EXPLORRA

Campus Internship- 2023 Passing Out Batch

Only for Students of Amity Education Group

Last Date to Register - 20th June 2022, 4 PM

Company	EXPLORRA CONSULTING
Website	www.explorra.org
Batch	2023
Date of Campus	Will Be Informed Later
Joining	June 2022
Job Title	Profile 1 : Angular Developer Profile 2: Python Developer Profile 3: React Profile 4: Dot Net
Eligible Degrees	B.tech
Eligible Branches	CS/IT
Location	Ahmedabad (Physical Joining)
CTC	INR 15,000 Per month for 6 months CTC- 4.00 LPA- 7.00 LPA
Skills Required	Profile 1: <ul style="list-style-type: none">• Expertise with front-end technologies like HTML/CSS/JavaScript/Angular.• Understanding of full-lifecycle implementation of software projects: Starting from initiation to full production• Ability to work collaboratively with designers and convert designs and wireframes to visual elements• Familiarity with Git-based version control systems (like Github/Bitbucket)• A readiness to work hard, learn quickly and adapt to fast-changing technology landscape• An appetite for seeking improvement and sharing knowledge across the team

	<p>Profile 2:</p> <ul style="list-style-type: none"> • A solid grounding in Object-Oriented Programming, Data Structures & Algorithms • Knowledge of relational databases and SQL. Ability to create database schemas. • Basic understanding of front-end technologies, such as JavaScript, HTML5, and CSS3, or frameworks like Angular • Familiarity with Git-based version control systems (like Github/Bitbucket) • Ability to write solid Python code • A readiness to work hard, learn quickly and adapt to fast-changing technology landscape <p>Profile 3:</p> <ul style="list-style-type: none"> • A good grounding in functional and object-oriented programming • Understanding of REST APIs and how they are used in Web Apps • Good knowledge of JavaScript and an understanding of modern ES6 concepts • Excellent command of basic front-end technologies (HTML, CSS, JavaScript) • Knowledge of React tools like React.js, Reach Navigation, Enzyme, Redux, and Flux is preferred • Familiarity with a development IDE like VSCode, Webstorm is nice to have • A readiness to work hard, learn quickly and adapt to fast-changing technology landscape is key <p>Profile 4:</p> <ul style="list-style-type: none"> • Learn how to design and build modern, highly responsive user interface components using react concepts • Learn processes across Full-Stack – gathering business requirements, designing user-centric UI, writing effective code, creating effective tests and forming deployment pipelines • Learn how to write reusable, effective, scalable and maintainable Javascript code • A collaborative, agile environment, and a team of experienced developers to learn with and from. • Opportunities to work on real world, mission critical projects that make a difference
<p>Job Responsibilities</p>	<p>Profile 1 :</p> <ul style="list-style-type: none"> • A collaborative, agile environment, and a team of experienced Angular developers to learn with and from. • Opportunities to work on real-world, mission-critical projects that make a difference • A chance to learn end-to-end processes to implement robust Web applications –write effective and scalable code, create effective tests, and create deployment pipelines • Opportunity to code for production ready features across the stack - UI, application logic and database

	<ul style="list-style-type: none"> • Learn to work in a distributed delivery model across India, and USA <p>Profile 2:</p> <ul style="list-style-type: none"> • A collaborative, agile environment, and a team of experienced python developers to learn with and from. • Opportunities to work on real world, mission critical projects that make a difference • A chance to learn end-to-end processes to implement robust Python applications write effective and scalable python code, create effective tests, and create deployment pipelines • Understand how to incorporate security and data-protection across multiple systems when architecting Python solutions • Learn real-world applications of Python frameworks like Django/Flask/FastAPI <p>Profile 3:</p> <ul style="list-style-type: none"> • Learn how to design and build modern, highly responsive user interface components using react concepts • Learn processes across Full-Stack – gathering business requirements, designing user-centric UI, writing effective code, creating effective tests and forming deployment pipelines • Learn how to write reusable, effective, scalable and maintainable Javascript code • A collaborative, agile environment, and a team of experienced developers to learn with and from. • Opportunities to work on real world, mission critical projects that make a difference <p>Profile 4:</p> <ul style="list-style-type: none"> • Opportunity to work in teams that are building large-scale enterprise solutions using .NET technologies • A chance to explore new technologies & frameworks with accomplished solution architects & industry leaders • You will learn how to design, build, test and deploy products using the .NET framework. • Participate in all phases of software development - requirements through deployment, to build process and domain knowledge
How to Apply?	<p>All interested and eligible students need to apply on the Link mentioned below –</p> <p>CLICK HERE TO APPLY</p>

All the Best!

Anjani Kumar Bhatnagar
Dy. Director - Amity Technical Placement Centre

India Head Office:

Room # G- 02, E 2 Ground Floor
Amity University Campus
Sector 125, Noida (India), Pin: 201313
