[Virtual Grid-Based Routing for Query-Driven Wireless Sensor Networks](#)

In the context of query-driven wireless sensor networks (WSNs), a unique scenario arises where sensor nodes are solicited by a base station, also known as a sink, based on specific areas of interest (AoIs). Upon receiving a query, designated sensor nodes are tasked with transmitting their data to the sink. However, the routing of these queries from the sink to the sensor nodes becomes intricate when the sink is mobile. The sink's movement after issuing a query can potentially disrupt the performance of data delivery. To address these challenges, we have proposed an innovative approach called Query-driven Virtual Grid-based Routing Protocol (VGRQ), aiming to enhance energy efficiency and reduce data delivery delays. In VGRQ, we construct a grid consisting of square-shaped virtual cells, with the number of cells matching the count of

Subject: Inquiry about the Authenticity of Academy of Marketing Studies Journal (AMSJ)

To: <office@abdc.edu.au>

Dear Editor-in-Chief,

I hope this message finds you well. I am writing to seek clarification and verification regarding the authenticity of the Academy of Marketing Studies Journal (AMSJ) listed in the Australian Business Deans Council (ABDC) Journal List.

We have recently come across the AMSJ in the ABDC Journal List and are considering submitting a manuscript for publication in your esteemed journal. However, given the increasing prevalence of fake journals and predatory publishing practices, we believe it is essential to ensure the legitimacy of the journal before proceeding with our submission.

Could you kindly confirm the following information for our peace of mind and proper due diligence:

Is the Academy of Marketing Studies Journal (AMSJ) listed in the ABDC Journal List the same journal that your editorial team manages?

Can you provide information about the review process, peer review policies, and the editorial board members associated with AMSJ?

Are you able to share details about the indexing and abstracting services that AMSJ is affiliated with? This will help us validate the journal's reputation and standing in the academic community.

Could you please clarify the article processing charges (APCs), if applicable, for accepted papers in AMSJ?

Are there any specific ethical guidelines, publication standards, or best practices that AMSJ adheres to?

We genuinely appreciate your assistance in addressing these inquiries as it will help us make an informed decision regarding our submission. Your timely response would greatly aid our research community in maintaining the integrity of scholarly publishing.

Thank you for your time and understanding. We look forward to your response.

Sincerely,
Dr Sushil Kumar

Dear Prof. Sumit Narula,

I attended the FDP conducted by the Sharda School of Media, Film & Entertainment (SSMFE) and wish to thank you for your insight into publications. I am research-driven and have always been fearful about the right journal to approach. I hereby seek your guidance for my original pieces that need to be published in UGC-Care-listed peer-reviewed journals asap. My PhD is in folkloristics and my Master's is in Journalism and Mass communication. I write about culture and mass media. Please help Sir.

Respected Sir,

I am Nikhil Srinivasan from Sri Eshwar College of Engineering, Coimbatore. I am pursuing my final year BE CSE and right now i am working on publish my paper.

Since this is my first time publishing a paper and also the faculty are asking us to publish in scopus based journals i was hoping you could help me. I searched online but couldn't find a scopus journal which does not ask for APC(application processing fee) in the computer science domain. Could you please help me find a few scopus indexed journals which accept paper without APC.

Thanking you

Nikhil Srinivasan
