**Subject:** Amity CISCO Academies

Dear Prof (Dr) Rajiv Sharma

### Greetings of the Day!

I always encourage representatives of PAN India Amity Campuses to share their thoughts and expectations they have from industry. For last more than 2 decades we have been able to provide enormous opportunities to students & faculty of Amity Education Group ranging from research to patents, trainings to employment.

One such initiative, to expand the learning horizons and to make students and faculty of every Amity Campus equally competent by sharing world class learning environment and industry linkages, we took an initiative to establish CISCO Academies. The said academy has been rooted at all Amity Campus and have dedicated SPOCs to convene its activities. There are numerous platforms such as hackathon, FDP, Internships, Joint Research etc which have been extended by CISCO through these Academies at all institutions of learning & higher education. Placed below is the list of Trainers/ SPOC of your respective Amity Campuses:
