PART II

A session on "The Healing Power of Yoga: For Health, Well-Being and Inner Peace" was organized for all the faculty and staff of the University in the Seminar Hall. The talk was delivered by Dr. Rajender Singh, Director, Physical Education, Jiwaji University.

He spoke at length about the benefits of Yoga and how it is very important to inculcate it in daily life. He emphasized that the best way to manage stress is to meditate and do yoga daily. This also gives peace of mind and all will be able to concentrate more on the work.

Practicing yoga is said to come with many benefits for both mental and physical health, though not all of these benefits have been backed by science. Prof. Singh also said that Yoga is not just about bending or twisting the body and holding the breath. It is a mechanism to bring you into a state where you see and experience reality just the way it is. If you allow your energies to become exuberant and ecstatic, your sensory body expands. This enables you to experience the whole universe as a part of yourself, making everything one – this is the union that yoga creates.

Prof. Singh also said that more and more mainstream medical practices are adopting yoga therapeutics, as growing research shows its efficacy in aiding recovery, especially from stress-induced conditions, and improving overall health and vitality. Statistics show that 60 to 80 percent of the complaints that people bring to their doctors are stress-induced, and yoga can be an effective means to mitigate and even prevent stress-induced conditions, restoring a sense of balance and ease. The session was well received by all the faculty and staff. The Amity University Madhya Pradesh is committed towards organizing more such events in future for benefit of the society, young generation and, students in particular.
