution of computer vision techniques from the year 1960 till year 2020.

<h3>Visual search and Image interpretation</h3> <ul style="list-style-type: none"> • The paper implemented a high level image interpretation system. • Objective was to understand successive chessboard positions using active visual search and planning. • The planning module was based on game tree searching. • Sensor placement was guided by the likelihood of a move by an opponent. • The system was implemented using a robot cell consisting of a master controller, an image processing station and IBM7545 industrial robot. 	<h3>Collection of Data sets</h3> <ul style="list-style-type: none"> • Object exposed to the image sensor in several orientations and illumination directions.  <ul style="list-style-type: none"> • The result is a very large set of object images. • Since all images in the set are of the same object, consecutive images are correlated to a large degree. 	<h3>Creation of Object Image Set</h3> <ul style="list-style-type: none"> • In the experiment, images were obtained in discrete poses, 4° apart • There were 5 light source directions. • Hence total no. Of images in the object image set = $5 * (360/4) = 450$ • Each image was 128×128 pixels in size and normalized in scale and brightness. • A subset of the object image set is shown below 
<h3>Pose Estimation Using Manifold</h3> <ul style="list-style-type: none"> • The Figure below shows an input image of the object mapped to a point in object eigenspace. The location of the point on the parametric curve determines the pose of the object in the image.  <ul style="list-style-type: none"> • Use of efficient search algorithms to find the closest point on the manifold for the input image, reduces computational effort. 	<h3>Bin Picking Using Vision Based Sensors</h3> 	<h3>BIN PICKING WITH LLE MANIFOLD LEARNING</h3>  <pre> graph TD A[TRAINING IMAGE DATA SET (N Data-Points) m*n x N] --> B[DETERMINATION OF K NEAREST NEIGHBOURS] A --> C[COMPUTATION OF EMBEDDING WEIGHTS FOR K NEAREST NEIGHBOURS] B --> C C --> D[DETERMINATION OF K NEAREST NEIGHBOURS] D --> E[TEST IMAGE DATA] E --> F[COMPUTATION OF END EFFECTOR CO-ORDINATES FOR TEST DATA] G[MANIPULATOR END-EFFECTOR CO-ORDINATES DATA SET 6 x N] --> H[COMPUTATION OF EMBEDDING WEIGHTS FOR K NEIGHBOURS] H --> I[SVR BASED TRAINING] I --> J[SVR BASED PREDICTION] J --> F </pre>

Day 2nd : 6th July 2021 – Tuesday : Noon Session

Speaker - Dr Vikas Thada, Associate Professor, Amity University Gurgaon, Haryana

Topic : Deep Learning for Image Processing

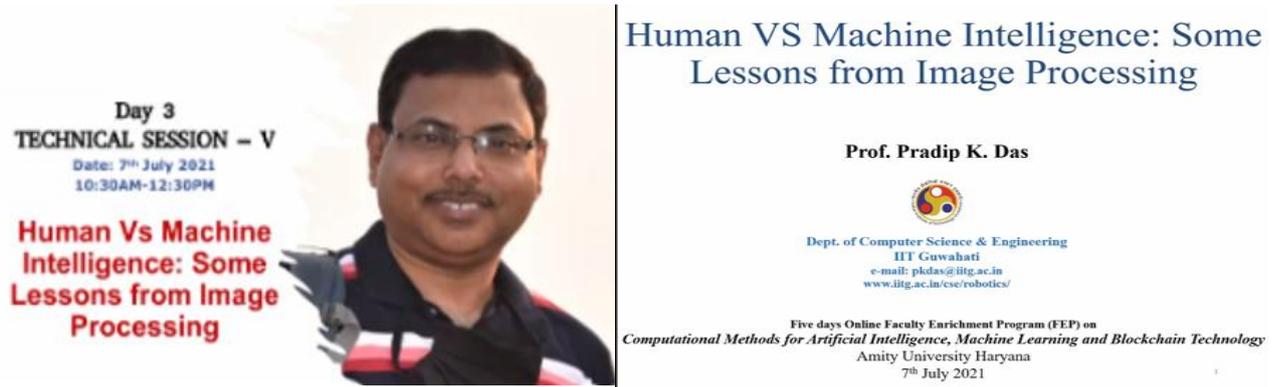

The session by Dr. Thada covered the technical nuances of deep learning. He explained the practical implementation of deep learning for image processing. The session started with a brief introduction of deep learning and also image processing. He discussed databases available and pre-processing aspects of those data. The features and feature extraction processes were discussed, and practical implementation was shown. The session was highly interactive as the details of CNN and its implementation generated queries from the participants. The feedback of the session was also very good.

Day 3rd: 7th July 2021 – Wednesday: Morning Session

Speaker : Prof. Pradeep K Das, IIT Guwahati

Topic: Human Vs Machine Intelligence: Some Lessons from Image Processing

Day 3
TECHNICAL SESSION – V
Date: 7th July 2021
10:30AM-12:30PM

Human Vs Machine Intelligence: Some Lessons from Image Processing

Prof. Pradip K. Das

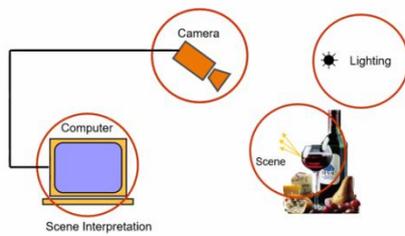

Dept. of Computer Science & Engineering
IIT Guwahati
e-mail: pldas@iitg.ac.in
www.iitg.ac.in/cse/robotics/

Five days Online Faculty Enrichment Program (FEP) on
Computational Methods for Artificial Intelligence, Machine Learning and Blockchain Technology
Amity University Haryana
7th July 2021

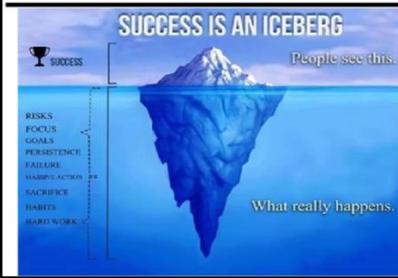

The following key points were highlighted:

- Discussed about the computer vision by specifying that it is a technique that deals with developmental of theoretical and algorithmic basis by which useful information about 3D world can be automatically extracted and analyzed from multiple 2D images of the world.
- He explained the different components in computer vision and specifies that from a given a partial iamge the complete image can be developed.
- He stressed that algorithms in computer science should be developed targeting to real world problems.
- Through the series of experiments he demonstrated that light makes object appear different sometimes than what they actually are known as illusion. Thereby, he stressed out that element of distance biased our decision.
- Discussion was carried out that Human Vision is capable of different task that includes: recognizing people and objects, navigating through obstacles, understanding mood in the scene and formulating the stories. Further he discussed that there are certain limitations that exist in human vision that includes: suffers from illusion, ignore many details, amigious description of the object and does not care about accuracy of the details.
- Discussion was carried out on the design considerations for objects detection in a scene that depends on following factors: possible object placement, detection and localization of objects and categorization of objects in the scene.
- Further, design issues for mobile robots in an unfamiliar territory was discussed that covers the following factors: constraining the paths, movement behavior learning and safety of sensors.

Components of a Computer Vision System

A Picture is Worth 100 Words!

Human Vision

- Capable of doing these tasks easily:
 - Recognize people and objects
 - Navigate through obstacles
 - Understand mood in the scene
 - Imagine and formulate stories
- But still, it is not perfect...
 - Suffers from illusions
 - Ignores many details
 - Ambiguous description of the world
 - Doesn't care about accuracy of the details

Design considerations for objects detection in a scene

- Possible object placements
- Detection and localization of objects
- Categorization of objects in the scene

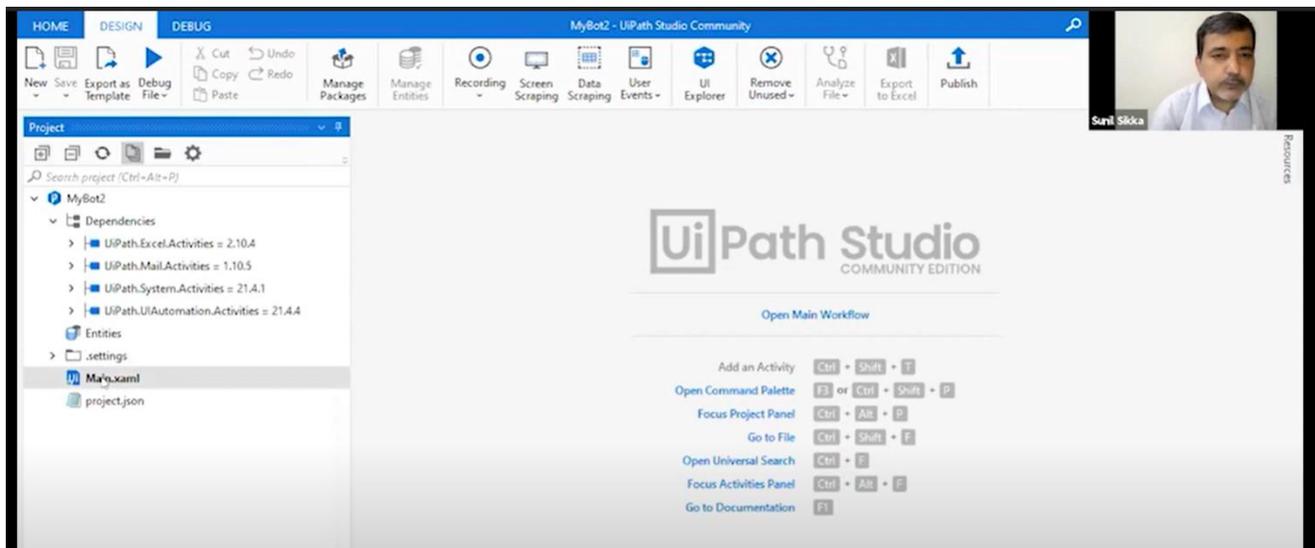

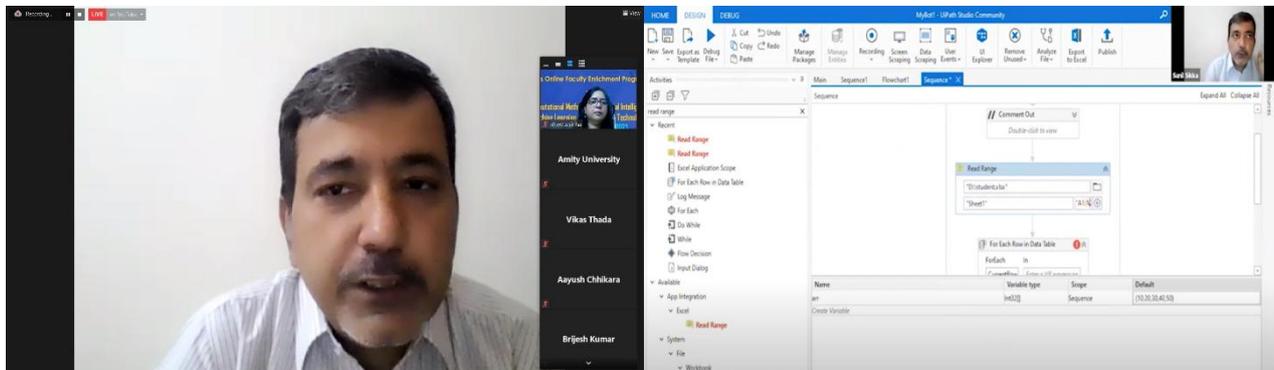

Design issues for mobile robots in an unfamiliar territory

- Safety of devices/sensors/personnel
- Constraining the paths
- Movement behavior learning (learn from the environment...)
 - Learn from nature

Day 3rd : 7th July 2021 – Wednesday: Noon Session

Speaker : Dr. Sunil Sikka, Amity University Haryana

Topic: Robotic Process Automation in Action

Dr. Sunil Sikka delivered a practical session on Robotic process automation (or RPA). He explained that RPA is a form of business process automation technology based on metaphorical software robots (bots) or on artificial intelligence (AI)/digital workers which is sometimes referred to as *software robotics*.

The concept was explained using the UiPath as one of the robotic process automation tools for large-scale end-to-end automation. He explained methods for an accelerated business change, and discussed few solutions for businesses to automate routine office activities. The application easily transformed tedious tasks into automated processes.

The demonstration showed how the technology combines emulating humans read computer screens (AI Computer Vision) with APIs, and gives users access to prebuilt automation components that can be combined to automate routine processes. The session was highly interactive as most of the participants were new to this domain. Their interest in developing Bots was reflected through the quantum of queries asked in the Q & A session.

Day 4th : 8th July 2021 – Friday : Morning Session

Speaker - Dr Sandeep K Panda, Associate Professor, ICAI University, Hyderabad

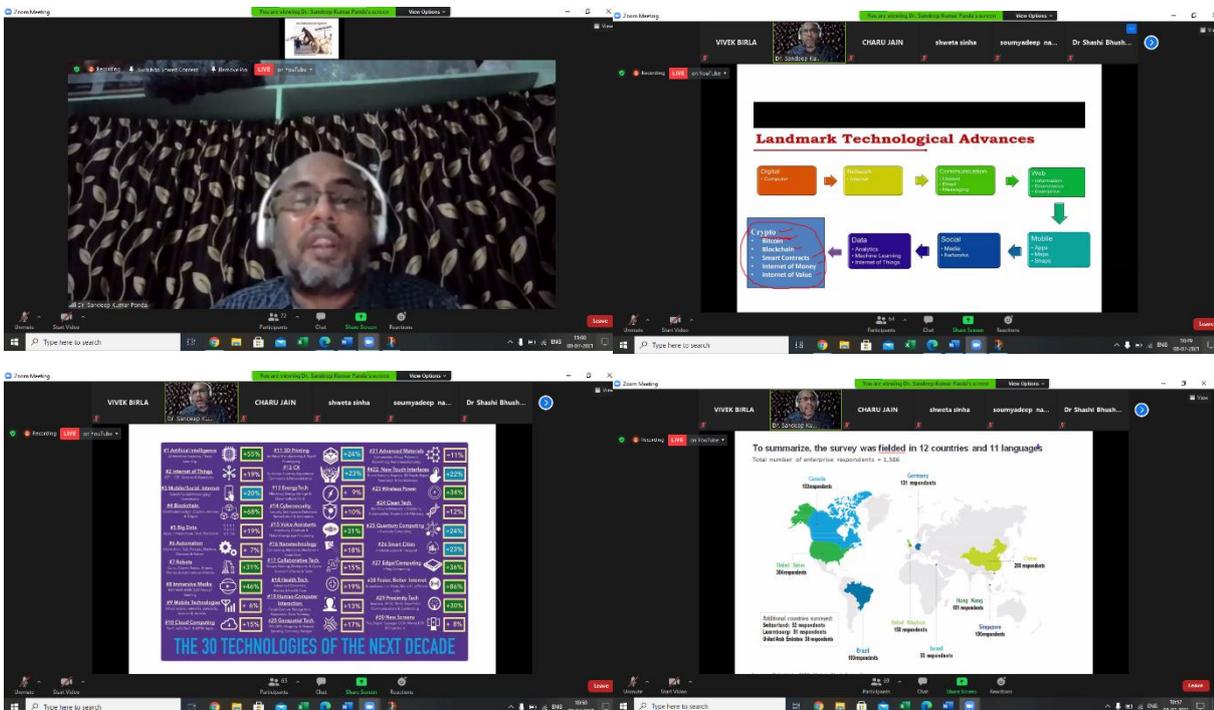

Topic: 'Blockchain Technology: Applications and Challenges'.

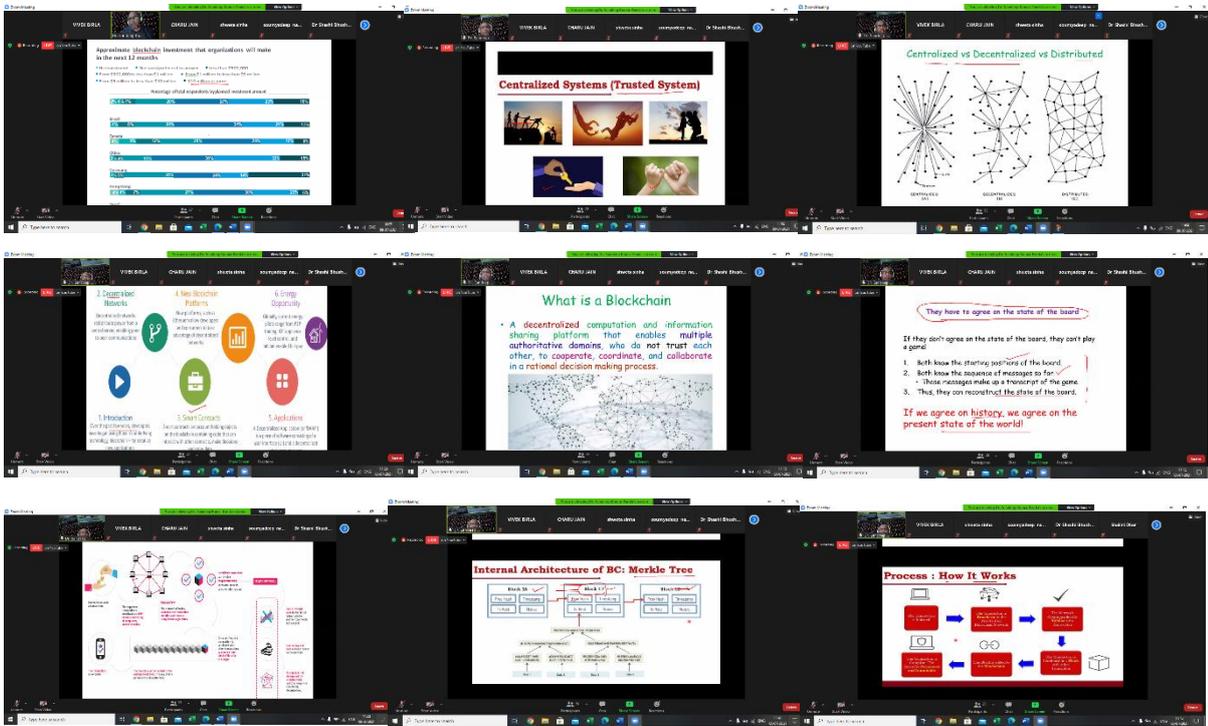

He discussed about the topic, Bit Coins and Crypto currency and about the tremendous growth of bit coin. Also, there was discussion about the various blockchain networks like centralized, Decentralized and distributed ledgers.

He spotted about the Architecture of Blockchain(Merkle Tree) and the process of its working where adding new blocks to the chain were understood. There were few more points those were covered up like Ethereum platform and ether, Permissioned Blockchain and incentive designs, Decentralized apps and many more.

The speaker presented the milestone timeline from December, 2013 untill date with all the different testnet clients. There are various applications running like smart energy, smart transportation, smart healthcare etc. which use blockchain.

There were some realtime projects discussed during the presentation like Oaken project(USA), La'Zooz Project(Israel) , Dova(England) and few more. Lastly there was a nice query session where the questions related to encryption, security , tokens etc where asked from the guest.

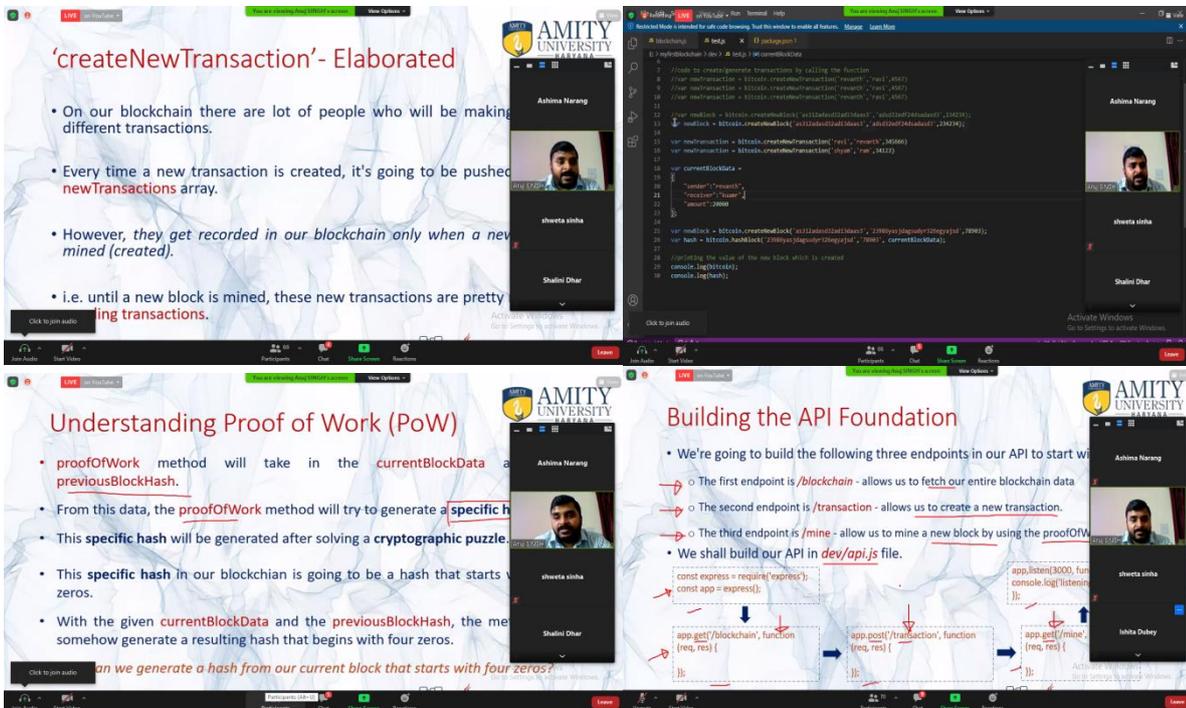

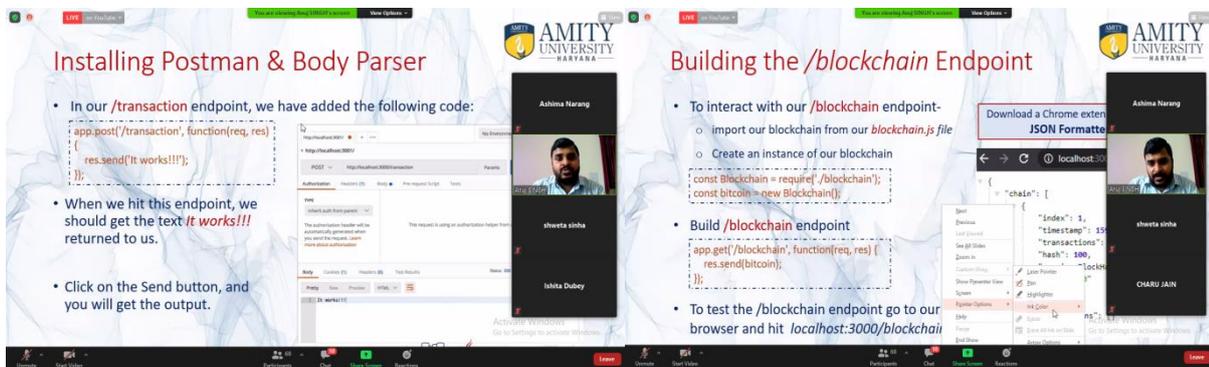

Day 4th : 8th July 2021 – Friday : Noon Session

Speaker - Dr Anuj KumarSingh, Assistant Professor, Amity University Gurgaon, Haryana

Topic : Blockchain Development in JavaScript

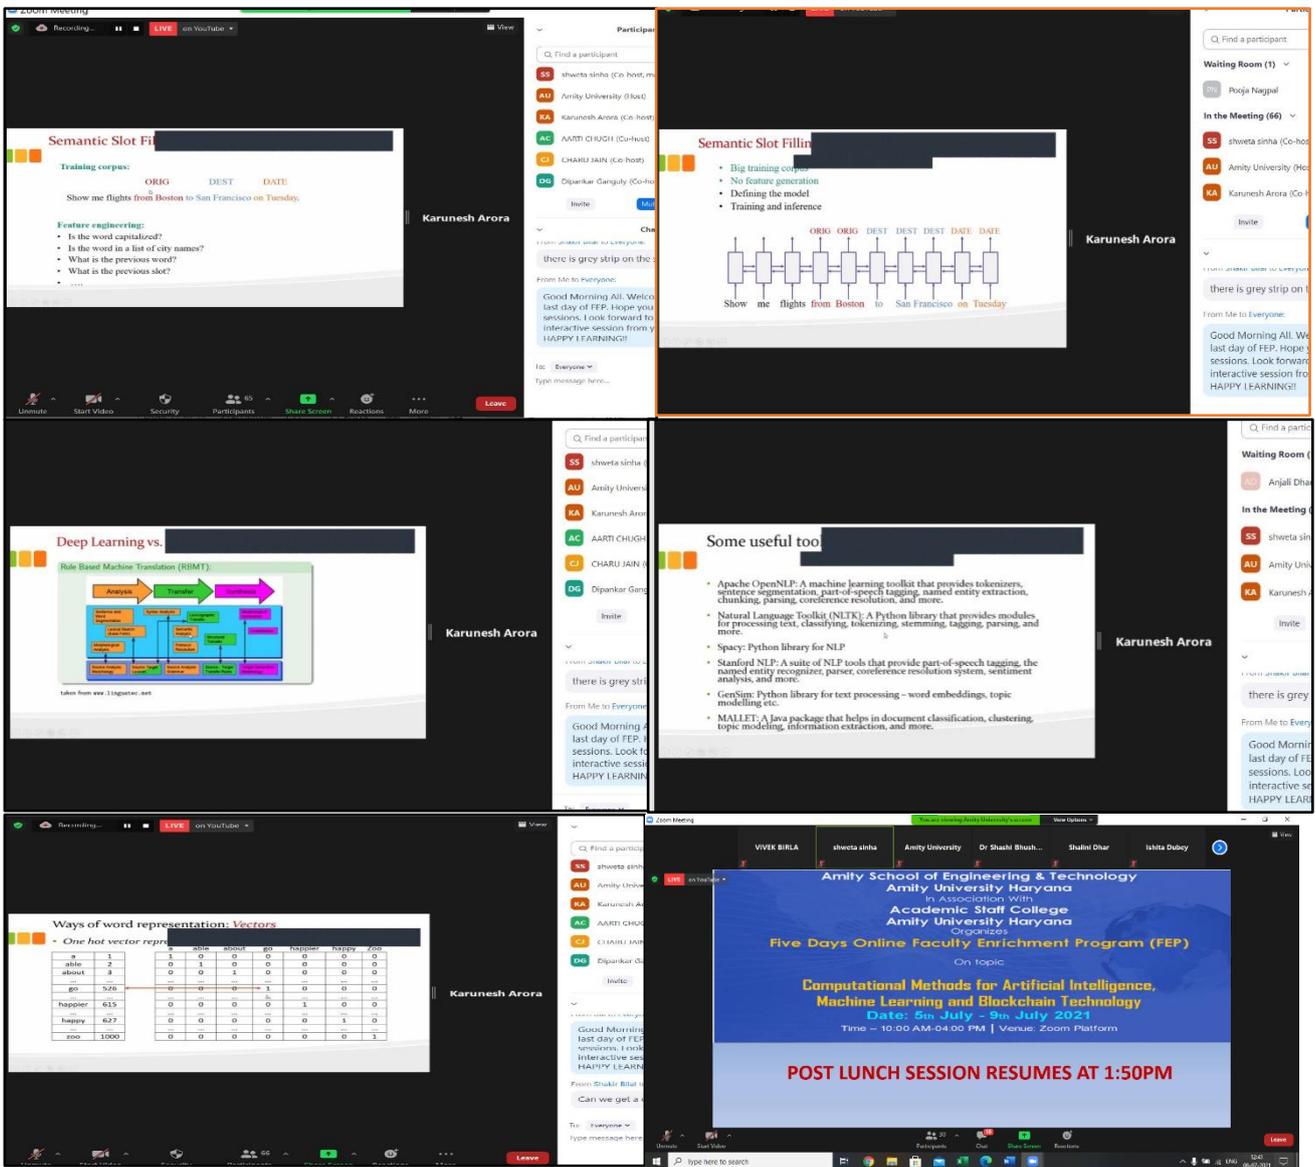

Day 5th : 9th July 2021 – Friday : Morning Session

Speaker : Dr Karunesh Arora, Sr. Director (SNLP), C-DAC Noida

Topics : Natural Language Processing

Dr Arora started the session with a brief outline of NLP domain. Around 82 participants attended the session. He discussed several application domains and their challenges. In his talk he discussed the importance of context while referring to word ambiguity. One of the important area of NLP; the named entity recognition was also highlighted by Dr Arora. He discussed the nuances of deep learning and its application in Natural language processing. His talk let the participants discover the difference between processing based on Deep Learning and traditional approaches of NLP. In his session DR Arora also discussed more complex aspect of NLP i.e., Speech Processing. The methods for speech and speaker identification was highlighted. At the end Dr Karunesh Arora shared with the participants all the available resources and software tools like open CV, open-NLP etc. that can be helpful in NLP processing.

Day 5th : 9th July 2021 – Friday : Noon Session

Speaker : Dr Ruchika Malhotra,

Topics : Empirical software engineering: analyzing experimental data and future directions.

Dr Malhotra in her talk discussed aspects of data analysis method . Around 80 students participated in the session. Dr Ruchika emphasized the importance of understanding of the problem and algorithm. The talk was focussed towards the empirical aspects of software engineering research. The major steps like data selection, data cleaning, application of machine learning algorithms was talked about. Dr Malhotra outlined the importance of clean and balanced data. Importance of Parameter tuning for optimal result was discussed.

Empirical Research in Software Engineering: Concepts, Analysis, and Applications by Ruchika Malhotra

CRC Press Taylor & Francis Group

Ruchika Malhotra

Concerns in Machine Learning Techniques

- + Data must be preprocessed. It may help in increasing the accuracy of the models.
- + A suitable learning algorithm must be selected for model development.
- + The model must be checked for multicollinearity effects.
- + The training and test data must be as independent as possible as new data is expected to be applied for model validation.
- + The parameter setting of machine learning techniques may be adjusted (not over adjusted) and should be carefully documented to produce repeatable studies.

Empirical Research in Software Engineering: Concepts, Analysis, and Applications by Ruchika Malhotra

CRC Press Taylor & Francis Group

Ruchika Malhotra

Study Definition

- + The first step involves the definition of the goals and objectives of the empirical study.
- + This phase is divided in the following parts:
 - ☐ Scope – What are the dimensions of the study?
 - ☐ Motivation – Why is it being studied?
 - ☐ Object – What entity is being studied (Product or process)?
 - ☐ Purpose – What is the aim of the study?

Empirical Research in Software Engineering: Concepts, Analysis, and Applications by Ruchika Malhotra

CRC Press Taylor & Francis Group

Ruchika Malhotra

Step III: Model Construction using Learning Algorithm/Techniques

- + After the data has been partitioned, the next step is to train the model using the training data.

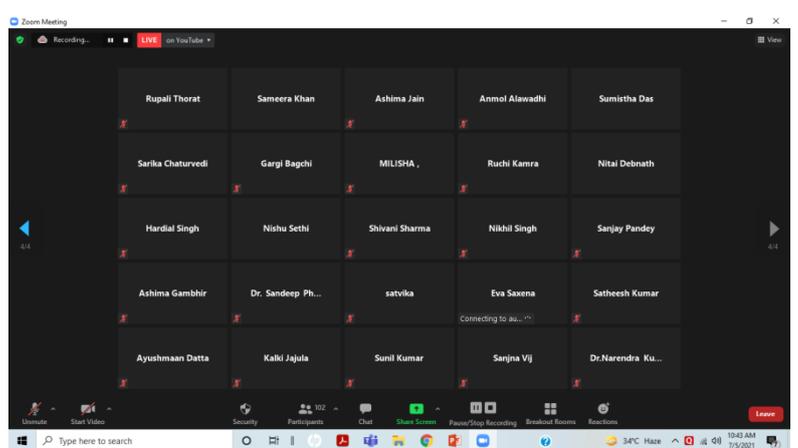

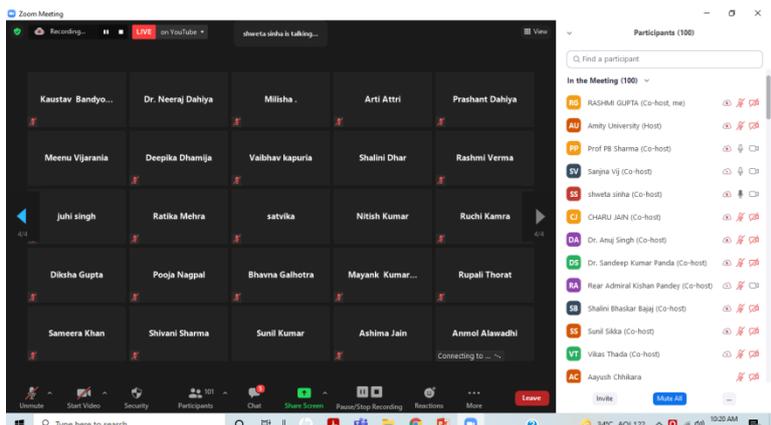

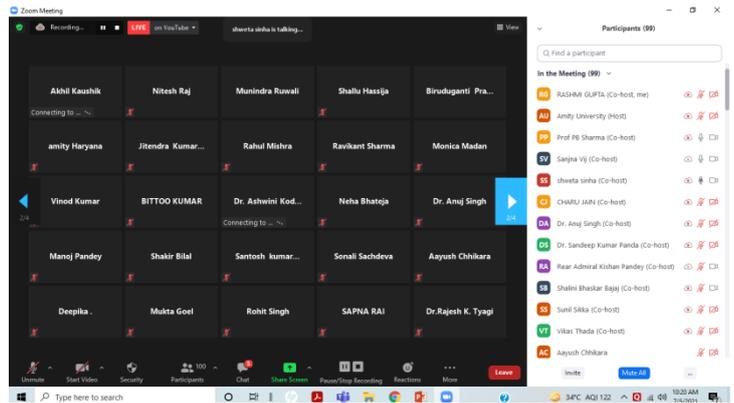

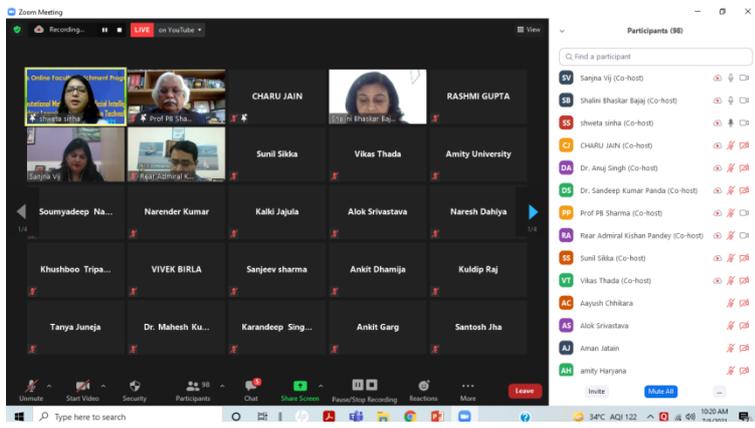

Empirical Research in Software Engineering: Concepts, Analysis, and Applications by Ruchika Malhotra

CRC Press Taylor & Francis Group

Ruchika Malhotra

Once the sessions were over an online assessment was taken to help identify the learning of students. The FEP concluded with a vote of thanks by Dr. Vikas Thada.

QUALITY INITIATIVE By Internal Quality Assurance Cell

ONE DAY WORKSHOP ON "PAINTS & WOODS"

This one-day workshop is one of the quality initiatives brought by Internal Quality Assurance Cell at AUH. This workshop up skill the students to.

- Build advance material design interior knowledge on wood & paints.
- Classification, designing, execution, material specification and selection of products for Interior Design

OBJECTIVE OF THE WORKSHOP

- Research advanced building materials and techniques
- Use of different type of doors and paints for Interior execution
- On-site knowledge of construction

WHO SHALL ATTEND THE WORKSHOP?

Faculty and students of AUH.

OUTCOME OF THE WORKSHOP

- Students learned about :-
- Workshop for Paint and Wood
 - Type, marketing and classification of Paints
 - Sketching concepts for design
 - Type, marketing and classification of Woods
 - Participants centric workshop with virtual tour of marketing and products for design.

QUALITY INITIATIVE By Internal Quality Assurance Cell

ONE DAY " PLANTATION DRIVE UNDER THE CAMPAIGN OF" MISSION GREEN".PHASE-I

The Amity School of Earth & Environment Sciences (ASSES) together with the Horticulture Department, AUH and The Environmental and Consumer Protection Foundation (ECPF) under the leadership of Lt Gen Shivane organized a Plantation Drive at AUH Campus on August 15, 2021 at 10.00 AM onwards after 75th Independence Day Celebration.

OBJECTIVE OF THE WORKSHOP

To raise awareness towards the importance & benefit of environmental conservation & plantation including use of each part of need plants in our daily life.

WHO SHALL ATTEND THE WORKSHOP?

Faculty and students of AUH.

OUTCOME OF THE WORKSHOP

Plantation Drive at AUH Campus was inaugurated with the word of wisdom by Honorable Vice Chancellor of Amity University Haryana, Prof. Dr. P.B. Sharm. He enlightened the audience with the importance of progress of country after Independence. He also highlighted to raise awareness towards the importance and benefits of environmental conservation and plantation including use of each part of need plants in our daily life

3.1 General Introduction of the Event: The Amity School of Earth & Environment Sciences (ASSES) together with the Horticulture Department of our University and The Environmental and Consumer Protection Foundation (ECPF) under the leadership of Lt Gen Shivane organized a Plantation Drive at AUH Campus on August 15, 2021 at 10.00 AM onwards after 75th Independence Day Celebration.

3.2 Objectives of the Event: On the occasion of 75th Independence Day, Plantation Drive at AUH Campus was inaugurated with the word of wisdom by Honorable Vice Chancellor of Amity University Haryana.

Prof. Dr. P.B. Sharm. He enlightened the audience with the importance of progress of country after Independence. He also highlighted to raise awareness towards the importance and benefits of environmental conservation and plantation including use of each parts of need plants in our daily life. He discussed the urgency of latest techniques that would benefit human kind by saying “World is looking to us for possible solution”. He also said that we (humans) are spoiling our health by dirty air and water.

3.3 Brief about the address/talk of speakers:

The programme was followed by Maj Gen Gurpal Singh Bal, Dean of Students Welfare, AUH. Gen Bal praised the country’s army, said that all of us should be the part and equal contribution in the progress of the Country.

- Prof. I.S.Thakur, expressed his concerns for environmental restoration, Green Energy, and environmental conservation.
- Lt Gen Ashok Shivane, ECPF enlightened the audience with the importance of plantation and also said that with this MISSION GREEN, We are motivating our youth to protect the environment and hope that we will be successful.
- The First Phase of plantation have been successfully completed on August 15, 2021 under the supervision of Prof. I.S. Thakur & Dr. ViveakBallyan and Second Phase will be scheduled on August 27, 2021.
- The First tree of Neem was planted by our Honorable Vice Chancellor Prof. Dr. P.B. Sharma. Under the plantation drive, 150 trees (Neem, Papri, Alstonia (Chitvan) and Jamun) were planted at along the boundary wall from Gate No:-3 towards Hostel Backside and up to STP Plant and also along the boundary wall from Gate No: - 2 towards Amity Dog Academy total 75 trees were planted.
- Team members of the Environmental and Consumer Protection Foundation (ECPF) (approx. 20 numbers) and the faculties, staff members and students participated in plantation drive and they were highly interested to become part of the Green mission.

QUALITY INITIATIVE By Internal Quality Assurance Cell

FIVE DAY WORKSHOP IN APPLICATIONAL OF “SOFTWARE IN CIVIL ENGINEERING”.

The goal of this workshop is to introduce the students and faculty to the Geoscience software which is a specific branch of study in civil engineering, The main aim of the workshop is to develop an regarding the recent advances in field of GeoScience. This workshop will give an insight regarding the software used in the Geoscience industry.

OBJECTIVE

The objective of this workshop is to identify the research areas in the field of Civil Engineering and modalities to disseminate this information by motivating the researchers spread across the country to get involved in more research and innovation activities related to civil engineering. This will help to introduce the civil engineering fraternity with the software skills and develop an understanding of the software regarding the recent advancements.

WHO SHALL ATTEND?

Faculty and students of AUH.

OUTCOME

This workshop will give an insight into the software used in this field. The software tools help in saving time as well as money, increase profitability, and provide a competitive edge through high-quality graphics, models, plots, and many more. This will also help in getting the experience of the software system for monitoring and modeling various aspects of sustainable development. This workshop aims at bringing together professionals, students, and faculty members and offers an excellent platform for the exchange of ideas, as well as to showcase the results of their research efforts.

1. General Information

Date: 23rd August 2021 to 27th August 2021

Event Type: Workshop

Event Title: Five Days Workshop on APPLICATIONS OF SOFTWARE IN CIVIL ENGINEERING

Venue: Online (ZOOM platform)

Web/Video Link of the Event: <https://amityuni.live/84209919406>

Organized by(School): ASET (Civil Engineering Dept.)

Student Participation*: No. of Students from AUH (Course wise):-8

Faculty Participation*: No. of Faculty Members from AUH (Deptt. wise):- 8

Participation from outside AUH*: No. of Students & Faculty Members-80

(Enclose attendance sheets in given format)

Event Coordinator(s) with designation: Dr Naveen BP (moderator), Associate Prof. and HOD, Civil Engineering Dept.

Ms Sakshi Gupta, Assistant Professor, Programme Coordinator M. Tech (Civil Engineering), Civil Engineering Dept., ASET, AUH

Details of Expert/Speaker/Resource Person/Judge:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	Recommended by	Major Areas where Amity can Collaborate with expert	CV of Expert (Yes/No)
1	India	Mr Maya nk Saxena and his team	Datacode International,	Dy. Manager Tech Sales Datacode International Nagpur	Geoscience (Civil Engg.)	+91-77989 81052 3	maya nk@datacodeintl.com	Dr. Naveen B P	Geotechnical Engineering Software	Yes

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph):

Mr. Mayank has 14 years of experience as Senior Geologist in national and international fields. His expertise lies in field of Exploration, Mining and Production in countries like Democratic Republic of Congo and Tanzania in African continent. He has dealt with Copper, Cobalt, Gypsum, Limestone, Talc, Bauxite and Gold. He has an experience of 3 years in Geological & Geochemical Exploration viz. mapping and drilling, Geotechnical and Hydro geological studies, Geophysical Resistivity Surveys, Royalty and Prevention of Illegal Mining, 5 years in field of Petroleum Exploration and 4.5-year international experience as Mining Geologist/Exploration Geologist in Base Metal (Co & Cu) Open Cast Mine in Democratic Republic of Congo, Gypsum Mining in Tanzania, Tin Tantalum exploration & mining. He has proficiency in Softwares like MapInfo, Surfer, Log Plot, GEO5, RockWorks, Datamine, ArcGIS, TerrSet, Geosoft Target and basic understanding of Leapfrog.

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)? NO

5. Any other				

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

The goal of this workshop is to introduce the students and faculty to the Geoscience software which is a specific branch of study in civil engineering. The main aim of the workshop is to develop an regarding the recent advances in field of GeoScience. This workshop will give an insight regarding the software used in the Geoscience industry.

3.2 Inspiration & Objectives of the Event

The objective of this workshop is to identify the research areas in the field of Civil Engineering and modalities to disseminate this information by motivating the researchers spread across the country to get involved in more research and innovation activities related to civil engineering. This will help to introduce the civil engineering fraternity with the software skills and develop an understanding of the software regarding the recent advancements. This workshop will give an insight into the software used in this field. The software tools help in saving time as well as money, increase profitability, and provide a competitive edge through high-quality graphics, models, plots, and many more. This will also help in getting the experience of the software system for monitoring and modeling various aspects of sustainable development. This workshop aims at bringing together professionals, students, and faculty members and offers an excellent platform for the exchange of ideas, as well as to showcase the results of their research efforts.

3.3 Brief about the address/talk of speakers

The workshop conducted was for 5 days; each day 1 hour; wherein the speakers introduced the participants of the workshop about the various software in the field of geoscience which is still and untapped area for the research.

The 5 days programme was as follows:

Speaker Name	Date	Software
Mr. Mayank Saxena	23.08.2021	Rockworks2020
Mr. Abhishek Sen	24.08.2021	Terrset
Mr. Mayank Saxena	25.08.2021	Geo 5

Mr. Mayank Saxena	26.08.2021	Log Plot
Mr. Sunil Bhendarkar	27.08.2021	Geosoft Target

Everyday the speaker was introduced by Dr Naveen BP, Associate Professor and HOD, Dept. of Civil Engg. and the vote of thanks was presented by Ms Sakshi Gupta, Assistant Professor, Department of Civil Engineering.

Day-1

Mr Mayank Saxena was the speaker for the day. This session imparted knowledge about surface and subsurface data processing and interpretation through Maps and Geological modelling. RockWorks is a comprehensive program that offers visualization and modeling of spatial data and subsurface data. It contains tools that will save time and money, increase profitability, and provide you with a competitive edge through high-quality graphics, models, and plots. The main objective of understanding this software was:

- To develop an understanding about Rockworks2020
- Application to the various Geoscience industries.
- Interpretation of surface and subsurface data by creating different type of maps and Models by using various datatypes

Various questions were put up by the participants and the session was completely new and exciting for the participants.

Day-2

This session was conducted by Mr Abhishek Sen. This session was suitable for those individuals who wish to work in image processing and GIS analysis simultaneously in a single platform along with several inbuilt option for geospatial modelling. TerrSet is an integrated geospatial software system for monitoring and modeling the earth system for sustainable development. The participants were taught how to interpret the data, if anyone has the geospatial or ecological data/map, then he/she can easily process, analyze or model the data using this software. The main objective of understanding this software was:

- To integrate all the GIS and remote sensing related work in a single platform
- Understand where and how TerrSet can be used to get maximum benefit
- Evaluate the importance of this hybrid product

Day -3

Mr Mayank Saxena was the speaker for the day. The session was designed to understand the Software application tools to simplify Geotechnical computation & analysis. GEO5 software was introduced on day-3 of the 5 days' workshop. GEO5 is a software suite, providing solution for majority of geotechnical tasks. It helps you to address a wide variety of geotechnical problems. Besides common geotechnical engineering tasks, the suite also includes highly sophisticated applications for analysis of tunnels, building damage due to tunneling, stability of rock slopes, etc. The main objective of understanding this software was:

- Introduction to GEO 5.
- Applications of GEO5 in Geotech industry
- Different Modules of GEO 5
- understanding of GEO 5 software as a whole
- Enhance Geotechnical Knowledge

Day- 4

Mr Mayank Saxena was the speaker for the day. The workshop intended to introduce about Logging software, one of which is LogPlot. LogPlot is an easy-to-use log plotting program with a flexible log layout. Plot single-page logs for shallow borings or multi-page/continuous logs for deep wells. LogPlot has been widely used in the environmental, geotechnical, petroleum fields. It is a bore hole log software equally essential for core data (generating geochemical data used for mineral exploration) and non-core drill data (generating geophysical well logs for hydrocarbon exploration). The main objective of understanding this software was:

- To develop an understanding about LogPlot 8.
- Application of LogPlot in Geoscience industry
- Understand need of logging tools
- Creating and Interpretation of Logs

Day -5

This session was conducted by Mr Sunil Bhendarkar. The session was for earth explorers that work with multidisciplinary datasets, geology, geochemistry, and geophysics. Geosoft Target is used for working with exploration geoscience data and that provides a complete solution for drillhole projects. It is compatible with major mine planning formats, block models and surfaces, such as: Datamine, Surpac, GOCAD, Micromine, Gemcom, Minesight, UBC, Vulcan and Leapfrog. The main objective of understanding this software was:

- To understand the capabilities of Target & understand how software can generate maps, Implicit and Explicit models, and diagrams.
- Visualize geological, geochemical, geophysical, and geotechnical data in a single graphic display.
- To develop an understanding about 3D geological Modelling by using Target.

Each day the feedback form was filled by the participants and there were a lot of questions during the question-and-answer session on all 5 days.

3.4 ‘Take Homes’ for the Guest and Attendees

It helped the students understand the various aspects of civil engineering software which would help them in research and innovation in Civil Engineering and especially in the geotechnical and geosciences aspects for 5 different software skills. It also provided knowledge and software skills to students on how to approach different Civil Engineering challenges. This knowledge will give them an edge over the others during their higher studies or job interviews.

3.5 Future plan for utilizing the contacts developed with the Invited Guests

Detailed workshop and hands-on experience for interested students who want to conduct their research in the field of geoscience/ geotechnical engineering.

3.6 Budget of the Event – NIL

3.7 Photographs with caption (also share high resolution JPEG files of photographs)

Day -1 23rd August 2021

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event: The Amity School of Earth & Environment Sciences (ASSES) together with the Horticulture Department of our University and The Environmental and Consumer Protection Foundation (ECPF) under the leadership of Lt Gen Shivane organized a Plantation Drive at AUH Campus on August 27 August, 2021 at 10.30 AM onwards.

3.2 Objectives of the Event: The Phase II Plantation Drive event was a follow up of the Plantation Drive held on the occasion of 75th Independence Day, at AUH Campus. Prof. I S Thakur, Director, ASEES,

AUH welcomed all and enlightened the faculty, staff and students by raising awareness towards the importance and benefits of environmental conservation and plantation. Maj. Gen, B.S. Suhag implanted the first sapling to initiate the plantation drive. The drive was followed by Rear Admiral K.K Pandey who was deputed on behalf of Honorable Vice Chancellor, AUH. The drive was further carried forward by Mr. N K Sinha, OSD & Assistant Registrar who was deputed on behalf of Honorable Pro-Vice Chancellor, AUH. Furthermore, the entire plantation drive was enthusiastically carried forward by Dr. Kushagra Rajendra, HoD ASEES and Mr. Viveak Ballyan, Assistant Director, HR alongwith respective faculty members Dr. Shaili S Nigam, Dr. Puja Singh and Dr. Deepika Pandey.

Vote of thanks was delivered by Prof. Dr. I.S Thakur.

3.3 Brief about the address/talk of speakers:

- Prof. I.S. Thakur, expressed his concerns for environmental restoration, Green Energy, and environmental conservation. He enlightened the audience with the importance of plantation and also said that with this MISSION GREEN, We are motivating our youth to protect the environment and hope that we will be successful.
- The First Phase of plantation have been successfully completed on August 15, 2021 under the supervision of Prof. I.S. Thakur & Dr. Viveak Ballyan and Second Phase was successfully scheduled on August 27, 2021.
- Team members of the Environmental and Consumer Protection Foundation (ECPF) (approx. 20 numbers) and the faculties, staff members and students participated in plantation drive and they were highly interested to become part of the Green mission.

**Amity Institute of Behavioral and Allied Sciences,
 Amity University, Gurgaon, Haryana**

**Activity report of
 World Suicide Prevention Day held on 10th and 11th Sep. 2021**

Amity Institute of Behavioral and Allied Sciences, Amity University, Haryana organized an event on *World Suicide Prevention Day on Sep. 10.and 11th 2021* to spread awareness about the sensitive issue of increasing suicides across the globe.

Objective of the two days event: The objective of event was to create awareness, knowledge and skills pertaining to Suicide Prevention among students community. Also to provide an opportunity to the students to express their respective ideas in different forms.

Planned activities for the two days event:

- Poster making competition
- Photo collage making competition

- Slogan writing (Hindi and English) competition
- PPT on Suicide prevention competition

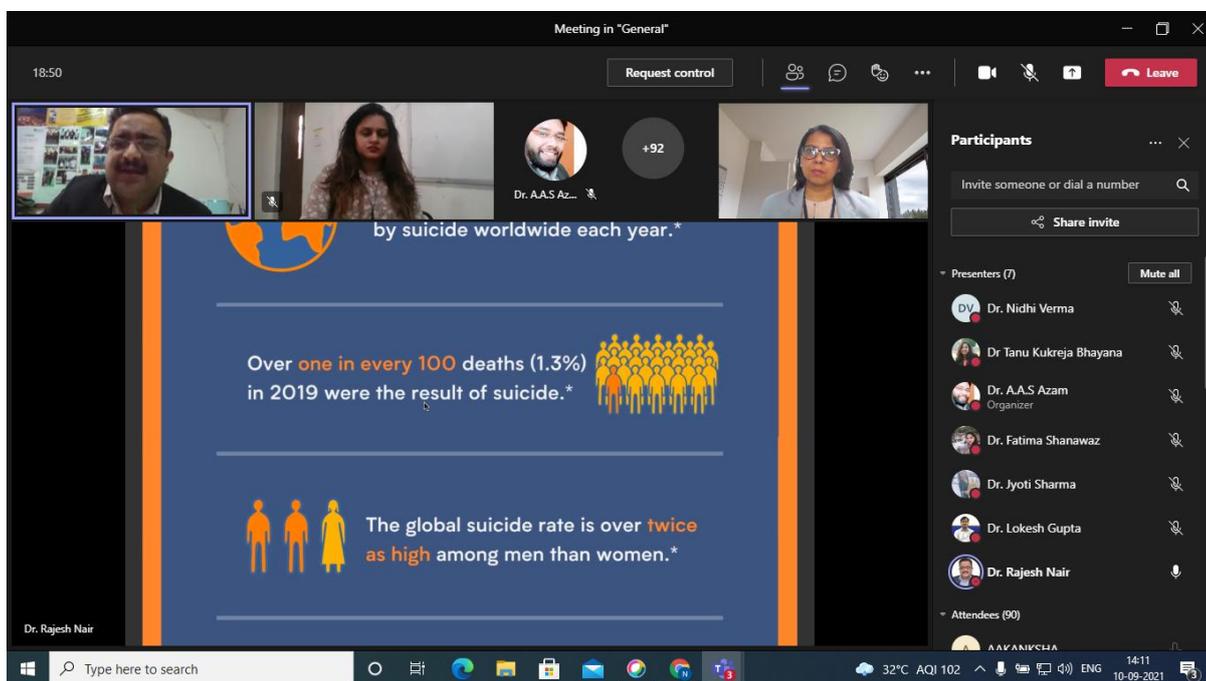

Background:The International Association for Suicide Prevention (IASP) and the World Health Organization (WHO) collaborated for the first time on September 10, 2003, to create a day dedicated to a very essential message: *suicides are preventable*. Suicide is an act of deliberately taking of one's own life, and it is a huge public health concern, particularly during *pandemics and lockdowns*. Every 40 seconds, someone in the world takes their own life, with low- and middle-income countries accounting for 75 percent of the instances. Suicide accounted for about 1.3 percent of all deaths in 2019. However, if any early warning signs are noticed, this can be avoided. The statistical reports also indicate that mental health is one of the significant reasons among other reason for committing suicides. Keeping all these issues in mind AIBAS organized an event for students of UG, PG and PhD where students were first informed about the theme of this year's Suicide Prevention Day i.e. **“CREATING HOPE THROUGH ACTION”** where they were being informed via email and poster about the upcoming event and its significance. The students showed their interest in participating for the Nobel cause.

The event started on Sep. 10, 2021 post classes at 2:00 PM. The event was initiated with the elcome address and words of wisdom about the significance of the World Suicide Prevention Day by Prof. (Dr.) Rajesh Nair, Director, AIBAS. It was followed by heartfelt thanks by Dr. Nidhi Verma to Director, AIBAS and Institution's Head of the Department for giving the opportunity to organize the event for such a vital cause. The session began by sharing the list of the students who are participating in various events by Undergraduate, Postgraduates and PhD Scholars of AIBAS, Amity University, Haryana by Dr. Nidhi Verma. The session started by first event where a student of masters 'delivered a speech and its importance among the students' community by Mr. Anubhav. There were overwhelming responses by students of all the classes. BA Applied Psychology students first presented their activities followed by BSc Clinical Psychology. Students showed their participation in posters making, photo collage, poems on the first day. The event was closed at 4:30 PM by motivating words by Prof. Rajesh Nair Dr. Priyanka, Dr. Jyoti, Dr. Nidhi Verma to join on next day to continue the event.

Second day event was again started with same enthusiasm on Saturday 11th Sep at 10:00 am for the students who could not present on the first day due to huge number of participations. The event began by Prof. Rajesh Nair (Director, AIBAS) by his words of wisdom about suicide prevention and suggestions to students that each one of us have the potential to create light in someone's life. The session was continued by Dr. Nidhi Verma by starting the event by some observations about the student's participation and enthusiasm. The first event was by PhD Scholar Ms. Saumya Srivastava who recited the beautiful poem followed by students of all classes who shared their

expressions. It was a great start where students shared their poems, their own life incidences through PPT's or photo collage, rap songs, shayari on suicide prevention. Overall, this event has received huge participation from each class approx. 100 participation. The different sessions of the event were in between coordinated by Dr. Jyoti and Dr. Arya. It was concluded by a poem of Harivansh Rai Bacchan by Dr. Jyoti Sharma, words of wisdom by Dr. Rajesh Nair and concluded by Dr. Nidhi Verma by motivating words for all the students who performed excellent in different events with a commitment to work with the students for raising awareness on mental health issues. The event further was ended with a rap song by Devansh Sharma of Bsc Clinical Psychology on suicide prevention and mental health issues. The students will be provided with Appreciate Certificates.

The pictures of posters, PPT's, Photo collage and slogans are attached below for your perusal.

STOP SUICIDE

The person who suicide, dies once. Those they left behind die a thousand deaths, trying to relive those terrible moments and ask why?

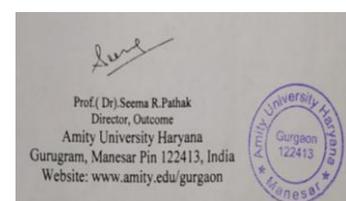

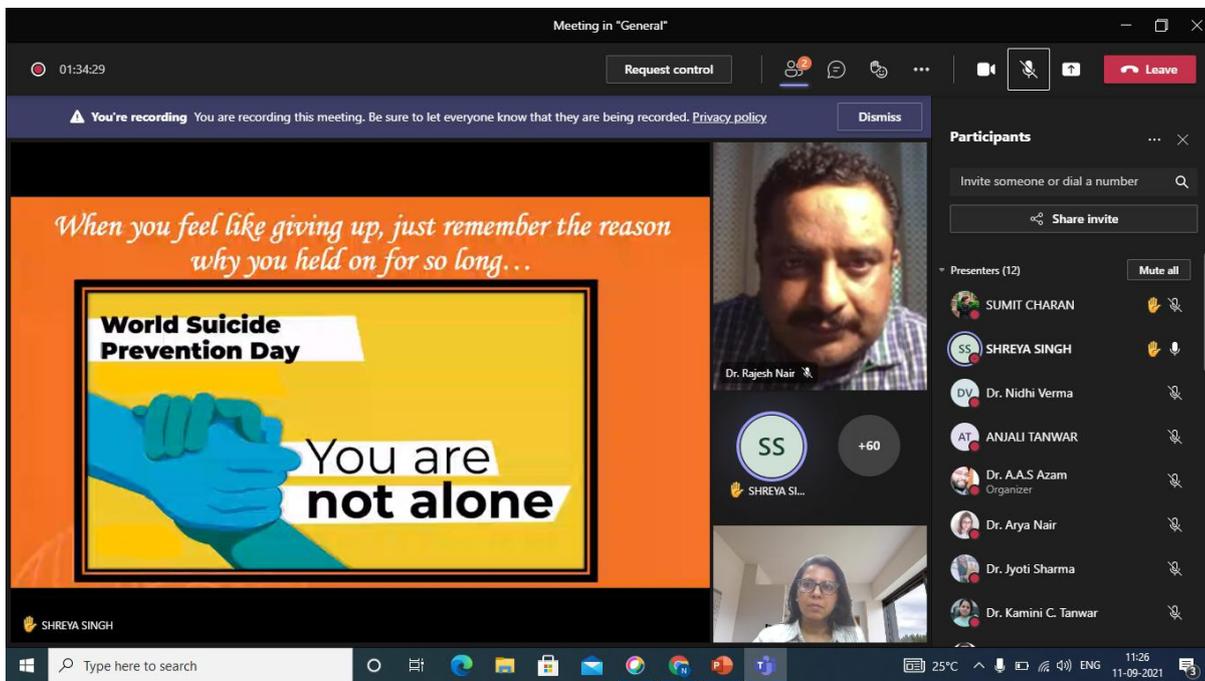

SHREYA SINGH

Life Matters

Remarkable was the day of your birth
Remarkable was your childhood
And the years that followed too soon
Remember your journey one last time
Before you close your eyes
Just think about your parents
One single time
They are the only one
Who spent whole life on you
Please don't do suicide
Your life matters
Your smile matters
Just think about your parents
One single time...

AMITY UNIVERSITY

HARYANA

Established vide Government of Haryana Act No.10 of 2010

AMITY UNIVERSITY HARYANA

Amity University Haryana with a legacy of world class academic infrastructure is a part of Amity Education Group, a pioneer of global culture in education in India. AUH - a research and innovation driven university, is built on a foundation, which embodies the qualities that have made Amity institutes world class. Spread over a 110 acre green campus in the close proximity of Gurugram. Amity has instituted global standards in education training & research state-of-the-arts infrastructure & latest teaching methodologies.

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

Workshop on "Tie & dye" was conducted for the students at Amity University Haryana opened to all the courses. It was started with an introduction and demo of 10 ways of tying the fabric. On understanding the material and the various ways of tying and following up with the process of dying fabrics, students set to make a product for them.

3.2 Inspiration & Objectives of the Event

- To introduce the traditional Indian craft of tie and dye to the students.
- To make students understand different techniques used in tying the fabric and how colour resist in a fabric to produce designs.
- To spread awareness about different precautions taken while dying the fabric.

3.3 Brief about the address/talk of speakers: - NA

3.4 'Take Homes' for the Guest and Attendees: -

Students were able to create beautiful effects on a cotton cloth and make vibrant patterns using the tie and dye technique. They will thoroughly enjoy the workshop and will be able to express their creativity through the myriad hues of colour. Ms. Raka Sharma thoroughly enjoyed the workshop and the environment of Amity university as the students were very interactive and cooperative. The workshop was helpful to the students in many ways where they can use it in their research and create surface ornamented fashionable products.

3.5 Future plan for utilizing the contacts developed with the Invited Guests: - Will be called most often.

3.6 Budget of the Event (Budget Sanctioned, Total Expenditure & Revenue Generated): - Rs.50/- per head.

3.7 Details of Awards if Any:

Awardee Details	Award / Position / Recognition Secured	Title of Innovation/ Start-up Secured the Award / Recognition	Award/Recognition/ Achievement Received for

QUALITY INITIATIVE By Internal Quality Assurance Cell

FOUR DAYS " DIGITAL MOOT COURT COMPETITION"

Amity Law School organized Digital Moot Court competition from 20th Sept to 23rd Sept 2021 on the occasion of Innovation Week 2021. The main aim to organize this event was to equip students with strong advocacy skill , ability to think logically & maternally , combined with acumen for e-filing in new digitalized court system.

OBJECTIVE OF THE WORKSHOP

- To deliver a holistic approach to learning of Labor Laws and other Civil Laws.
- To develop fluency and clear enunciation relating to legal principles and procedure among students.
- To give insight in the art of persuasion, and of putting a case succinctly and intelligently during video conferencing mode of Court.
- To sensitize students towards environment and budget by going paperless in the office.

WHO SHALL ATTEND THE WORKSHOP?

Faculty and students of AUH.

OUTCOME OF THE WORKSHOP

Students will enhance their analytical, research e-filing and drafting skills that are crucial for growing into a successful lawyer.

- To give them insight in the art of persuasion, and of putting a case succinctly and intelligibly during video conferencing mode of Court.
- To sensitize our students towards environment and budget by going paperless in the office.

About

During Nationwide Lockdown due to pandemic, traditional courts faced number of challenges in justice delivery and then technology played a transformative role in Indian Legal System which disabled all the hindrances of social contact, physical appearance, heavy paper work and many such which come in the way of justice.

With the technological advancement, a new set of Digital Court System has evolved to improve efficiency, reducing cost, time and efforts of the parties involved in the traditional paper-based tasks.

Brief About event

Amity Law School organized Digital Moot Court Competition from 20 September to 23 September 2021 on the occasion of Innovation Week 2021. The main aim of this Event was to equip students with strong advocacy skills, ability to think logically and rationally, combined with acumen for e-filing in new digitalized court system. At the end of this activity, our budding talent pool of students were able to examine and understand the changes in the current digitalized judicial processes and procedures underlying values of trust, empathy, sustainability, and transparency of efficient justice delivery system.

Contrary to the usual Moot Court Competitions, this Moot Court was absolutely paperless which is more eco-friendly, cost effective and reliable. During the Event the experiences of Lawyer in form of small video clips from Col.RBala Subramanian, Senior Advocate Supreme Court, Mr.Amish Agarwal, Mr.Abhishek Sethi were shared to enable students to analyze and understand digitalized procedure of litigation in High Court and Supreme Court. Such exposure will help students during their career.

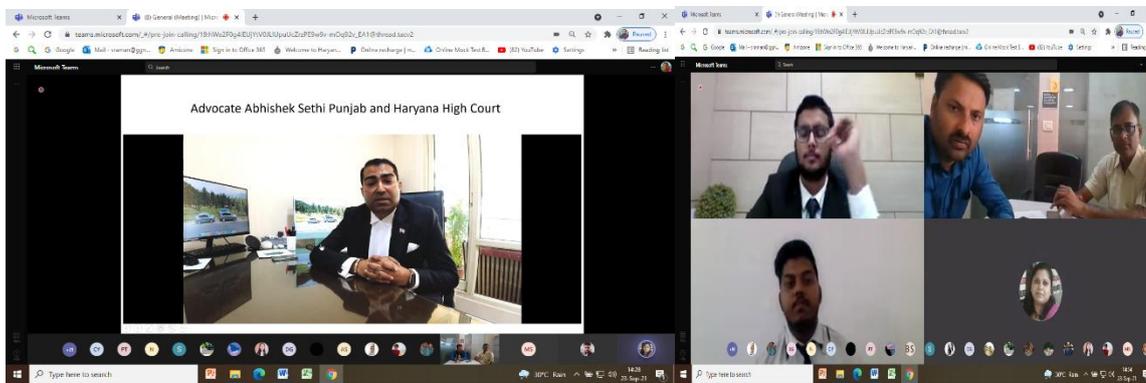

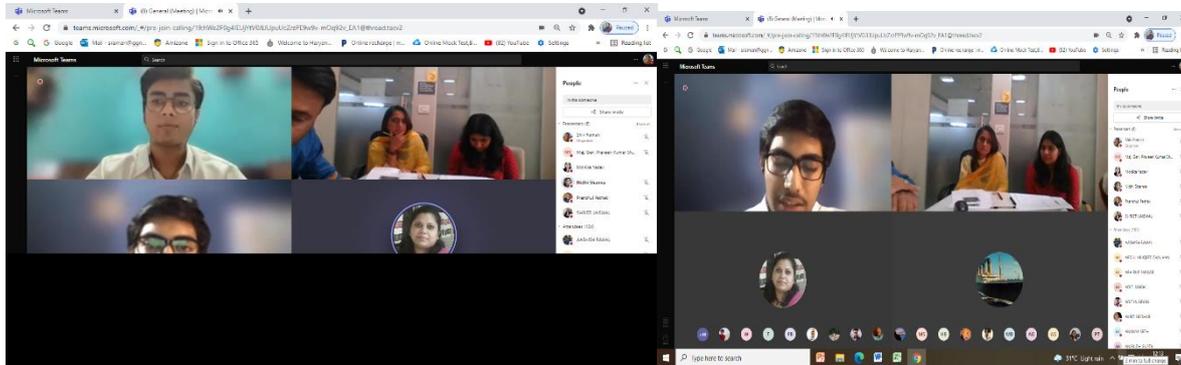

The Competition saw participation from 1st year and 2nd year students where six teams comprised of 16 Law Students presented oral arguments in favor of Appellant and Respondent. The Moot Problem was designed on established principles of Labour Legislation relating to employer liability for occupational stress to an employee.

The Competition was Judged by ALS Faculties, comprising of Ms. Monica Yadav, Mr. Atul Jain, Mr. Sanjay Pandey and Ms Asha Meena. After intense arguments, on merits of research, preparation, presentation and persuasiveness, Team comprising of Chirag Yadav and Dronh Bhardwaj (B.A LL. B III Sem) were declared Winners and Team comprising of Zinnia Potter (B.B.A LL.B IX Sem) and Prayag Sehrawat (B.ALL.B III Sem) were Runner's Up.

The Event concluded with inspiring remarks of Maj. Gen. P.K Sharma (Retd.) Prof. & Director, Amity Law School, Dean Faculty of Law Amity University Haryana. While sharing his views on online courts he said, "the online legal system constitutes the first step towards accommodating the court system to the innovative reality of the Internet Age". In his words, the aim of any new legal system is to streamline existing legal proceedings and to make all legal services accessible, with the overarching ideal of "justice for all" as the guiding principle. According to him, this transformation in Justice Delivery System will open new horizons for young lawyers where conventional lawyers are handicapped. Scope of Legal studies will be expanding in coming years and will enhance

employability of young and skilled lawyers So he advised students to always upgrade their knowledge and master new skills which in turn magnify their profession and societal worth.

Glimpses of Digital Moot Court Competition

QUALITY INITIATIVE By Internal Quality Assurance Cell

ONE DAY WEBINAR ON "INNOVATION AND IPR"

Intellectual property rights (IPR) are the rights given to persons over the creations of their minds: inventions, literary and artistic works, and symbols, names and images used in commerce.

OBJECTIVE OF THE WORKSHOP

The purpose of this event is to introduce Intellectual Property Rights and its roles. To answer questions like Why do we need to file patents? where our nation stands in terms of IPR and what is the global status of IPR

WHO SHALL ATTEND THE WORKSHOP?

Faculty and students of AUH.

OUTCOME OF THE WORKSHOP

Students and Research Scholars inspired and motivated with Talk on IPR. Collaboration research & publications are expected from the webinar.

ORGANISING MEMBERS

Dr. Sunita Sharma, Deputy Director – IQAC, AUH
Dr. Machiavelli Singh, Associate Prof, AIB

Registrar
Amity University Haryana

3. Event Report along with glimpses of the event(Photographs)

3.1.General Introduction of the Event:

Intellectual property rights (IPR) are the rights given to persons over the creations of their minds: inventions, literary and artistic works, and symbols, names and images used in commerce.

In today's event, our honourable guest- Dr. Rahul Taneja gave an informative talk on the topic "Innovation and IPRs." Dr Rahul Taneja is a Scientist at Patent Information Centre, Intellectual Property Facilitation Center for MSMEs, Haryana State Council for Science and Technology, Department of Science and Technology, Government of Haryana.

3.2.Objectives of the Event:

The purpose of this event was to introduce Intellectual Property Rights and its roles. To answer questions like Why do we need to file patents? where does our nation stands in terms of IPR and what is the global status of IPR?

3.3.Brief about the address/talk of speakers:

3.4.

The event begin by the address of our honourable HOI- Dr Rajendra Prasad. Dr Jinny Tomar ingeniously introduced our speaker, Dr Rahul Taneja Scientist at Patent Information Centre, Intellectual Property Facilitation Center for MSMEs, Haryana State Council for Science and Technology, Department of Science and Technology, Government of Haryana.

Dr Rahul Taneja is meticulous man and a proficient expert in his field. Sir, effortlessly explained the topic of "Intellectual Property Rights". His speech highlighted the vulnerable status of India in terms of

patent applications filed. From the need of IPRs to the exclusively easy steps to file a patent application, today's talk had it all. Sir showed us some data and highlighted where our country is lacking.

Followed by an incisive instruction of National Policies; Dr. Rahul Taneja inspired students to file patents.

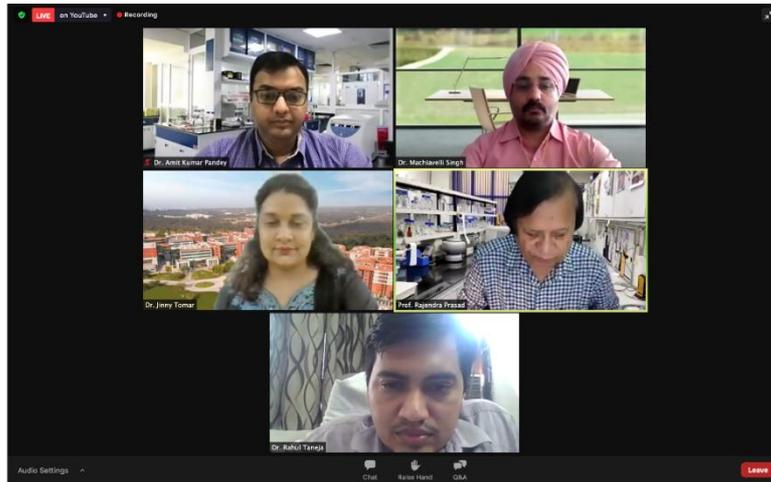

During the QnA session, multiple topics were tackled. Popular slogans like "Make in India- Made by India"; "Start-up India- Stand- up India" were used by our guest speaker and faculty team to motivate students. Innovation is not limited by Age.

The meeting ended on a positive note and with a subsequent hope to meet again for a different session and topic.

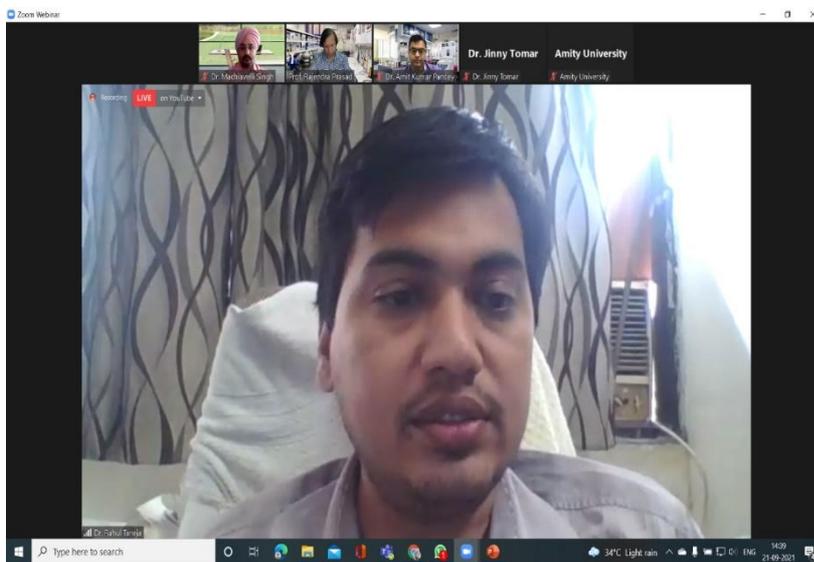

3.5. Photographs with caption (also share high resolution JPEG files of photographs):

The poster is for a webinar titled "Innovation and IPRs". It features logos for DST@1971-2021, the Department of Science & Technology, Amity Institute of Biotechnology and Integrative Sciences and Health, and Amity University Gurugram. The speaker is Dr. Rahul Taneja, a Scientist at the Patent Information Center, Haryana State Council for Science, Innovation and Technology (HSCSIT), Panchkula, Haryana. The webinar is scheduled for 21st September 2021 from 02:30 PM to 04:00 PM. A joining link is provided: <https://amityuni.live/84665082421>. A circular photograph of Dr. Taneja is included on the left side of the poster.

3. Event Report along with glimpses of the event (Photographs)

General Introduction of the Event: The program started by a welcome speech by Miss. Hitankshi Mohanty, M.Sc, ASEES, followed by Miss. Varsha, M.Sc, ASEES. The first round was conducted with the help of a Google form for which the link and QR code was shared to the participants. The top 10 finalists were selected according to their score and time of submission. The list of the finalists was as follows-

1. Mahima Karnani
2. Raman Aggarwal
3. Tanisha Kaul
4. Rohit Kumar
5. Krishna Khurana
6. Hitesh Dagar
7. Lokesh Yadav
8. Vaibhav Kumar
9. MuskanJuneja
10. Aina

The quiz master was B.Vittal, B.Sc Earth Sciences, ASEES, the quiz master conducted the second round which was an open round for everyone and did not value any points to the final assessment of total points. The third round includes 1 question for each of the 10 finalists, if a participant failed to answer it, the question is then passed on to the next participant with a value of 5 points.

The winners were announced by Dr Shruti and B.Vittal.

The winners of the quiz were-

- 1st – Rohit Kumar
2nd – MuskanJuneja and Aina (shared)

3rd – Raman Aggarwal

The program ended by congratulating the winners and announcement of the prizes by Dr Shruti.

3.2 Inspiration & Objectives of the Event:

- To spread awareness on environment and sustainability.
- To make students develop a grave interest in the field of Environmental Sciences and various contemporary issues of the nature.

QUALITY INITIATIVE By Internal Quality Assurance Cell

ONE DAY TRAINING ON "FURNITURE DESIGN"

An online workshop as a part of innovation week organized to in lighter students on furniture designing and hands-on on woods, designing, execution, material specification and selection of products for Interior Design.

OBJECTIVE OF THE WORKSHOP

- Research advanced building materials and techniques
- Use of different type of doors and paints for Interior execution
- On-site knowledge of construction

WHO SHALL ATTEND THE WORKSHOP?

Faculty and students of AUH.

OUTCOME OF THE WORKSHOP

- Students learned about:
- In depth designing of furniture.
 - Workshop for Designing on WoodType, marketing, and classification.
 - Sketching concepts for design
 - Type, marketing, and classification of Woods.
 - Participant's centric workshop with virtual tour of marketing and products for design.
 - Knowledge on sketching and shading.

QUALITY INITIATIVE By Internal Quality Assurance Cell

FIVE DAY FACULTY DEVELOPMENT PROGRAMME ON “VISUAL ANALYTICS USING TABLEAU”

Five -day FDP is one of the quality initiatives brought by Internal Quality Assurance Cell at AUH. This FDP prepares the Faculty to.

Data visualization is the graphical representation of information, and it allows visual access to huge amount of data in easily digestible visuals. By using visual elements like charts, graphs, and maps, data visualization tools provide an accessible way to see and understand trends, outliers, and patterns in data and Tableau provide an intuitive platform for the same.

OBJECTIVE OF THE FDP

- To create high-impact visualizations of common data analyses to understand data.
- To create table calculations, bins and parameter to simplify the data analysis.
- To create advanced interactive dashboards with storyline for business projects.

WHO SHALL ATTEND THE FDP?

Corporate, Faculty members of AUH & other stakeholder.

OUTCOME OF THE FDP

FDP will introduce visual analytics, advanced interactive dashboards and business solutions using TABLEAU. This hands-on workshop will demonstrate how to analyze data and create advanced interactive dashboards. After the completion of the workshop, participants will be able to generate powerful visuals, analytical insights of various real time series datasets, reports and dashboards that will help to take better business and research decisions.

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

Data visualization is the graphical representation of information, and it allows us visual access to huge amount of data in easily digestible visuals. By using visual elements like charts, graphs, and maps, data visualization tools provide an accessible way to see and understand trends, outliers, and patterns in data. In the world of Big Data, data visualization tools and technologies are essential to analyze massive amounts of information and make data-driven decisions.

For data visualization, tableau is a flexible, simple yet power tool that provides a very intuitive platform to the users. The main purpose of this FDP is to introduce visual analytics, advanced interactive dashboards and how to solve business problems. This hands-on workshop will demonstrate how to analyze data and create advanced interactive dashboards. After the completion of the workshop, participants will be able to generate powerful visuals, analytical insights of various real time series datasets, reports and dashboards that will help to take better business and research decisions.

3.2 Inspiration & Objectives of the Event

- To create high-impact visualizations of common data analyses to understand data.
- To create table calculations, bins and parameter to simplify the data analysis.
- To create advanced interactive dashboards with storyline for business projects.
- To create custom territories and clustering of data points.

3.3 Brief about the address/talk of speakers

After the welcome address, Dr. Vani started with the basics of tableau and significance of data visualization on Day 1. Topic covered on the day 1; how to install tableau and tableau public, how to create bar charts, how to create area chart, how to using different functions such as colour, highlight, labelling, formatting etc.

On day 2, she covered the topics such as data joining and data blending using various data sets. Also, participants created their first dashboard and added the interactivity to the dashboard.

On Day 3, she explained how to create calculated field, table calculation, bins, and parameters. Participants created different worksheets using these function. Further, she demonstrated that how to create advanced dashboard and add interactivity.

On Day 4, she started with a exercise on customer segmentation dashboard and then explained story telling. Further she explained how to prepare data in tableau using functions such as pivot, split etc.

On day 5, participants worked on real time series data and created an advanced dashboard. Also, Dr.vani demonstrated on cluster and custom territories and how to prepare data from pdf file. Dr. Vikas Madhukar concluded the session with a vote of thanks. Participants provided their positive feedback about the FDP and the speaker.

3.4 'Take Homes' for the Guest and Attendees

- How to install tableau and understanding tableau interface.
- How to create bar chart, area chart, dual axis chart, tree map etc.
- How to do data joining and data blending
- How to create calculated field, table calculation, bins and parameters.
- How to create advanced customer segmentation dashboard and add interactivity to it.
- How to generate story telling to provide insights.
- How to prepare data in tableau using functions like pivot , split etc.
- Understanding on cluster and custom territories.

3.5 Future plan for utilizing the contacts developed with the Invited Guests

Dr. Vani will conduct more workshops on data visualization tools and statistical software in near future.

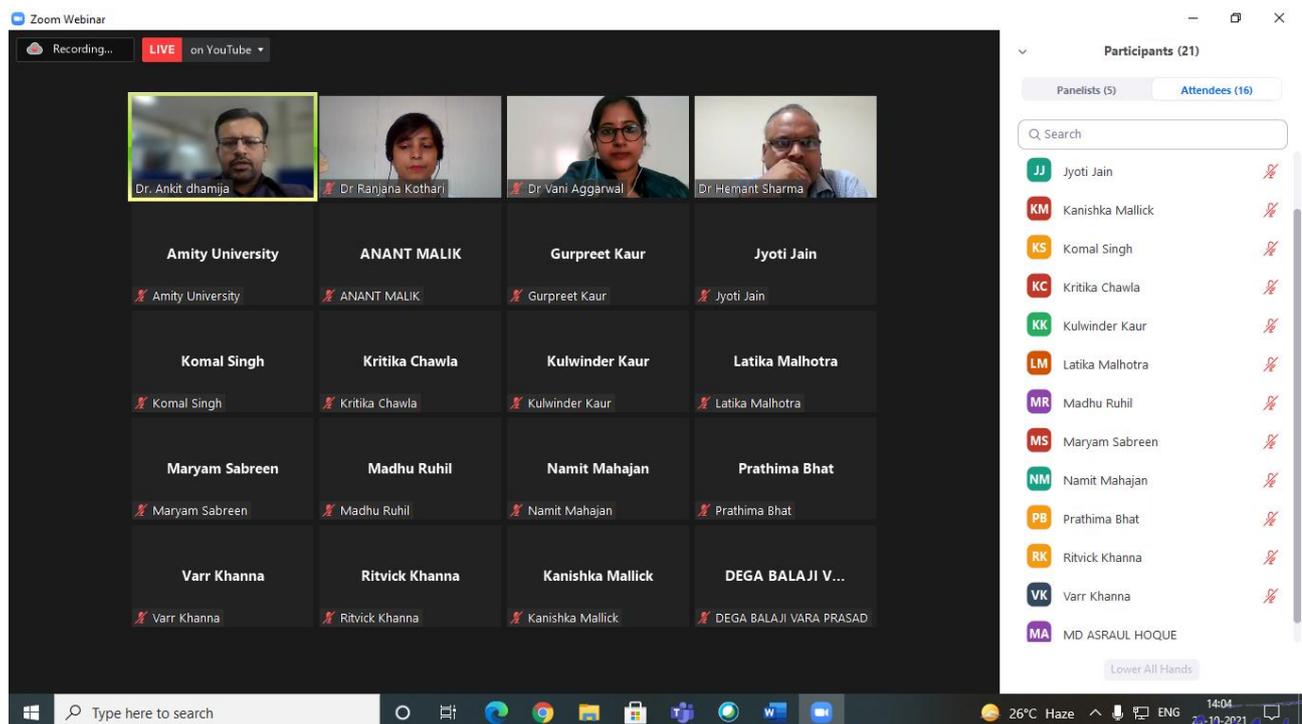

3.6 Budget of the Event(Budget Sanctioned, Total Expenditure&Revenue Generated):

Revenue Generated: $(600 * 35) = \text{Rs. } 21000$ (Rs.600 registration fee per participant)

3.7 Details of Awards if Any:

Awardee Details	Award / Position / Recognition Secured	Title of Innovation/ Start-up Secured the Award / Recognition	Award/Recognition/ Achievement Received for

QUALITY INITIATIVE By Internal Quality Assurance Cell

ONE DAY EXPERT TALK ON “INVESTMENT IN MENTAL HEALTH GREAT ASSET”

The Expert talk will focus on:-

- Reasons to Focus on Mental Health
- What can we expect from such investment?
- How to invest in mental health

OBJECTIVE OF THE EXPERT TALK

The expert talk conducted by Amity College Of Nursing with an initiative to integrate awareness regarding promotion of mental health and investment in mental health as this is the most important yet most neglected area of concern.

WHO SHALL ATTEND THE WORKSHOP?

Students and Faculty members of AUH.

OUTCOME OF THE EXPERT TALK

Protecting mental health is always important. As anyone who has been diagnosed with a mental health condition will know, investing in mental health is essential to returning to full potential. COVID-19 has put unprecedented strain on mental health, whilst simultaneously disrupting treatment and services around the world. By attending this session students will come to know importance of investment in Mental Health.

ORGANISING MEMBERS

Dr. Sunita Sharma, Deputy Director – IQAC, AUH

Protecting our mental health is always important. As anyone who has been diagnosed with a mental health condition will know, investing in our mental health is essential to returning to our full potential. COVID-19 has put unprecedented strain on our mental health, whilst simultaneously disrupting treatment and services around the world. By attending this session students came to know importance of investment in their Mental Health.

5. Any other

NA

For teachers: Teacher mental health issues are important because they not only have a detrimental influence on teachers themselves but also directly affect classroom outcomes. In order to tackle the crisis head-on, school leaders need to build open and supportive wellbeing cultures. After attending this session all teachers will surely try to promote their mental health for effective teaching learning process.

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

On dated 11/10/2021, Amity College of Nursing has conducted an expert talk on Investment in mental health: a great assestvirtuaaly on MS Teams platform fom 11:30 AM – 1:00 PM

3.2 Inspiration & Objectives of the Event: The expert talk conducted by Amity College Of Nursing with an initiative to integrate awareness regarding promotion of mental health and investment in mental health

Beneficiaries :105 students and 21 faculty members

Point wise highlights of the Event:

- Reasons to Focus on Mental Health
- What can we expect from such investment?
- How to invest in mental health

AMITY UNIVERSITY

HARYANA

Established vide Government of Haryana Act No.10 of 2010

AMITY UNIVERSITY HARYANA

Amity University Haryana with a legacy of world class academic infrastructure is a part of Amity Education Group, a pioneer of global culture in education in India. AUH - a research and innovation driven university, is built on a foundation, which embodies the qualities that have made Amity institutes world class. Spread over a 110 acre green campus in the close proximity of Gurugram. Amity has instituted global standards in education training & research state-of-the-arts infrastructure & latest teaching methodologies.

DATE AND DAY

14th December 2021

QUALITY INITIATIVE By Internal Quality Assurance Cell

ONE DAY SYMPOSIUM ON "NATIONAL ENERGY CONSERVATION DAY".

The National Energy Conservation Day is being celebrated every year on December 14 since 1991. The objective of this event is to spread the awareness about importance of sustainable energy, energy conservation and energy efficiency.

OBJECTIVE

The main objective of this event is to ignite young minds and professionals towards the importance of energy conservation, as energy conserve is energy generated. The Government of India is focusing on energy conservation under "Unnat Bharat Abhiyan" and the event inspired budding minds about the key routes of energy conservation.

WHO SHALL ATTEND?

Faculty and students of AUH.

OUTCOME

The prime outcomes of the event are :

- Understanding the true meaning of energy conservation to lead our Nation towards sustainability and ecological development path.
- Spreading social awareness about this important area and igniting young minds to work in this direction.
- AUH will work in collaboration with the experts in the area of Energy conservation and invite such esteemed guests in the future also.

ORGANISING MEMBERS

Dr. Anil Yadav, Deputy Director – IQAC,
Prof.(Dr.) Shalini Bhaskar Bajaj, Director, ASET
Prof. (Dr.) Subhra Das, HOD, Solar Engg. Deptt.

Registrar
Amity University Haryana
Manesar Gurgaon-122413

Directorate of Outcome

Outcome Report(Event/Activity Organized @ AUH)

1. General Information

Date: 14/12/2021

Event Type: Symposium

Event Title: National Energy Conservation Day

Event Theme: Innovation

Venue: Zoom Platform

Web/Video Link of the Event: <https://amityuni.live/82575618430>

Organized by: Amity School of Engineering and Technology

In collaboration with: Institute Innovation Council AUH

Event Level: Institutional

Student Participation*: No. of Students from AUH (Course wise):-attendance sheet enclosed for reference

Faculty Participation*: No. of Faculty Members from AUH (Deptt. wise):-attendance sheet enclosed for reference

Participation from outside AUH*: No. of Students & Faculty Members-attendance sheet enclosed for reference

(Enclose attendance sheets in given format)

Event Coordinator(s) with designation: Prof.(Dr.) Shalini Bhaskar Bajaj, Director, ASET & Prof.

(Dr.) Subhra Das, HOD, Solar Engg. Deptt.

Details of Expert:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	CV of Expert (Yes/ No)	Major Areas where Amity can Collaborate with expert	Recommended by
1	India	Prof. (Dr.) T.V. Ramachandra	IISC Bangalore	Coordinator, Energy & wetlands Research group	Energy management					
2	India	Prof. (Dr.) Varun Arya	Aravali School of Ignited Minds	Founder and Director	Energy management					
3	India	Prof. (Dr.) V.K.Jain	Amity University Noida	Distinguished Scientist and Professor	Solar Photovoltaics					

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph): The experts have contributed a lot in the area of Energy conservation through projects, society outreach programmes, consultancy and other social development platforms.

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)?

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/ Intangible	Achieved/ Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.				<i>Yes, we can do some collaborative research in terms of research papers/conference papers/book chapter etc.</i>

b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.				-
c) Collaboration for Funded Projects				Yes,
2. Outcome related to Industry Connect				
a) Placement				-
b) Collaborations for Research Papers				-
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments				-
d) Collaboration for Funded Projects				-
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene				-
b) Benefit to society in terms of Education				-
4. Outcome related to Students Learning & Grooming				
				-
5. Any other

3. Event Report along with glimpses of the event (Photographs)

General Introduction of the Event:

The National Energy Conservation Day is being celebrated every year on December 14 since 1991. The objective of this event is to spread the awareness about importance of sustainable energy, energy conservation and energy efficiency.

Inspiration & Objectives of the Event:

The main objective of this event is to ignite young minds and professionals towards the importance of energy conservation, as energy conserve is energy generated. The Government of India is focussing on energy conservation under “Unnat Bharat Abhiyan” and the event inspired budding minds about the key routes of energy conservation.

3.1 Brief about the address/talk of speakers:

The talk started with the enlightening words of Hon’ble Vice-Chancellor and Pro Vice-Chancellor Prof.(Dr.) P.B.Sharma and Prof.(Dr.) Padmakali Banerjee who emphasised on the importance of Energy Conservation for the developing country like India. The key note speaker Prof. (Dr.) Varun Arya, Founder and Director of Aravali School of Ignited Minds stressed upon the true meaning of energy conservation is to avoid unnecessary use of energy and to use at least energy so that energy sources can be saved for future uses. The guest speakers Prof. (Dr.) T.V. Ramachandra and Prof. (Dr.) V.K.Jain highlighted the fact that to make energy conservation plans more effective, every person should include energy conservation in their behaviour.

3.2 ‘Take Homes’ for the Guest and Attendees:

The prime outcomes of the event are :

- Understanding the true meaning of energy conservation to lead our Nation towards sustainability and ecological development path.
- Spreading social awareness about this important area and igniting young minds to work in this direction.

3.3 **Future plan for utilizing the contacts developed with the Invited Guests:** AUH will work in collaboration with the experts in the area of Energy conservation and invite such esteemed guests in the future also.

3.4 **Budget of the Event (Budget Sanctioned, Total Expenditure & Revenue Generated):** NIL

3.5 Details of Awards if Any:

Awardee Details	Award / Position / Recognition Secured	Title of Innovation/ Start-up Secured the Award / Recognition	Award/Recognition/ Achievement Received for

QUALITY INITIATIVE By Internal Quality Assurance Cell

FIVE DAY-PROFESSIONAL DEVELOPMENT PROGRAMME ON “ENTREPRENEURSHIP THE AGE SKILLS FOR SUSTAINABLE FUTURE AND SOCIAL DEVELOPMENT”

Entrepreneurial activities have emerged as an imperative instrument of economic development, innovation and employment. The changing dimensions of Entrepreneurship in India requires a new approach and awareness of contemporary practices, new facets of self and team motivation and needs to construct the right skill sets for its success.

OBJECTIVE OF THE FDP

The objective of this Five-day Professional Development Programme on 'Entrepreneurship' is to focus on identification and development of skills required for a successful entrepreneurial journey.

WHO SHALL ATTEND THE FDP?

Corporate, Faculty members of AUH & other stakeholders.

OUTCOME OF THE FDP

The programme will be beneficial to faculty members, research scholars, students, working professionals and budding entrepreneurs and will open new dimensions of entrepreneurship. The program will help participants progress their innovative ideas to the next level under the mentorship of experienced entrepreneurs.

ORGANISING MEMBERS

Dr. Anil Yadav Deputy Director – IQAC, AUH
Dr. Tanushri Purohit, Associate Professor, ABS

Registrar
Amity University Haryana
Manesar Gurgaon-122413

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event: -Entrepreneurial activities have emerged as an imperative instrument of economic development, innovation and employment. The changing dimensions of Entrepreneurship in India requires a new approach and awareness of contemporary practices, new facets of self and team motivation and needs to construct the right skill sets for its success.

3.2 Objectives of the Event: - The objective of this Five-day Professional Development Programme on 'Entrepreneurship' was to focus on identification and development of skills required for a successful entrepreneurial journey. It will help the participants transit their innovative ideas to the next level, while experiencing learning which will have a lasting impact on their educational and professional development. The programme was beneficial to faculty members, research scholars, students, working professionals and budding entrepreneurs.

QUALITY INITIATIVE By Internal Quality Assurance Cell

FIVE DAY-FDP ON “PRODUCTION OF CREATIVE SCULPTURE USING WASTE MATERIALS; FOR SKILL ENHANCEMENT”

Amity School of Fine Arts organized Faculty Development Programme on creative sculpture by using waste materials for the AUH faculties. The aim and objective of the FDP was to encourage skill development and enhance creative understanding of faculties to bring out creative output.

OBJECTIVE OF THE FDP

The FDP started with a wonderful PPT presentation by the resource person, where he has introduced about the waste materials and how the faculties can create artwork out of the waste materials. He has shown some of the interesting artwork which are done by using waste materials. How to transfer waste material into a creative object. Second, nurture faculty's creative skills and aesthetical understanding about artwork. Faculties have developed versatile quality of handling different mediums and build their own unique style.

WHO SHALL ATTEND THE FDP?

Corporate, Faculty members of AUH & other stakeholder.

OUTCOME OF THE FDP

Faculties made many interesting creative sculpture with different kind of waste materials. They also experimented with different types of waste materials. They used their knowledge & sense of art to create their own sculpture forms.

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event:

The FDP started with a wonderful PPT presentation by the resource person, where he has introduced about the waste materials and how the faculties can create artwork out of the waste materials. He has shown some of the interesting artwork which are done by using waste materials. The resource person suggested to participated faculty member to collect whatever waste materials are available to them and then think what kind of artwork possibly they can make out of that. He also suggested that they can make some layout for their sculptures. Participants came out with some interesting ideas, the resource person guided them how they can build up their sculpture using those materials.

3.2 Inspiration & Objectives of the Event: Amity School of Fine Arts organized Faculty Development Programme on creative sculpture by using waste materials for the AUH faculties. The aim and objective of the FDP is to encourage skill development and enhance creative understanding of faculties to bring out creative output.

This FDP have explored a variety of mediums and techniques, while developing critical thinking and problem-solving skills.

Faculties made many interesting creative sculptures with different kind waste materials like corrugated cardboard sheets, foil paper, Paper roll, Paper Mache etc. They will not just enjoy it, also experimented with different types of waste materials. They used their knowledge and sense of art to create their own sculptural forms.

The goal of this FDP was separated into two major components. First, how to transfer waste material into a creative object. Second, nurture faculty's creative skills and aesthetical understanding about artwork. Faculties have develop versatile quality of handling different mediums and build their own unique style.

NATIONAL CONTEST ON " SCIENCE & ARTS OF SOAP MAKING -A CONCEPT NOTE"

This contest was a Do-It-Yourself event to highlight the mechanism of action of soap in promotion strategies presented before the jury members.

OBJECTIVE OF THE WORKSHOP

- To promote the ideas for synthesizing soaps with innovative ingredients.
- To highlight mechanism of action of soap in promotion strategies.

WHO SHALL ATTEND THE WORKSHOP?

Faculty and students of AUH.

OUTCOME OF THE WORKSHOP

The contest contributed to the learning and grooming of the students as they envisaged product which were innovative in terms of ingredients like herbal, medicinal, fragrance, essential oils, color etc. and Ecofriendly in terms of use of waste material, procedures or more saleable in terms of attractive, informative innovative packaging

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event: Science & Art of Soap Making-A Concept Note

3.2 Inspiration & Objectives of the Event

Global soap market is valued at about USD 34 billion and is further expected to grow at rate of 5% in the coming years. This contest is a Do-It-Yourself event. It will identify and promote novel approaches in soap making and use of a variety of skin-safe ingredients and strategies for enhanced consumer experience of the product. This versatile chemical is back in focus due to COVID pandemic as the virus mainly spreads through direct or indirect contact. In such a scenario, washing hands with soap and water becomes critically important. Promoting ideas for synthesizing soaps with innovative ingredients, and highlighting mechanism of action of soap in promotion strategies is the primary aim of this contest

3.3 Brief about the address/talk of speakers

3.4 'Take Homes' for the Guest and Attendees

Science may not necessarily happen in high-tech laboratory environment. An individual needs to have an innovative idea, a curious mind and fundamental scientific knowledge to produce innovations, that can even happen at the comfort of home through do-it-yourself events like these.

3.5 Future plan for utilizing the contacts developed with the Invited Guests

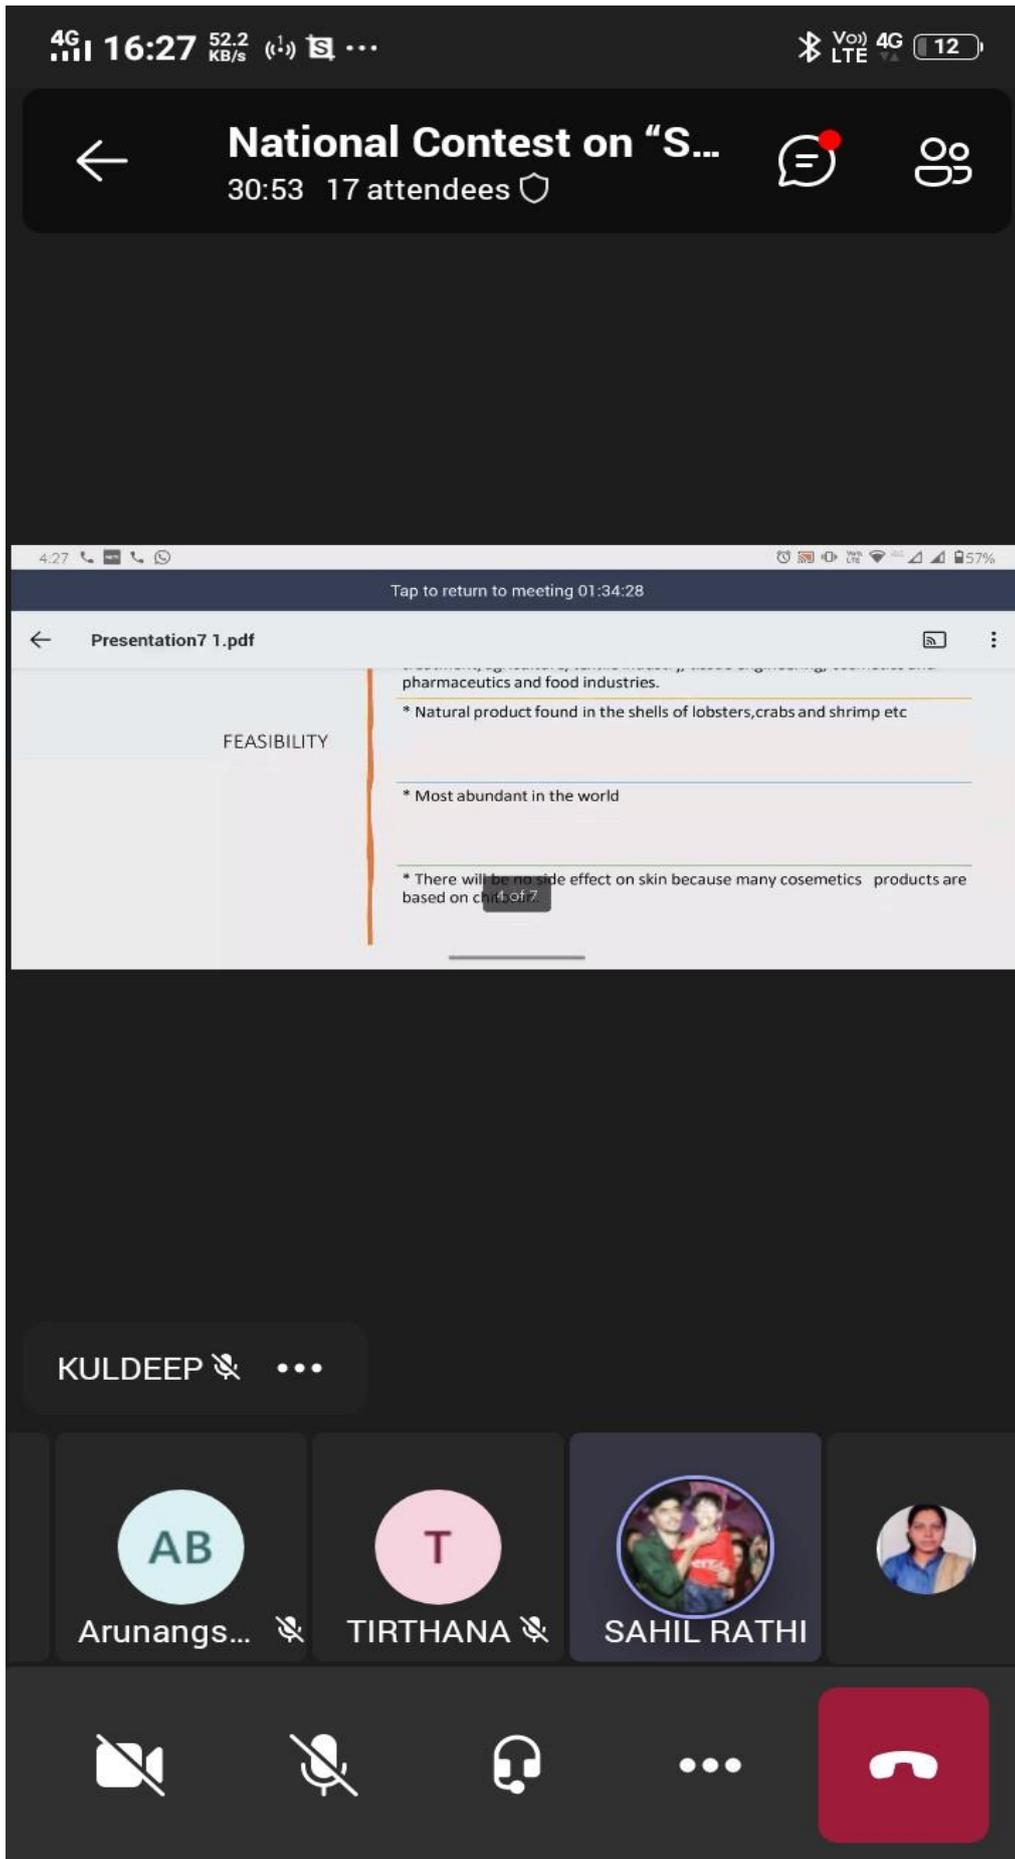

Placement, collaborations for Research Guidance [PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.

ONEDAYWEBINAR ON ROBOT OPERATIONS, PROGRAMMING & APPLICATIONS".

This webinar is conducted under the cluster of Artificial Intelligence and Robotics by Department of Computer Science and Engineering, Amity School of Engineering and Technology. As AI and Robotics is an important subject for every under graduate student so, the topic Robot Operations, Programming and Applications is chosen to make students understand design and working of Robots.

OBJECTIVE

- To enlighten students about working and design of Robots.
- To explain the practical applications of Robot in various facts of business and engineering.

WHO SHALL ATTEND?

Faculty and students of AUH.

OUTCOME

The Students got alearn in details about robot and their practical applications in various field of life. The students could gauge their capabilities and interest and pursue projects and field work in these areas.

3. Event Report along with glimpses of the event(Photographs)

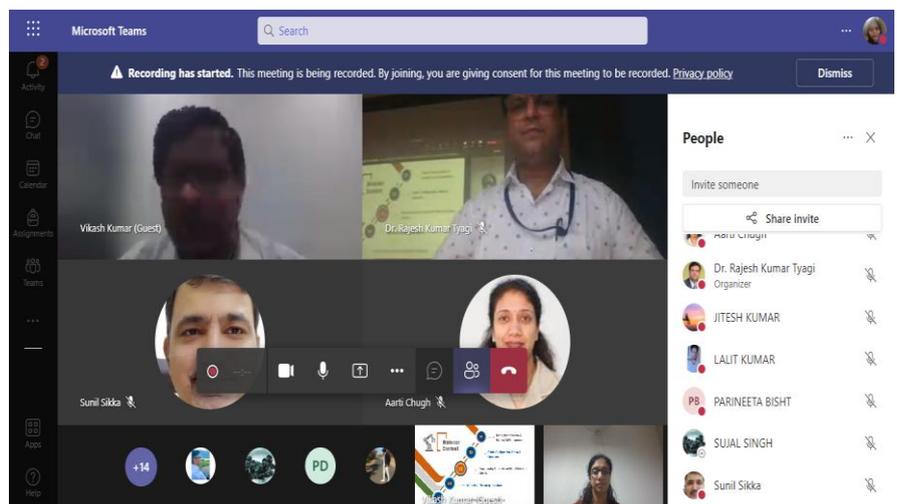

3.1 General Introduction of the Event: This webinar is conducted under the cluster of Artificial Intelligence and Robotics by Department of Computer Science and Engineering, Amity School of Engineering and Technology. As AI and Robotics is an important subject for every under graduate student so, the topic Robot Operations, Programming and Applications is chosen to make students understand design and working of Robots. Event was conducted online on MS Teams and 140 students of B.Tech CSE 6th Semester attended the session.

3.2 Objectives of the Event: To enlighten students about working and design of Robots.

3.3 Brief about the address/talk of speakers : Session started by welcome address and speaker introduction by Dr. Aarti Chugh, Assistant Professor, ASET. Mr. Vikash started with briefing about career opportunities in Robotics field. He introduced students about automation and its types. As automation is a wider field, he picked robotics sub-field and then covered details of Robots. Session was very interesting as speaker gave examples from his experience and best part was he made concepts very simple to understand. He told students about working of one of robot designing software and importance of gripper. Overall, speaker covered all necessary topics for learning designing of Robots. He gave his details for further interaction and query.

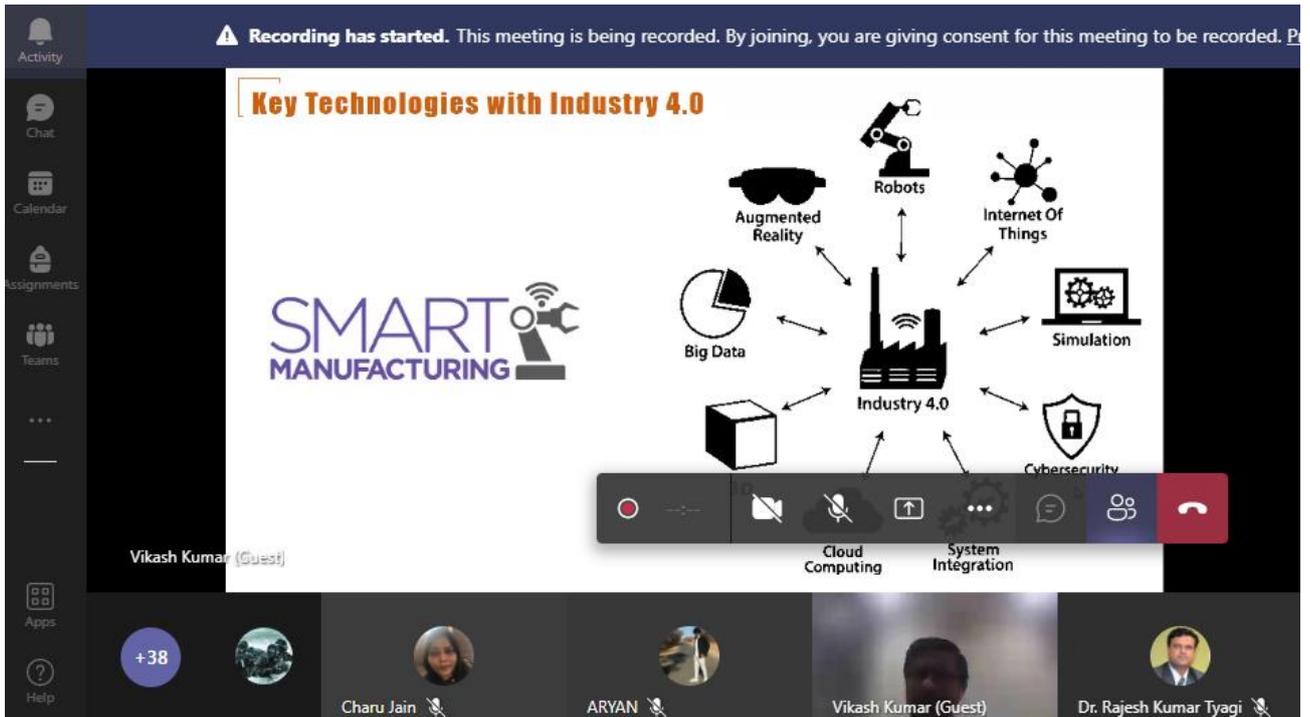

Dr. Rajesh Kumar Tyagi, Associate Professor, ASET gave vote of thanks and closed the session.

3.4 Photographs with caption (also share high resolution JPEG files of photographs)

QUALITY INITIATIVE By Internal Quality Assurance Cell

ONEDAY EXPERT TALK ON "MY HEALTH IS MY BUSINESS".

Productivity isn't about emails, calls, meetings, projects, and strategy building. It is about the health of every single student and employee. Prioritizing the health of our students and employees, Academic Staff College, Amity University Gurugram, organized the talk about healthy living.

OBJECTIVE

- To inculcate the scene of healthy living.
- Understand myths related to healthy eating.
- Avoiding diseases by healthy lifestyle.

WHO SHALL ATTEND?

Faculty and students of AUH.

OUTCOME

The faculty staff & students were enlightened about empowering oneself through health and intelligent eating. The major learning was that symptoms of disease should not be suppressed by illogical medications. Rather healthy eating should be adopted religiously.

ORGANISING MEMBERS

Dr. Sunita Sharma, Deputy Director – IQAC, AUH
Dr. Sanjana Vij - Director , ASC, AUH

Expert Talk on
**Renowned Health & Nutrition Coach,
Mr Lalit Mohan Kapoor, USA**
organised by
**Academic Staff College,
Amity University Haryana, Gurugram**

13th April 2022

An Expert Talk on "My Health is My Business" by Renowned Health & Nutrition Coach, Mr Lalit Mohan Kapoor from California, USA is being organised by Academic Staff College, Amity University Haryana, Gurugram on April 13th, 2022 (Wednesday) in Hybrid Mode & D Block Auditorium, Amity University Gurugram. Around 300 students and faculty members from various departments attended the expert talk in physical mode and ninety (90) participants joined through virtual mode.

In the Introductory address, Dr. Sanjna Vij, Program Director, AASC, AUH, gave an introduction on the program and introduced the audience to the theme "My Health is My Business" which is so relevant in today's time. Dr. Sanjna Vij emphasised that we all live busy lives, but taking out time for our body, mind and soul should always be on top. True productivity isn't just about emails, calls, meetings, projects and strategy building. It is also about the health of every single student and employee. Prioritizing the health of our students and employees, Academic Staff College, Amity University Gurugram organises today's talk.

Hon'ble Vice Chancellor, Prof P B Sharma, Amity University Haryana, gave warm welcome to Mr Lalit Kapoor . While delivering the Opening address, Prof P B Sharma emphasized that this is our life and we have a right to do whatever we want to do ,we have a right to eat whatever we want to, but we need to decide whether we want to live life with tears or cheers. Choice is up to us. Eating healthy is always a good choice but if we are not eating healthy then we need counselling and guidance from experts like Mr Kapoor who would be guiding us today to boost our health by educating ourselves on healthy habits.

Our Guest Speaker, Mr Lalit Mohan Kapoor, graduate of IIT Kanpur in 1971 and MBA from UCLA in 1975 gave an Expert Talk wherein he had talked about 5 Pillars of Health for Living a healthy lifestyle that can decrease the risk of serious long-term health conditions from occurring and prevent the existing condition from becoming more severe.

The five pillars of lifestyle which Mr Kapoor talked on were namely Body detoxification, plant based whole food, Physical activity, emotional & spiritual well-being, Timely sleep & meals .

Mr Kapoor gave his wonderful presentation about Nutrition & health. Mr. Kapoor emphasized upon breaking food myths and empowered people to boost their health by educating themselves about the Plant Based Whole Food (PBWF) diet and an active intermittent fasting-based lifestyle known as PBWF/IF/10K. He recently launched Plant Based Wellness Foundation, a not for profit NGO. Mr Kapoor stated that my experience has shown that chronic diseases start when our diet and lifestyle is unhealthy. Suppressing symptoms of these diseases by medications is not a good solution as it often leads to further complications. Changing diet and lifestyle is the correct answer to these problems and when we do that, the need for medications, to control the symptoms goes away or greatly diminished.

Vote of Thanks' was delivered by the moderator of the program Dr Sanjna Vij, AUH.

3. Event Report along with glimpses of the event (*Photographs*)

3.1 General Introduction of the Event

On 13th April, 2022 a webinar was conducted by Amity School of Communication in collaboration with internal quality and assurance cell of Amity University, Haryana. The guest speaker for the Webinar was Mr. Anand Prakash.

The coordinator for the session was Dr. Preeti Singh and the session was compered by Shubhangi Sharma. The webinar was joined by the students and faculty members of Amity School of communication along with the HOI, Ms. Esha Jainiti.

Objectives of the Event

- To impart knowledge about the changing landscape of Public Relations and Corporate Communication among the students of Journalism and Mass Communication .
- Providing hands on experience of hearing from the Industry Experts and their requirements.
- Training students as per the industry requisites in the Digital Era of Post-Pandemic World.

3.2 Brief about the address/talk of speakers

The session got off the ground at 2:30 pm, with a few words about Amity School of Communication spoken by the compere. This was followed by the introduction of the guest speaker, Mr. Anand Prakash. The Deputy director, ASCO, Ms Esha Jainiti extended very delightful words of welcome for the guest lecturer.

In the webinar, the esteemed guest lecturer with the help of a presentation shared his experience in the industry. He threw light upon the current situation of the Public Relations and Corporate Communication comparing it with the pre pandemic scenario. His lecture revealed that post pandemic the Public Relations and Corporate Communication industry is in total chaos. He talked about the new age PR and PR & Corporate Communication tools. Under these topics the students made aware of various tools like purpose, ESG strategy, etc.

Following the presentation, our guest speaker for the day was kind enough to address the questions and queries of the attendees of the webinar with utmost humbleness. Some of the questions asked to the speaker were as follows: -

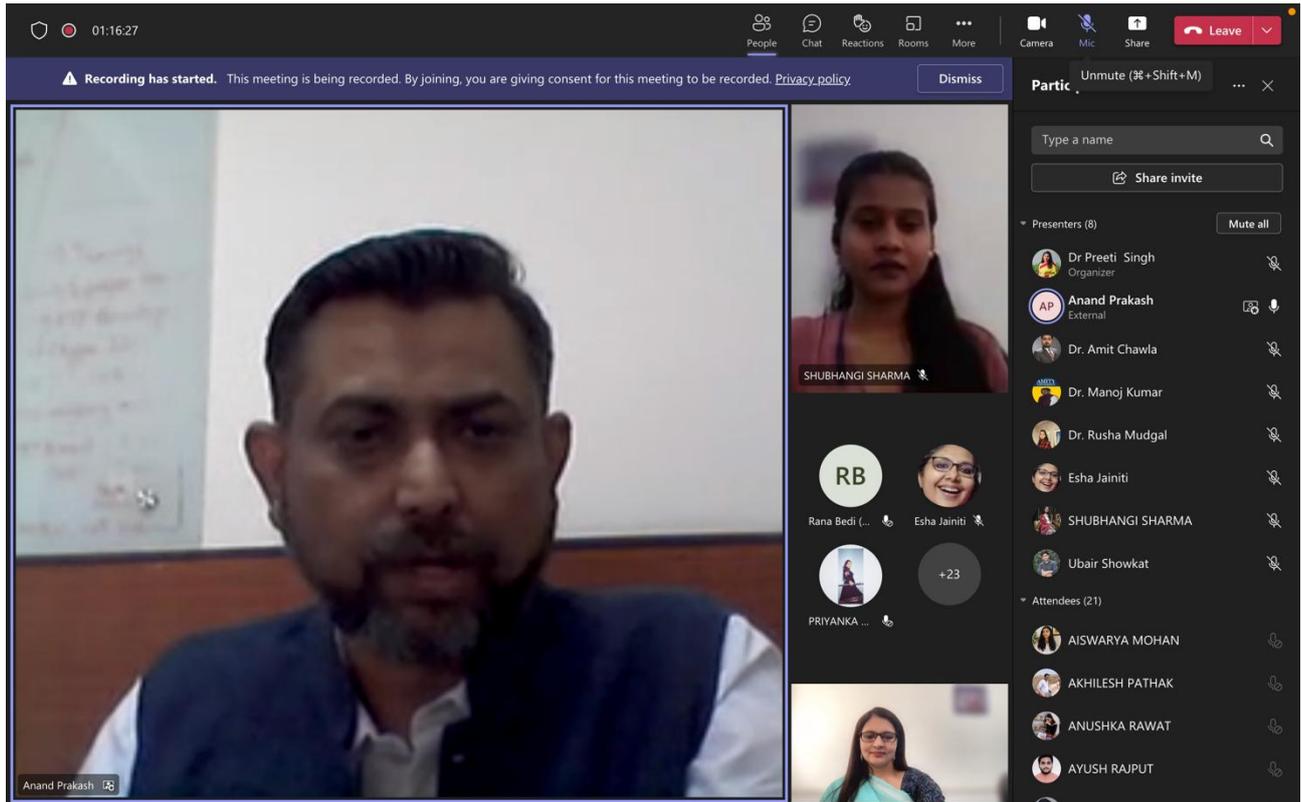

- Could you please throw some light over latest technologies being used in the area of corporate communications and PR in the times of digital media and marketing.

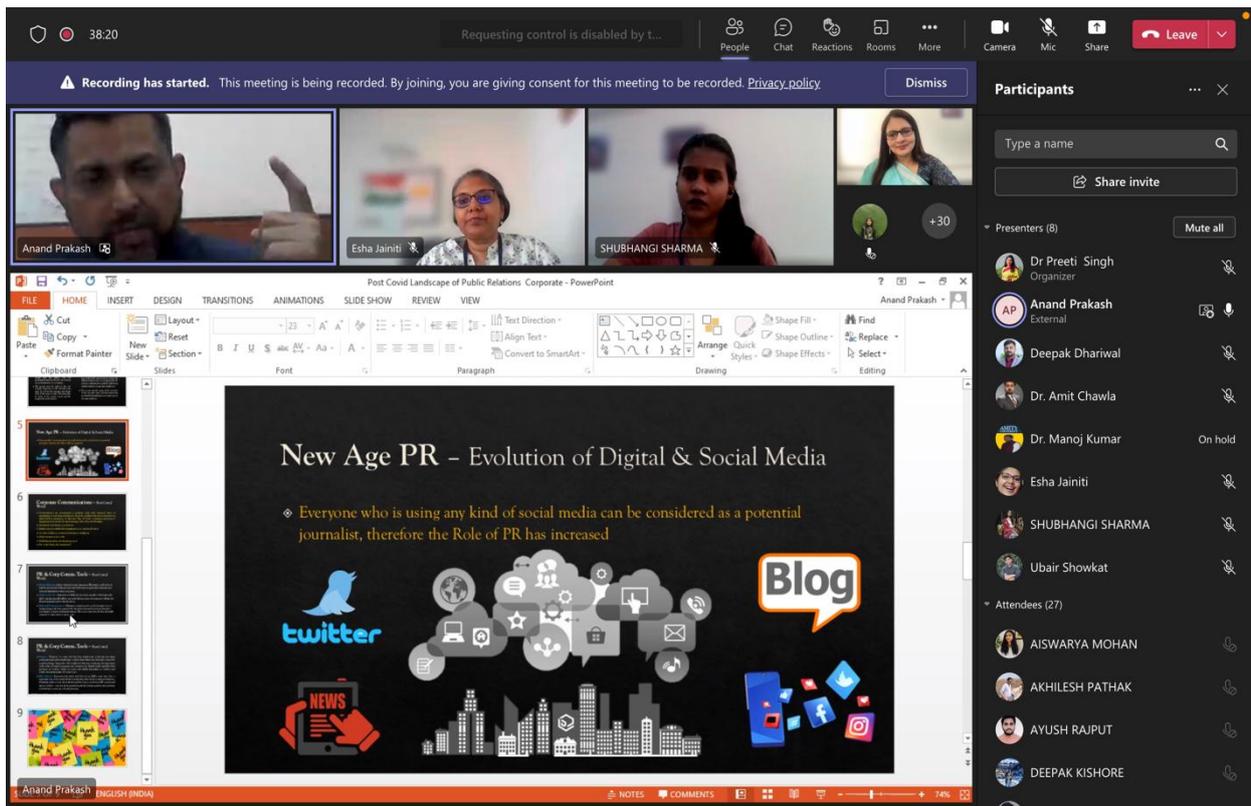

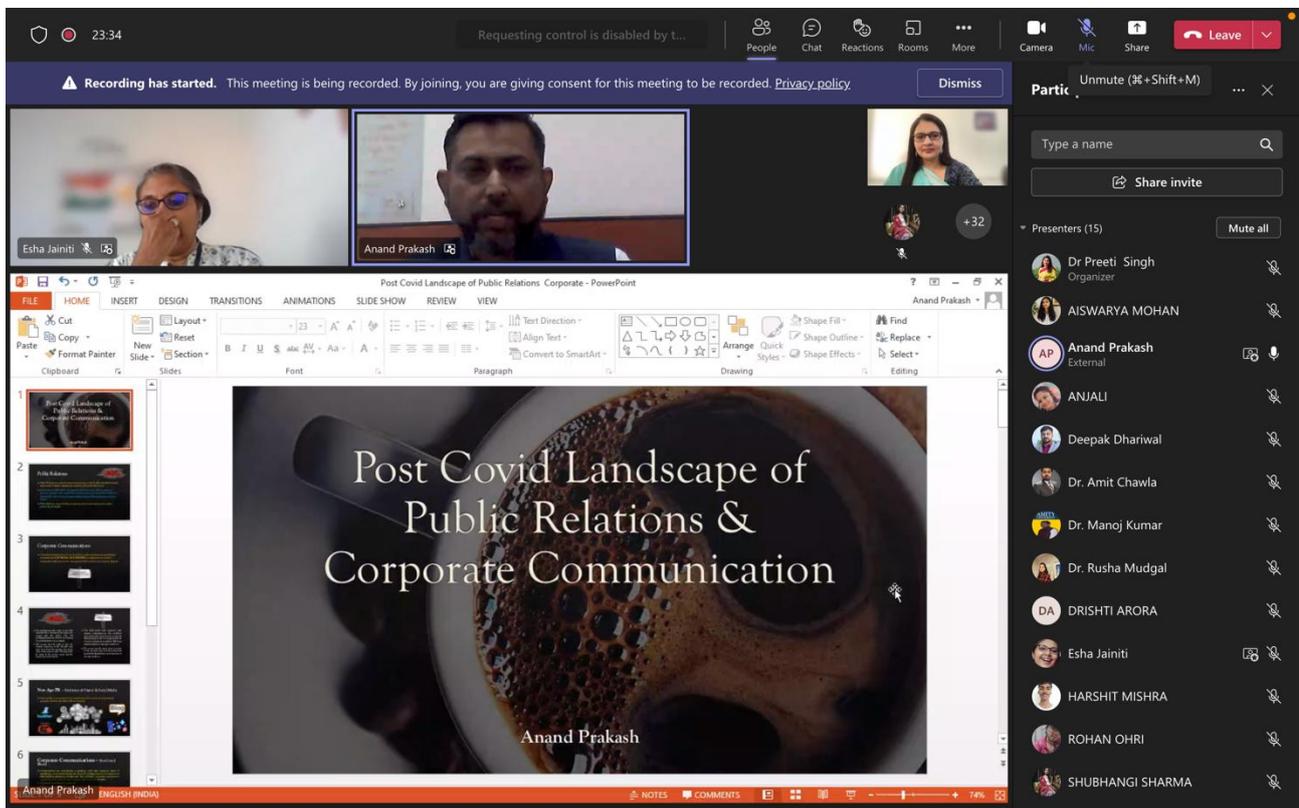

- How can PR agency help companies navigate through these difficult times?
- What level of transparency should companies have with their consumers regarding their current challenges?

After the questions and queries were addressed, it was time of the coordinator of the session, Dr. Preeti Singh to conclude the insightful webinar and deliver the vote of thanks.

It could definitely be said that the webinar was a complete success and there were a lot of active student participation involved who made it possible.
