Dear Sir,

I am pursuing a PhD in Electronics Engineering and wish to publish research papers in scopus indexed journals or UGC CARE listed journals which do not charge APC. Following are journals which do not charge APC or charge nominal amount and publish research papers in Electronics Engineering. But scope of many of these journals are very vast e.g. Agricultural and Biological Sciences, Biotechnology and Agro-Industry, Chemistry and Pharmaceutical Sciences, Engineering and Industrial Research, Environmental and Natural Resources, and Physical Sciences and Mathematics.

I request you to let me know whether these journals are genuine or otherwise.

Thanks and regards,

A B Patil

Greetings Team,

I attended the webinar on Saturday and the symptoms of predatory journals that you described were matching to the journal we published our article on! And I wanted to ask for your help!

Here's the link:

<https://www.ijsr.net/>

And will it be possible to remove our article from this journal? If so I would be really grateful to get your guidance!

Thank you!

Thank you for the wonderful workshop on Elsevier.

Can you help to check, **International Journal of Energy Economics and Policy**? They don't have a source homepage on the Scopus website. I have acceptance from this journal but I cant confirm whether it is predatory or original journal.

Awaiting your response.

Good Morning

Please let me know if these journals are real or predatory. Can I publish my paper in these journals?

E-ISSN is 2319-3565

Another one is in UGC care list and it's 0975-1386

Yes, and yes!

When is it due?

Go for it!

Respected Sir/mam;

Greetings from Kolkata!!

I shall be highly obliged if your team kindly inform me of the following two Journal's Status. Whether they are Scopus indexed or not?

Journal Name -

(1) Turkish Online Journal of Qualitative Inquiry; E-ISSN:1309-6591.

(2) International Journal of Professional Business Review; ISSN: 2525-3654 (<https://openaccessojs.com/JBReview>)

To be noted: International Journal of Professional Business Review; ISSN: 2525-3654 (<https://openaccessojs.com/JBReview>) is not appearing in the Scopus preview site. I have checked this journal by typing both its name and ISSN but no information is displayed. Am also attaching the screenshots herewith for your reference.

Kindly revert as soon as possible.

Dear Sir,

I'm working as an information specialist at the library of Hanken School of Economics, Finland. I attended your webinar on predatory journals, recommended by our Dean of research, Prof. David Grant. Thank you so much for the informative and extremely important webinar!

I have a question about the integrity of the journal *Behavioral Sciences* by MDPI. The journal is not in the 53 journals by MDPI which are identified as predatory journals according to the article by M Ángeles Oviedo-García. 2021. Journal citation reports and the definition of a predatory journal: The case of the Multidisciplinary Digital Publishing Institute (MDPI). *Research Evaluation*, 1-15. <https://doi.org/10.1093/reseval/rvab020>.

The journal *Behavioral Sciences* is also indexed in JUFO (Finnish national [Publication Forum](#)), Scopus, UlrichsWeb, and DOAJ, but [Journal Guide](#) says that it is "not yet included in the JournalGuide whitelist of reputable titles."

Could you please kindly help us investigate and evaluate the integrity and reputation of this publication channel? We have a researcher who has just submitted his article to this journal. We at the library wishes very much to have your confirmation to see what we can do next and are very much looking forward to your reply.

Thank you so much for your help and support!

Kindest regards,

Qingbo

Also, I recently published a short communication in 'Species' but did not get any DOI number. Though this journal shows association with Publons and Orcid, could you please confirm if this is a predatory journal as well?

I would be grateful if you could answer one of my queries regarding **Journal citation report** impact factor, as presently DU is considering the Thomsan Reuter impact factor (as told by my supervisor).

My question is how can we find a JCR for any journal? Is JCR and Thomson Reuter impact factor the same thing? Will an UGC approved journal have JCR?

Also, is Explorations: e-journal of Indian Sociological Society be considered a good journal to publish, in case I don't aim for Scopus or Web of science?

It would be really kind of you if you could help me out since there is no other source.

Dear Dr. Sumit Narula,

Thank you very much for your response.

I have got your information while attending the Scopus webinar on "Predatory Journal".

This is not one one incident. I am receiving many proposals for doing business with your countries publishers and many others who will act as a middle man of supplying papers. I had to use auto reply to respond to them. Nowadays it is annoying too.

I am citing one of the example

"

Dear colleague

Hope you are Doing well

my Journal, Journal of Critical Reviews is Discontinued from Scopus Coverage from Dec 2020 . we have many articles and conferences to be Published in Current Scopus Indexed Journal , our new scopus Journal is above to come by April 2021 , before that we need to Publish existing articles so we can have collaborations for Publication

Kindly share the Procedure for Publishing in your journal , Duration of Publication time , APC .

If needed we can Take Bulk slot and pay as Advance

Kindly Reply!

Respected sir

Greetings for the festive season. I had attended dr narula's talk on identification of fake journal held in gauhati University. The session was very helpful for gaining insight into the identification process.

This mail is regarding request for identification of

" Journal of women's health & safety research " (ISSN: 2577-1388). I would like to publish a research paper on women health (mental health of hiv pregnant women), and this journal was chosen by the University where I had presented my research paper. I am also attaching the snap of the homepage of the same. But before going ahead with it, I would like to know if this is a journal with good standing. I would be grateful for your valuable input.

A warm Greeting to all helper people !!

I saw the video of Dr. Sumit Narula, it was very useful about knowing of fake journals. I published two papers in the International Journal of Tropical Agriculture in 2018. after three years. I presented to Higher Ministry for my upgrading. but the Ministry rejected because the publisher (© Serials Publications Pvt. Ltd.) is on Beall's list ([Serials Publications Pvt Ltd](#)). now I want you to help me please.

1- Is this (International Journal of Tropical Agriculture) journal is fake or original?

2- What is different between © Serials Publications Pvt. Ltd. and Serials Publications Pvt Ltd?

thank you

Dear sir,

Please advise us whether the journal, ' Natural Volatile and Essential Oils ' is under SCOPUS .Please find the paper link below

<https://www.nveo.org/index.php/journal/article/view/2774/2365>

Please provide any web link to identify fake or Cloned Journals .I watched your Youtube video and it is really a service to the research community.I noticed links in your video for fake journals where readymade lists are given.If i want to search the details of the selected Journals where i can find whether they are fake or cloned after searching in SCOPUS/CLARIVATE.Nowadays same ISSN,Journal Name,template ,font are misleading us.Please advise.

Dear Team CDFND,

Hope you are doing well.

Please see the below chain email regarding acceptance confirmation from one of journal. I believe it's a fake or predatory journal asking money for publication using GMAIL for communication. The chief editor is claiming Euthiopeian university affiliation but asking money through GPay and Phone Pay.

I am sure, it's fake and doing scams but need confirmation from your side too.

Waiting for your favorable reply.

Thanks and regards.

Good Evening Sir

Your Youtube video on How to Catch Fake/Cloned/Predatory Journals in academics is very insightful.

I needed your help in checking the authenticity of one ABDC Indexed open access journal- International Journal of Economics and Financial Issues.

My research article recently got accepted in this journal.

As mentioned by you in the youtube video I checked the journals' website on Whois record and could not find full details as explained by you. I'm attaching a screenshot for the same.

Also, the journal mentions on its website of being abstracted and indexed by SHERPA RoMEO but when you click the link it says page not found.

I would be highly grateful if you could help me in checking whether this journal is predatory/fake/cloned or not.

Thank You

Kindly verify this journal and provide the details. I want to know whether it is fake /cloned journal or not.

Journal Title: International Journal of **Systems/ System** Assurance Engineering and Management.

I have the naming confusion here. On the website it is given as International Journal of **System** Assurance Engineering and Management. but when I check with scopus site, it is showing International Journal of **Systems** Assurance Engineering and Management.

My question is both are the same or which one is fake?

Kindly clarify my doubt.

Dear Sir/Ma'am,

Greetings!!

As we know many cloned journals are active in India these days and imitate the real journal very closely. Could you please help me confirm whether the following journals are actually SCOPUS / Web of Science indexed or UGC listed

1. **Psychology and Education**, ISSN: 0033-3077 (as visible on Scopus) but journal with the same name PSYCHOLOGY AND EDUCATION (ISSN: 1553-6939) is publishing hundreds of papers every other month

2. International Journal of Disaster Recovery and Business continuity ISSN: 2005-4289 (Web of Science ???) <http://serisc.org/journals/index.php/ijdrbc>

This journal has around 40-50 papers in each issue since last 4 issues including most of the papers from Indian Authors which raised my doubt. Prior to these 4 issues the journal had 5-6 papers in all the issues

3. International Journal of Modern Agriculture ISSN : 2305-7246 (Web of Science ?) 4. **Palarch's Journal of Archaeology of Egypt/Egyptology** in Vol-17, No.-9, (2020) with

ISSN 1567-214x publishing on any topic under the sun and given volume shows > 10 K pages ; <https://archives.palarch.nl/index.php/jae/issue/view/119>

I would be highly obliged to receive this help

Madam/Sir,

A few days back I got an invitation from a person to submit a paper to his journal. He has shared the details of the journal. Kindly help me to know whether it is a cloned journal or not. The details of that journal sent by the person is as below-

Journal Name: Journal of Positive School Psychology

ISSN: 2717-7564

Indexed In Scopus-SJR-Q2, UGC CARE Listed Group-II.

Journal URL: <https://journalppw.com/index.php/jpsp>

Scopus Link: <https://www.scopus.com/sourceid/21101044228>

Submit the paper with journal name to info@labtechinnovations.com

Regards

Awaiting your valuable response

Dear Sir,

I hope you are doing well.

My name is D.H.U.Eranda and I am a PhD student at Walailak University-Thailand. I reviewed the "Asian Journal of Agriculture and Biology" and found out some outlier behaviours.

- Displaying lot of logos in the website
- Full details of the editorial board not indicated on the web

I have attached a couple of screenshots of the website which is doubtful to me.

Please kindly find the link to the "Asian Journal of Agriculture and Biology" <https://www.asianjab.com/editorial-board/> and kindly let me know whether this journal is a fake or predatory journal.

Thank you.

I am Nikhil Srinivasan from Sri Eshwar College of Engineering, Coimbatore. I am pursuing my final year BE CSE and right now i am working on publish my paper.

Since this is my first time publishing a paper and also the faculty are asking us to publish in scopus based journals i was hoping you could help me. I searched online but couldn't find a scopus journal which does not ask for APC(application processing fee) in the computer science domain. Could you please help me find a few scopus indexed journals which accept paper without APC.

Thanking you

Respected Sir/Ma'am,

Hope you are doing well!

I have recently attended a session by Dr.Sumit Narula sir and it was a great learning experience for me. Through the session I also got to know that you could assist us in identifying the predatory/fake journal.

I wanted to inquire whether "**Corporate Governance and Sustainability Review Journal**" published by Virtus Interpress is a predatory journal or not.

Your help would be highly appreciated.

Thanking you in advance.
