## REFLECTIONS

### *Message from the Pro-Vice Chancellor*

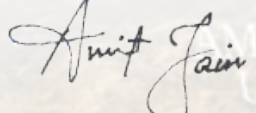

I am pleased to present the 1st Newsletter of Amity University Rajasthan "Reflections". This Newsletter provides an overview of various academic, co-curricular, and extracurricular activities of the university from July 2019 - June 2020. Amity University Rajasthan is moving progressively to fulfill the vision of its Hon'ble Founder President of creating a world-class, Research and Innovation driven Institution. The dynamic leadership of our Hon'ble Chancellor motivates us to achieve excellence in all areas of knowledge creation and dissemination. Social distancing being the only way to combat COVID-19 and curb the spread of dreaded disease, the students in institutions almost all over the world were required to stay at home for a prolonged duration.

The situation no doubt created challenges for almost every sector including education but at the same time several opportunities. Amity University Rajasthan was among the pioneers in the country to implement an Online learning system to ensure continuous learning. Removing the barrier of geographical boundaries and location, an Online Learning system also helped to develop a sense of responsibility and discipline amongst students. We ensured a learning environment where students felt as normal as possible in this chaotic situation. Faculty used innovative ways to adapt to the situation, using window glasses as boards, prerecording audio in the presentations to save time, and use of online discussion forums, chats, quizzes, and polls. Lab demonstrations were done using available online videos. Several Alumni also volunteered to conduct guest sessions and share their experiences during the lockdown.

In addition to conducting online classes for students, keeping the campus clean and green was also the top priority at Amity University Rajasthan during the lockdown. A lot of precautions were taken to ensure that the 150 acre residential campus remains completely sanitized and virus-free when students return to the campus. All departmental meetings were shifted online, and proper coordination was ensured through online video conferencing between team members for successful academic delivery and administrative efficiency. Amity University Rajasthan has always been at the forefront when it comes to serving society. Masks of khadi were prepared and distributed. Several webinars and expert sessions were conducted to help individuals and corporates cope up with the changes and lead in an effective way in a volatile, uncertain, complex, and ambiguous business environment. Online Culinary Workshops were organized to make the home stay more enjoyable and keep taste buds satisfied. Online Yoga Classes & Competitions helped fraternity members and students to keep themselves physically fit.

Though, it was a lockdown but it was also an opportunity to read, reflect, revive and rejuvenate oneself. This lockdown has unlocked a lot of learnings for all of us and it is important to institutionalize these learnings to deliver high-quality world-class education.

## REFLECTIONS

### **Dear Readers,**

An institute is always recognized by its academic rigor and the quality of management of its academic activities which go a long way in enriching the educational horizons of the students making them successful in their walk of life. Amity University is recognized worldwide for always striving towards achieving academic excellence and the all-round holistic development of the students and the university takes the pride of having a rich array of alumni who have kept the flag of the university soaring high in sky.

The period from March, 2020 has been the most trying period for almost all institutions, including Amity University Rajasthan. Mankind faced one of the greatest challenges in the form of Covid Pandemic which tested the physical and mental strength of the people to the highest extent. We, here in Amity campus, boldly faced the challenge and through our hard work and strenuous efforts were able to overcome the negativities of the situation and continue with all our regular academic activities and achieve more than what we had expected earlier. Amity staff and students quickly and seamlessly adapted to the virtual online mode of work and great enthusiasm was noticed by each faculty member towards employing highly innovative teaching methods to make the classes just not a learning platform but very interesting and engaging sessions of interaction. The university created a noteworthy record of hosting a good number of highly qualitative Webinars, Online Workshops, Panel Discussions/ Seminars and Events.

As part of all our creative endeavours to not let the momentum of enthusiasm and determination fade away, AUR E-Newsletter is another noble initiative. The aim is to reach out to all stakeholders in the Amity fraternity and keep them enlightened about some of the noteworthy and memorable activities, events and achievements which got engraved in the pages of history on account of their excellent planning and execution. It is not just a communication bid but an organized approach towards showcasing creativity and to co-opt all in the vision of Amity.

To this end, the newsletter will be brought out periodically depending on the need of the institution. In order to achieve this, the newsletter focusses on varied topics ranging from Quarterly Events, Research Initiatives, Academic Milestones, Faculty and Alumni Achievements, major Co-Curricular and Extra-Curricular Activities/Events of AUR as well as Social Activities too. It will disseminate information on various things going on in the campus and in the outside world. The idea is to take a holistic view of education and knowledge and immerse all Amitians into an ocean of physical, intellectual and emotional journey.

Freshers got a chance to showcase their talent and found a platform for pursuing their passion along with academics. Orientation was and will always be a memorable event for every student as it marks the beginning of their journey.

## UNDER 25 SUMMIT

## UNDER 25 SUMMIT

The “Under 25 Club”, now “Under 25” is a network to connect new ideas and educate the youth of the country. Under 25 is a platform to inspire millions of students for the discovery of new opportunities. Their main flagship property is the ‘Under 25 Summit’, which is India's Largest Youth Festival! The Under 25 Summit was put together to create a festival that the youth could call their own. We tried to curate various experiences at the Summit that could cover different passions and interests that the youth have today. Whether you are a musician, a designer, a food enthusiast, a traveler, a tech wizard or even a storyteller, there was something for every one of these youngsters and more.

### Innovative Teaching Pedagogy

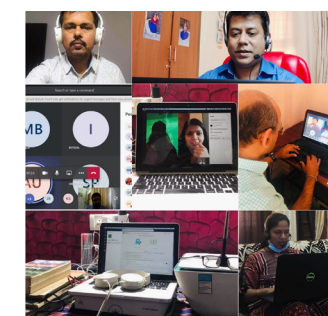

It's always believed that “Challenges open the doors of Creativity” and “Necessity is the Mother of Inventions”. The COVID-19 Pandemic and the heaps of challenges and problems which it brought along with it, gave the faculty members of Amity University Rajasthan a golden opportunity to prove the world the correctness of the proverbs.

The most noteworthy achievement of the prevailing uncertain times has been the fact that every faculty left no stone unturned to prove that although lockdown has shut the classrooms and labs, but it has not been able to lockdown the delivery of classes and the positive spirits and the zeal and enthusiasm of the faculty members.

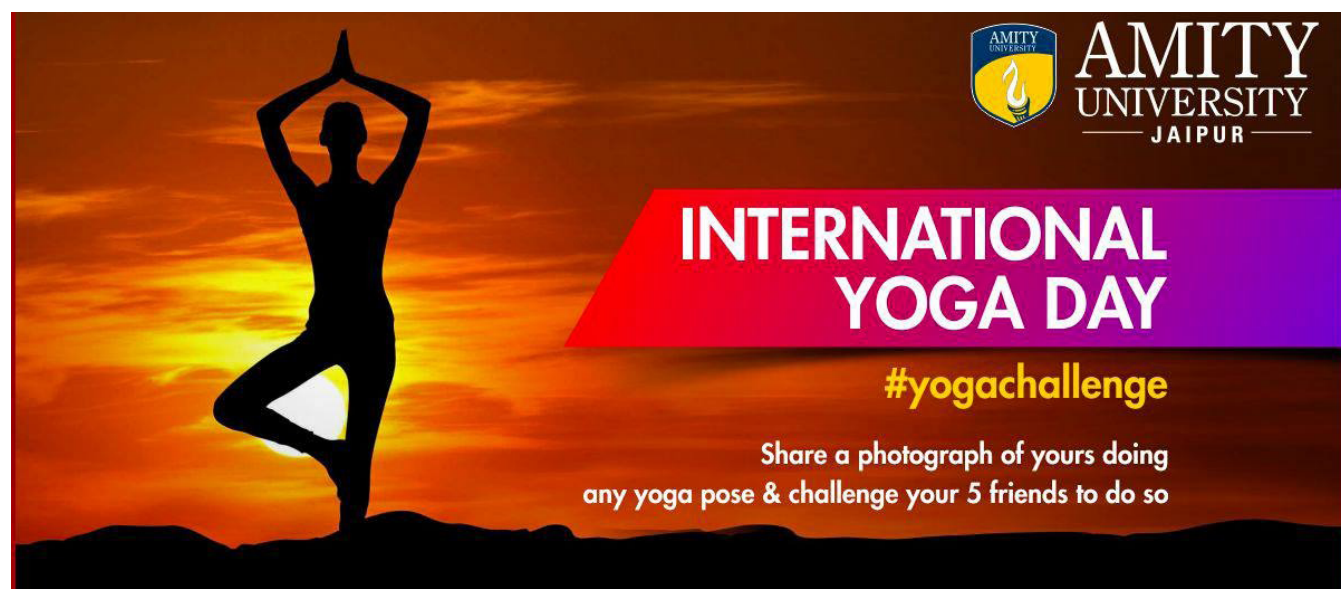

Every faculty exhibited great enthusiasm and sincerity in delivering highly rich online classes to the students on the leading MS Team Virtual Platform and ensured that quality of academics and boosting up the morale of the students never take a backseat. The lockdown rather provided wings to creativity to the faculties and every faculties' prime concern was how can they deliver their classes in a more interesting and engaging manner and provide all reading contents to the students on the platform.

The Teaching Pedagogy of the faculties were primarily PPT Presentations, Videos, Case Studies, Information about lots of Sites & Articles, PDF Contents. The hard work and dedication of the faculties resulted in the smooth and successful delivery of classes of all courses finally leading to its timely completion. The conduct of Online Classes and the various innovative assignments given to the students also kept them equally engaged, happy and highly motivated even in the times of the prevailing acute crisis. Online Classes were also supplemented by Webinars by Industry Experts as well as some of the well-placed alumni to acquaint the students with the latest industry trends.
