PROGRAMME OVERVIEW

Build a career with business intelligence

The BSc (Hons) Accounting and Finance is a three-year undergraduate programme designed to equip students with practical accounting and finance techniques while developing critical analytical and decision-making skills. The programme integrates theory with applied learning, emphasising the interdisciplinary nature of business and the role of finance in supporting organisational planning, control, and management across sectors.

AIMS & OBJECTIVES

- **Accounting Expertise:** Understand practical and theoretical techniques in accounting and finance
- **Analytical Skills:** Critically analyse financial information and evaluate real-life business scenarios
- **Interdisciplinary Insight:** Integrate knowledge of accounting with economics, law, and human resources
- **Professional Competence:** Develop communication, problem-solving, and ethical decision-making skills
- **Career Readiness:** Prepare for exemptions from professional accounting bodies (ACCA, CIMA, ICAEW) and global finance roles
