Yamaha Motor Solutions India Private Limited Human Resources Team

Recruitment Process

- There will be a Online Test.
- The test would consists of MCQ both Technical and Aptitude

Written Test

Interview

 The candidates who will qualify the Online test will have to undergo interview rounds (HR + Technical) The shortlisted candidates of (HR + Technical) rounds will be required to come for the interview with CTO and MD. It is mandatory for all shortlisted candidates

Final

6 months Training is divided into 2 parts (Foundation Training & On the Job Training)

Foundation Training (First Three Months)

On The Job Training (Last Three Months)

Quality, Soft Skills, Basics of Technology

The Group will be segregated in Practice-wise as per skills and will be trained in respective Practice followed by concern technical certification.

What you will do:

- You'll be paired with a 1:1 mentor, receive support from your manager and have access to the entire YMSLI employee community to ensure your success.
- You'll hit the ground running—most interns ship code or contribute to real-world projects in their first six months.
- As a key member of a versatile team, you will work on a specific project critical to YMSLI needs. We need our engineers to be versatile, and enthusiastic in addressing new problems as we continue to push technology forward.
- You will design, test, deploy and maintain software solutions as you grow and evolve during your tenure with the company.
- Analyze information and evaluate results to choose the best solution to effectively solve problems.
- We'll help you have fun outside of work with events, community connection and networking events with YMSLI leaders and other activities.
