Sustainable Housing

The University offers quality campus life and invigorating experience. Thoughtfully designed academic Blocks and Hostels, conveniently accessible amenities, and state-of-the-art sports infrastructure. There are various clubs and societies to pursue hobby interests, and a biodiversity park. Amity University Madhya Pradesh is a fully residential campus, and all students stay in state-of-the-art student hostels. They are designed to cater to individual student requirements for personal space while also

incorporating a culture of shared living. The University environment is ideal for learning and self-discovery. With students from various states, the university is a microcosm of India that reflects the country's diversity in culture, talent, and perspectives. The university fosters a respectful campus culture where students are encouraged to engage in intellectual debates, develop skills, and experiment with new ideas.

Teaching and Learning :Every undergraduate student at AUMP must mandatorily take a core group of common subjects designated as Core Common Curriculum (CCC). The CCC has an Ecology and Environmental Sciences components which includes courses such as Global environmental issues and Environmental studies. The Amity Institute of Life Sciences (ASLS) offers a core course to undergraduate students on Ecology and Environmental Science. The course explores the importance of biological conservation, current anthropogenic stressors that are affecting ecosystems, and how these problems can be mitigated using a multidisciplinary approach, including biotechnology.

Environmental Law has been included in the curriculum of most of the programmes are being offered in the University. As the outcome of the course, the students will be able to find out the existing loopholes in the system of environment protection and suggest reforms. They understand in depth knowledge of the specialist area of environmental law and associated disciplinary areas, the ability to understand and appreciate the changes and reforms taking place at the international level towards environment protection and also practical understanding as to how pollution control board, National Bio diversity authority and other environmental related authorities work

Research into partnerships for the goals: The university has more than 20 National and 05 International MOUs and partnerships with faculty, institutions and communities in different countries and regions. The Amity University Madhya Pradesh works these partners to find new and innovative solutions to critical global health and engineering problems and challenges. As a result of its efforts Amity University Madhya Pradesh has amended the education and whole curriculum in context of the National Education Policy

2020. University worked to improve access to higher education in underserved and deprived communities in the State. The university's running one tribal project for the welfare and overall development of Tribal community.

Amity University Madhya Pradesh has student exchange agreement with foreign universities and its offshore campuses.

Education for SDGs commitment to meaningful education: At AUMP, we are fully committed to the UN Sustainable Development Goals (SDGs). This commitment from the leadership is reflected in the [University's Annual Report](#). We are integrating the idea of sustainability on campus in many ways – teaching and learning, research, institutional practices, advocacy, and partnerships. At AUMP, we have positioned ourselves as a platform and hub for innovation, critical thinking, and creatively nurturing future leaders, entrepreneurs, researchers, and individuals who can make a difference. The social impact is, thus, built into much of the research and teaching at the university.

Education for SDGs: specific courses on sustainability We have integrated sustainability into our curriculum and research across departments. All our schools offer dedicated courses at both undergraduate and graduate levels, incorporating learning and understanding about various aspects of sustainable development.
