### 3. Event Report along with glimpses of the event (Photographs)

#### 3.1 General Introduction of the Event

An expert lecture session organised by Dr. Suvro Parui, Assistant Professor (Chinese).

The keynote speaker invited was Amb. Anil Trigunayat, President MICCIA, former Indian Ambassador to Jordan, Libya, and Malta. The honourable Ambassador's lecture was titled: "Wither China in the Current Global Disorder"

#### 3.2 Inspiration & Objectives of the Event

The lecture titled "Wither China in the Current Global Disorder" threw light on the present condition and status of China on the International platform. The objectives of the talk were to understand the reasons and consequences of China's actions on the world order. How the world especially China's main rival US is affected by China's rise and steps it takes to counter it and maintain its supremacy. How China's actions effect India as a neighbour and how India can best manage the China factor.

#### 3.3 Brief about the address/talk of speakers

Speaking from his rich experience and deep understanding about the world order, the lecture delivered by Amb. Anil Trigunayat was very insightful and detailed. He explained about the challenges China faces as it strives to become the next superpower and how the West is looking at it. China has developed as a country since it understood that it was advancement in technology that would take it forward, however its rise has also caused China to have problems with other superpowers and almost all its neighbours. He sighted the example of the Winter Olympics hosted by China this year, where most of the world leaders were found missing.

Amb. Anil Trigunayat talks about the Pandemic, global recession, greater border controls and increasing govt control, climate change as a major concern, and major trust deficit in the world order today.

He speaks about how China doesn't want to create war but creates public opinion warfare, psychological warfare, legal warfare causing people to doubt their own countries. Thus, holding political power itself, influence foreign decision makers and how they look at China.

China is a major challenge for most of the liberal world, esp. India. China does not consider India as an equal, culturally or otherwise. So, it uses its might to constrain India, India needs to make efforts to deal with such a challenge. The honourable Ambassador proposes that the way to face such a challenge is that all international agreements must be adhered to. Border issues must be handled efficiently and observed strictly, as it is unacceptable to do business as usual if the border is in unrest.

Each country has its own set of aspirations but a balance and management are essential with dialogue and communication. Civilised nations like India and China must take the longer view.

Hegemonic attitude disturbs successful partnerships.

#### 3.4 'Take Homes' for the Guest and Attendees

The "Take Homes" for the Attendees was a clearer understanding of the international dynamics with reference to China and its relevance towards India.

His detailed lecture helped attendees understand China's goal toward becoming the next superpower and how that effects the rest of the world order especially India. He also proposed ideas about the way these challenges may be addressed.
