### To Whom It May Concern:

It is my pleasure to recommend **Mr. Prateek Nimdeokar** who has worked as a trainee with me for the duration 3 June 2019 to 31 July 2019. Mr Prateek is a M. Sc. Student of Amity University, Madhya Pradesh and is in 3<sup>rd</sup> Semester of the course. He joined my lab as a part of his coursed and did his summer training on "SSR regions in *Nymphaea*".

During his stay in the my lab, Mr. Prateek learned various molecular biology techniques like PCR, Isolation of DNA and RNA with CTAB Method, PAGE, Agarose gel etc. I was impressed by his astute observance and keen interest in research. Our discussions were interesting and he could understand the biology behind the project and implemented it successfully to achieve the desired goal.

Prateek is ambitious, sincere and a dedicated worker. He is a quick learner and will be an asset to any institute he decides to join. He has good work ethics and great interpersonal skills which help in fostering a positive and cooperative environment at the work place. He has good command over english speaking and was able to clearly communicate his ideas during our discussions. I did not have a chance to come across his writing skills.

I wish him the best in his future endeavours and scientific career
