GOAL 10: Reduced Inequality

GOAL 10: Reduced Inequality

The University has established the infrastructure with careful provision for persons with disabilities. The Walking Ramps, the Elevators, Wheel-chairs are available at the various academic and administrative blocks. The Battery Operated small Vehicles are available from the moment from one block to the other block.

The University also provides equal opportunity to the personals with disabilities. The University also gives admission to students with disabilities and maintains a good environment and provisions at the various stages of academics. For example, special care is taken during the examination, academics, evaluations of such students.

**EXPERIENCING SPACES
THROUGH THE EYES
OF SPECIALLY ABLED**

BY AR. SUHEL MAKANDAR
21ST SEPTEMBER 2019

This workshop will be dealing with different activities that will help one in learning, experiencing and recognising the different challenges and obstacles that are faced by specially abled or elderly people. It will help to influence the participants in considering the issues of these people and also help one to understand the design strategies and aspects that should be applied in the communal areas.
