ACKNOWLEDGEMENT

On the very outset of this report, I would like to express my sincere and heartfelt obligation towards all the personages who have helped me in the endeavor. Without their active guidance, help, cooperation & encouragement, I could not have made headway in the project.

First and foremost, I would like to express my sincere gratitude to our guide, “Siddhartha Sharma” I am privileged to experience a sustained enthusiastic and involved interest from her side. This fueled my enthusiasm even further and encouraged me to boldly step into what was totally dark and unexplored expanse before me.

He always fueled my thoughts to think broad and out of the box. I would like to thank the entire staff members for motivation guidance and support. I would like to thank HOD “SUMIT NARULA” who, instead of her busy schedule, always guided me in right direction. I would like to thank the entire staff members for motivation guidance and support.

I am indebted to a person who has helped me throughout my internship. Last but not the least, it goes without saying that I am deeply indebted to my parents for their support and their patient guidance

Chapter 1

INTRODUCTION TO TOPIC

I have chosen to study over topic is role of digital marketing in education sector first understood what is digital marketing and why is digital marketing is important

Digital marketing refers to the promotion of your work or your institution on the various platform there are various platform where you can promote your product or services earlier only hording, is the best source of promotion but now days digital marketing is the best source of promotion in hording you can just cover the people of limited space from where that hording is visible but in digital marketing you can cover the market of global level you just have to share your poster or message on over a platform where you just want a traffic over your advertisement

The platform which can be used by any individual are Facebook, Instagram, LinkedIn, Quora etc. these are the some of the platform of social media where in today time everyone uses these platforms these apps help to the promoter to get newer customer which will meet his /her demand LinkedIn is mainly used for official purpose here you can find many institutions where you can also apply for job if you are a job seeker.

In today time digital marketing plays a vital role. so, this industry is booming this time as you can see in this pandemic many companies have shuttled down but the company who have its strong marketing technique and digital have survived. And digital commerce is increasing day by day now people want a service on a single click they don't want to go in search for product in market that's why this marketing is also growing peoples uses many social media platforms so that's why companies putted their banner over the social networking sites by which they are capturing this big market

Come to the point of role of digital marketing in education sector, so I would like to introduce my company overview. the company in which I have completed my internship is career domain its work is to guide, inspire, motivate, mentoring and helps in career counselling which help the student to find out best alternative in his /her career advice which will be long run help. So, our company headquarter is set uped in Nagpur it is founded by Abhishek .it is founded in 2019 Its special function is that it uses AI function by which student get a better result for his /her future. Education sector also get help by digital marketing it puts its template or banner on its pages on different social media platform where they create it first then post it over there for school /colleges they just post their student testimonial and happening of their institute over those pages. or we can say any occurrence in their institute just they post over their pages by which they can attract more and more people to join with them. Now days coaching center also do the same thing for their benefits by this they also attract student for their coaching institute likewise our company career domain is also an education institute it also does the same thing to attract traffic over their site to get more views by which they can promote their company Career domain conduct webinar in which top rank speakers are invited to speak over their life experience which directly help to the student in their future because student is directly getting guidance from top and experience people so for this company just promote its webinar priors of weeks to make its webinar successful. likewise, digital marketing is used in education sector.

CHAPTER 2

EXECUTIVE SUMMARY

This synopsis report is all about my work experiences in CAREER DOMAIN. This report is detailed description of company which will help you understand about company, how the company deals, how the company promote, how company works etc. It is a counselling company and I have worked as an intern in the company under social media. The topic of the report is “Role of digital marketing in education sector”. The report contains every single detailed I have studied under this topic like social platform is used for the benefits of the company

Apart from learning from my work, I also got good exposure of corporate world. The way management works in a particular company from the employees to employer how all works together towards attainment of organizational goal efficiently and effectively. Satisfied and happy employees, colleagues’, employer all lead to achievement of desired goal and Career domain is a very good example of this.

This project report is just detailed expansion and explanation about my work experience at Career domain, this project report will help us to understand the process involved in procurement department regarding how we promote our company over different media platform and how we collect audience towards our company. LEARNINGS & EXPERIENCE AT CAREER DOMAIN

WEEK 1 –

Work at Career domain begins with introduction and orientation with staff members, seniors, immediate boss whom we have to report during our internship. Week one passed by understanding the working of promotional department. Who is accountable to whom and other details?

Career domain business

Promotion

Conduct of webinar Career

Counselling Aptitude test

Career enhancement Career
placement

WEEK 2-

IN the second week I have learnt other than the promotion department. I started learning the operational department

What is operation in business?

Basically, operation refers to the activity which is done to run the business and operation is the main work of an any organization

For example: - If there is any shoe making company its promotion and finance all the other secondary work but production is its primary work which is also called its operational work for which that company is established

Or we can say operational work is the work for is that company is formed without its operational work there is no use of such company if organization is not aware about its operation, then there is no use of such organization.

IMPORTANCES OF OPERATIONAL

Tasks the board is the cycle that by and large plans, controls and oversees assembling and creation cycles and administration conveyance. Tasks the executives are significant in a business association since it helps successfully oversee, control and regulate products, administrations and individuals.

Key Benefits of Effective Operations Management

1 Product Quality

The main unit in a normal firm that checks solidness and unwavering quality in an item is the tasks the board. Activities the executives see to nature of items or merchandise which would suit clients on and after conveyance. At the point when an item is of value, it gives you an edge contrasted with your rivals.

1. Productivity

Efficiency is characterized as the proportion of contribution to yield and it is the best way to confirm workers' input. Tasks the executives guarantee suitable staffing of workers to assets to get most extreme outcome. The best way to guarantee usefulness is through a viable task the board.

2. Customer Satisfaction

There is no inclination for a director or a worker as a client getting the most extreme fulfilment of all time. Activities the executives properly guarantee this combined with quality item. Clients cause association to flourish and they should be dealt with well all around vital and conceivable.

3. Reduced Operating Cost

There is no inclination for a director or a worker as a client getting the most extreme fulfilment of all time. Activities the executives properly guarantee this combined with quality item. Clients cause association to flourish and they should be dealt with well all around vital and conceivable.

OBJECTIVE OF AN MBA IN OPERATIONAL MANAGEMENT

As a task's director, you will associate with experts in designing, promoting, exploration, business what not. A MBA in tasks the executives bear the cost of you the specialized ability by covering the essentials of different regions identified with activities the board. These regions incorporate scope quantification, production network the executives, and stock among many. A bosses' degree in activities the executives give you a hypothetical and pragmatic utilization of OM. It additionally gives genuine experience of business taking care of and noticed the patterns in the business. With a MBA in tasks the board, you are intended to take up issues and difficulties relating to stock, inventory network and coordination.

WEEK 3 -

we were taught about sites of CAREER DOMAIN. There are different sites where CAREER DOMAIN deals in. Sites were understood by us with the help of documentation. Documentation helped us in understanding different sites whose indent was made, RFQ is prepared, quotation is taken and comparative statement is prepared and finally purchase order is placed.

In week 3 we are given inside knowledge of company how company work its operation and what is its tactics and strategies which it follows for its growing size.

They assigned my work to me for a week after that they will transfer me in other department my first work is to promote my company over LinkedIn. LinkedIn is a platform where you will find many companies or its official by which you can promote your product at right place by which you can get large audience related to your need because our company deals in mentoring process of student so we just promote our webinar over their institute group by which we can get student and our motive get completed

WEEK 4 –

In starting of week 4 they have just checked my work of week 3 and appreciated my work for proper completion of it.

After that they assigned me different task of them

They just given me the work for solving the queries related to career option or can be said confusion regarding career. they just assigned me task for answering the question on QUORA and put a hyperlink by which they can promote career domain over Quora because Quora has high traffic over its platform which is good opportunities for our company and it will be genuine data what we will get from Quora.

We have to post our daily work report on over its WhatsApp group where we have our supervisor who just look after these all work and communicate at upper level.

WEEK 5 –

In this week I got work to post blogs on Quora it should not be copied from anywhere it should be genuine which you are going to put over the platform so I just started to put blogs over Quora related to digital marketing because I have sufficient knowledge of digital marketing and I have also chosen digital marketing as my specialization course

We have also conducted webinar in this week We have conducted approx. to 10 webinars in my internship period we have successfully completed 10 webinars and we got good no. of registration for our webinar We have completed our successful webinar for students which will benefit to student and many of them interacted with speaker and ask their life perception views of them for life

WEEK – 6

In this week I got promotion in my internship in which I have to look after all my intern they are going to report me I have to check them and have to take the report of work what is the status of the work and how much time they will take to complete work and I have to help them in completion of work if they are facing any problem in completion of work.

It was a great opportunity of handling junior over the time of work in initial days I was very happy and related of work that I don't have to do anything from now but it is not like that I have to take time to time report and status of work if they are failing so I am the responsible why they are unable to complete work. incompleteness of work question will be putted over me if work is not completed in the given period of time so it is not so easy to be senior it's a responsibility work which senior follow while performing his/her work.

FINDING AND SUGGESTION

The working of marketing department of career domain smooth, effective and efficient. As per my view no such major improvements are required in the working of the department but if needed minor possible changes can be done to improvise the work in but more.

Suggestion which can be given to career domain it can be more interactive with intern which will help and motivate intern to do work more effectively. They can avoid of submissions of work screenshot which is the wastage of time which took time.

There should be some of delegation of authority at every level because the authority in middle level only and top level they haven't delegated it in the lower level which is very important it motivate individual to work for organization it looks working for itself. decision making power motivate a person for working

CONCLUSION

The work experience at career domain was very good. I learnt a lot working here. The experience at career domain will always be a lifetime experience for me. Actually, I can say that it is my very first step in corporate world all because of career domain. Basically, I was here to study details about management in a digital marketing industry what else could be better than career domain.

Now after one month of working as an intern in the company I can say that for what I was here I have achieved it. Working in Marketing department of the company has helped me to understand how digital marketing department of the company works from indents to work

The exposure I got here at career domain is very good. I had a great time working here at career domain. The staff, seniors all were supportive throughout and every day we were keen to study or learn something new as they were always ready there to teach us.

Internship at Sygnific Careers

Introduction

An internship is a kind of training for a student who works in an organization and learns all practical knowledge about a particular company and organization. Sometimes trainee doesn't get any reward for their work but sometimes they get, Internship that gives practical knowledge, as well as work experience to the intern or student.

I want to explore the content writing field that is why I join “**Sygnific Careers**” as a content writer for 3 months internship because I wanted to experience the Content writing, I had learned to allot in these 3 months I think these 3 months of internship improve many things in me and introspect my hidden talent as well as find out that how much capable I am to complete all the task before the deadline. Experience is the best teacher, who can teach the value of time management and can help an individual to grow more and more efficiently in life.

As a 6th-semester student of Communication, Amity University Madhya Pradesh, I utilized my summer doing an internship in the interest of my field. I have made this Summer Internship Report (S.I.P) for anyone who wishes to understand the details of my internship.

I was given tasks daily. The internship provided me with valuable job experience and expertise. The internship provided my first hands-on exposure to a corporate/media environment. I was well-informed about my responsibilities both before and after I joined. I made a list of criteria and objectives that I needed to meet given the time, energy, skills, and effort that I was investing in the organization. These are explained in the following manner. This report is divided into eight primary sections: introduction, organization, tasks assigned during the internship, outcome, description, personal and professional assessment, and so on

Internship duration- 3 months

Internship dates – 1st Jan 2022 – 1st April 2022

1.1 Internship Objective

Objective means a person's aim that he or she wants to achieve and for which he or she would do the following work. Before working with the organization, I also set a few objectives in my mind that I wanted to fulfill. The objectives are as follows:

- I imagined I'd get the chance to study a variety of perspectives only separate content writing at various job locations. I'd figure out how to accomplish numerous chores and how to ensure that each assignment is completed with the same level of flawlessness and alertness, since when taking care of
- Taking this entry-level employment presented fresh challenges, pushing my boundaries and hence my true potential prospects forward. When I was working on any of my work given by my team leader, I had to bear in mind that all I wanted to know was perfection, timeliness, and moral responsibilities.
- My objective was to discover my inner potential so that I expected to perform better in all the tasks assigned to me.
- I needed to encounter working in a neighborhood arrangement with specific principles and different confinements, remembering long working hours on Saturday and Sunday and constant work without breaks
- Field attachment allows students to put their theoretically taught ideas and skills into practice in real-world problem-solving scenarios. It is necessary to build a bridge between theoretical information obtained in lecture rooms and the real world. As a result, the student can experience the curriculum's material and appreciate how it is applied in the real world.
- To expand my knowledge of Content writing, as well as employment demands, duties, and prospects.

- Another goal was to receive hands-on experience with observing any organization, its products, the importance of the organization, its target clients, and the task of attracting viewers to the channel.
- • To improve various skills, such as my correspondence ability and working speed.

In my internship report, I've detailed all of the measures I took to meet all of the goals I set for myself before beginning my internship. I've attempted to present a quick overview of the organization's history and operations, as well as its successes and failings.

1.2 Industry sort and Significance of Internship

As I beforehand said that I worked as an intern at **Sygnific Careers** which is a Bhopal-based company. Sygnific Careers is one of the renowned and trusted career guidance company with continuously increasing popularity all over the country. This Company is known for its vernacular and its reach all over the country.

Sygnific careers, being one of the forefront Career guidance company in Bhopal has proven its courage and trustworthiness in the field of providing Guidance many times. In my internship tenure, I have seen that there are many content writers working in this company and I enjoy working with the people who are enjoying every moment while having the pressure of doing the work before the deadline.

On an individual note, the essentialness as an intern lies behind the way that it presented me with the important rudiments of the expert life alongside the profound information and experience about content writing.

1.3 Competencies

During my 3 months of internship, I wanted to gradually add to the goals by incorporating the knowledge and important components of detailing and writing that I gained in college about content writing and anchoring.

I have learned the various techniques to write articles creatively and I write many educational blogs, articles, and many more now I proudly say that I know how to do creative content writing and that is the reason why I joined this organization

1.4 My Expectation

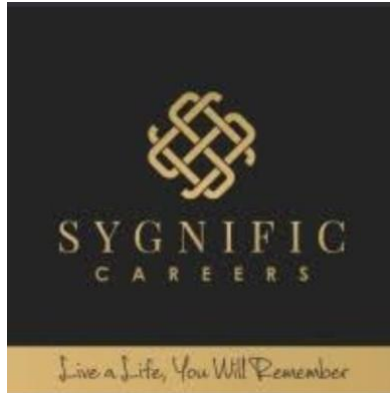

Since this was my first temporary job, I had a ton of desires normally. After it was affirmed that I got the entry-level position as a Content writer. I was told, that I was fundamentally working for the association, aside from being accessible disconnected or online in the association's various work areas, I would likewise take an interest in. A concise-clarification was given about the association. What is worth it, is the number of divisions, what are their future objectives and what they anticipate - While I know, this is a set-up association, I will get a great deal of chance to learn. Aside from this, I was told, there will be a team leader who will be prepared to support us and guide us, show us the work, and enlighten us regarding our obligations every day. I was eager to know how much my insight would be useful to the association. Even though I had mostly used content writing in my school, I despite everything needed a reasonable thought about what I should do and if I truly need to compose enough. I needed to practice my skills to learn new things, but I still couldn't seem to discover what to truly do. So, I was available for every one of those things which would occur.

2. Organization Profile

2.1 Background of the Organization

Name of the organization – Sygnific Careers

Logo of the organization

I worked in Sygnific careers as an intern in the position of **content writer**. All the employees there are so friendly I enjoy working with them I made so many new friends. Sygnific careers worked for their blog writing, career guidance & educational articles.

2.2 Owner

Raghav bangard

Dr. Sachin Rasal

2.3 Services –

Sygnific Careers is a career guidance company it is working on the educational side there work would be giving career guidance to the students who are not able to choose what they will do in their future. They also do educational content writing.

3. INTERNSHIP DESCRIPTION

3.1 First day and ice-breaking session.

On January 1st, 2022 when I joined my office for the first time, my boss congratulated me, who very kindly presented me with all the other employees of the organization and told me about my duties.

I have to say this, it was scary, but after meeting everyone on the job, I was feeling that we were successful together with all of us.

As soon as the introduction and all of the other facilities and formalities ended. I just start working just because this is an online work from home internship but apart from this I never feel that I am alone at work because whenever I need help my team leader and other employees are always there to support me and we work as a family

The idea of being a part of the play in this kind of organization was a great privilege. Most importantly, the practical work we did on the daily basis was another factor that I found to gain experience and become familiar with the processes involved in content writing. I want to think that my busy schedule is the least accurate representation of my life will work in the real world, and more importantly, I was exposing it earlier in my education

I have thoroughly enjoyed working with professionals. Every one of them was proficient and pleasant. Coordinating and cooperating with such a significant number of individuals, and associating with them to complete my work, influenced me to learn and comprehend a lot of numerous things. Furthermore, I can without a doubt say that thusly, I have developed and enhanced both as a representative and in addition a man. This is on the online mode along these lines I got the opportunity to learn and share the information and involvement.

Work responsibilities as a content writer

- Content creation
- Blog writer

- Form filling
- Researching

Overall, I think I was completely satisfied and happy with my work. I knew that the work I was interested in was able to do it. Work just fits my education and I knew the possibility of learning a lot from this. I was also warmly welcome by the organization.

3.2 SUPERVISION

I was monitored and supervised by our Team leader **Mr. Arham Khan** on daily basis. the advice given by him was always very helpful in my work. Other than him other Team leaders also helped and taught me many things and correct my mistakes too. they also gave me many tasks and assignments that helped me in many ways to shine my skills.

During the internship period, All of my team leaders encourage me to explore different fields and learn new things

3.3 DAILY TASKS/ASSIGNMENTS/PROJECTS.

I was relied upon to arrive at the workplace at 11:00 am sharp and leave when the time was about 08:00 p.m. But because it is an online internship so if suddenly some works come so I do that first because the office timing is flexible so I don't face any problem I always did my task on time. However, initially, for a few days, I had to work till 08:00 p.m. to get the hang of the job. I have worked on many major projects and assignments during my internship period

I also got the opportunity to learn new things I joined a Sygnific career as a content writer but apart from it, I learn new things like UGC reel creation, editing, and so on...I received knowledge and skills from various tasks given to me and other duties. It is worth noting here that this knowledge was most often received by practicals and exploration.

It was not necessary that there would be an equal amount or similar type of work all day. Based on the weekly report of all the weeks and activities of the weekend in Sygnific career from 1st January to 1st April 2022 can be written as follows

| <i>S. No</i> | <i>Week</i> | <i>Tasks / Project / Activity</i> |
|--------------|-------------|--|
| 1. | Week 1 | In the first week of my internship, I learn about how content writing |
| 2. | Week 2 | During this period, I learned how to write creative content |
| 3. | Week 3 | During this time, I start writing plagiarism free content without any mistakes |
| 4. | Week 4 | During this time, I learned the basics of editing I edit 2-3 videos |

| | | |
|----|--------|---|
| 5. | Week 5 | During this time I learn making UGC reels |
| 6. | Week 6 | During this time, I focused on sharpening my skills to reduce my time in writing content. I achieved this by writing 2-3 content articles a day with 2-hour intervals between each. |
| 7. | Week 7 | During this time, I become a pro and start exploring different fields |
| 8. | Week 8 | During this time, I became familiar with almost everything going around in the Sygnific career. I learned the basics of editing, I was doing content writing, making UGC reel |
| 9. | Week 9 | Till my last week I was fluent at everything and could do pretty much everything by myself. I was also offered a job as a permanent in sygnific career. |

4. OBSTACLES

Many obstacles were blocking my way through this internship, yet I got an opportunity to change my critical thinking capabilities professionally. In the early days in the workplace, I was losing my confidence I was worried due to a lot of work.

Everything that I needed to go, to begin with, that was new to me, the setting I was working in, and the work I was doing. Customary utilization of something new was utilized to get my course and to bomb my work, even though my managers helped me rout these obstacles in the quickest time distribution for about three days. They helped me independently, just as depended on the toes to assist me with any close-to-home issue.

5. REFLECTION ON PERSONAL AND PROFESSIONAL LEARNING

5.1 Reflection on Personal learning.

I set up specific goals between my short-lived condition, to make and augmentation those zones which I see should have been connected for their inspiration. The turn of events and improved work an area amid my passageway level status is as per the following

Work effectively: I have to see how to regulate my duties effectively. I did this by completing transitory work and utilizing it for the most part under my impermanent condition. This program endeavor was designated on a normal premise.

Work precisely: I expected to accomplish more exact work. Toward the start of my internship, I observed that there are many minor mistakes present in my work. There will be no blunders in words or accentuation, but instead to express the work which isn't printed or not on the ticket. Halfway is

my impermanent circumstance, I have extended this territory by comprehension, improving the spotlight in my work.

5.2 Reflection on Professional learning:

Upgrade correspondence: I had predicted that would improve my social purposes of certain. Around the start of my entry-level position, I comprehended that I didn't present every so often. This is considering how I was at the time new to the work environment. In any case, amidst this entry-level position, I have worked with and bantered with them pretty much all benevolent unquestionable subjects.

Increasing activity: I had assumed that progress would become more apparent as my temporary employment progressed. I didn't have much of an opportunity to participate in the management hypothesis at first. This is because I didn't consider how the technique was fueled and didn't have all of the necessary background information.

I went through the hardest endeavors; somehow those difficulties saw me on the splendid side and picked me the best among the 90 days. I figured out how to function enough in this company.

5.3 Reflections a researcher

As a researcher from my starting time I am not good at research but as time goes my team leader teach me to research and I'll do research daily and find as much the knowledge I'll be able to get and research on blog writing I'll read as much as articles I'll be able to read and then write a blog which is SEO friendly I also love doing research and because of Sygnific careers I'll be able to learn new things

6. Conclusion

6.1 SUMMARY OF INTERNSHIP

Summarizing the internship for 3 months I would like to state that I took in a great deal and the overall result of the internship was great. I learned almost all the things in Content writing. The adventure was very hard with heaps of obstacles and blocks yet toward the end it was something that gives me such an extensive experience. I figured out, how to write blogs & creative content writing. Figuring out how to Editing and UGC reels was the best part of my internship. I might want to summarize by writing that these three-month of internships give me outstanding amongst other experiences

6.2 OUTCOME AND EXPERIENCE OF INTERNSHIP

The overall result of 3 months of internship had been extremely useful and useful employment for me at Sygnific Careers. For the sake of corporate workplace and set-up now I have certain about numerous things and I likewise took in the administration of timing and the significance of doing work at the due date.

All through the internship, I was allocated numerous works from which the association focused and showed me how to write blogs & creative content writing,

I profited from this job and my goals for the internship were fulfilled. In addition, for the sake of doing this internship, my CV holds an internship at such uplifting digital marketing, to the point that in Sygnific Careers.

The best part was in my restricted capacity to concentrate for basically several days, I could have my proposal in their expressions of love and extraordinary wishes. Notwithstanding I recall the day which was my last working day in the work environment. They were all astoundingly disastrous in the work environment.

Sygnific careers became my second family for me and help me to learn new things thanks to Sygnific Careers for everything.

INTRODUCTION

Internship is a type of work based training in which the students are exposed to the organisations work by gaining all of the practical knowledge of working in an organisation. Internships provide real life experience as well as practical knowledge for students, which prepares them for their further work life.

As a 6th semester Communication student at Amity University, Madhya Pradesh, I spent my summer completing an internship in the field of content writer. The main reason of building interest in the field of content writing was because of the opportunity of writing articles for the Amity's official magazine. Such opportunities always turn out to be a life changer for students in understanding their interests and goals. This ultimately also helped me in identifying my interest in writing content.

1.1 Objectives of the internship

- The very first objective of the internship is to explore the career opportunities after graduation.
- The internship also helps the students in examining their interests and talents in their area of study.
- Students learn to value their work and its role in the economy.
- They achieve the necessary work habits and mindsets to succeed in their career.
- During the job interview process, they also test their communication, interpersonal, and other important abilities.
- Establish a work experience record.
- Make relationships with employers that will lead to a full-time career once you graduate from college.

1.3 My expectations

As it was my first ever experience of working with an organisation, I had several expectations from my internship such as –

- I wished to learn every aspect that should be kept in mind, while writing a content.
- I wanted my co-members to be open to my doubts and queries.
- I wished my seniors to be extra focused on interns, as we are students and are there to learn.
- I wanted my organization to have a healthy work environment.
- To learn valuable work skills and gain extensive knowledge of the working of an organization.
- I also expected to be treated with same respect as the rest of my employees, even though we were youngest.
- I also expected my co-members and seniors to be really patient with me, as being a student I had no work experience.

ORGANISATION PROFILE

2.1 Background of the Organization

Name of the organization – Digiversal Consultants Pvt. Ltd.

Logo of the organization –

Digiversal Consultants is a corporation that provides educational and academic services to students all around the world. It is an Education First, Technology Company that administers a substantial Study-Resource Digital Library for Undergraduate, Post-Graduate, and PhD study levels in terms of research-based methodology.

Digiversal Consultants has a team of highly qualified experts who are eager to help students with all their academic doubts and queries through live sessions and guided sessions. It targets students pursuing higher studies in countries like Australia, US, Canada, etc.

2.2 Owner

Mr. Sudhanshu Sharma and Mr. Budhesh Chopra are the head/ directors of Digiversal Consultants Pvt. Ltd.

INTERNSHIP DESCRIPTION

3.1 My role in the company

I was given the task of creating content for the digital marketing team. My job was to develop material in such a way that students seeking higher education would be aware of our website, which offers educational services to students. I used to produce content that was both informative and engaging. I used to have a daily target to complete in my 9 hours office shift.

Work responsibilities that I had while working in this organisation –

- I had a responsibility to do my biometric daily, in order to mark my attendance.
- To deliver engaging content that is comprehensive and targets the problems that students face in their academics, leading to making them aware about the organisations goals.
- I had a three thousand word target to complete daily within the given time frame.
- I had also had a responsibility to complete priority content that was given by Digital Marketing team.

3.2 Supervision

I was monitored and supervised by content marketing head Mr. Dheraj Gambhir and Team Lead Mr. Siddharth Sagar on a daily basis. They trained me to the fullest, so that I can finish my daily responsibilities easily. Other than this, the Manager of Digital Marketong Mr. Amit Pathak also helped and taught me how Digital marketing, SEO works. My mentors focused on developing my working

skills in every way possible. Their main aim was to make me a better writer as well as to get the best work experience being an intern in this organisation.

During the internship period, they were always open to my doubts and queries and were the best mentors I could ask for.

3.3 Daily tasks

I was expected to appear at work at 9:30 a.m. and leave once my nine-hour shift was over. However, I used to work longer hours to have a better understanding of the profession and to finish my task before leaving the workplace.

My Team Lead used to assign my task in the morning. In order to develop compelling and relevant material, I had to conduct thorough research on the subject.

I was assigned with a daily goal of writing three thousand words. We used to have a monthly goal as well, which had to be met the next month, if it was below the expectations.

OBSTACLES

Since it was a completely new city as well as a new professional life, I did face some challenges in my three months internship. To live in a completely new place, meeting new people and dealing with work pressure was difficult at first. Let's look at some of the major challenges I faced while doing my internship.

- It was a nine hours shift even after leaving my office, I used to work extra in order to complete my daily target. This was challenging for me, as I wasn't used to working for straight nine hours.
- Corporate life is pressuring, as a student I wasn't prepared for dealing with the amount of pressure while working in an organization. This made me home sick a lot of time.
- I had a daily target of completing 3000 word, which was obviously difficult initially, but later I got used to it.
- I was the youngest among all the employees, so age gap also occurred.
- I initially also faced challenges in adjusting myself in a new environment.

CONCLUSION

At the end, I will always cherish the ninety days I spent there. I have seen myself growing in every aspect possible. The organisation focused on making me learn and gain all the requisite skills for working in an organisation. There were difficult days where I faced a lot of challenges but I overcame all the obstacles which definitely made me stronger.

The organisation has a amazing work environment. The team is really friendly and tried hard to make me comfortable there. In short I had the best time there and learned a lot. The organisation exceeded my expectations.

I am looking forward to work with this organisation.

● INTRODUCTION

An internship is a professional learning opportunity which provides a student with meaningful, practical work in chosen subject of study or career interest at a company for a certain period of time. I imagine myself to be a content writer for cybersecurity and international affairs , thus I

chose "CySecurity News" as a News Reporter for a 6 month internship because I wish to study how a media outlet works, and I have been evolving my skills.

I believe that these 6 months of internship have helped me to discover many things about myself, particularly my good qualities and my ability to compete in the CySecurity News team. Digital news reporting is the ideal teacher, since it can teach the importance of time management and assist a person in being more productive in life.

As a sixth-semester Communication student at Amity University in Madhya Pradesh, I spent my summer completing an internship related to my specialty. This Summer Internship Report (S.I.P) is for anyone interested in learning more about my internship. Learning all of the industry's dos and don'ts, as well as the abilities required and the fundamentals of day-to-day tasks. This was an opportunity to learn about the profession and how it operated. My skills and knowledge were put to the test, and even when things seemed to be drifting away from me, I didn't concede and continued to work hard.

I worked as a news reporter for CSecurity News during my internship. The news organization is based in Estonia. I chose this internship because I wanted to gain experience through WFH mode . The task was given to me on a daily basis. The internship was my first exposure to a corporate/media environment and allowed me to obtain practical experience.

I was thoroughly educated about my responsibilities both before and after joining. I made a list of criteria and objectives that I needed to meet given the time, energy, abilities, and effort that I was investing in the organization. The following points are clarified.

This report is divided into eight sections: introduction, organization, work assigned during the internship, outcome, description, personal and professional review, and so on.

Internship duration- 6 months

Internship dates – 1st January 2022 – 30th June 2022

1.1 Internship Objective

A person's objective is the goal that they wish to reach . Prior to joining the organization, I had established a few goals for myself that I wanted to achieve. Prior to joining the organization, I had established a few goals for myself that I wanted to achieve.

I decided to learn news writing ,SEO-based writing ,scriptwriting, and Captions in order to esteem and refine my potential in working for the association. While writing is a larger part of my approach, it is also my passion and capability, I believe there is a lot of room to fill in as much as is reasonably possible. I assumed that aside from writing, tying down, detailing, and chipping away at various work areas, I'd get the chance to understand a variety of diverse perspectives.

In college, I was taught a variety of skills other than writing like storyboarding ,video editing, radio production, panel discussion and regardless of if I was given the opportunity, I had to put those skills to use.

When I was working on any of my projects, I had to remember that everyone wanted to know about art, law, and moral duties.

- As a student I have an ability to work on real-life experience on the hand on experience because I expect to work on graduation. That's why students are deployed in various institutions, firms and courts of their choice so that students can be given in opportunities to get employment and to test their interest in a particular career before commitments.
- When I was working on my any of work, then I had to bear in mind that all wanted to know legal and moral responsibilities.
- I was confronting new difficulties to take this entry level position, pushing my limits forward and hence my actual potential possibilities.
- When I was working on any project, I had to remember that everyone wanted to know about ethical and practical duties.
- Taking this entry-level position presented fresh challenges, pushing my limits and hence my true potential prospects forward.
- My goal was to figure out what I needed in order to perform better in a work context.
- To expand my knowledge of work ethics, as well as employment demands, duties, and prospects.
 - To improve various skills, such as my correspondence ability and working speed.

In my internship report, I've detailed all of the measures I took to meet all of the goals I set for myself before beginning my internship. I've attempted to present a quick overview of the organization's history and operations, as well as its successes and failings.

1.2 Industry sort and Significance of Internship

As I previously stated, I held a temporary post with CySecurity News, an Estonia based company . E Hacking News[EHN] recognized as one of the leading Information Security news portals, is now CySecurity News.

In this hazardous time of global corona virus pandemic, this portal tried to update about cybercrimes and risk of data leak through zoom meetings . News covered all sort made it available for the people without any external gatekeeping. From cybercrime, vulnerabilities and exploits , malware fraud , anything happens in cyber world was always been covered by outlet.

On an individual note, the essentialness of this temporary position lies behind the way that it presented me the important rudiments of the expert life alongside the profound information and experience cyber world crime and reporting tasks.

1.2 Competencies

Throughout my six-month internship, I needed to gradually add to the new writing targets by incorporating the knowledge and critical components of detailing and composing that I gained in college about newswriting, research methods, SEO, marketing, plagiarism-free writing, and more into the news writing targets.

I've learned a number of techniques for producing articles in various forms. I was able to attain my goal of acquiring more information and thoughts to write about and go about as a news reporter while working at Cysecurity News. This is why I chose this organization in particular.

1.3 My Expectation

Since this was my first temporary job, I had a ton of desires normally. After it was affirmed that I got the entry level position. I was told, I was fundamentally working for association, aside from being accessible disconnected or online in the association's various work areas, I would likewise take an interest in.

Throughout my six-month internship, I needed to gradually add to the writing and formatting goals by placing without hesitation the learning and critical parts of detailing and composing that I gained at college about news revealing, composition, media, composed correspondence, news writing and production.

I've learned how to make SEO based writing on various topics related to cyber security using various ways. While working for CySecurity News, I was able to achieve my goal of gathering more material and thoughts to write and go about as a news reporter.

A brief explanation was given to the association. What is its worth, how many divisions are there, and what are their long-term objectives and ambitions –Despite the fact that this is a formal organization, I am convinced that I will have various learning chances and interests to see how useful my perspective would be to the company. I need to write more often. Obviously, I needed to improve my scripting, writing, and research skills, and I was available for anything that came up.

2. Organization Profile

2.1 Background of the Organization

Name of the organization – CySecurity News

Logo of the organization –

I interned at CySecurity News; a news service dedicated to information security. Formerly known as Ehackingnews has 2.45 lakh monthly readers and 7- 8 lakh monthly visitors. . It was started in year 2010 with a mission to spread cyber security awareness .News is sent by RSS Feeds, email (Subscribers), Facebook, and Twitter in addition to the site www.cysecurity.news.

2.2 Owner –

Prasanna Jeyaraman is the CEO and Sabari Selvan is the co-founder of CySecurity Pte Ltd. which was set up in Singapore in 2015 and was formerly known as Cyber Security and Privacy Foundation Pte Ltd.

2.3 Services –

CySecurity News covers focused on serving society by providing latest news updates and information on critical areas such as Security Breaches, Cyber Crime, Vulnerabilities, Cyber Security, Penetration Testing Tools, and other similar relevant issues. EHN is specially dedicated to educating “Internauts” and assist them in safe and secure use of Cyber Space.

Promoting Talent –

CySecurity News produces information for readers by portraying it in on its website under the categories like cyber security ,malware, cybercrime ,vulnerability and exploits, privacy ,data breach and mobile security. The organisation is well coordinated with the writes given daily task while the sub editor proofreads it and publishes and promotes on various social media platforms. With the monthly review on our performance the Hr helps us to improve appreciate the new skills learnt. Interviewing and asking about the opinions of firms affected or research labs about the recent happenings helped me boost my confidence and communication skills.

3. INTERNSHIP DISCRIPTION

3.1 First day .

On January 1st, 2022 I joined the organisation through WFH mode, The HR , founders, and the sub editor congratulated and very kindly helped me explain my duties in organization .

I must confess that it was intimidating at first, but after the gestures and assurance provide by my sub editor made me felt certain that it would be viable working together. As I was working from home, I felt at ease but also a little weird. As the day progressed, I followed the instructions prescribed for SEO tags and news writing structure.

My first piece was about iOS vulnerabilities that exist even when the phone is turned off, and I began by exploring numerous links. I proceeded to compose my material with suitable punctuations after considering at least six sources. The minimum word limit was 350 words, so I tailored my information to be both informative and concise. To avoid copyright issues, we had to include a visual image from a certain source. I looked through the keywords and chose one that was both catchy and professional. I added suitable tags, a description, and emailed my sources to the sub editor for publication after proofreading my work.

Overall, I think I was completely satisfied and happy with my work. I knew that the work I was entrusted was able to do it. Work just fits my education and I knew the possibility of learning a lot from this. I was also warmly welcomed in the organization. In general, I believe I was fully satisfied with my work. I knew the work I was given could be completed. Work was a good fit for my training, and I knew I could learn a lot from it.

3.2 SUPERVISION

On a regular basis, we were checked and overseen by our subeditor, Ms. Sandhya Chauhan, and her comments and recommendations were always greatly beneficial in our work. Apart from her, the Hr., Ms. Akila, also assisted and showed us how to better contact with readers and researchers how to add/delete anything from the bulletins that was immoral or had been put by mistake.

During the internship, my supervisor both supervised and affected the training and work that had already been completed.

3.3 DAILY TASKS/ASSIGNMENTS/PROJECTS.

The topic would be assigned to us in the morning, and we would be expected to submit as quickly as feasible. My daily tasks included searching for the subject matter and sufficient sources, or if the topic weren't important enough, I could request a new topic from the sub editor. Next, I would search for sources on the topic, requiring at least six sources for the article to be as accurate as possible. Finally, I would author my article, which would be both informative and precise. After that, I went through the articles looking for SEO tags and good descriptions. The visual image had to be related to the theme and visually striking, thus I sought from a specific site to prevent copyright issues. Finally, I chose a headline that was both catchy and notoriety.

| <i>S. No</i> | <i>Week</i> | <i>Tasks / Project / Activity</i> |
|--------------|-------------|---|
| 1. | Week 1 | I grew accustomed with the daily routine, and got into the swing of things. My job entailed news writing and learning how to use SEO tools. My subeditor was quite helpful during this time in helping me understand the importance of a solid bulletin. |
| 2. | Week 5 | During this time, I learnt about many cyber crimes and their consequences in the real world. |
| 3. | Week 15 | During this period, I began to understand more about cyber-criminal groups, malware, and botnets, and how the cyber world affects war. |
| 4. | Week 20 | Reviewing the changes that organizations have done to defend themselves from vulnerabilities and new patches discovered. The cyber wars in Ukraine an between Russia. Due to new policy, VPNs are leaving India, and there have been various payment frauds an crypto frauds. |

4. OBSTACLES

There were many challenges in the road of my CySecurity News internship, but I had the opportunity to improve my critical thinking skills in a professional setting. It was difficult in the early days of WFH mode to find a quiet spot to work.

Everything I needed to get started was completely new to me, as well as virtual. Despite the fact that my supervisors truly assisted me in overcoming these barriers in the shortest time possible for roughly five days. They assisted me autonomously and supported me with any trouble that occurred .

5. REFLECTION ON PERSONAL AND PROFESSIONAL LEARNING

5.1 Reflection on Personal learning.

I established particular goals for myself during my brief stay to create and improve those zones that I believe should have been linked with their own inspiration. The following are the developments and enhanced work areas in the midst of my route level status: -

Work efficiently: I need to discover out how to organize my responsibilities. This was achieved by obtaining a temporary job and using it for the most part while I wanted to utilise my skills and be productive. This program initiative was established on a regular basis.

Work precisely: I had hoped to complete more precision work. At the outset of my internship, I saw that my work contained numerous minor errors. There will be no grammatical or accentuation errors. My impermanent situation is halfway; I have expanded this domain through comprehension, increasing the spotlight in my activity.

5.2 Reflection on Professional learning:

Upgrade correspondence: I had anticipated that this would increase my social goals. I realized I didn't present every so often when I first started my entry-level job. In any event, in my entry-level role, I've worked with and bantered with pretty much everyone who is benevolent and unquestionable.

Increasing activity: I had assumed that progress would become more apparent as my temporary employment progressed. I didn't have much of an opportunity to join into the managing hypothesis at first. This is because I didn't consider how the procedure was fuelled and didn't have all of the necessary information.

Upgrade correspondence: I had hoped that this would help me achieve my social objectives. When I first started my entry-level employment, I noticed I wasn't always present. In any case, in my entry-level position, I've worked and joked with pretty much everyone who is good and trustworthy.

Increasing activity: I had thought that as my temporary job proceeded, my development would become more obvious. At initially, I didn't have much of an opportunity to participate in the managerial hypothesis. This is because I didn't think about how the operation was fuelled and didn't have all of the knowledge I needed.

5.3 Reflections a researcher

This ability has benefited me in identifying and breaking limitations. I needed to explore numerous topics in between my entry-level positions. This helped me better comprehend the organization's mission. My second-year research classes came in handy, and I was already familiar with the research and writing process.

6. Conclusion

6.1 SUMMARY OF INTERNSHIP

To summarize my 6-month internship, I would say that I learned a lot and that the internship's overall outcome was excellent. It was something that provided me with a wealth of experience. I worked out how to type and publish news about cybersecurity, as well as how the data was perceived, which was assisting people in becoming more conscious of the cyber world and device updates. The finest aspect of my internship was learning how to conduct research and question organizations about data breaches and patch fixes. To summarize, this six-month internship has provided me with invaluable experience, including learning how to operate in a journalism organization.

6.2 OUTCOME AND EXPERIENCE OF INTERNSHIP

The total result of my 26-week internship at CySecurity News was highly valuable and useful employment for me. For the sake of a corporate set-up, I now know many things, and I've also learned how to manage time and the importance of completing work on time.

Throughout the internship, I was assigned a variety of topics to complete, and the organization concentrated on teaching me how to operate a on receiving news from reporters, conduct interviews, and researching abilities.

This job paid well for me, and my internship objectives were met. Furthermore, in order to complete this internship, my CV includes an internship at such an inspiring news organization.

The nicest part was that despite having a limited ability to concentrate for several days, I was able to have my offer included in their professions of respect and extraordinary wishes.

Acknowledgement

I am very glad that in spite of many limitations I have completed the Report successfully. For preparing this report, I received cordial and sincere assistance from many concerns. At first, I offer millions of my heartfelt thanks to almighty who has given me strength and opportunity to complete this internship program. Later I convey my best respect to my mentor Siddharth Sharma, Assistant Professor, Amity School Of Communication, Amity. In the research area I am an infant, so without the help of my supervisor, preparation of this report was not possible on behalf of me. I am profoundly grateful to Mr. Punit Kodwani, Chief Editor, Gwalior Impact for his hearty continuous supervision. I am also thankful to other reporters and my colleagues for their whole hearted cooperation. My thanks also go to my friends and classmates for their support. I am also quietly and heartily indebted to my parents who always inspired, encouraged and supported me to pursue such study.

**OUTCOME REPORT OF EDUCATIONAL TRIP OF AMITY SCHOOL OF
COMMUNICATION TO HYDERABAD**

04/10/2019

Amity School of Communication, AUMP, had conducted an Industrial Visit to Hyderabad as partial fulfillment of the Industrial Academia Collaboration and exposure for the Course of all UG and PG students of Journalism and Mass Communication. The purpose of the visit to provide students an opportunity to learn and understand different aspects and practices about Print / Electronic Media and Film & TV production studied by UG and PG Students.

The visit was organized during 26th September to 1st October which includes one holiday i.e. (29th Sunday) and four working days i.e. (27th September, 28th September, 30th September and 1st October). Three faculties (two male and one female) from Amity School of Communication escorted the students during the trip.

Places students visits during their Educational Trip to Hyderabad

- I. **ETV Bharat** – A Division of Ushodaya Enterprises Pvt. Ltd., is a comprehensive digital national news platform conceived to deliver seamless news and information services, using video-centric Mobile App and Web Portals. It is first-of-its kind offering in India in terms of diversity and depth, dedicated journalists network, reach of 24 states with services in 13 languages i.e. – Hindi, Urdu, Telugu, Tamil, Kannada, Malayalam, Gujarati, Marathi, Bengali, Punjabi, Assamese, Odia and English. ETV Bharat is the latest initiative of the five-decade old multi-dimensional Ramoji Group.

II. **Ramoji Film City:** Ramoji Film City is one of the important itineraries among the excursions from Secunderabad. This filmmaking city is the ideal destination for the connoisseurs of the Bollywood kitsch. The complex of Ramoji Film City spreads over a sprawling area of 1666 acres. There are a number of film sets and gaudy fountains that adorn the compound. The film complex in Secunderabad has comprehensive settings for movies and has been accredited by the Guinness World Records. Along with the custom designed locations and settings, the film complex is furnished with state of art facilities for the tourists. The presence of pre-production and post production equipments in the film city has resulted in the fast and cost-effective creation of top quality movies.

- III. **Charminar/:** Charminar has rightly been called as ‘Arc de Triomphe of the East’. It is also called as the ‘Mosque of the four minarets’. Not visiting this magnificent architecture while on a Hyderabad tour is nothing less than a sacrilege, especially if you are a travel enthusiast. Not only of Hyderabad, Charminar has become an iconic monument for entire India. Maintained by the Archeological Survey of India, Charminar is a representation of the historical background of the city, its glamour, glory and cultural richness. Since its construction in 1591 by Mohammed Quli Qutub Shah of Shah

Dynasty, Charminar has been captivating every visitor, with its architectural beauty as well as religious and historical significance.

- IV. **Golconda Fort:** Golconda Fort is an imposing building that once protected an ancient city in an area famous for its diamond mines. The fort and surrounding ruined city make up one of the most popular attractions in Hyderabad. Come to see the fort's mosques and colossal mud walls and experience the building's incredible acoustics. The Kakatiya Kings originally constructed the fort from mud in the 12th century.
- V. **SalarJung Museum:** The Salar Jung Museum is a testament of his passion for arts and antiques. Located on the southern bank of Musi river in Hyderabad, this museum is known to be the largest one-man collection in the world and serves as a paradise for the connoisseurs of arts. Established in the year 1951 at the resident palace of Salar Jung III, the museum was inaugurated by Pandit Jawahar Lal Nehru. The Government of India took over the museum in 1958 and in 1961, the museum was declared to be of National Importance. Finally in the year 1968, the museum was shifted to its present location at Afzalgunj. The museum now has 38 galleries with three sections including the central

block, the eastern block and the western block. It houses a wide collection of antiques with around 43,000 art objects, 47,000 books and 9,000 manuscripts from different parts of the world.
