### **Organized Social Activity Project with Cashless Economy communication to the society in Slums**

NSS- AUMP was organized Social activity Project with Cashless Economy communication to the society in markets, Slums.

The programme aim was to aware the people about the cashless economy communication and instill the information regarding without using cash they can do any purchasing.

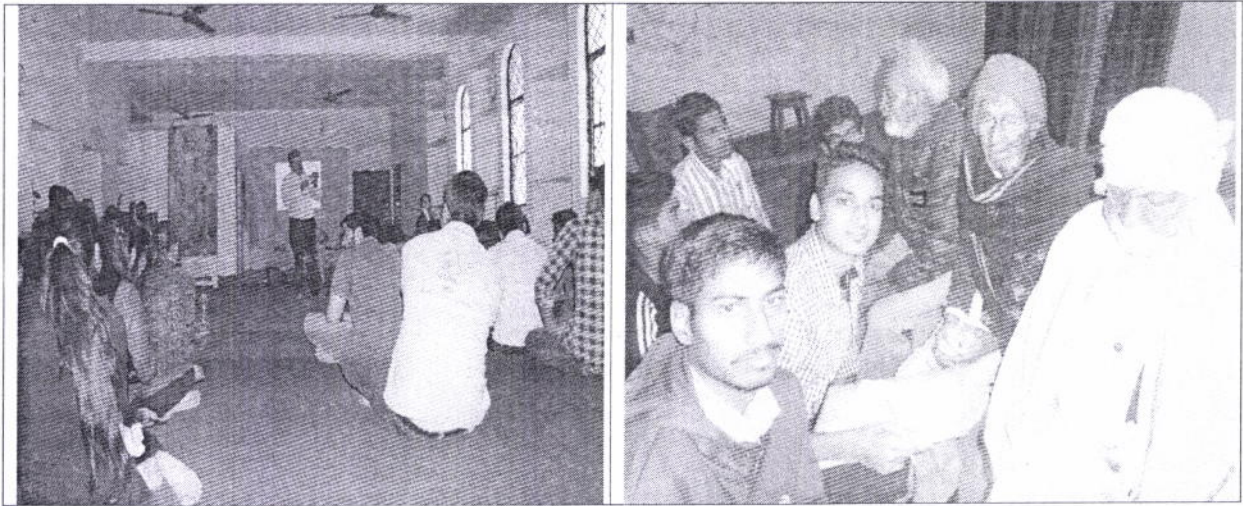

Reducing Indian economy's dependence on cash is desirable for a variety of reasons. India has one of the highest cash to gross domestic product ratios in the world, and lubricating economic activity with paper has costs. According to a 2014 study by Tufts University, The Cost Of Cash In India, cash operations cost the Reserve Bank of India (RBI) and commercial banks about Rs21,000 crore annually. Also, a shift away from cash will make it more difficult for tax evaders to hide their income, a substantial benefit in a country that is fiscally constrained.

Governments across the world have stepped up their fight against cash. Cash is being increasingly viewed as a curse that mankind needs to rid itself of. The goal is to move towards a cashless economy. The closer an economy is towards this goal, the more successful it is considered to be. However, the concept of cashless economy is not understood by many. It is still the prerogative a few economists and academicians.

Social activity Project with Cashless Economy communication to the society in markets, Slums was held on 5 March, 2017. In this activity, 10 teachers and 68 students participated. NSS AUMP is extremely thankful to all those who have supported this activity. Chairman, NSS, Major Gen. Dr. S. C. Jain, VSM\*\*, Director, Amity School of Engineering & Technology, Dr. Rachana Kathal, PO, NSS AUMP and other faculty members appreciated the volunteers efforts and contribution to complete this task and it was a worth seeing moment.

#### **Fund Raising activity for Visually Challenged Girls**

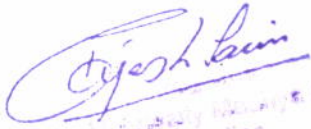

A fund raising activity for visually challenged girls was organized by NSS AUMP. The AUMP affirms its commitment to empower visually challenged girls become self-reliant by providing comprehensive rehabilitation, education and employment opportunities. AUMP makes efforts to help visually challenged girls to gain self-employment by fund raising activity for such trades as Petty Shops, and other small-scale businesses.

India is home to world's largest visually impaired population housing over 50 lakh people. Our country also tops the chart for the largest population of corneal blind in the world. We are a long way from ensuring an inclusive society for our visually challenged citizens because of taboos that exist around organ donation, leading to corrective surgeries still being a far-fetched reality. However, a few individuals, organizations, NGOs, and voluntary groups are leading the way in setting exemplary standards of inclusion.

The fund-raising activity was held on 5 to 10 march, 2017. This activity was regularly conducted for 4 days in AUMP campus and different places of Gwalior. In this activity, 10 teachers and 210 students participated. NSS AUMP is extremely thankful to all those who have supported this activity and have sympathies for visually challenged girls to stand their own feet.

Chairman, NSS, Major Gen. Dr. S. C. Jain, VSM\*\*, Director, Amity School of Engineering & Technology, Dr. Rachana Kathal, PO, NSS AUMP and other faculty members appreciate the volunteers efforts and contribution to complete this task.

**Sanitation training-Poshan Maah**

**(3<sup>rd</sup> October 2019)**

“Poshan Maah” was observed in Amity University Madhya Pradesh in the month of Sept 2019.

Programs were conducted as per the directives of UGC's DO Letter No. 14-13/2018 (CPP-II) dated 26<sup>th</sup> September, 2019 with respect to celebrating 'Poshan Maah'. The activities included the awareness campaigns for sanitation, complete and healthy nutrition inclusive of fresh and healthy ingredients. The awareness campaigns were organized in the NSS adopted village of AUMP and also in the slums situated nearby AUMP. NSS volunteers and faculty members interacted with the villagers and discussed the importance of hygienic habits for healthy living and clean environment. Children interacted very openly with the student volunteers and their awareness in respect of cleanliness and hygiene seemed to have priority and concern in their day to day life.

Link of the You tube video (<https://youtu.be/kAmlnYD0yc8>) of the event has been duly uploaded on Jan Andolan Dashboard Portal on 30.9.2019.

**AUMP**

**Organized by NSS volunteers of ASCENT/ASL/AISS, AUMP**

**Preface**

Nature is God's most beautiful creation. It facilitates the growth, development and nourishment of all its creatures. Under National Service Scheme, a virtual video lecture was organized by ASCENT/ASL/AISS on 22 April'21 from 12:30-1:00 PM which was coordinated by the Dr Zeba Siddiqui, ASL, NSS Faculty Coordinator and Dr Salim Ahmad, Faculty AISS along with the Two NSS Volunteers under the guidance of Prof(Dr) Iti Roychowdhury, Dir ASCENT/ASL/AISS and Chairman, NSS, Major Gen. Dr. S.C Jain, Director Amity School of Engineering and Technology and Dr. Rachana Kathal, Programme Officer, NSS, AUMP.

**Participation**

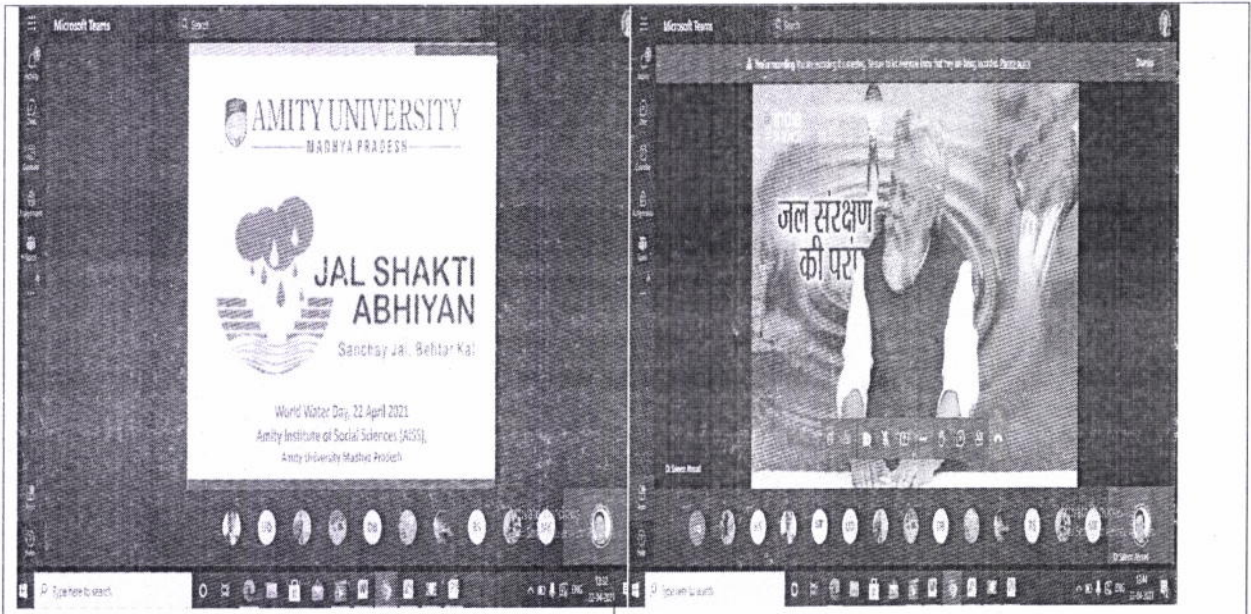

Ten NSS Volunteers from AISS and about 200 students participated in the activity.

**"Virtual Video Lecture of Waterman of India" from 12:30 to 1:00 PM**

Water is the elixir of life. It sustains the growth and development of various organisms. Without it, life on Earth would have been impossible. If we continue to exploit our water resources, then a time will come when we will face a major global water scarcity and water wars will follow it. Rajendra Singh of Alwar district of Rajasthan understood it very well. His attempts at water management and conservation are a testimony to this fact. He won the Magsaysay Award in 2001 and Stockholm Water Prize in 2015 for his water conservation activities. He bagged the title of 'Waterman of India' for his inspirational efforts. To sensitize the students about the importance of rain water a virtual video lecture of the Waterman of India was conducted on MS Teams. The students along with the faculty took active participation in understanding the need to save rain water.
