

IEEE Sponsored “International conference on Intelligent Engineering and Management” at Amity University, London, UK

Special Session in ICIEM - 2020 Call for Papers (CFP)

On

“Antenna, Devices and Circuit Design for Smart IoT Enabled Systems”

April 22-24, 2020

Amity University, 24 Bedford Square, London, UK

IEEE CONFERENCE RECORD NUMBER #48762

Submissions: Submissions must be of original contributions and should not have been presented or published anywhere. Authors of the accepted papers must guarantee that at least one of the authors will attend the conference and present the paper. Paper should not exceed 6 pages following the IEEE format.

Theme of the Conference

The ICIEM - 2020 International conference on Intelligent Engineering and Management aims to bring together the scholars, scientists and industrialists from all across the world to the wide spectrum of engineering and management fields onto a common platform.

Sub Themes of the Conference (Not Limited to)

Advanced Logic Technology (ALT)
Emerging Device and Compute Technology (EDT)
Memory Technology (MT)
Microwave, Millimeter Wave and Analog Technology (MAT)
Modeling and Simulation (MS)
Optoelectronics, Displays, and Imagers (ODI)
Power Devices and Systems (PDS)
Reliability of Systems and Devices (RSD)
Sensors, MEMS, and Bio electronics (SMB)
5G wireless technology Networks and IoT
MIMO Antenna Systems for Communications
Long Range Low Power Networks
Antennas and radar in automotive applications
Beam-forming and Multi-Antenna Techniques
Modulation & Signal Processing Technologies
Radio over Fiber & Optical/Wireless Convergence
Sensor Networks and Technologies
Software-Defined Radio & Multiple Access
Space-Time Coding and Systems
IoT Security and Trust
IoT and Personal Data Protection
Artificial Intelligence and IoT
IoT Interoperability and Multi-Platform Integration
