ASSESSMENT PROCESS

The complete academic performance of a student is evaluated in-house by the concerned teacher / department except in the case of project work where an external examiner shall be nominated for the viva voce. The student's performance in each course, in general, is evaluated based on in-semester continuous assessment (internal assessment) and end-semester examination.

CONTINUOUS INTERNAL ASSESSMENT

- The assessment is done through various means including:
 1. Written tests.
 2. MCQ based quizzes.
 3. Presentations.
 4. Projects
 5. Field visits.
 6. Seminars.
 7. Group discussions/activities etc. as per the following general norms:
 - Total internal assessment at 30%/50% weight for theory courses with two cycle tests, surprise tests, quiz/assignment and for practical courses it is 70%/50%.
 - For final year major projects, the internal assessment in the form of reviews carries 50% weight.
 - The entire internal assessment is computerized, which students may access through their log in I.D.
 - Actual percentage of attendance of the student in every course is reflected in the grade card so that students take attendance seriously

The impact:

- Online coursewise registration for the examinations.
- Online attendance and debarred status
- Internal assessment marks online.
- Central evaluation with tracking of (through OMR coding) faculty who has evaluated the papers.
- RESULT processing fully automated.
- RESULT announced online within a fortnight and available at every stake holder's end.
