## REPORT ON SUSTAINABLE DEVELOPMENT GOAL

**8** DECENT WORK AND  
ECONOMIC GROWTH

**YEAR 2021-22**

## PREAMBLE

Amity University Haryana is committed to the United Nations Sustainability Development Goal SDG 08. The University is aware of its responsibility towards decent workplace environment and its role in enhancing economic growth at the local, regional, and national dimensions. Since its inception university ensures the equality at workplace for women and men in all aspects. For this purpose amicable policies are formulated, and initiatives are taken to ensure hassle-free implementation of the policies. In conformity to SDG 08 and its primary intent towards decent workplace environment and culture that in turn is expected to increase productivity and

economic growth, AUH believes in technological upgradation, capacity building, and best practices in innovation while promoting entrepreneurship and helping students to start working on their own creative ideas independently. Additionally, university faculty members are providing good results and making recommendations from time to time for enhancing economic growth and decent work environment in their respective departments through their research work and deliberations. This is reflected in several achievements, policy measures, and initiatives some of which are summarized in this document.

Amity University Haryana Institution Innovation Council is primarily responsible for fostering entrepreneurial skills amongst students and assisting budding entrepreneurs by providing them with necessary resources. Our vision is to develop, support and deliver the Entrepreneurship spirit among students in their quest to achieve success in establishing their venture at all junctures.

Our mission is to explore the opportunities for self-employment and inculcate the spirit of 'Entrepreneurship' in young Amityans and nearby societies to foster the brightest ideas to one platform and convert them into business.

### Rural Innovation and social Entrepreneurship (RISE)

Amity rural innovation incubator will incubate rural innovation-based ventures virtually through its execution partner and Amity Venture fund will invest Seed Capital in those ventures to take it to the next level. Execution partner will scout & select potential innovations and provide on ground incubation support to the ventures for running it successfully.

The 'Rural Innovation Incubator' (RII) at AUH is aimed at providing low cost need based technological solutions for rural areas which are technically feasible, economically viable, socially acceptable, environment friendly, consistent with household endowment and relevant to the needs of rural people. Under RII, students have done a survey of nearby villages and worked out on providing alternative solutions to the power and energy needs of these villagers.

As a result, the incubator has 'beta-tested' Solar technology in Langra village. The Solar Street Lights and Solar Batteries have been installed and their results were monitored. The feedback has been taken from the local villagers which was very positive and enthusiastic.
