✓

She stressed that how mindfulness can help us acknowledge this situation, without allowing us to be carried away with strong emotions; it can, in turn, help bring ourselves back to a centered calm. Only then can we see more clearly what it is we have control over and what it is that we do not.

Dr. Neharshi ...

What is mindfulness

- It suggests that the mind is fully attending to what's happening, to what you're doing, to the space you're moving through.

"Mindfulness is the basic human ability to be fully present, aware of where we are and what we're doing, and not overly reactive or overwhelmed by what's going on around us"

- Mindfulness is a quality that every human being already possesses, it's not something you have to conjure up, you just have to learn how to access it.

International yoga day challenge

Yoga is one of the fastest growing movement activities to help maintain health, wellness, and quality of life at any age. To inspire and motivate people to get into the practice, keep going on a new practice, or try new things in an already-established yoga practice.

What is a #YogaChallenge?

A yoga challenge is an online trend to invite yoga practitioners/AUR community to photograph or take a video of themselves practicing a yoga pose or short vinyasa sequence.

Through this challenge we have received a good number of response where in the respected Pro vice chancellor Sir himself participated and shared his yoga poses, which also motivated others to participate

Apart from this we have also made a video with the help of ASCO studio

The Theme of the video was **5 Basic YOGA POSES FOR BEGINNERS At Home** where in Dr jyoti Bishnoi faculty from AIB) explained about some basic yoga poses for the beginner.

<https://youtu.be/zhzx7LChmnQ>

We have also got a participation from the Yoga professional and student of Bsc(H), Biotechnology (batch 2017-20) of [#AmityUniversityJaipur](#), Shreyada Dasare, shows some yoga asanas one needs to know for a better immune system.
