## SDG 17: Partnership for the Goals

### 1. Institutional Framework and Commitment

Understanding that cooperative, multi-stakeholder participation is necessary for global progress, Amity University Rajasthan (AUR) is steadfastly committed to SDG 17: Partnership for the Goals. AUR promotes international collaboration, information sharing, policy discussion, and inclusive development by coordinating its efforts with the UN 2030 Agenda, India's National Education Policy (NEP) 2020, and Amity's Sustainability Vision 2030.

To improve innovation, capacity building, and societal impact, AUR encourages strategic relationships with academic institutions, businesses, governmental organizations, international organizations, non-governmental organizations, and research networks.

### 2. Key Initiatives and Collaborative Practices

AUR advances SDG 17 through comprehensive actions such as:

- **Academic** partnerships with universities in Asia, Europe, Australia, and other parts of the World including USA for cooperative teaching, research, dual degrees, and student mobility.
- **Industry collaborations** to jointly create skill-based training programs and match curricula with new industry demands.
- **Collaborative research initiatives** to improve global knowledge systems with national and international organizations.
- **Collaborations with government agencies** for digital literacy, rural uplift, entrepreneurship support, and community development.
- **Capacity-building programs** that increase academic and student capacity through conferences, workshops, expert talks, and exchange programs.
- **Working with NGOs and social entrepreneurs** to promote sustainable practices, social innovation, and grassroots development.
- Knowledge transfer, consultancy, and innovation support via **Amity Innovation Incubator** and **Corporate Resource Centre**.

### **3. Outreach and Networking**

AUR facilitates interdisciplinary discussion on sustainability, health, livelihood generation, technology, entrepreneurship, and policy reforms by taking part in national and international SDG networks and events.

Additionally, the institution strengthens educational capacity and access at the regional and national levels by sharing resources and best practices with partner colleges, schools, and community-based groups.

### **4. Future Roadmap**

- Extend strategic alliances to more than 100 national and international organizations.
- In the future, start an international SDG research fellowship program.
- Increase collaboration for digital education, women's empowerment, and rural development.
- Organize an annual policy discourse forum and national/international SDG conference.
- Create an open-access knowledge center for impact reporting and SDG resources.

### **Conclusion**

Through sustained academic collaboration, research alliances, and community-centric partnerships, Amity University Rajasthan is enabling impactful, scalable, and globally aligned contributions towards SDG 17, reinforcing its role as a catalyst for collective progress and sustainable future outcomes.
