

AMITY UNIVERSITY

MADHYA PRADESH

Established vide Government of Madhya Pradesh Act No. 27 of 2010

4.3.4: University undertake educational outreach activities beyond campus, e.g. in local schools, in the community

Amity University Madhya Pradesh (AUMP), Gwalior, actively undertakes a wide range of educational outreach activities beyond its campus to strengthen its engagement with the local community. All institutes and schools under AUMP participate in these initiatives, reflecting the university's commitment to social responsibility and inclusive education.

Faculty members play a leading role in organizing and conducting outreach programmes such as health camps, teacher training sessions, and student mentoring activities under initiatives like the *Vidyadaan Scheme*. These programmes are designed to extend the benefits of higher education and institutional expertise to schools, villages, hospitals, and other community settings, thereby fostering learning and development at the grassroots level.

Through these efforts, AUMP faculty and students actively contribute to enhancing educational quality, promoting health awareness, and building local capacities. Demonstrations, workshops, and interactive sessions conducted in schools and community centers help bridge the gap between academic knowledge and real-world application.

Such outreach activities not only benefit local students and educators but also provide valuable experiential learning opportunities for AUMP faculty and students. By taking education beyond the classroom, Amity University Madhya Pradesh continues to uphold its mission of community empowerment, inclusive growth, and nation-building through education.

Amity University Gwalior organized the “**Vision 2025**” **School Outreach Program** as part of its initiative to inspire and engage young students across reputed schools in Madhya Pradesh. The program aimed to encourage students from **Science, Commerce, and Humanities** streams to envision their future and express their aspirations creatively.

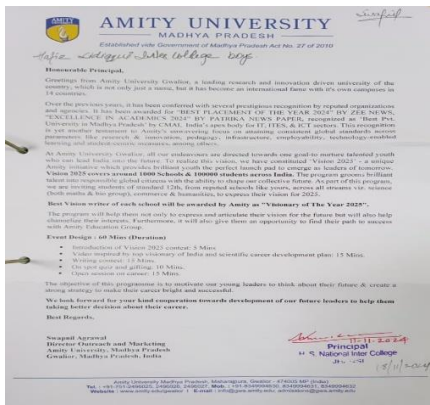

As part of this initiative, **teams from Amity University Gwalior visited various schools** and conducted interactive sessions of 60 minutes, which included:

- Introduction to the *Vision 2025* contest
- A motivational video on India's top visionaries and career development
- A vision writing competition
- An on-spot quiz with gifts and prizes

The event received an overwhelming response from students of different classes, who actively participated and shared innovative ideas about the future. The **best vision writer** from each school was honoured as the “**Visionary of the Year 2025**” by Amity University Gwalior.

The program successfully promoted creativity, leadership, and future-oriented thinking among school students while strengthening Amity's connection with the academic community.

“Visionary of the Year 2025”
